

Isidoro Di Carlo

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1554441/isidoro-di-carlo-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
79	It is time to define an organizational model for the prevention and management of infections along the surgical pathway: a worldwide cross-sectional survey.. <i>World Journal of Emergency Surgery</i> , 2022 , 17, 17	9.2	1
78	WSES-AAST guidelines: management of inflammatory bowel disease in the emergency setting. <i>World Journal of Emergency Surgery</i> , 2021 , 16, 23	9.2	5
77	Forty years after the first totally implantable venous access device (TIVAD) implant: the pure surgical cut-down technique only avoids immediate complications that can be fatal. <i>Langenbeck's Archives of Surgery</i> , 2021 , 406, 1739-1749	3.4	0
76	The Diagnostic Utility of Splenectomy in Idiopathic Splenomegaly. <i>World Journal of Surgery</i> , 2021 , 45, 341	3.3	
75	A pandemic recap: lessons we have learned. <i>World Journal of Emergency Surgery</i> , 2021 , 16, 46	9.2	4
74	Subtotal cholecystectomy for difficult acute cholecystitis: how to finalize safely by laparoscopy-a systematic review. <i>World Journal of Emergency Surgery</i> , 2021 , 16, 45	9.2	5
73	Single segment of spleen autotransplantation, after splenectomy for trauma, can restore splenic functions. <i>World Journal of Emergency Surgery</i> , 2020 , 15, 17	9.2	3
72	Alternative explanation for complications of cholecystectomy for acute cholecystitis out of hours. <i>British Journal of Surgery</i> , 2020 , 107, e619	5.3	
71	Letter to the Editor: Bile Leak Reduction with Laparoscopic Versus Open Liver Resection: A Multi-institutional Propensity Score-Adjusted Multivariable Regression Analysis. <i>World Journal of Surgery</i> , 2020 , 44, 4277	3.3	
70	Which is Better for Patients with Breast Cancer: Totally Implanted Vascular Access Devices (TIVAD) or Peripherally Inserted Central Catheter (PICC)?. <i>World Journal of Surgery</i> , 2020 , 44, 1004-1005	3.3	2
69	Diagnosis and treatment of acute appendicitis: 2020 update of the WSES Jerusalem guidelines. <i>World Journal of Emergency Surgery</i> , 2020 , 15, 27	9.2	184
68	2019 update of the WSES guidelines for management of () infection in surgical patients. <i>World Journal of Emergency Surgery</i> , 2019 , 14, 8	9.2	59
67	Letter to the Editor: Perforated Diverticulitis with Generalized Peritonitis: Low Stoma Rate Using a "Damage Control Strategy". <i>World Journal of Surgery</i> , 2019 , 43, 1393-1394	3.3	
66	Peritoneal lavage: a simple tool to prevent bleeding during and after laparoscopic cholecystectomy. <i>Journal of Blood Medicine</i> , 2019 , 10, 279-281	2.3	0
65	Kidney and uro-trauma: WSES-AAST guidelines. <i>World Journal of Emergency Surgery</i> , 2019 , 14, 54	9.2	47
64	The stapler technique can save lives in trauma patients requiring emergency hepatic resection. <i>Langenbeck's Archives of Surgery</i> , 2019 , 404, 17	3.4	
63	Hydatid Cyst of the Liver: A Challenge that can be Amplified Shifting from Open to Laparoscopic Surgery. <i>World Journal of Surgery</i> , 2018 , 42, 3054-3055	3.3	0

62	Is Laparoscopy Really Advantageous for Splenectomy Patients?. <i>World Journal of Surgery</i> , 2018 , 42, 902	3.3	1
61	Small bowel lymphoma presenting as inguinal hernia: case report and literature review. <i>World Journal of Surgical Oncology</i> , 2018 , 16, 91	3.4	1
60	Splenic Autotransplantation Is Always Valid after Splenectomy. <i>Journal of Investigative Surgery</i> , 2017 , 30, 401-402	1.2	8
59	The Totally Implantable Venous Access Device with Occurrence of Pneumothorax Still Remains an Issue. <i>World Journal of Surgery</i> , 2017 , 41, 1398	3.3	2
58	WSES Guidelines for the management of acute left sided colonic diverticulitis in the emergency setting. <i>World Journal of Emergency Surgery</i> , 2016 , 11, 37	9.2	115
57	Antimicrobials: a global alliance for optimizing their rational use in intra-abdominal infections (AGORA). <i>World Journal of Emergency Surgery</i> , 2016 , 11, 33	9.2	95
56	Rare occurrence of metastasis from lung cancer to the anus: case report and review of the literature. <i>World Journal of Surgical Oncology</i> , 2016 , 14, 157	3.4	13
55	Intraoperative diagnosis of solitary cecal diverticulum not requiring surgery: is appendectomy indicated?. <i>World Journal of Emergency Surgery</i> , 2016 , 11, 1	9.2	21
54	Totally Implantable Venous Access Devices: Efforts Are Needed to Standardize Procedures to Avoid Complications. <i>World Journal of Surgery</i> , 2016 , 40, 1781-2	3.3	
53	Hepatocellular carcinoma and the risk of occupational exposure. <i>World Journal of Hepatology</i> , 2016 , 8, 573-90	3.4	52
52	The enigma of primary and secondary encapsulating peritoneal sclerosis. <i>BMC Surgery</i> , 2016 , 16, 81	2.3	9
51	Giant cavernous liver hemangiomas: is it the time to change the size categories?. <i>Hepatobiliary and Pancreatic Diseases International</i> , 2016 , 15, 21-9	2.1	24
50	Unusual presentation of dermatofibrosarcoma protuberans in a male patient's breast: a case report and review of the literature. <i>World Journal of Surgical Oncology</i> , 2015 , 13, 158	3.4	14
49	What are the True Advantages of Devices for Hepatic Parenchymal Transection in Open Surgery?. <i>World Journal of Surgery</i> , 2015 , 39, 3028-9	3.3	
48	Laparoscopy as a Diagnostic and Definitive Therapeutic Tool in Cases of Inflamed Simple Lymphatic Cysts of the Mesentery. <i>Case Reports in Surgery</i> , 2015 , 2015, 325939	0.5	1
47	The immune system in hepatocellular carcinoma and potential new immunotherapeutic strategies. <i>BioMed Research International</i> , 2015 , 2015, 731469	3	22
46	A lethal complication after transarterial chemoembolization with drug-eluting beads for hepatocellular carcinoma. <i>Case Reports in Surgery</i> , 2015 , 2015, 873601	0.5	6
45	Does follow-up offer the best quality of life for patients affected by so-called giant haemangiomas of the liver?. <i>Hpb</i> , 2015 , 17, 1155	3.8	

44	Commentary on "Insertion of Totally Implantable Central Venous Access Devices by Surgeons" - What is the Role of Surgeons When Implanting a Totally Implantable Venous Access Device to Prevent Immediate Complications?. <i>Annals of Coloproctology</i> , 2015 , 31, 163-4	1.9	
43	Do we still need studies on the value of the TIVAD for cancer patients?. <i>World Journal of Surgery</i> , 2014 , 38, 2186	3.3	1
42	Managing the incidentally detected gallbladder cancer: algorithms and controversies. <i>International Journal of Surgery</i> , 2014 , 12 Suppl 2, S108-S119	7.5	43
41	Effect of pre- and post-treatment α -fetoprotein levels and tumor size on survival of patients with hepatocellular carcinoma treated by resection, transarterial chemoembolization or radiofrequency ablation: a retrospective study. <i>BMC Surgery</i> , 2014 , 14, 40	2.3	44
40	Endoscopic reduction of a volvulus of the sigmoid colon in pregnancy: case report and a comprehensive review of the literature. <i>World Journal of Emergency Surgery</i> , 2014 , 9, 41	9.2	14
39	The role of 68-Ga-DOTATOC CT-PET in surgical tactic for gastric neuroendocrine tumors treatment: our experience: a case report. <i>International Journal of Surgery</i> , 2014 , 12 Suppl 1, S225-31	7.5	13
38	What is changing in indications and treatment of hepatic hemangiomas. A review. <i>Annals of Hepatology</i> , 2014 , 13, 327-339	3.1	87
37	Laparoscopic Reversal of Hartmann's Procedure: State of the Art 20 Years after the First Reported Case. <i>Gastroenterology Research and Practice</i> , 2014 , 2014, 530140	2	26
36	What is changing in indications and treatment of hepatic hemangiomas. A review. <i>Annals of Hepatology</i> , 2014 , 13, 327-39	3.1	44
35	Has laparoscopy increased surgical indications for benign tumors of the liver?. <i>Langenbeck's Archives of Surgery</i> , 2013 , 398, 195-210	3.4	13
34	Discomfort and anxiety should never be considered surgical indications for hemangioma of the liver. <i>World Journal of Surgery</i> , 2013 , 37, 2723-4	3.3	3
33	Persistent increase in alpha-fetoprotein level in a patient without underlying liver disease who underwent curative resection of hepatocellular carcinoma. A case report and review of the literature. <i>World Journal of Surgical Oncology</i> , 2012 , 10, 79	3.4	11
32	Correct indication for surgery can prevent postoperative ascites in cirrhotic patients affected by hepatocellular carcinoma. <i>World Journal of Surgery</i> , 2012 , 36, 1719-20; author reply 1721-2	3.3	5
31	A new technique for spleen autotransplantation. <i>Surgical Innovation</i> , 2012 , 19, 156-61	2	22
30	Comparison of two entry methods for laparoscopic port entry: technical point of view. <i>Diagnostic and Therapeutic Endoscopy</i> , 2012 , 2012, 305428	0	26
29	Could antibiotic prophylaxis be not necessary to implant totally implantable venous access devices? Randomized prospective study. <i>Surgical Oncology</i> , 2011 , 20, 20-5	2.5	21
28	Splenic autotransplantation in a patient with human immunodeficiency virus infection: a case report. <i>Journal of Medical Case Reports</i> , 2011 , 5, 379	1.2	2
27	Seizure attack and Morgagni diaphragmatic hernia: incidental diagnosis or direct correlation?. <i>Updates in Surgery</i> , 2011 , 63, 55-8	2.9	3

26	Localized fluid collection after carrier-bound fibrin sealant application on liver: complication or proof of efficacy? A long-term clinical observational study. <i>Hepato-Gastroenterology</i> , 2011 , 58, 937-42		
25	Parenchymal compression and new devices for hepatic resections: re-visitation of an old technique. <i>Hepato-Gastroenterology</i> , 2011 , 58, 980-3		
24	Sacroplasty in a Patient with Bone Metastases from Hepatocellular Carcinoma. A Case Report. <i>Tumori</i> , 2010 , 96, 172-174	1.7	7
23	Update on Instrumentations for Cholecystectomies Performed via Transvaginal Route: State of the Art and Future Prospectives. <i>Diagnostic and Therapeutic Endoscopy</i> , 2010 , 2010, 405469	0	2
22	Adenoma or atypical hepatic focal nodular hyperplasia: role of preoperative imaging and laparoscopic treatment. <i>Surgical Laparoscopy, Endoscopy and Percutaneous Techniques</i> , 2010 , 20, e105-9	1.3	4
21	Increased use of percutaneous technique for totally implantable venous access devices. Is it real progress? A 27-year comprehensive review on early complications. <i>Annals of Surgical Oncology</i> , 2010 , 17, 1649-56	3.1	94
20	An unusual association of diffuse adenomyomatosis with dysplastic adenoma in chronic calculous cholecystitis: case presentation. <i>BMC Gastroenterology</i> , 2010 , 10, 41	3	7
19	Simultaneous transarterial and portal embolization for unresectable tumors of the liver. <i>Hepato-Gastroenterology</i> , 2010 , 57, 140-5		2
18	Laparoscopic versus open restoration of intestinal continuity after Hartmann procedure. <i>Hepato-Gastroenterology</i> , 2010 , 57, 232-5		8
17	May the method of hepatic parenchymal transection influence early results of liver surgery?. <i>Hepato-Gastroenterology</i> , 2010 , 57, 321-5		2
16	Modified subtotal cholecystectomy: results of a laparotomy procedure during the laparoscopic era. <i>World Journal of Surgery</i> , 2009 , 33, 520-5	3.3	14
15	Use of a fibrinogen- and thrombin-coated patch for peptic ulcer perforation repair. <i>Hepato-Gastroenterology</i> , 2009 , 56, 575-7		4
14	Biliobronchial fistula 20 years after surgery for hepatic hydatid disease. <i>ANZ Journal of Surgery</i> , 2008 , 78, 305-6	1	4
13	Absence of pylorus: a rare gastric malformation. <i>Journal of the American College of Surgeons</i> , 2008 , 206, 1224	4.4	1
12	Laparoscopic excision of a case of percutaneous cystohepatic fistula in a patient affected by polycystic disease of the liver: point of technique. <i>Surgical Laparoscopy, Endoscopy and Percutaneous Techniques</i> , 2008 , 18, 514-5	1.3	1
11	Repair of esophageal perforation: a new technique. <i>Canadian Journal of Surgery</i> , 2008 , 51, E71-2	2	1
10	Should all splenectomised patients be vaccinated to avoid OPSI? Revisiting an old concept: an Italian retrospective monocentric study. <i>Hepato-Gastroenterology</i> , 2008 , 55, 308-10		5
9	Treatment of peritoneal carcinomatosis from colorectal cancer with cytoreductive surgery and perioperative intraperitoneal chemotherapy: state of the art and future prospects. <i>Surgical Oncology</i> , 2007 , 16 Suppl 1, S145-8	2.5	3

8	Hepatic parenchymal transection: equally feasible using different radiofrequency devices?. <i>World Journal of Surgery</i> , 2007 , 31, 1720; author reply 1721	3.3	
7	Lumbar hernia repaired using a new technique. <i>American Surgeon</i> , 2007 , 73, 54-7	0.8	10
6	Liver resection for hepatic metastases from adrenocortical carcinoma. <i>Hpb</i> , 2006 , 8, 106-9	3.8	7
5	Epidermoid cyst of the spleen in the laparoscopic era. <i>Digestive Surgery</i> , 2005 , 22, 53-4	2.5	5
4	External jugular vein cutdown approach, as a useful alternative, supports the choice of the cephalic vein for totally implantable access device placement. <i>Annals of Surgical Oncology</i> , 2005 , 12, 570-3	3.1	49
3	Does the psychological request of the patient justify the surgery for hepatic hemangioma?. <i>Hepato-Gastroenterology</i> , 2005 , 52, 657-61		3
2	Hepatic resections using a water-cooled, high-density, monopolar device: a new technology for safer surgery. <i>Journal of Gastrointestinal Surgery</i> , 2004 , 8, 596-600	3.3	39
1	Simultaneous occurrence of adenoma, focal nodular hyperplasia, and hemangioma of the liver: are they derived from a common origin?. <i>Journal of Gastroenterology and Hepatology (Australia)</i> , 2003 , 18, 227-30	4	33
