| #  | Article                                                                                                                                                                                  | IF           | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-----------|
| 1  | A fast and robust convolutional neural network-based defect detection model in product quality control. International Journal of Advanced Manufacturing Technology, 2018, 94, 3465-3471. | 1.5          | 326       |
| 2  | Thermal Conductivity of Amorphous Materials. Advanced Functional Materials, 2020, 30, 1903829.                                                                                           | 7.8          | 149       |
| 3  | Detection of Abnormal Visual Events via Global Optical Flow Orientation Histogram. IEEE Transactions on Information Forensics and Security, 2014, 9, 988-998.                            | 4.5          | 140       |
| 4  | Machine Learning Approaches for Thermoelectric Materials Research. Advanced Functional Materials, 2020, 30, 1906041.                                                                     | 7.8          | 114       |
| 5  | Generative Neural Networks for Anomaly Detection in Crowded Scenes. IEEE Transactions on Information Forensics and Security, 2019, 14, 1390-1399.                                        | 4.5          | 99        |
| 6  | A reinforcement learning approach for UAV target searching and tracking. Multimedia Tools and Applications, 2019, 78, 4347-4364.                                                         | 2.6          | 67        |
| 7  | Data-driven prognostic method based on self-supervised learning approaches for fault detection. Journal of Intelligent Manufacturing, 2020, 31, 1611-1619.                               | 4.4          | 56        |
| 8  | Exploring a rich spatial–temporal dependent relational model for skeleton-based action recognition by bidirectional LSTM-CNN. Neurocomputing, 2020, 414, 90-100.                         | <b>3.</b> 5  | 53        |
| 9  | Histograms of Optical Flow Orientation for Visual Abnormal Events Detection. , 2012, , .                                                                                                 |              | 48        |
| 10 | Abnormal event detection based on analysis of movement information of video sequence. Optik, 2018, 152, 50-60.                                                                           | 1.4          | 47        |
| 11 | Internal Transfer Learning for Improving Performance in Human Action Recognition for Small Datasets. IEEE Access, 2017, 5, 17627-17633.                                                  | 2.6          | 46        |
| 12 | Multiple Kernelized Correlation Filters (MKCF) for Extended Object Tracking Using <i>X</i> Band Marine Radar Data. IEEE Transactions on Signal Processing, 2019, 67, 3676-3688.          | 3.2          | 39        |
| 13 | Abnormal event detection via covariance matrix for optical flow based feature. Multimedia Tools and Applications, 2018, 77, 17375-17395.                                                 | 2.6          | 38        |
| 14 | Recent advances of single-object tracking methods: A brief survey. Neurocomputing, 2021, 455, 1-11.                                                                                      | 3 <b>.</b> 5 | 36        |
| 15 | AED-Net: An Abnormal Event Detection Network. Engineering, 2019, 5, 930-939.                                                                                                             | 3.2          | 28        |
| 16 | Digital twin improved via visual question answering for vision-language interactive mode in human–machine collaboration. Journal of Manufacturing Systems, 2021, 58, 261-269.            | 7.6          | 28        |
| 17 | Online Least Squares One-Class Support Vector Machines-Based Abnormal Visual Event Detection. Sensors, 2013, 13, 17130-17155.                                                            | 2.1          | 26        |
| 18 | Detection of Abnormal Events via Optical Flow Feature Analysis. Sensors, 2015, 15, 7156-7171.                                                                                            | 2.1          | 26        |

| #  | Article                                                                                                                                                                                        | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | An On-Line and Adaptive Method for Detecting Abnormal Events in Videos Using Spatio-Temporal ConvNet. Applied Sciences (Switzerland), 2019, 9, 757.                                            | 1.3 | 23        |
| 20 | Digital twin for human-machine interaction with convolutional neural network. International Journal of Computer Integrated Manufacturing, 2021, 34, 888-897.                                   | 2.9 | 22        |
| 21 | Abnormal event detection via the analysis of multi-frame optical flow information. Frontiers of Computer Science, 2020, 14, 304-313.                                                           | 1.6 | 18        |
| 22 | Auto-sorting System Towards Smart Factory based on Deep learning for Image Segmentation. IEEE Sensors Journal, 2018, , 1-1.                                                                    | 2.4 | 17        |
| 23 | Flying Small Target Detection for Anti-UAV Based on a Gaussian Mixture Model in a Compressive Sensing Domain. Sensors, 2019, 19, 2168.                                                         | 2.1 | 17        |
| 24 | Online Detection of Action Start via Soft Computing for Smart City. IEEE Transactions on Industrial Informatics, 2021, 17, 524-533.                                                            | 7.2 | 17        |
| 25 | Surrogate Model via Artificial Intelligence Method for Accelerating Screening Materials and Performance Prediction. Advanced Functional Materials, 2021, 31, 2006245.                          | 7.8 | 17        |
| 26 | Histograms of optical flow orientation for abnormal events detection. , 2013, , .                                                                                                              |     | 16        |
| 27 | Adaptive Optimization Method in Digital Twin Conveyor Systems via Range-Inspection Control. IEEE Transactions on Automation Science and Engineering, 2022, 19, 1296-1304.                      | 3.4 | 16        |
| 28 | RecapNet: Action Proposal Generation Mimicking Human Cognitive Process. IEEE Transactions on Cybernetics, 2021, 51, 6017-6028.                                                                 | 6.2 | 12        |
| 29 | Online Detection of Abnormal Events in Video Streams. Journal of Electrical and Computer Engineering, 2013, 2013, 1-12.                                                                        | 0.6 | 11        |
| 30 | Using Gabor filter in 3D convolutional neural networks for human action recognition. , 2017, , .                                                                                               |     | 11        |
| 31 | Pose-Guided Inflated 3D ConvNet for action recognition in videos. Signal Processing: Image Communication, 2021, 91, 116098.                                                                    | 1.8 | 11        |
| 32 | Wi-ATCN: Attentional Temporal Convolutional Network for Human Action Prediction Using WiFi Channel State Information. IEEE Journal on Selected Topics in Signal Processing, 2022, 16, 804-816. | 7.3 | 11        |
| 33 | Histogram of Maximal Optical Flow Projection for Abnormal Events Detection in Crowded Scenes. International Journal of Distributed Sensor Networks, 2015, 11, 406941.                          | 1.3 | 10        |
| 34 | Human pose estimation with multiple mixture parts model based on upper body categories. Journal of Electronic Imaging, 2015, 24, 043021.                                                       | 0.5 | 10        |
| 35 | Strain-Induced Magnetoelectric Coupling in Fe <sub>3</sub> O <sub>4</sub> /BaTiO <sub>3</sub> Nanopillar Composites. ACS Applied Materials & Interfaces, 2022, 14, 13925-13931.                | 4.0 | 10        |
| 36 | Sensored Semantic Annotation for Traffic Control Based on Knowledge Inference in Video. IEEE Sensors Journal, 2021, 21, 11758-11768.                                                           | 2.4 | 9         |

| #  | Article                                                                                                                                                                                      | IF  | Citations |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | CACrowdGAN: Cascaded Attentional Generative Adversarial Network for Crowd Counting. IEEE Transactions on Intelligent Transportation Systems, 2022, 23, 8090-8102.                            | 4.7 | 9         |
| 38 | TADBD: a sensitive and fast method for detection of typologically associated domain boundaries. BioTechniques, 2020, 69, 18-25.                                                              | 0.8 | 9         |
| 39 | Hierarchical graphical-based human pose estimation via local multi-resolution convolutional neural network. AIP Advances, 2018, 8, 035215.                                                   | 0.6 | 8         |
| 40 | ResLNet: deep residual LSTM network with longer input for action recognition. Frontiers of Computer Science, 2022, 16, 1.                                                                    | 1.6 | 8         |
| 41 | Abnormal event detection based on deep autoencoder fusing optical flow., 2017,,.                                                                                                             |     | 7         |
| 42 | Video feature descriptor combining motion and appearance cues with length-invariant characteristics. Optik, 2018, 157, 1143-1154.                                                            | 1.4 | 7         |
| 43 | An enhanced 3DCNNâ€ConvLSTM for spatiotemporal multimedia data analysis. Concurrency Computation Practice and Experience, 2021, 33, e5302.                                                   | 1.4 | 7         |
| 44 | FT-MDnet: A Deep-Frozen Transfer Learning Framework for Person Search. IEEE Transactions on Information Forensics and Security, 2021, 16, 4721-4732.                                         | 4.5 | 7         |
| 45 | Enhanced Energy Density at a Low Electric Field in PVDF-Based Heterojunctions Sandwiched with High Ion-Polarized BTO Films. ACS Applied Materials & Samp; Interfaces, 2022, 14, 17849-17857. | 4.0 | 7         |
| 46 | Multiple human upper bodies detection via candidate-region convolutional neural network.<br>Multimedia Tools and Applications, 2019, 78, 16077-16096.                                        | 2.6 | 5         |
| 47 | Multisource learning for skeleton-based action recognition using deep LSTM and CNN. Journal of Electronic Imaging, 2018, 27, 1.                                                              | 0.5 | 5         |
| 48 | Abnormal Event Detection via Multikernel Learning for Distributed Camera Networks. International Journal of Distributed Sensor Networks, 2015, 11, 989450.                                   | 1.3 | 5         |
| 49 | Video Object Detection Base on RGB and Optical Flow Analysis. , 2019, , .                                                                                                                    |     | 4         |
| 50 | Pose-based multisource networks using convolutional neural network and long short-term memory for action recognition. Journal of Electronic Imaging, 2019, 28, 1.                            | 0.5 | 4         |
| 51 | Spatial-temporal Transformer For Skeleton-based Action Recognition. , 2021, , .                                                                                                              |     | 4         |
| 52 | Synchronous Spatiotemporal Graph Transformer: A New Framework for Traffic Data Prediction. IEEE Transactions on Neural Networks and Learning Systems, 2023, 34, 10589-10599.                 | 7.2 | 4         |
| 53 | STD-TR: End-to-End Spatio-Temporal Action Detection with Transformers. , 2021, , .                                                                                                           |     | 3         |
| 54 | Real time Object Tracking based on Local Texture Feature with Correlation Filter., 2016,,.                                                                                                   |     | 2         |

| #  | Article                                                                                                                                             | IF  | CITATIONS |
