#	Article	IF	CITATIONS
1	Progressive exercise compared with best practice advice, with or without corticosteroid injection, for the treatment of patients with rotator cuff disorders (GRASP): a multicentre, pragmatic, 2 × 2 factorial, randomised controlled trial. Lancet, The, 2021, 398, 416-428.	13.7	53
2	What is the patient acceptability of real time 1:1 videoconferencing in an orthopaedics setting? A systematic review. Physiotherapy, 2018, 104, 178-186.	0.4	47
3	Muscle activation patterns in patients with recurrent shoulder instability. International Journal of Shoulder Surgery, 2012, 6, 101.	1.5	41
4	Prospective blinded comparison of surface versus wire electromyographic analysis of muscle recruitment in shoulder instability. Physiotherapy Research International, 2009, 14, 17-29.	1.5	23
5	Physiotherapists' recommendations for examination and treatment of rotator cuff related shoulder pain: A consensus exercise. Physiotherapy Practice and Research, 2019, 40, 87-94.	0.1	22
6	Clinical and cost-effectiveness of progressive exercise compared with best practice advice, with or without corticosteroid injection, for the treatment of rotator cuff disorders: protocol for a 2x2 factorial randomised controlled trial (the GRASP trial). BMJ Open, 2017, 7, e018004.	1.9	20
7	International physical therapists consensus on clinical descriptors for diagnosing rotator cuff related shoulder pain: A Delphi study. Brazilian Journal of Physical Therapy, 2022, 26, 100395.	2.5	16
8	BESS/BOA patient care pathways: Atraumatic shoulder instability. Shoulder and Elbow, 2019, 11, 60-70.	1.5	15
9	What is the acceptability of real time 1:1 videoconferencing between clinicians and patients for a follow-up consultation for multi-directional shoulder instability?. Shoulder and Elbow, 2019, 11, 53-59.	1.5	13
10	Use of virtual consultations in an orthopaedic rehabilitation setting: how do changes in the work of being a patient influence patient preferences? A systematic review and qualitative synthesis. BMJ Open, 2020, 10, e036197.	1.9	13
11	Progressive exercise compared with best-practice advice, with or without corticosteroid injection, for rotator cuff disorders: the GRASP factorial RCT. Health Technology Assessment, 2021, 25, 1-158.	2.8	10
12	Development and implementation of the physiotherapy-led exercise interventions for the treatment of rotator cuff disorders for the â€~Getting it Right: Addressing Shoulder Pain' (GRASP) trial. Physiotherapy, 2020, 107, 252-266.	0.4	8
13	The use of assistive technology in shoulder exercise rehabilitation $\hat{a} \in \hat{a}$ a qualitative study of acceptability within a pilot project. BMC Musculoskeletal Disorders, 2018, 19, 133.	1.9	7
14	Shoulder Pain Diagnosis, Treatment and Referral Guidelines for Primary, Community and Intermediate Care. Shoulder and Elbow, 2021, 13, 5-11.	1.5	5
15	Empathy in Action in Healthcare (EACH): A mixed methods study of nurses' and therapists' empathy. International Journal of Orthopaedic and Trauma Nursing, 2020, 39, 100777.	0.9	4
16	A systematic review to compare physiotherapy treatment programmes for atraumatic shoulder instability. Shoulder and Elbow, 0, , 175857322210807.	1.5	2
17	Post-operative rehabilitation following traumatic anterior shoulder dislocation: A systematic scoping review. Shoulder and Elbow, 0, , 175857322210896.	1.5	2
18	Medical Interactive Recovery Assistant: a useful clinical tool in paediatric shoulder rehabilitation?. International Journal of Therapy and Rehabilitation, 2021, 28, 1-15.	0.3	1

#	Article	IF	CITATIONS
19	Management of atraumatic shoulder instability in physiotherapy (MASIP): a survey of physiotherapy practice. BMC Musculoskeletal Disorders, 2021, 22, 840.	1.9	1
20	The association between crawling as a first mode of mobilisation and the presentation of atraumatic shoulder instability: a retrospective cohort study. Shoulder and Elbow, 2021, 13, 339-344.	1.5	1
