#	Paper	IF	Citations
63	Consensus on a conversation aid for shared decision making with people with intellectual disabilities in the palliative phase. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2021 , 34, 1538-1548	2.2	0
62	Validation of the Dutch version of the Edmonton Symptom Assessment System. <i>Cancer Medicine</i> , 2020 , 9, 6111-6121	4.8	1
61	Quality of life of persons with profound intellectual and multiple disabilities: A narrative literature review of concepts, assessment methods and assessors. <i>Journal of Intellectual and Developmental Disability</i> , 2019 , 44, 261-271	1.9	15
60	Development and applicability of a tool for identification of people with intellectual disabilities in need of palliative care (PALLI). <i>Journal of Applied Research in Intellectual Disabilities</i> , 2018 , 31, 1122-1132	2.2	9
59	Feasibility and validity of a tool for identification of people with intellectual disabilities in need of palliative care (PALLI). <i>Research in Developmental Disabilities</i> , 2018 , 72, 67-78	2.7	5
58	Comparing two frailty concepts among older people with intellectual disabilities. <i>European Journal of Ageing</i> , 2017 , 14, 63-79	3.6	8
57	Physician-Reported Symptoms and Interventions in People with Intellectual Disabilities Approaching End of Life. <i>Journal of Palliative Medicine</i> , 2016 , 19, 1142-1147	2.2	9
56	Biochemical measures and frailty in people with intellectual disabilities. <i>Age and Ageing</i> , 2016 , 45, 142-83		16
55	Construct validity and responsiveness of Movakic: An instrument for the evaluation of motor abilities in children with severe multiple disabilities. <i>Research in Developmental Disabilities</i> , 2016 , 59, 194-201	2.7	5
54	The use of a frailty index to predict adverse health outcomes (falls, fractures, hospitalization, medication use, comorbid conditions) in people with intellectual disabilities. <i>Research in Developmental Disabilities</i> , 2015 , 38, 39-47	2.7	25
53	Predicting 3-year survival in older people with intellectual disabilities using a Frailty Index. <i>Journal of the American Geriatrics Society</i> , 2015 , 63, 531-6	5.6	25
52	Instruments for the evaluation of motor abilities for children with severe multiple disabilities: A systematic review of the literature. <i>Research in Developmental Disabilities</i> , 2015 , 47, 185-98	2.7	10
51	The Benefits of a Frailty Index for People With Intellectual Disability: A Commentary. <i>Journal of Policy and Practice in Intellectual Disabilities</i> , 2015 , 12, 232-234	1.8	2
50	Predicting disabilities in daily functioning in older people with intellectual disabilities using a frailty index. <i>Research in Developmental Disabilities</i> , 2014 , 35, 2267-77	2.7	26
49	Chronic kidney disease in older people with intellectual disability: results of the HA-ID study. <i>Research in Developmental Disabilities</i> , 2014 , 35, 726-32	2.7	15
48	Characteristics of the least frail adults with intellectual disabilities: a positive biology perspective. <i>Research in Developmental Disabilities</i> , 2014 , 35, 127-36	2.7	15
47	Bone quality in older adults with intellectual disabilities. <i>Research in Developmental Disabilities</i> , 2014 , 35, 1927-33	2.7	14

46	The impact of frailty on care intensity in older people with intellectual disabilities. <i>Research in Developmental Disabilities</i> , 2014 , 35, 3455-61	2.7	22
45	Implementation of a group-based physical activity programme for ageing adults with ID: a process evaluation. <i>Journal of Evaluation in Clinical Practice</i> , 2014 , 20, 401-7	2.5	13
44	Facilitators and barriers to physical activity as perceived by older adults with intellectual disability. <i>Intellectual and Developmental Disabilities</i> , 2014 , 52, 175-86	2	43
43	GPs' recognition of death in the foreseeable future and diagnosis of a fatal condition: a national survey. <i>BMC Family Practice</i> , 2013 , 14, 104	2.6	13
42	Development and evaluation of a structured programme for promoting physical activity among seniors with intellectual disabilities: a study protocol for a cluster randomized trial. <i>BMC Public Health</i> , 2013 , 13, 746	4.1	18
41	Circadian sleep-wake rhythm of older adults with intellectual disabilities. <i>Research in Developmental Disabilities</i> , 2013 , 34, 1144-51	2.7	25
40	Development of a frailty index for older people with intellectual disabilities: results from the HA-ID study. <i>Research in Developmental Disabilities</i> , 2013 , 34, 1541-55	2.7	64
39	Peripheral arterial disease in older people with intellectual disability in The Netherlands using the ankle-brachial index: results of the HA-ID study. <i>Research in Developmental Disabilities</i> , 2013 , 34, 1663-8	2.7	7
38	Objective assessment of sleep and sleep problems in older adults with intellectual disabilities. <i>Research in Developmental Disabilities</i> , 2013 , 34, 2291-303	2.7	22
37	Comparison of two types of Actiwatch with polysomnography in older adults with intellectual disability: a pilot study. <i>Journal of Intellectual and Developmental Disability</i> , 2013 , 38, 265-73	1.9	10
36	Frailty and intellectual disability: a different operationalization?. <i>Developmental Disabilities Research Reviews</i> , 2013 , 18, 17-21		26
35	Antibiotic prescribing and C-reactive protein testing for pulmonary infections in patients with intellectual disabilities. <i>British Journal of General Practice</i> , 2013 , 63, e326-30	1.6	4
34	Frailty and disability in older adults with intellectual disabilities: results from the healthy ageing and intellectual disability study. <i>Journal of the American Geriatrics Society</i> , 2012 , 60, 934-8	5.6	86
33	Cardiovascular risk factors (diabetes, hypertension, hypercholesterolemia and metabolic syndrome) in older people with intellectual disability: results of the HA-ID study. <i>Research in Developmental Disabilities</i> , 2012 , 33, 1722-31	2.7	97
32	Overweight and obesity in older people with intellectual disability. <i>Research in Developmental Disabilities</i> , 2012 , 33, 398-405	2.7	124
31	Prevalence, associated factors and treatment of sleep problems in adults with intellectual disability: a systematic review. <i>Research in Developmental Disabilities</i> , 2012 , 33, 1310-32	2.7	52
30	Prevalence and associated factors of sarcopenia in older adults with intellectual disabilities. <i>Research in Developmental Disabilities</i> , 2012 , 33, 2004-12	2.7	59
29	Important treatment aims at the end of life: a nationwide study among GPs. <i>British Journal of General Practice</i> , 2012 , 62, e121-6	1.6	10

28	Enhancing patient-reported outcome measurement in research and practice of palliative and end-of-life care. <i>Supportive Care in Cancer</i> , 2012 , 20, 1573-8	3.9	23
27	Ruling out coronary heart disease in primary care: external validation of a clinical prediction rule. <i>British Journal of General Practice</i> , 2012 , 62, 460; author reply 460-1	1.6	
26	Older people dying with dementia: a nationwide study. <i>International Psychogeriatrics</i> , 2012 , 24, 1581-91	3.4	33
25	Recognising patients who will die in the near future: a nationwide study via the Dutch Sentinel Network of GPs. <i>British Journal of General Practice</i> , 2011 , 61, e371-8	1.6	31
24	Use of palliative care services and general practitioner visits at the end of life in The Netherlands and Belgium. <i>Journal of Pain and Symptom Management</i> , 2011 , 41, 436-48	4.8	33
23	Dealing with requests for euthanasia: interview study among general practitioners in Belgium. <i>Journal of Pain and Symptom Management</i> , 2011 , 41, 1060-72	4.8	15
22	Advance care planning in Belgium and The Netherlands: a nationwide retrospective study via sentinel networks of general practitioners. <i>Journal of Pain and Symptom Management</i> , 2011 , 42, 565-77	4.8	75
21	Discussing end-of-life issues in the last months of life: a nationwide study among general practitioners. <i>Journal of Palliative Medicine</i> , 2011 , 14, 323-30	2.2	73
20	Spirituality at the end of life: conceptualization of measurable aspects-a systematic review. <i>Journal of Palliative Medicine</i> , 2011 , 14, 852-63	2.2	51
19	End-of-life care and circumstances of death in patients dying as a result of cancer in Belgium and the Netherlands: a retrospective comparative study. <i>Journal of Clinical Oncology</i> , 2011 , 29, 4327-34	2.2	54
18	Is individual educational level related to end-of-life care use? Results from a nationwide retrospective cohort study in Belgium. <i>Journal of Palliative Medicine</i> , 2011 , 14, 1135-41	2.2	12
17	Evaluation of quality-of-life measures for use in palliative care: a systematic review. <i>Palliative Medicine</i> , 2010 , 24, 17-37	5.5	97
16	Transitions between care settings at the end of life in the Netherlands: results from a nationwide study. <i>Palliative Medicine</i> , 2010 , 24, 166-74	5.5	69
15	The oldest old and GP end-of-life care in the Dutch community: a nationwide study. <i>Age and Ageing</i> , 2010 , 39, 716-22	3	28
14	Content and spiritual items of quality-of-life instruments appropriate for use in palliative care: a review. <i>Journal of Pain and Symptom Management</i> , 2010 , 40, 290-300	4.8	40
13	Physician reports of medication use with explicit intention of hastening the end of life in the absence of explicit patient request in general practice in Belgium. <i>BMC Public Health</i> , 2010 , 10, 186	4.1	8
12	General practitioner awareness of preferred place of death and correlates of dying in a preferred place: a nationwide mortality follow-back study in the Netherlands. <i>Journal of Pain and Symptom Management</i> , 2009 , 38, 568-77	4.8	59
11	Defining spirituality at the end of life. <i>Journal of Palliative Medicine</i> , 2009 , 12, 677	2.2	2

10	GPsTawareness of patientsTpreference for place of death. <i>British Journal of General Practice</i> , 2009 , 59, 665-70	1.6	63
9	Analgesic adherence measurement in cancer patients: comparison between electronic monitoring and diary. <i>Journal of Pain and Symptom Management</i> , 2007 , 34, 639-47	4.8	19
8	Change in what matters to palliative patients: eliciting information about adaptation with SEIQoL-DW. <i>Palliative Medicine</i> , 2007 , 21, 581-6	5.5	10
7	Changes in and correlates of individual quality of life in advanced cancer patients admitted to an academic unit for palliative care. <i>Palliative Medicine</i> , 2007 , 21, 199-205	5.5	14
6	Multidimensional fatigue and its correlates in hospitalised advanced cancer patients. <i>European Journal of Cancer</i> , 2007 , 43, 1030-6	7.5	37
5	Kwaliteit van het levenseinde in Nederland. <i>Gedrag & Gezondheid</i> , 2006 , 34, 202-215		
4	Quality of life change and response shift in patients admitted to palliative care units: a pilot study. <i>Palliative Medicine</i> , 2005 , 19, 381-8	5.5	22
3	Palliative care units in The Netherlands: changes in patientsTfunctional status and symptoms. <i>Journal of Pain and Symptom Management</i> , 2004 , 28, 233-43	4.8	20
2	Modeling predictors of quality of life after coronary angioplasty. <i>Annals of Behavioral Medicine</i> , 2003 , 26, 49-60	4.5	21
1	How goal disturbance, coping and chest pain relate to quality of life: A study among patients waiting for PTCA. <i>Quality of Life Research</i> , 2001 , 10, 487-501	3.7	20
