#	Paper	IF	Citations
54	Farmers' incremental adaptation to water scarcity: An application of the model of private proactive adaptation to climate change (MPPACC). <i>Agricultural Water Management</i> , 2022 , 264, 107528	5.9	4
53	Why Have Economic Incentives Failed to Convince Farmers to Adopt Drip Irrigation in Southwestern Iran?. <i>Sustainability</i> , 2022 , 14, 2055	3.6	0
52	Promoting the adoption of residential water conservation behaviors as a preventive policy to sustainable urban water management.. <i>Journal of Environmental Management</i> , 2022 , 313, 115005	7.9	1
51	Factors affecting the implementation of soil conservation practices among Iranian farmers.. <i>Scientific Reports</i> , 2022 , 12, 8396	4.9	0
50	Social media as a driver of the use of renewable energy: The perceptions of instagram users in Iran. <i>Energy Policy</i> , 2021 , 112721	7.2	3
49	The Impact of Livelihood Assets on the Food Security of Farmers in Southern Iran during the COVID-19 Pandemic. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	7
48	Barriers to climate change adaptation: Qualitative evidence from southwestern Iran. <i>Journal of Arid Environments</i> , 2021 , 189, 104487	2.5	6
47	How can socio-psychological factors be related to water-efficiency intention and behaviors among Iranian residential water consumers?. <i>Journal of Environmental Management</i> , 2021 , 288, 112466	7.9	13
46	Farmers' adaptation to drought risk through farm-level decisions: the case of farmers in Dehloran county, Southwest of Iran. <i>Climate and Development</i> , 2021 , 13, 152-163	4.4	18
45	Explaining farmers' response to climate change-induced water stress through cognitive theory of stress: an Iranian perspective. <i>Environment, Development and Sustainability</i> , 2021 , 23, 5776-5793	4.5	13
44	Evaluating micro-irrigation system performance through assessment of farmers' satisfaction: implications for adoption, longevity, and water use efficiency. <i>Agricultural Water Management</i> , 2021 , 246, 106655	5.9	9
43	Institutional constraints to groundwater resource management in arid and semi-arid regions: a Straussian grounded theory study. <i>Hydrogeology Journal</i> , 2021 , 29, 925-947	3.1	8
42	Psychosocial determinants of household adoption of water-efficiency behaviors in Tehran capital, Iran: Application of the social cognitive theory. <i>Urban Climate</i> , 2021 , 39, 100935	6.8	4
41	Cognitive theory of stress and farmers' responses to the COVID 19 shock; a model to assess coping behaviors with stress among farmers in southern Iran. <i>International Journal of Disaster Risk Reduction</i> , 2021 , 64, 102513	4.5	4
40	Factors affecting smallholder farmers' technical and non-technical adaptation responses to drought in Iran. <i>Journal of Environmental Management</i> , 2021 , 298, 113552	7.9	12
39	An attempt to develop ecotourism in an unknown area: the case of Nehbandan County, South Khorasan Province, Iran. <i>Environment, Development and Sustainability</i> , 2021 , 23, 11792-11817	4.5	3
38	Some at Risk for COVID-19 Are Reluctant to Take Precautions, but Others Are Not: A Case From Rural in Southern Iran. <i>Frontiers in Public Health</i> , 2020 , 8, 562300	6	9

37	How collective efficacy makes a difference in responses to water shortage due to climate change in southwest Iran. <i>Land Use Policy</i> , 2020 , 99, 104798	5.6	37
36	Changing rice cropping patterns among farmers as a preventive policy to protect water resources. <i>Journal of Environmental Planning and Management</i> , 2020 , 63, 2484-2500	2.8	26
35	The power of the health belief model (HBM) to predict water demand management: A case study of farmers' water conservation in Iran. <i>Journal of Environmental Management</i> , 2020 , 263, 110388	7.9	33
34	The use of a bourdieusian capitals model for understanding farmer's irrigation behavior in Iran. <i>Journal of Hydrology</i> , 2020 , 591, 125442	6	10
33	How farmers perceive the impact of dust phenomenon on agricultural production activities: A Q-methodology study. <i>Journal of Arid Environments</i> , 2020 , 173, 104028	2.5	6
32	Understanding smallholder farmers' adaptation behaviors through climate change beliefs, risk perception, trust, and psychological distance: Evidence from wheat growers in Iran. <i>Journal of Environmental Management</i> , 2019 , 250, 109456	7.9	65
31	Response to water crisis: How do Iranian farmers think about and intent in relation to switching from rice to less water-dependent crops?. <i>Journal of Hydrology</i> , 2019 , 570, 523-530	6	33
30	Farmers' adaptation choices to climate change: a case study of wheat growers in Western Iran. <i>Journal of Water and Climate Change</i> , 2019 , 10, 102-116	2.3	19
29	Iranian agriculture advisors' perception and intention toward biofuel: Green way toward energy security, rural development and climate change mitigation. <i>Renewable Energy</i> , 2019 , 130, 452-459	8.1	18
28	Understanding Iranian Livestock Breeders' Intentions and Behavior Regarding Nonhuman Animal Welfare. <i>Society and Animals</i> , 2019 , 29, 246-267	0.5	2
27	More food or better distribution? Reviewing food policy options in developing countries. <i>Food Reviews International</i> , 2018 , 34, 566-580	5.5	6
26	Cleaner and greener livestock production: Appraising producers' perceptions regarding renewable energy in Iran. <i>Journal of Cleaner Production</i> , 2018 , 203, 769-776	10.3	22
25	Studying young people's views on deployment of renewable energy sources in Iran through the lenses of Social Cognitive Theory. <i>AIMS Energy</i> , 2018 , 6, 216-228	1.8	9
24	Investigating Iranian Farmers' Satisfaction With Agricultural Extension Programs Using the American Customer Satisfaction Index. <i>Journal of Agricultural and Food Information</i> , 2017 , 18, 123-135	1	26
23	Intention of agricultural professionals toward biofuels in Iran: Implications for energy security, society, and policy. <i>Renewable and Sustainable Energy Reviews</i> , 2017 , 69, 341-349	16.2	34
22	Representation of Farmers' Professional Identities in Shushtar District, Iran: A Study Based on Q-Methodology. <i>Pizhishki Resayeshi</i> , 2017 , 8, 98-119		
21	Climate change discourse among Iranian farmers. <i>Climatic Change</i> , 2016 , 138, 521-535	4.5	31
20	Typology of Wheat and Vegetable Farmers' Perception Towards Climate Change Through of Q-Methodology. <i>Pizhishki Resayeshi</i> , 2016 , 7, 374-391		3

19	Investigating the effect of moral norm and self-identity on the intention toward water conservation among Iranian young adults. <i>Water Policy</i> , 2016 , 18, 73-90	1.6	31
18	Governance of energy transition in Iran: Investigating public acceptance and willingness to use renewable energy sources through socio-psychological model. <i>Renewable and Sustainable Energy Reviews</i> , 2015 , 45, 565-573	16.2	66
17	Application of the Theory of Planned Behaviour to predict Iranian students' intention to purchase organic food. <i>Journal of Cleaner Production</i> , 2015 , 107, 342-352	10.3	235
16	Green or in between? Examining youth perceptions of renewable energy in Iran. <i>Energy Research and Social Science</i> , 2015 , 8, 78-85	7.7	34
15	Willingness of Iranian young adults to eat organic foods: Application of the Health Belief Model. <i>Food Quality and Preference</i> , 2015 , 41, 75-83	5.8	71
14	Predicting farmers' water conservation goals and behavior in Iran: A test of social cognitive theory. <i>Land Use Policy</i> , 2015 , 47, 401-407	5.6	55
13	Policy and plural responsiveness: Taking constructive account of the ways in which Iranian farmers think about and behave in relation to water. <i>Journal of Hydrology</i> , 2014 , 514, 347-357	6	38
12	Understanding farmers' intention and behavior regarding water conservation in the Middle-East and North Africa: a case study in Iran. <i>Journal of Environmental Management</i> , 2014 , 135, 63-72	7.9	127
11	Measuring satisfaction of crop insurance a modified American customer satisfaction model approach applied to Iranian Farmers. <i>International Journal of Disaster Risk Reduction</i> , 2013 , 5, 19-27	4.5	20
10	Water management from tradition to second modernity: an analysis of the water crisis in Iran. <i>Environment, Development and Sustainability</i> , 2013 , 15, 1605-1621	4.5	22
9	Simultaneous location of two partial discharge sources in power transformers based on acoustic emission using the modified binary partial swarm optimisation algorithm. <i>IET Science, Measurement and Technology</i> , 2013 , 7, 119-127	1.5	32
8	A new enemy at the gate: Tackling Iran's water super-crisis by way of a transition from government to governance. <i>Progress in Development Studies</i> , 2013 , 13, 177-194	1.5	33
7	Investigating barriers to enhance entrepreneurship in agricultural higher education from the perspective of graduate students. <i>Procedia, Social and Behavioral Sciences</i> , 2011 , 15, 2818-2822		5
6	Coping with Drought: The Case of Poor Farmers of South Iran. <i>Psychology and Developing Societies</i> , 2010 , 22, 361-383	0.8	21
5	How rationality, morality, and fear shape willingness to carry out organic crop cultivation: a case study of farmers in southwestern Iran. <i>Environment, Development and Sustainability</i> , 1	4.5	1
4	What factors contribute to conversion to organic farming? Consideration of the Health Belief Model in relation to the uptake of organic farming by Iranian farmers. <i>Journal of Environmental Planning and Management</i> , 1-23	2.8	9
3	Developing a paradigm model for the analysis of farmers' adaptation to water scarcity. <i>Environment, Development and Sustainability</i> , 1	4.5	2
2	Explaining intention to apply renewable energy in agriculture: the case of broiler farms in Southwest Iran. <i>International Journal of Green Energy</i> , 1-11	3	2

- 1 Factors affecting farmers behavior in using nitrogen fertilizers: society vs. farmers valuation in southwest Iran. *Journal of Environmental Planning and Management*, 1-27 2.8 5
