#	ARTICLE	IF	CITATIONS
1	Psychometric evaluation of the Generalized Anxiety Disorder Screener GAD-7, based on a large German general population sample. <i>Journal of Affective Disorders</i> , 2017, 210, 338-344.	2.0	248
2	Reduced hair cortisol after maltreatment mediates externalizing symptoms in middle childhood and adolescence. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2017, 58, 998-1007.	3.1	80
3	Psychometric Properties of the Parent-Rated SDQ in Preschoolers. <i>European Journal of Psychological Assessment</i> , 2013, 29, 96-104.	1.7	59
4	Animated triangles: An eye tracking investigation. <i>Quarterly Journal of Experimental Psychology</i> , 2009, 62, 1189-1197.	0.6	42
5	The role of action effects in 12-month-olds' action control: A comparison of televised model and live model. , 2006, 29, 535-544.		40
6	Prevalence of Emotional and Behavioral Symptoms and their Impact on Daily Life Activities in a Community Sample of 3 to 5-Year-Old Children. <i>Child Psychiatry and Human Development</i> , 2013, 44, 493-503.	1.1	38
7	FKBP5 polymorphisms moderate the influence of adverse life events on the risk of anxiety and depressive disorders in preschool children. <i>Journal of Psychiatric Research</i> , 2016, 72, 30-36.	1.5	34
8	Depressive comorbidity in preschool anxiety disorder. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2014, 55, 1107-1116.	3.1	33
9	A Multisource Approach to Assessing Child Maltreatment From Records, Caregivers, and Children. <i>Child Maltreatment</i> , 2017, 22, 45-57.	2.0	33
10	The hyporeactivity of salivary cortisol at stress test (TSST-C) in children with internalizing or externalizing disorders is contrastively associated with $\alpha$ -amylase. <i>Journal of Psychiatric Research</i> , 2015, 71, 78-88.	1.5	31
11	The interaction of social risk factors and HPA axis dysregulation in predicting emotional symptoms of five- and six-year-old children. <i>Journal of Psychiatric Research</i> , 2012, 46, 290-297.	1.5	28
12	Maternal Weight Predicts Children's Psychosocial Development via Parenting Stress and Emotional Availability. <i>Frontiers in Psychology</i> , 2016, 7, 1156.	1.1	27
13	Attenuated LPP to Emotional Face Stimuli Associated with Parent- and Self-Reported Depression in Children and Adolescents. <i>Journal of Abnormal Child Psychology</i> , 2019, 47, 109-118.	3.5	27
14	Short-term psychoanalytic child therapy for anxious children: A pilot study.. <i>Psychotherapy</i> , 2014, 51, 148-158.	0.7	22
15	Maternal stress and internalizing symptoms in preschoolers: The moderating role of narrative coherence.. <i>Journal of Family Psychology</i> , 2015, 29, 141-150.	1.0	22
16	A prospective study of behavioral and emotional symptoms in preschoolers. <i>European Child and Adolescent Psychiatry</i> , 2015, 24, 291-299.	2.8	21
17	Like mother like daughter, like father like son? Intergenerational transmission of internalizing symptoms at early school age: a longitudinal study. <i>European Child and Adolescent Psychiatry</i> , 2018, 27, 985-995.	2.8	19
18	Latent trajectories of internalizing symptoms from preschool to school age: A multi-informant study in a high-risk sample. <i>Development and Psychopathology</i> , 2019, 31, 657-681.	1.4	19

#	ARTICLE	IF	CITATIONS
19	Parenting Behaviors of Mothers and Fathers of Preschool Age Children with Internalizing Disorders. <i>Journal of Child and Family Studies</i> , 2016, 25, 381-395.	0.7	17
20	Assessing psychological and physical abuse from children's perspective: Factor structure and psychometric properties of the picture-based, modularized child-report version of the Parent-Child Conflict Tactics Scale – Revised (CTSPC-R). <i>PLoS ONE</i> , 2018, 13, e0205401.	1.1	17
21	Obese parents – obese children? Psychological-psychiatric risk factors of parental behavior and experience for the development of obesity in children aged 0–3: study protocol. <i>BMC Public Health</i> , 2013, 13, 1193.	1.2	16
22	Self-Esteem of 8–14-Year-Old Children with Psychiatric Disorders: Disorder- and Gender-Specific Effects. <i>Child Psychiatry and Human Development</i> , 2017, 48, 40-52.	1.1	15
23	Analyzing pathways from childhood maltreatment to internalizing symptoms and disorders in children and adolescents (AMIS): a study protocol. <i>BMC Psychiatry</i> , 2015, 15, 126.	1.1	14
24	Putting Ostracism into Perspective: Young Children Tell More Mentalistic Stories after Exclusion, But Not When Anxious. <i>Frontiers in Psychology</i> , 2016, 7, 1926.	1.1	14
25	Emotional availability, understanding emotions, and recognition of facial emotions in obese mothers with young children. <i>Journal of Psychosomatic Research</i> , 2016, 80, 44-52.	1.2	13
26	The Pizzagame: A virtual public goods game to assess cooperative behavior in children and adolescents. <i>Behavior Research Methods</i> , 2017, 49, 1432-1443.	2.3	13
27	Insatiable insecurity: maternal obesity as a risk factor for mother-child attachment and child weight. <i>Attachment and Human Development</i> , 2015, 17, 399-413.	1.2	12
28	Recruitment strategies in a prospective longitudinal family study on parents with obesity and their toddlers. <i>BMC Public Health</i> , 2017, 17, 145.	1.2	11
29	Parent-child interaction during feeding or joint eating in parents of different weights. <i>Eating Behaviors</i> , 2015, 18, 131-136.	1.1	10
30	Exclusion Expected? Cardiac Slowing Upon Peer Exclusion Links Preschool Parent Representations to School-Age Peer Relationships. <i>Child Development</i> , 2021, 92, 1274-1290.	1.7	10
31	Getting less than their fair share: Maltreated youth are hyper-cooperative yet vulnerable to exploitation in a public goods game. <i>Developmental Science</i> , 2019, 22, e12765.	1.3	9
32	Cause or consequence? Investigating attention bias and self-regulation skills in children at risk for obesity. <i>Journal of Experimental Child Psychology</i> , 2017, 155, 113-127.	0.7	8
33	Emotional availability of father-child dyads versus mother-child dyads in children aged 0–3 years. <i>Family Science: Global Perspectives on Research, Policy and Practice</i> , 2012, 3, 145-154.	0.3	7
34	Endocrinological and subjective stress responses in children with depressive, anxiety, or externalizing disorders. <i>Development and Psychopathology</i> , 2018, 30, 605-622.	1.4	6
35	Follow-up study regarding the medium-term effectiveness of the home-visiting program – Pro Kind – at age 7 years: study protocol for a randomized controlled trial. <i>Trials</i> , 2018, 19, 323.	0.7	6
36	Maternal sensitivity and intrusiveness in early childhood as predictors of children's weight at school age. <i>Pediatric Obesity</i> , 2022, 17, e12842.	1.4	6

#	ARTICLE	IF	CITATIONS
37	Maternal mentalization affects mothers' but not children's weight via emotional eating. <i>Attachment and Human Development</i> , 2016, 18, 487-507.	1.2	5
38	Quality of life and psychological co-morbidities in children and adolescents with cardiac pacemakers and implanted defibrillators: a cohort study in Eastern Germany. <i>Cardiology in the Young</i> , 2020, 30, 549-559.	0.4	4
39	Declining effects of child maltreatment on mental health in the elderly: Another nail in the coffin of the deficit model of aging or a healthy survivor bias?. <i>Journal of Affective Disorders</i> , 2019, 255, 180-181.	2.0	3
40	Childhood Emotional and Conduct Problems in Childhood and Adolescence Differentially Associated with Intergenerational Maltreatment Continuity and Parental Internalizing Symptoms. <i>Research on Child and Adolescent Psychopathology</i> , 2020, 48, 29-42.	1.4	3
41	Commentary: The importance of exploring dose-dependent, subtype-specific, and age-related effects of maltreatment on the HPA axis and the mediating link to psychopathology. A response to Fisher (2017). <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2017, 58, 1011-1013.	3.1	2
42	Fathers' Emotional Availability with Their Children: Determinants and Consequences. , 2020, , 315-337.		2
43	Relational stressors as predictors for repeat aggressive and self-harming incidents in child and adolescent psychiatric inpatient settings. <i>International Journal of Adolescent Medicine and Health</i> , 2014, 26, 567-574.	0.6	1
44	Commentary: The dynamic panel model: a promising approach to clarify sources of influence in developmental psychopathology – a commentary on Wichstrøm et al. (2017). <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2017, 58, 1248-1250.	3.1	1
45	Gender Specificity of Children's Narrative Representations in Predicting Depressive Symptoms at Early School Age. <i>Journal of Child and Family Studies</i> , 2017, 26, 148-160.	0.7	1
46	Triadic interaction of adolescent mothers, fathers, and infants: An exploratory study. <i>Family Science: Global Perspectives on Research, Policy and Practice</i> , 2011, 2, 98-108.	0.3	0
