

Cristina Cattaneo

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1568081/cristina-cattaneo-publications-by-year.pdf>

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

175
papers

2,410
citations

#	Paper	IF	Citations
175	Can social information programs be more effective? The role of environmental identity for energy conservation. <i>Journal of Environmental Economics and Management</i> , 2021 , 108, 102467	5.3	3
174	Relationship between lateral angle and shape of internal acoustic canal: cautionary note for diagnosis of sex. <i>International Journal of Legal Medicine</i> , 2021 , 135, 687-692	3.1	1
173	Turning opposition into support to immigration: The role of narratives. <i>Journal of Economic Behavior and Organization</i> , 2021 , 190, 785-801	1.6	0
172	The potential of bone disease for personal identification: a case of tuberculosis. <i>International Journal of Legal Medicine</i> , 2020 , 134, 1957-1962	3.1	1
171	Should they stay or should they go? Climate migrants and local conflicts. <i>Journal of Economic Geography</i> , 2020 ,	3.7	2
170	Histomorphometric analysis of the variability of the human skeleton: Forensic implications. <i>Legal Medicine</i> , 2020 , 45, 101711	1.9	4
169	Authors' Response. <i>Journal of Forensic Sciences</i> , 2020 , 65, 344	1.8	
168	Possible applications of reflected UV photography in forensic odontology: Food for thought. <i>Legal Medicine</i> , 2020 , 42, 101641	1.9	2
167	Bone diagenesis in archaeological and contemporary human remains: an investigation of bone 3D microstructure and minero-chemical assessment. <i>Archaeological and Anthropological Sciences</i> , 2020 , 12, 1	1.8	4
166	The interaction of descriptive and injunctive social norms in promoting energy conservation. <i>Nature Energy</i> , 2020 , 5, 900-909	62.3	20
165	Multi-Rater Agreement Using the Adapted Fracture Healing Scale (AFHS) for the Assessment of Tubular Bones on Conventional Radiographs: Preliminary Study. <i>Journal of Forensic Sciences</i> , 2020 , 65, 2112-2116	1.8	2
164	Pitfalls of Computed Tomography 3D Reconstruction Models in Cranial Nonmetric Analysis. <i>Journal of Forensic Sciences</i> , 2020 , 65, 2098-2107	1.8	4
163	Disaster victim identification by kinship analysis: the Lampedusa October 3rd, 2013 shipwreck. <i>Forensic Science International: Genetics</i> , 2020 , 44, 102156	4.3	7
162	The Frequency of Cranial Base Fractures in Lethal Head Trauma. <i>Journal of Forensic Sciences</i> , 2020 , 65, 193-195	1.8	4
161	Sex estimation of skeletons in middle and late adulthood: reliability of pelvic morphological traits and long bone metrics on an Italian skeletal collection. <i>International Journal of Legal Medicine</i> , 2020 , 134, 1683-1690	3.1	5
160	Preliminary study on sexual dimorphism of metric traits of cranium and mandible in a modern Italian skeletal population and review of population literature. <i>Legal Medicine</i> , 2020 , 44, 101695	1.9	2
159	Observer error in bone disease description: A cautionary note. <i>International Journal of Osteoarchaeology</i> , 2020 , 30, 607-615	1.1	1

158	First signs of torture in Italy: A probable case of execution by the wheel on a skeleton from 13th century Milano. <i>Journal of Archaeological Science</i> , 2019 , 109, 104990	2.9	
157	Histologic and radiological analysis on bone fractures: Estimation of posttraumatic survival time in skeletal trauma. <i>Forensic Science International</i> , 2019 , 302, 109909	2.6	8
156	Histomorphometric analysis of osteocyte lacunae in human and pig: exploring its potential for species discrimination. <i>International Journal of Legal Medicine</i> , 2019 , 133, 711-718	3.1	7
155	Exiting the limbo of perimortem trauma: A brief review of microscopic markers of hemorrhaging and early healing signs in bone. <i>Forensic Science International</i> , 2019 , 302, 109856	2.6	8
154	Human Migration in the Era of Climate Change. <i>Review of Environmental Economics and Policy</i> , 2019 , 13, 189-206	6	81
153	Genome-Wide DNA from Degraded Petrous Bones and the Assessment of Sex and Probable Geographic Origins of Forensic Cases. <i>Scientific Reports</i> , 2019 , 9, 8226	4.9	17
152	Skin lesions and traditional folk practices: a medico-legal perspective. <i>Forensic Science, Medicine, and Pathology</i> , 2019 , 15, 580-590	1.5	10
151	The Status of Forensic Anthropology in Europe and South Africa: Results of the 2016 FASE Questionnaire on Forensic Anthropology. <i>Journal of Forensic Sciences</i> , 2019 , 64, 1017-1025	1.8	11
150	Internal and external barriers to energy efficiency: which role for policy interventions?. <i>Energy Efficiency</i> , 2019 , 12, 1293-1311	3	39
149	Diabetic bone lesions: a study on 38 known modern skeletons and the implications for forensic scenarios. <i>International Journal of Legal Medicine</i> , 2019 , 133, 1225-1239	3.1	3
148	An innovative 3D-3D superimposition for assessing anatomical uniqueness of frontal sinuses through segmentation on CT scans. <i>International Journal of Legal Medicine</i> , 2019 , 133, 1159-1165	3.1	18
147	Comparison of Different Swabs for Sampling Inorganic Gunshot Residue from Gunshot Wounds: Applicability and Reliability for the Determination of Firing Distance. <i>Journal of Forensic Sciences</i> , 2019 , 64, 558-564	1.8	7
146	Three-dimensional analysis of sphenoid sinus uniqueness for assessing personal identification: a novel method based on 3D-3D superimposition. <i>International Journal of Legal Medicine</i> , 2019 , 133, 1895-1901	3.1	16
145	Postmortem imaging of perimortem skeletal trauma. <i>Forensic Science International</i> , 2019 , 302, 109921	2.6	11
144	The synergy between radiographic and macroscopic observation of skeletal lesions on dry bone. <i>International Journal of Legal Medicine</i> , 2019 , 133, 1611-1628	3.1	4
143	The Utility of Skeletal and Surgical Features for the Personal Identification Process: A Pilot Study. <i>Journal of Forensic Sciences</i> , 2019 , 64, 1796-1802	1.8	4
142	Quantification of odontological differences of the upper first and second molar by 3D-3D superimposition: a novel method to assess anatomical matches. <i>Forensic Science, Medicine, and Pathology</i> , 2019 , 15, 570-573	1.5	7
141	DOES HARMFUL CLIMATE INCREASE OR DECREASE MIGRATION? EVIDENCE FROM RURAL HOUSEHOLDS IN NIGERIA. <i>Climate Change Economics</i> , 2019 , 10, 1950013	0.9	2

140	Sexual violence against women: a multidisciplinary integrated care model. <i>BMJ, The</i> , 2019 , 367, l6616	5.9	1
139	Anatomy of Infraorbital Foramen: Influence of Sex, Side, and Cranium Size. <i>Journal of Craniofacial Surgery</i> , 2019 , 30, 1284-1288	1.2	3
138	The appearance of breast cancer metastases on dry bone: Implications for forensic anthropology. <i>Journal of Clinical Forensic and Legal Medicine</i> , 2019 , 61, 5-12	1.7	8
137	The overlooked primary: bladder cancer metastases on dry bone. A study of the 20th century CAL Milano Cemetery Skeletal Collection. <i>International Journal of Paleopathology</i> , 2019 , 24, 130-140	1.5	5
136	Distinguishing Atherosclerotic Calcifications in Dry Bone: Implications for Forensic Identification. <i>Journal of Forensic Sciences</i> , 2019 , 64, 839-844	1.8	2
135	Multiple myeloma bone lesions in skeletal remains: Report of two known cases from the 20th century CAL Milano Cemetery Skeletal Collection. <i>International Journal of Osteoarchaeology</i> , 2019 , 29, 101-107	1.1	3
134	Dismemberment and Toolmark Analysis on Bone 2019 , 113-131		2
133	"Aged" autopsy gallstones simulating dry bone context: A morphological, histological and SEM-EDS analysis. <i>International Journal of Paleopathology</i> , 2019 , 24, 60-65	1.5	3
132	The comparative performance of PMI estimation in skeletal remains by three methods (C-14, luminol test and OHI): analysis of 20 cases. <i>International Journal of Legal Medicine</i> , 2018 , 132, 1215-1224 ^{3.1}		9
131	Application of 3D models of palatal rugae to personal identification: hints at identification from 3D-3D superimposition techniques. <i>International Journal of Legal Medicine</i> , 2018 , 132, 1241-1245	3.1	16
130	The Diagnostic Implications of Two Cases of Known Rheumatoid Arthritis from the CAL Milano Cemetery Skeletal Collection. <i>Journal of Forensic Sciences</i> , 2018 , 63, 1880-1887	1.8	4
129	Challenges in the identification of dead migrants in the Mediterranean: The case study of the Lampedusa shipwreck of October 3rd 2013. <i>Forensic Science International</i> , 2018 , 285, 121-128	2.6	29
128	Histomorphological analysis of the variability of the human skeleton: forensic implications. <i>International Journal of Legal Medicine</i> , 2018 , 132, 1493-1503	3.1	5
127	3D-3D facial superimposition between monozygotic twins: A novel morphological approach to the assessment of differences due to environmental factors. <i>Legal Medicine</i> , 2018 , 31, 33-37	1.9	3
126	How do skeletons with HIV present? A study on the identified CAL Milano Cemetery Skeletal Collection. <i>Legal Medicine</i> , 2018 , 33, 11-16	1.9	4
125	A modern documented Italian identified skeletal collection of 2127 skeletons: the CAL Milano Cemetery Skeletal Collection. <i>Forensic Science International</i> , 2018 , 287, 219.e1-219.e5	2.6	40
124	Survival of Atherosclerotic Calcifications in Skeletonized Material: Forensic and Pathological Implications. <i>Journal of Forensic Sciences</i> , 2018 , 63, 386-394	1.8	9
123	3D quantitative analysis of early decomposition changes of the human face. <i>International Journal of Legal Medicine</i> , 2018 , 132, 649-653	3.1	4

122	Personal Identification of Deceased Persons: An Overview of the Current Methods Based on Physical Appearance. <i>Journal of Forensic Sciences</i> , 2018 , 63, 662-671	1.8	17
121	The Difficult Task of Diagnosing Prostate Cancer Metastases on Dry Bone. <i>Journal of Forensic Sciences</i> , 2018 , 63, 672-682	1.8	6
120	Three-dimensional facial anatomy evaluation: Reliability of laser scanner consecutive scans procedure in comparison with stereophotogrammetry. <i>Journal of Cranio-Maxillo-Facial Surgery</i> , 2018 , 46, 1807-1813	3.6	15
119	Validation of a low-cost laser scanner device for the assessment of three-dimensional facial anatomy in living subjects. <i>Journal of Cranio-Maxillo-Facial Surgery</i> , 2018 , 46, 1493-1499	3.6	5
118	A comparative analysis of microscopic alterations in modern and ancient undecalcified and decalcified dry bones. <i>American Journal of Physical Anthropology</i> , 2018 , 165, 363-369	2.5	8
117	A test of four innominate bone age assessment methods in a modern skeletal collection from Medellin, Colombia. <i>Forensic Science International</i> , 2018 , 282, 232.e1-232.e8	2.6	5
116	Child trafficking and the European migration crisis: The role of forensic practitioners. <i>Forensic Science International</i> , 2018 , 282, 46-59	2.6	10
115	Metric approach for age assessment of children: an alternative to radiographs?. <i>Australian Journal of Forensic Sciences</i> , 2018 , 50, 57-67	1.1	1
114	Population specific data improves Fordisc's performance in Italians. <i>Forensic Science International</i> , 2018 , 292, 263.e1-263.e7	2.6	4
113	Should they stay or should they go? Climate Migrants and Local Conflicts 2018 ,		1
112	Effects of Cremation on Fetal Bones. <i>Journal of Forensic Sciences</i> , 2017 , 62, 1140-1144	1.8	3
111	The Reliability of Facial Recognition of Deceased Persons on Photographs. <i>Journal of Forensic Sciences</i> , 2017 , 62, 1286-1291	1.8	11
110	Sexual violence and unwanted pregnancies in migrant women. <i>The Lancet Global Health</i> , 2017 , 5, e396-e397	3.7	9
109	Sexual violence against adolescent girls: the need for shared multidisciplinary prevention strategies. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2017 , 124, 434	3.7	6
108	Sex Assessment from the Volume of the First Metatarsal Bone: A Comparison of Linear and Volume Measurements. <i>Journal of Forensic Sciences</i> , 2017 , 62, 1582-1585	1.8	5
107	Recognition of children on age-different images: Facial morphology and age-stable features. <i>Science and Justice - Journal of the Forensic Science Society</i> , 2017 , 57, 250-256	2	4
106	A View to the Future: A Novel Approach for 3D-3D Superimposition and Quantification of Differences for Identification from Next-Generation Video Surveillance Systems. <i>Journal of Forensic Sciences</i> , 2017 , 62, 457-461	1.8	15
105	Sexual Violence Against Adolescent Girls: Labeling It to Avoid Normalization. <i>Journal of Women's Health</i> , 2017 , 26, 1146-1149	3	8

104	Assessment of the Effects Exerted by Acid and Alkaline Solutions on Bone: Is Chemistry the Answer?. <i>Journal of Forensic Sciences</i> , 2017 , 62, 1297-1303	1.8	4
103	Determination of the post mortem interval in skeletal remains by the comparative use of different physico-chemical methods: Are they reliable as an alternative to C?. <i>HOMO- Journal of Comparative Human Biology</i> , 2017 , 68, 213-221	0.5	8
102	Characteristics and Frequency of Chipping Effects in Near-Contact Gunshot Wounds. <i>Journal of Forensic Sciences</i> , 2017 , 62, 786-790	1.8	6
101	An Assessment of How Facial Mimicry Can Change Facial Morphology: Implications for Identification. <i>Journal of Forensic Sciences</i> , 2017 , 62, 405-410	1.8	24
100	Analysis of metallic medical devices after cremation: The importance in identification. <i>Science and Justice - Journal of the Forensic Science Society</i> , 2017 , 57, 128-135	2	7
99	Historical Routes and Current Practice for Personal Identification 2017 , 398-411		1
98	The Adult Male Rape Victim: Forensic Description of a Series of 57 Cases. <i>American Journal of Forensic Medicine and Pathology</i> , 2017 , 38, 175-179	1	4
97	Anatomical characteristics of greater palatine foramen: a novel point of view. <i>Surgical and Radiologic Anatomy</i> , 2017 , 39, 1359-1368	1.4	9
96	The Issue of Age Estimation in a Modern Skeletal Population: Are Even the More Modern Current Aging Methods Satisfactory for the Elderly?. <i>Journal of Forensic Sciences</i> , 2017 , 62, 12-17	1.8	29
95	Luminol testing in detecting modern human skeletal remains: a test on different types of bone tissue and a caveat for PMI interpretation. <i>International Journal of Legal Medicine</i> , 2017 , 131, 287-292	3.1	3
94	Climate-induced International Migration and Conflicts. <i>CESifo Economic Studies</i> , 2017 , 63, 500-528	0.9	10
93	Post Mortem Anthropology and Trauma Analysis 2017 , 166-179		0
92	Age- and sex-related growth patterns of the craniofacial complex in European children aged 3-6 years. <i>Annals of Human Biology</i> , 2016 , 43, 510-519	1.7	11
91	Variations of midfacial soft-tissue thickness in subjects aged between 6 and 18years for the reconstruction of the profile: A study on an Italian sample. <i>Legal Medicine</i> , 2016 , 22, 68-74	1.9	10
90	Authors' Response. <i>Journal of Forensic Sciences</i> , 2016 , 61, 1394-5	1.8	0
89	Analysis of Cutmarks on Bone: Can Light Microscopy Be of Any Help?. <i>American Journal of Forensic Medicine and Pathology</i> , 2016 , 37, 248-254	1	6
88	Characteristics and time-dependence of cut marks and blunt force fractures on costal cartilages: an experimental study. <i>Forensic Science, Medicine, and Pathology</i> , 2016 , 12, 26-32	1.5	4
87	The migration response to increasing temperatures. <i>Journal of Development Economics</i> , 2016 , 122, 127-146	3.4	129

86	The toll of traffic-related fatalities in a metropolitan Italian area through the experience of the Department of Legal Medicine. <i>International Journal of Injury Control and Safety Promotion</i> , 2016 , 23, 197-205	1.8	3
85	Histological determination of the human origin from dry bone: a cautionary note for subadults. <i>International Journal of Legal Medicine</i> , 2016 , 130, 299-307	3.1	10
84	Dismemberment and disarticulation: A forensic anthropological approach. <i>Journal of Clinical Forensic and Legal Medicine</i> , 2016 , 38, 50-7	1.7	30
83	Opting in to Opt out? Emigration and Group Participation in Albania. <i>International Migration Review</i> , 2016 , 50, 1046-1075	3.2	1
82	Reliability of Craniofacial Superimposition Using Three-Dimension Skull Model. <i>Journal of Forensic Sciences</i> , 2016 , 61, 5-11	1.8	12
81	The detection of gunshot residues in the nasal mucus of suspected shooters. <i>International Journal of Legal Medicine</i> , 2016 , 130, 1045-1052	3.1	15
80	Micromorphological and ultramicroscopic aspects of buried remains: Time-dependent markers of decomposition and permanence in soil in experimental burial. <i>Forensic Science International</i> , 2016 , 263, 74-82	2.6	5
79	Italy's battle to identify dead migrants. <i>The Lancet Global Health</i> , 2016 , 4, e512-3	13.6	12
78	Implant bone integration importance in forensic identification. <i>Journal of Forensic Sciences</i> , 2015 , 60, 505-8	1.8	10
77	Splitting hairs: differentiating between entomological activity, taphonomy, and sharp force trauma on hair. <i>Forensic Science, Medicine, and Pathology</i> , 2015 , 11, 104-10	1.5	11
76	Assets and pitfalls of chemical and microscopic analyses on gunshot residues in skeletonized bodies: a report of five cases. <i>International Journal of Legal Medicine</i> , 2015 , 129, 819-24	3.1	12
75	Age estimation from canine volumes. <i>Radiologia Medica</i> , 2015 , 120, 731-6	6.5	30
74	The utility of ground-penetrating radar and its time-dependence in the discovery of clandestine burials. <i>Forensic Science International</i> , 2015 , 253, 119-24	2.6	10
73	Migration of skilled workers and innovation: A European Perspective. <i>Journal of International Economics</i> , 2015 , 96, 311-322	3.1	68
72	A Quantitative Analysis of Lip Aesthetics: The Influence of Gender and Aging. <i>Aesthetic Plastic Surgery</i> , 2015 , 39, 771-6	2	21
71	Quantitative analysis of the morphological changes of the pubic symphyseal face and the auricular surface and implications for age at death estimation. <i>Journal of Forensic Sciences</i> , 2015 , 60, 556-65	1.8	28
70	How reliable are parenchymal tissues for the evaluation of carbon monoxide poisoning? A pilot study. <i>Journal of Forensic Sciences</i> , 2015 , 60, 488-94	1.8	1
69	Surface curvature of pelvic joints from three laser scanners: separating anatomy from measurement error. <i>Journal of Forensic Sciences</i> , 2015 , 60, 374-81	1.8	6

68	The taphonomy of blood components in decomposing bone and its relevance to physical anthropology. <i>American Journal of Physical Anthropology</i> , 2015 , 158, 636-45	2.5	6
67	The effects of acid and alkaline solutions on cut marks and on the structure of bone: An experimental study on porcine ribs. <i>Legal Medicine</i> , 2015 , 17, 503-8	1.9	3
66	Divergent cognitive status with the same Braak stage of neurofibrillary pathology: does the pattern of amyloid- β deposits make the difference?. <i>Journal of Alzheimer's Disease</i> , 2015 , 43, 375-9	4.3	4
65	The Erratic Behavior of Lesions in Burnt Bone. <i>Journal of Forensic Sciences</i> , 2015 , 60, 1290-4	1.8	11
64	Dental Age Estimation Helps Create a New Identity. <i>American Journal of Forensic Medicine and Pathology</i> , 2015 , 36, 219-20	1	4
63	Microscopic Pattern of Bone Fractures as an Indicator of Blast Trauma: A Pilot Study. <i>Journal of Forensic Sciences</i> , 2015 , 60, 1140-5	1.8	4
62	What Happens to the Careers of European Workers When Immigrants "Take Their Jobs"? <i>Journal of Human Resources</i> , 2015 , 50, 655-693	2.5	20
61	The applicability of the Lamendin method to skeletal remains buried for a 16-year period: a cautionary note. <i>Journal of Forensic Sciences</i> , 2015 , 60 Suppl 1, S177-81	1.8	4
60	Sexual dimorphism of canine volume: a pilot study. <i>Legal Medicine</i> , 2015 , 17, 163-6	1.9	26
59	How reliable is apparent age at death on cadavers?. <i>International Journal of Legal Medicine</i> , 2015 , 129, 913-8	3.1	3
58	Sexual Abuse 2014 , 679-701		
57	Forensic Anthropology 2014 , 1184-1192		1
56	Anthropology and Osteology 2014 , 171-191		1
55	A comparison between digital radiography, computed tomography, and magnetic resonance in the detection of gunshot residues in burnt tissues and bone. <i>Journal of Forensic Sciences</i> , 2014 , 59, 712-7	1.8	8
54	The difficult task of assessing perimortem and postmortem fractures on the skeleton: a blind text on 210 fractures of known origin. <i>Journal of Forensic Sciences</i> , 2014 , 59, 1598-601	1.8	37
53	Thermal modifications of root transparency and implications for aging: a pilot study. <i>Journal of Forensic Sciences</i> , 2014 , 59, 219-23	1.8	3
52	Temperature measurement from the brain and rectum in charred corpses: a pilot study on an animal model. <i>American Journal of Forensic Medicine and Pathology</i> , 2014 , 35, 34-7	1	1
51	Chromatic variation of soot soiling: a possible marker for gunshot wounds in burnt bone. <i>Journal of Forensic Sciences</i> , 2014 , 59, 195-8	1.8	1

50	The survival of gunshot residues in cremated bone: an inductively coupled plasma optical emission spectrometry study. <i>Journal of Forensic Sciences</i> , 2013 , 58, 964-6	1.8	10
49	Forensic age estimation based on the trabecular bone changes of the pelvic bone using post-mortem CT. <i>Forensic Science International</i> , 2013 , 233, 393-402	2.6	28
48	Applicability of cranial models in urethane resin and foam as a substitute for bone: are synthetic materials reliable?. <i>Journal of Forensic Sciences</i> , 2013 , 58, 1257-63	1.8	1
47	Determining 14C Content in Different Human Tissues: Implications for Application of 14C Bomb-Spike Dating in Forensic Medicine. <i>Radiocarbon</i> , 2013 , 55,	4.6	1
46	Technical note: Reliability of Suchey-Brooks and Buckberry-Chamberlain methods on 3D visualizations from CT and laser scans. <i>American Journal of Physical Anthropology</i> , 2013 , 151, 158-63	2.5	33
45	Immigration and careers of European workers: effects and the role of policies. <i>IZA Journal of European Labor Studies</i> , 2013 , 2, 17		5
44	The importance of an anthropological scene of crime investigation in the case of burnt remains in vehicles: 3 case studies. <i>American Journal of Forensic Medicine and Pathology</i> , 2013 , 34, 195-200	1	14
43	Burial of piglet carcasses in cement: a study of macroscopic and microscopic alterations on an animal model. <i>American Journal of Forensic Medicine and Pathology</i> , 2013 , 34, 43-9	1	4
42	Decomposition and entomological colonization of charred bodies - a pilot study. <i>Croatian Medical Journal</i> , 2013 , 54, 387-93	1.6	15
41	Vegetation dynamics as a tool for detecting clandestine graves. <i>Journal of Forensic Sciences</i> , 2012 , 57, 983-8	1.8	16
40	Gunshot residues on dry bone after decomposition--a pilot study. <i>Journal of Forensic Sciences</i> , 2012 , 57, 1281-4	1.8	16
39	Can facial proportions taken from images be of use for ageing in cases of suspected child pornography? A pilot study. <i>International Journal of Legal Medicine</i> , 2012 , 126, 139-44	3.1	32
38	Detection of metal residues on bone using SEM-EDS. Part I: Blunt force injury. <i>Forensic Science International</i> , 2012 , 223, 87-90	2.6	16
37	Introduction to genomics. <i>Methods in Molecular Biology</i> , 2012 , 823, 79-88	1.4	8
36	The survival of metallic residues from gunshot wounds in cremated bone: a radiological study. <i>International Journal of Legal Medicine</i> , 2012 , 126, 363-9	3.1	14
35	The survival of metallic residues from gunshot wounds in cremated bone: a SEM-EDX study. <i>International Journal of Legal Medicine</i> , 2012 , 126, 525-31	3.1	29
