#	Paper	IF	Citations
87	A prospective examination of children's time spent outdoors, objectively measured physical activity and overweight. <i>International Journal of Obesity</i> , 2008 , 32, 1685-93	5.5	198
86	Overweight and obesity from childhood to adulthood: a follow-up of participants in the 1985 Australian Schools Health and Fitness Survey. <i>Medical Journal of Australia</i> , 2007 , 186, 458-60	4	181
85	Exercise-induced hypertension, cardiovascular events, and mortality in patients undergoing exercise stress testing: a systematic review and meta-analysis. <i>American Journal of Hypertension</i> , 2013 , 26, 357-66	2.3	146
84	Television viewing and abdominal obesity in young adults: is the association mediated by food and beverage consumption during viewing time or reduced leisure-time physical activity?. <i>American Journal of Clinical Nutrition</i> , 2008 , 87, 1148-55	7	128
83	Trends in children's physical activity and weight status in high and low socio-economic status areas of Melbourne, Victoria, 1985-2001. <i>Australian and New Zealand Journal of Public Health</i> , 2005 , 29, 337-42	2.3	124
82	The longitudinal influence of home and neighbourhood environments on children's body mass index and physical activity over 5 years: the CLAN study. <i>International Journal of Obesity</i> , 2010 , 34, 1177-87	5.5	115
81	A longitudinal study of the family physical activity environment and physical activity among youth. <i>American Journal of Health Promotion</i> , 2011 , 25, 159-67	2.5	98
80	Individual, social and environmental correlates of physical activity among women living in socioeconomically disadvantaged neighbourhoods. <i>Social Science and Medicine</i> , 2010 , 70, 2011-2018	5.1	94
79	Decline in physical fitness from childhood to adulthood associated with increased obesity and insulin resistance in adults. <i>Diabetes Care</i> , 2009 , 32, 683-7	14.6	93
78	Socioeconomic position and the tracking of physical activity and cardiorespiratory fitness from childhood to adulthood. <i>American Journal of Epidemiology</i> , 2009 , 170, 1069-77	3.8	89
77	Love thy neighbour? Associations of social capital and crime with physical activity amongst women. <i>Social Science and Medicine</i> , 2010 , 71, 807-14	5.1	86
76	A comparison of subjective and objective measures of physical activity and fitness in identifying associations with cardiometabolic risk factors. <i>Annals of Epidemiology</i> , 2008 , 18, 378-86	6.4	72
75	Predictors of time spent outdoors among children: 5-year longitudinal findings. <i>Journal of Epidemiology and Community Health</i> , 2010 , 64, 400-6	5.1	70
74	Cardiometabolic risk in younger and older adults across an index of ambulatory activity. <i>American Journal of Preventive Medicine</i> , 2009 , 37, 278-84	6.1	67
73	Which domains of childhood physical activity predict physical activity in adulthood? A 20-year prospective tracking study. <i>British Journal of Sports Medicine</i> , 2012 , 46, 595-602	10.3	63
72	Are perceptions of the physical and social environment associated with mothers' walking for leisure and for transport? A longitudinal study. <i>Preventive Medicine</i> , 2008 , 47, 188-93	4.3	62
71	Longitudinal examination of the family food environment and weight status among children. <i>Pediatric Obesity</i> , 2009 , 4, 343-52		57

70	Parental exercise is associated with Australian children's extracurricular sports participation and cardiorespiratory fitness: A cross-sectional study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2005 , 2, 3	8.4	55
69	Effects of school-based interventions for direct delivery of physical activity on fitness and cardiometabolic markers in children and adolescents: a systematic review of randomized controlled trials. <i>Obesity Reviews</i> , 2013 , 14, 818-38	10.6	48
68	Socioeconomic position and children's physical activity and sedentary behaviors: longitudinal findings from the CLAN study. <i>Journal of Physical Activity and Health</i> , 2009 , 6, 289-98	2.5	47
67	What predicts children's active transport and independent mobility in disadvantaged neighborhoods?. <i>Health and Place</i> , 2017 , 44, 103-109	4.6	42
66	Resilience to obesity among socioeconomically disadvantaged women: the READI study. <i>International Journal of Obesity</i> , 2012 , 36, 855-65	5.5	40
65	Effectiveness of interventions to promote physical activity among socioeconomically disadvantaged women: a systematic review and meta-analysis. <i>Obesity Reviews</i> , 2013 , 14, 197-212	10.6	38
64	Urban-rural comparison of weight status among women and children living in socioeconomically disadvantaged neighbourhoods. <i>Medical Journal of Australia</i> , 2010 , 192, 137-40	4	38
63	Cohort profile: the resilience for eating and activity despite inequality (READI) study. <i>International Journal of Epidemiology</i> , 2013 , 42, 1629-39	7.8	36
62	Are associations between the perceived home and neighbourhood environment and children's physical activity and sedentary behaviour moderated by urban/rural location?. <i>Health and Place</i> , 2013 , 24, 44-53	4.6	34
61	Factors affecting the stability of blood lipid and lipoprotein levels from youth to adulthood: evidence from the Childhood Determinants of Adult Health Study. <i>JAMA Pediatrics</i> , 2011 , 165, 68-76		33
60	Personal, social and environmental correlates of resilience to physical inactivity among women from socio-economically disadvantaged backgrounds. <i>Health Education Research</i> , 2010 , 25, 268-81	1.8	31
59	The association between physical activity and depressive symptoms in young women: A review. <i>Mental Health and Physical Activity</i> , 2008 , 1, 82-88	5	31
58	Home and neighbourhood correlates of BMI among children living in socioeconomically disadvantaged neighbourhoods. <i>British Journal of Nutrition</i> , 2012 , 107, 1028-36	3.6	27
57	The provision of compulsory school physical activity: associations with physical activity, fitness and overweight in childhood and twenty years later. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2008 , 5, 14	8.4	25
56	Correlates of pedometer-measured and self-reported physical activity among young Australian adults. <i>Journal of Science and Medicine in Sport</i> , 2011 , 14, 496-503	4.4	24
55	Associations between the perceived environment and physical activity among adults aged 55-65 years: does urban-rural area of residence matter?. <i>Journal of Aging and Physical Activity</i> , 2015 , 23, 55-63	1.6	23
54	Environmental barriers and enablers to physical activity participation among rural adults: a qualitative study. <i>Health Promotion Journal of Australia</i> , 2015 , 26, 99-104	1.7	23
53	Associations between sedentary behaviours and dietary intakes among adolescents. <i>Public Health Nutrition</i> , 2018 , 21, 1115-1122	3.3	22

52	Health, behavioral, cognitive, and social correlates of breakfast skipping among women living in socioeconomically disadvantaged neighborhoods. <i>Journal of Nutrition</i> , 2013 , 143, 1774-84	4.1	22
51	A Qualitative Study of Environmental Factors Important for Physical Activity in Rural Adults. <i>PLoS ONE</i> , 2015 , 10, e0140659	3.7	21
50	Do food and physical activity environments vary between disadvantaged urban and rural areas? Findings from the READI Study. <i>Health Promotion Journal of Australia</i> , 2012 , 23, 153-6	1.7	20
49	Effectiveness of interventions to promote physical activity and/or decrease sedentary behaviour among rural adults: a systematic review and meta-analysis. <i>Obesity Reviews</i> , 2017 , 18, 727-741	10.6	19
48	Physical activity correlates in young women with depressive symptoms: a qualitative study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2010 , 7, 3	8.4	19
47	Do the Individual, Social, and Environmental Correlates of Physical Activity Differ Between Urban and Rural Women?. <i>Environment and Behavior</i> , 2012 , 44, 350-373	5.6	19
46	A cross-sectional study of geographic differences in health risk factors among young Australian adults: the role of socioeconomic position. <i>BMC Public Health</i> , 2014 , 14, 1278	4.1	18
45	Socioeconomic position and physical activity among women in Melbourne, Australia: does the use of different socioeconomic indicators matter?. <i>Social Science and Medicine</i> , 2012 , 74, 1578-83	5.1	16
44	Factors associated with physical activity promotion by allied and other non-medical health professionals: A systematic review. <i>Patient Education and Counseling</i> , 2018 , 101, 1775-1785	3.1	16
43	Accumulated exposure to rural areas of residence over the life course is associated with overweight and obesity in adulthood: a 25-year prospective cohort study. <i>Annals of Epidemiology</i> , 2017 , 27, 169-175.e2	6.4	15
42	Three-year change in diet quality and associated changes in BMI among schoolchildren living in socio-economically disadvantaged neighbourhoods. <i>British Journal of Nutrition</i> , 2014 , 112, 260-8	3.6	15
41	Exploring the Health-Promoting Potential of the "parkrun" Phenomenon: What Factors are Associated With Higher Levels of Participation?. <i>American Journal of Health Promotion</i> , 2019 , 33, 13-23	2.5	15
40	Health and broader community benefit of parkrun-An exploratory qualitative study. <i>Health Promotion Journal of Australia</i> , 2019 , 30, 163-171	1.7	14
39	Lifestyle behaviours associated with 5-year weight gain in a prospective cohort of Australian adults aged 26-36 years at baseline. <i>BMC Public Health</i> , 2017 , 17, 54	4.1	13
38	Women's work. Maintaining a healthy body weight. <i>Appetite</i> , 2009 , 53, 9-15	4.5	13
37	Physical activity and healthy weight maintenance from childhood to adulthood. <i>Obesity</i> , 2008 , 16, 1427-33		13
36	Longitudinal associations between TV viewing and BMI not explained by the 'mindless eating' or 'physical activity displacement' hypotheses among adults. <i>BMC Public Health</i> , 2018 , 18, 797	4.1	11
35	Obesity prevention programs and policies: practitioner and policy-maker perceptions of feasibility and effectiveness. <i>Obesity</i> , 2013 , 21, E448-55	8	10

34	Recruiting hard-to-reach populations: lessons from a study of women living in socioeconomically disadvantaged areas of Victoria, Australia. <i>Health Promotion Journal of Australia</i> , 2010 , 21, 243-4	1.7	9
33	What might work? Exploring the perceived feasibility of strategies to promote physical activity among women living in socioeconomically disadvantaged neighbourhoods. <i>Health Education Research</i> , 2013 , 28, 205-19	1.8	8
32	Is a perceived supportive physical environment important for self-reported leisure time physical activity among socioeconomically disadvantaged women with poor psychosocial characteristics? An observational study. <i>BMC Public Health</i> , 2013 , 13, 280	4.1	7
31	Factors associated with muscular fitness phenotypes in Australian children: A cross-sectional study. <i>Journal of Sports Sciences</i> , 2020 , 38, 38-45	3.6	7
30	Combined associations of sitting time and physical activity with obesity in young adults. <i>Journal of Physical Activity and Health</i> , 2014 , 11, 136-44	2.5	6
29	Associations between education and personal income with body mass index among Australian women residing in disadvantaged neighborhoods. <i>American Journal of Health Promotion</i> , 2013 , 28, 59-65	2.5	6
28	Maternal efficacy and sedentary behavior rules predict child obesity resilience. <i>BMC Obesity</i> , 2015 , 2, 26	3.6	3
27	Individual, social, and physical environmental correlates of physical activity among young women at risk of depression. <i>Journal of Physical Activity and Health</i> , 2011 , 8, 133-40	2.5	3
26	Acceptability and perceived feasibility of strategies to increase public transport use for physical activity gain - A mixed methods study. <i>Health Promotion Journal of Australia</i> , 2020 , 31, 504-517	1.7	3
25	Cluster patterns of behavioural risk factors among children: Longitudinal associations with adult cardio-metabolic risk factors. <i>Preventive Medicine</i> , 2020 , 130, 105861	4.3	3
24	Factors Associated with Persistently High Muscular Power from Childhood to Adulthood. <i>Medicine and Science in Sports and Exercise</i> , 2020 , 52, 49-55	1.2	3
23	A mixed-methods study of the demographic and behavioural correlates of walking to a more distant bus stop. <i>Transportation Research Interdisciplinary Perspectives</i> , 2020 , 6, 100164	7.3	3
22	Social ecological factors associated with physical activity and screen time amongst mothers from disadvantaged neighbourhoods over three years. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 110	8.4	3
21	Partnering and parenting transitions in Australian men and women: associations with changes in weight, domain-specific physical activity and sedentary behaviours. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 87	8.4	2
20	Understanding the physical activity promotion behaviours of podiatrists: a qualitative study. <i>Journal of Foot and Ankle Research</i> , 2013 , 6, 37	3.2	2
19	Social and Environmental Determinants of Health Behaviors 2010 , 3-17		2
18	Associations between the Perceived Environment and Physical Activity among Adults Aged 55-65 Years: Does Urban-Rural Area of Residence Matter?. <i>Journal of Aging and Physical Activity</i> , 2015 , 23, 55-63	1.6	2
17	Childhood factors related to diverging body mass index trajectories from childhood into mid-adulthood: A mixed methods study. <i>Social Science and Medicine</i> , 2021 , 270, 113460	5.1	2

16	Characteristics associated with willingness to walk further than necessary to the bus stop: Insights for public transport-related physical activity. <i>Journal of Transport and Health</i> , 2021 , 22, 101139	3	2
15	Social-ecological predictors of physical activity patterns: A longitudinal study of women from socioeconomically disadvantaged areas. <i>Preventive Medicine</i> , 2020 , 132, 105995	4.3	1
14	Overweight and obesity from childhood to adulthood: a follow-up of participants in the 1985 Australian Schools Health and Fitness Survey. <i>Medical Journal of Australia</i> , 2007 , 187, 314-315	4	1
13	Abstract MP66: Body Mass Index Trajectories From Childhood to Adulthood: Evidence From the International Childhood Cardiovascular Cohort (i3C) Consortium. <i>Circulation</i> , 2019 , 139,	16.7	1
12	: Protocol of a single-blinded randomised controlled trial incentivising adults to use public transport for physical activity gain. <i>Contemporary Clinical Trials Communications</i> , 2020 , 19, 100619	1.8	1
11	What factors are associated with physical activity promotion in the podiatry setting? A cross-sectional study. <i>Journal of Science and Medicine in Sport</i> , 2021 , 24, 60-66	4.4	1
10	Test-retest reliability of a self-reported physical activity environment instrument for use in rural settings. <i>Australian Journal of Rural Health</i> , 2020 , 28, 168-179	1.3	0
9	Young adult perceptions of Australia's physical activity recommendations for adults. <i>Health Promotion Journal of Australia</i> , 2013 , 24, 199-205	1.7	0
8	Patterns and Predictors of Television Viewing and Computer Use Among Women Living in Socioeconomically Disadvantaged Neighborhoods: A Prospective Cohort Study. <i>Journal of Physical Activity and Health</i> , 2021 , 1-14	2.5	0
7	Body-mass index trajectories from childhood to mid-adulthood and their sociodemographic predictors: Evidence from the International Childhood Cardiovascular Cohort (i3C) Consortium. <i>EClinicalMedicine</i> , 2022 , 48, 101440	11.3	0
6	Physical Activity and Food Environments in and around Schools: A Case Study in Regional North-West Tasmania. <i>International Journal of Environmental Research and Public Health</i> , 2022 , 19, 6238	4.6	0
5	Socio-demographic, behavioural and health-related characteristics associated with active commuting in a regional Australian state: Evidence from the 2016 Tasmanian Population Health Survey. <i>Health Promotion Journal of Australia</i> , 2021 , 32 Suppl 2, 320-331	1.7	
4	Authors' Response to the Letter to the Editor: Parkrun and the Claim of "Elitism" in Paid-Entry Run/Walk Events. <i>American Journal of Health Promotion</i> , 2020 , 34, 808	2.5	
3	Factors associated with change and stability in adherence to muscle-strengthening guidelines among young Australian adults: A longitudinal study. <i>Journal of Science and Medicine in Sport</i> , 2021 , 24, 1261-1266	4.4	
2	Is greater public transport use associated with higher levels of physical activity in a regional setting? Findings from a pilot study. <i>Pilot and Feasibility Studies</i> , 2021 , 7, 217	1.9	
1	Feasibility of Parkrun for people with knee osteoarthritis: A mixed methods pilot study. <i>Osteoarthritis and Cartilage Open</i> , 2022 , 100269	1.5
