| 1  | Pharmacometabolomics-guided clozapine therapy in treatment resistant schizophrenia: Preliminary exploration of future too near. <i>Asian Journal of Psychiatry</i> , 2022, 67, 102939.                                                                                                                                                               | 0.9 | 6         |
| 2  | Developing locoregional evidence through comparison of WHO and national maternal near miss criteria: a cross sectional study experience from low resource setting. <i>Journal of Obstetrics and Gynaecology</i> , 2022, , 1-5.                                                                                                                       | 0.4 | 2         |
| 3  | Development of an interview-based warfarin nomogram predicting the time spent in the therapeutic INR range: A cost-effective, and non-invasive strategy building from a cross sectional study in a low resource setting. <i>Indian Heart Journal</i> , 2022, , .                                                                                     | 0.2 | 2         |
| 4  | Cyclophosphamide, hydroxycyclophosphamide and carboxyethyl phosphoramidate mustard quantification with liquid chromatography mass spectrometry in a single run human plasma samples: A rapid and sensitive method development. <i>Journal of Chromatography B: Analytical Technologies in the Biomedical and Life Sciences</i> , 2022, 1198, 123228. | 1.2 | 3         |
| 5  | Deflazacort dose optimization and safety evaluation in Duchenne muscular dystrophy (DOSE): A randomized, double-blind non-inferiority trial. <i>European Journal of Paediatric Neurology</i> , 2022, 38, 77-84.                                                                                                                                      | 0.7 | 1         |
| 6  | Post-transplant cyclophosphamide pharmacokinetics and haploidentical hematopoietic cell transplantation outcomes: an exploratory study. <i>Leukemia and Lymphoma</i> , 2022, 63, 2679-2685.                                                                                                                                                          | 0.6 | 3         |
| 7  | Assessment of the Impact of Clinical Pharmacology Consultations Provided to Hospital Clinicians From the Drug Information Centerâ€”An Outcome Research in a Developing Country. <i>Journal of Pharmacy Practice</i> , 2021, 34, 581-586.                                                                                                             | 0.5 | 8         |
| 8  | Long-term outcomes of innovator versus generic melphalan formulation in autologous hematopoietic cell transplantation for multiple myeloma. <i>Hematology/ Oncology and Stem Cell Therapy</i> , 2021, 14, 114-118.                                                                                                                                   | 0.6 | 3         |
| 9  | Still evolving medicine information services in the developing world. <i>Research in Social and Administrative Pharmacy</i> , 2021, 17, 821-822.                                                                                                                                                                                                     | 1.5 | 1         |
| 10 | Prevalence of polymorphisms in thiopurine metabolism and association with adverse outcomes: a South Asian region-specific systematic review and meta-analysis. <i>Expert Review of Clinical Pharmacology</i> , 2021, 14, 491-501.                                                                                                                    | 1.3 | 18        |
| 11 | System for administering and monitoring hydroxychloroquine prophylaxis for COVID-19 in accordance with a national advisory: preliminary experience of a tertiary care institute in India. <i>Expert Review of Anti-Infective Therapy</i> , 2021, 19, 1331-1339.                                                                                      | 2.0 | 3         |
| 12 | Antibiotics for induction and maintenance of remission in ulcerative colitis: systematic review and meta-analysis. <i>Expert Review of Gastroenterology and Hepatology</i> , 2021, 15, 1215-1223.                                                                                                                                                    | 1.4 | 3         |
| 13 | Identification of At-risk Pregnant Population for Over-the-Counter Drug Usage in Low-Resource Settings. <i>Journal of Obstetrics and Gynecology of India</i> , 2021, 71, 600-608.                                                                                                                                                                    | 0.3 | 3         |
| 14 | Impact of broadâ€”spectrum antibiotic exposures and multidrugâ€”resistant gramâ€”negative bacteremia on hematopoietic cell transplantation outcomes. <i>Transplant Infectious Disease</i> , 2021, 23, e13717.                                                                                                                                        | 0.7 | 3         |
| 15 | Precise pharmacogenetic pharmacometabolomic (PPP) guided clozapine therapy in treatment resistant schizophrenia: Insights from one ethnicity experiment. <i>Schizophrenia Research</i> , 2021, 237, 26-28.                                                                                                                                           | 1.1 | 3         |
| 16 | Spinal Muscular Atrophy Therapeutics in India: Parental Hopes and Despair!. <i>Annals of Neurosciences</i> , 2021, 28, 112-113.                                                                                                                                                                                                                      | 0.9 | 3         |
| 17 | Drug Information Services in Low-Resource Setting: A Responsibility of Pharmacists or Pharmacologists or Both the Professions Conjointly. <i>Journal of Pharmacy and Bioallied Sciences</i> , 2021, 13, 283-290.                                                                                                                                     | 0.2 | 0         |
| 18 | Changing role of clinical pharmacology from laboratory to patient education and counseling. <i>Journal of Pharmacy and Bioallied Sciences</i> , 2021, 13, 333.                                                                                                                                                                                       | 0.2 | 0         |
