Yoav Mazor

List of Publications by Year in Descending Order

Source: https://exaly.com/author-pdf/1720448/yoav-mazor-publications-by-year.pdf

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

16 8 16 284 h-index g-index citations papers 2.96 3.9 20 344 L-index avg, IF ext. citations ext. papers

#	Paper	IF	Citations
16	Repeated measurements in anorectal manometry. <i>Neurogastroenterology and Motility</i> , 2021 , 33, e1420	94	1
15	Factors Associated With Response to Anorectal Biofeedback Therapy in Patients With Fecal Incontinence. <i>Clinical Gastroenterology and Hepatology</i> , 2021 , 19, 492-502.e5	6.9	4
14	A novel combined anorectal biofeedback and percutaneous tibial nerve stimulation protocol for treating fecal incontinence. <i>Therapeutic Advances in Gastroenterology</i> , 2020 , 13, 1756284820916388	4.7	Ο
13	Anorectal physiology in health: A randomized trial to determine the optimum catheter for the balloon expulsion test. <i>Neurogastroenterology and Motility</i> , 2019 , 31, e13552	4	22
12	Reply to letter: Anorectal physiology in health: A randomized trial to determine the optimum catheter for the balloon expulsion test. <i>Neurogastroenterology and Motility</i> , 2019 , 31, e13590	4	
11	Anorectal biofeedback: an effective therapy, but can we shorten the course to improve access to treatment?. <i>Therapeutic Advances in Gastroenterology</i> , 2019 , 12, 1756284819836072	4.7	3
10	Long-term outcome of anorectal biofeedback for treatment of fecal incontinence. Neurogastroenterology and Motility, 2018, 30, e13389	4	11
9	Novel insights into fecal incontinence in men. <i>American Journal of Physiology - Renal Physiology</i> , 2017 , 312, G46-G51	5.1	7
8	Early histological findings may predict the clinical phenotype in Crohnis colitis. <i>United European Gastroenterology Journal</i> , 2017 , 5, 694-701	5.3	7
7	The importance of a high rectal pressure on strain in constipated patients: implications for biofeedback therapy. <i>Neurogastroenterology and Motility</i> , 2017 , 29, e12940	4	5
6	Efficacy of anorectal biofeedback in scleroderma patients with fecal incontinence: a case-control study. <i>Scandinavian Journal of Gastroenterology</i> , 2016 , 51, 1433-1438	2.4	13
5	Anorectal biofeedback for neurogenic bowel dysfunction in incomplete spinal cord injury. <i>Spinal Cord</i> , 2016 , 54, 1132-1138	2.7	12
4	Adalimumab drug and antibody levels as predictors of clinical and laboratory response in patients with Crohnis disease. <i>Alimentary Pharmacology and Therapeutics</i> , 2014 , 40, 620-8	6.1	136
3	Risk factors for serious adverse effects of thiopurines in patients with Crohnis disease. <i>Current Drug Safety</i> , 2013 , 8, 181-5	1.4	26
2	Prediction of disease complication occurrence in Crohnis disease using phenotype and genotype parameters at diagnosis. <i>Journal of Crohn</i> and Colitis, 2011 , 5, 592-7	1.5	24
1	Granulomas in Crohnis disease: are newly discovered genetic variants involved?. <i>Journal of Crohn</i> and Colitis, 2010 , 4, 438-43	1.5	11
