

Michael Klompas

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1744833/michael-klompas-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

257
papers

11,260

#	Paper	IF	Citations
257	Assessment of Antibiotic Prescriptions for Lyme Disease After Modification of Reporting Language for Positive Screening Test Results.. <i>JAMA Network Open</i> , 2022 , 5, e2144928	10.4	0
256	Preventing SARS-CoV-2 Transmission in Health Care Settings in the Context of the Omicron Variant.. <i>JAMA - Journal of the American Medical Association</i> , 2022 ,	27.4	3
255	Elucidating the Spectrum of Disease Severity Encompassed by Sepsis.. <i>JAMA Network Open</i> , 2022 , 5, e2147888	10.4	2
254	Ventilator-associated pneumonia among SARS-CoV-2 acute respiratory distress syndrome patients.. <i>Current Opinion in Critical Care</i> , 2022 , 28, 74-82	3.5	5
253	Impact of an Electronic Medical Record Best Practice Alert on Expedited Partner Therapy for Chlamydia Infection and Reinfection.. <i>Open Forum Infectious Diseases</i> , 2022 , 9, ofab574	1	
252	Healthcare-associated infections in adult intensive care unit patients: Changes in epidemiology, diagnosis, prevention and contributions of new technologies.. <i>Intensive and Critical Care Nursing</i> , 2022 , 103227	3.1	5
251	133: INTUBATION VERSUS VENTILATOR-SPARING OXYGEN SUPPORT IN COVID-19 ARDS: A MULTICENTER ANALYSIS. <i>Critical Care Medicine</i> , 2022 , 50, 50-50	1.4	1
250	Correction to subglottic secretion drainage for preventing ventilator-associated pneumonia: an overview of systematic reviews and an updated meta-analysis.. <i>European Respiratory Review</i> , 2022 , 31,	9.8	0
249	Prevalence, Clinical Characteristics, and Outcomes of Sepsis Caused by Severe Acute Respiratory Syndrome Coronavirus 2 Versus Other Pathogens in Hospitalized Patients With COVID-19 2022 , 4, e0703		1
248	Strategies to prevent ventilator-associated pneumonia, ventilator-associated events, and nonventilator hospital-acquired pneumonia in acute-care hospitals: 2022 Update.. <i>Infection Control and Hospital Epidemiology</i> , 2022 , 1-27	2	4
247	Association Between Implementation of the Severe Sepsis and Septic Shock Early Management Bundle Performance Measure and Outcomes in Patients With Suspected Sepsis in US Hospitals.. <i>JAMA Network Open</i> , 2021 , 4, e2138596	10.4	3
246	Current Insights Into Respiratory Virus Transmission and Potential Implications for Infection Control Programs : A Narrative Review. <i>Annals of Internal Medicine</i> , 2021 ,	8	9
245	Coronavirus disease 2019 (COVID-19) screening system utilizing daily symptom attestation helps identify hospital employees who should be tested to protect patients and coworkers. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-5	2	2
244	Finding the balance between overtreatment versus undertreatment for hospital-acquired pneumonia. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-3	2	
243	Changes in the epidemiology of ventilator-associated events over the course of the coronavirus disease 2019 (COVID-19) pandemic. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-3	2	1
242	Surviving Sepsis Campaign: International Guidelines for Management of Sepsis and Septic Shock 2021. <i>Critical Care Medicine</i> , 2021 , 49, e1063-e1143	1.4	131
241	Executive Summary: Surviving Sepsis Campaign: International Guidelines for the Management of Sepsis and Septic Shock 2021. <i>Critical Care Medicine</i> , 2021 , 49, 1974-1982	1.4	31

240	Surviving sepsis campaign: international guidelines for management of sepsis and septic shock 2021. <i>Intensive Care Medicine</i> , 2021 , 47, 1181-1247	14.5	199
239	Can Machine Learning Help Identify Patients at Risk for Recurrent Sexually Transmitted Infections?. <i>Sexually Transmitted Diseases</i> , 2021 , 48, 56-62	2.4	1
238	Ventilator-Associated Events: Epidemiology, Risk Factors, and Prevention. <i>Infectious Disease Clinics of North America</i> , 2021 , 35, 871-899	6.5	1
237	Respiratory viral testing and antibacterial treatment in patients hospitalized with community-acquired pneumonia. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 42, 817-825	2	1
236	Genomic Determination of Relative Risks for Clostridioides difficile Infection From Asymptomatic Carriage in Intensive Care Unit Patients. <i>Clinical Infectious Diseases</i> , 2021 , 73, e1727-e1736	11.6	3
235	Low Risk of Coronavirus Disease 2019 (COVID-19) Among Patients Exposed to Infected Healthcare Workers. <i>Clinical Infectious Diseases</i> , 2021 , 73, e1878-e1880	11.6	17
234	Prevalence and Clinical Characteristics of Patients With Sepsis Discharge Diagnosis Codes and Short Lengths of Stay in U.S. Hospitals 2021 , 3, e0373		2
233	Transmission of Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) From Asymptomatic and Presymptomatic Individuals in Healthcare Settings Despite Medical Masks and Eye Protection. <i>Clinical Infectious Diseases</i> , 2021 , 73, 1693-1695	11.6	20
232	Decline in SARS-CoV-2 Infections Among Health Care Workers at 2 Hospitals Following Rollout and Administration of mRNA Vaccines. <i>Open Forum Infectious Diseases</i> , 2021 , 8, ofab204	1	
231	Bacterial coinfection in influenza pneumonia: Rates, pathogens, and outcomes. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-6	2	3
230	Primary Care Providers' Perspectives on Using Automated HIV Risk Prediction Models to Identify Potential Candidates for Pre-exposure Prophylaxis. <i>AIDS and Behavior</i> , 2021 , 25, 3651-3657	4.3	2
229	Prospective Clinical Assessments of Hospitalized Patients With Positive SARS-CoV-2 PCR Tests for Necessity of Isolation. <i>Open Forum Infectious Diseases</i> , 2021 , 8, ofab194	1	3
228	Likelihood of Bacterial Infection in Patients Treated With Broad-Spectrum IV Antibiotics in the Emergency Department. <i>Critical Care Medicine</i> , 2021 , 49, e1144-e1150	1.4	9
227	Impact of Cancer History on Outcomes Among Hospitalized Patients with COVID-19. <i>Oncologist</i> , 2021 , 26, 685-693	5.7	1
226	Nonventilator hospital-acquired pneumonia: A call to action. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 42, 991-996	2	3
225	Web Exclusive. Annals On Call - Does the Sepsis Bundle Improve Outcomes?. <i>Annals of Internal Medicine</i> , 2021 , 174, OC1	8	
224	Universal Use of N95s in Healthcare Settings when Community Covid-19 Rates are High. <i>Clinical Infectious Diseases</i> , 2021 ,	11.6	2
223	Incidence, Characteristics, and Outcomes of Ventilator-Associated Events during the COVID-19 Pandemic. <i>Annals of the American Thoracic Society</i> , 2021 ,	4.7	2

222	The Risk of SARS-CoV-2 Transmission from Patients with Undiagnosed Covid-19 to Roommates in a Large Academic Medical Center. <i>Clinical Infectious Diseases</i> , 2021 ,	11.6	12
221	Epidemiology, Outcomes, and Trends of Patients With Sepsis and Opioid-Related Hospitalizations in U.S. Hospitals. <i>Critical Care Medicine</i> , 2021 , 49, 2102-2111	1.4	3
220	Infectious Diseases Society of America Position Paper: Recommended Revisions to the National Severe Sepsis and Septic Shock Early Management Bundle (SEP-1) Sepsis Quality Measure. <i>Clinical Infectious Diseases</i> , 2021 , 72, 541-552	11.6	39
219	Pharmacoepidemiology of Ceftazidime-Avibactam Use: A Retrospective Cohort Analysis of 210 US Hospitals. <i>Clinical Infectious Diseases</i> , 2021 , 72, 611-621	11.6	10
218	Presymptomatic Transmission of Severe Acute Respiratory Syndrome Coronavirus 2 Among Residents and Staff at a Skilled Nursing Facility: Results of Real-time Polymerase Chain Reaction and Serologic Testing. <i>Clinical Infectious Diseases</i> , 2021 , 72, 686-689	11.6	19
217	What Is an Aerosol-Generating Procedure?. <i>JAMA Surgery</i> , 2021 , 156, 113-114	5.4	51
216	Carbapenem Antibiotics for the Empiric Treatment of Nosocomial Pneumonia: A Systematic Review and Meta-analysis. <i>Chest</i> , 2021 , 159, 1041-1054	5.3	3
215	Inappropriate empirical antibiotic therapy for bloodstream infections based on discordant in-vitro susceptibilities: a retrospective cohort analysis of prevalence, predictors, and mortality risk in US hospitals. <i>Lancet Infectious Diseases</i> , 2021 , 21, 241-251	25.5	37
214	Duration of Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) Infectivity: When Is It Safe to Discontinue Isolation?. <i>Clinical Infectious Diseases</i> , 2021 , 72, 1467-1474	11.6	109
213	RiskScope: A Data Visualization and Aggregation Platform for Public Health Surveillance Using Routine Electronic Health Record Data. <i>American Journal of Public Health</i> , 2021 , 111, 269-276	5.1	4
212	A SARS-CoV-2 Cluster in an Acute Care Hospital. <i>Annals of Internal Medicine</i> , 2021 , 174, 794-802	8	51
211	Surveillance for Healthcare-Associated Infections: Hospital-Onset Adult Sepsis Events Versus Current Reportable Conditions. <i>Clinical Infectious Diseases</i> , 2021 , 73, 1013-1019	11.6	4
210	Quantifying the Burden of Viral Sepsis During the Coronavirus Disease 2019 Pandemic and Beyond. <i>Critical Care Medicine</i> , 2021 , 49, 2140-2143	1.4	1
209	Absence of long-range severe acute respiratory coronavirus virus 2 (SARS-CoV-2) transmission from a highly infectious patient with undiagnosed coronavirus disease 2019 (COVID-19) in a positive-pressure room. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-2	2	0
208	Fluid Balance and Ventilator-Associated Events Among Patients Admitted to ICUs in China: A Nested Case-Control Study. <i>Critical Care Medicine</i> , 2021 ,	1.4	3
207	Suspected SARS-CoV-2 Reinfections: Incidence, Predictors, and Healthcare Use among Patients at 238 U.S. Healthcare Facilities, June 1, 2020- February 28, 2021. <i>Clinical Infectious Diseases</i> , 2021 ,	11.6	3
206	The Case for Mandating COVID-19 Vaccines for Health Care Workers. <i>Annals of Internal Medicine</i> , 2021 , 174, 1305-1307	8	8
205	Annals On Call - The Case for Mandating COVID-19 Vaccines for Health Care Workers. <i>Annals of Internal Medicine</i> , 2021 , 174, OC1	8	1

204	Observational bias within a hospital-wide hand hygiene program. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-3	2	0
203	What Is the Utility of Measuring Lactate Levels in Patients with Sepsis and Septic Shock?. <i>Seminars in Respiratory and Critical Care Medicine</i> , 2021 , 42, 650-661	3.9	2
202	Association Between Caseload Surge and COVID-19 Survival in 558 U.S. Hospitals, March to August 2020. <i>Annals of Internal Medicine</i> , 2021 , 174, 1240-1251	8	35
201	Association between Airborne Infection Isolation Room Utilization Rates and Healthcare Worker COVID-19 Infections in Two Academic Hospitals. <i>Clinical Infectious Diseases</i> , 2021 ,	11.6	1
200	The COVID-19 infection control arms race. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 1323-1325	10	10
199	Universal Masking in the Covid-19 Era. <i>New England Journal of Medicine</i> , 2020 , 383, e9	59.2	12
198	Universal SARS-CoV-2 testing on admission to the labor and delivery unit: Low prevalence among asymptomatic obstetric patients. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 1095-1096	2	26
197	COVID-19 infections among HCWs exposed to a patient with a delayed diagnosis of COVID-19. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 1075-1076	2	26
196	SEP-1 Has Brought Much Needed Attention to Improving Sepsis Care But Now Is the Time to Improve SEP-1. <i>Critical Care Medicine</i> , 2020 , 48, 779-782	1.4	8
195	Ventilator-associated pneumonia in adults: a narrative review. <i>Intensive Care Medicine</i> , 2020 , 46, 888-906	14.5	114
194	Universal Masking in Hospitals in the Covid-19 Era. <i>New England Journal of Medicine</i> , 2020 , 382, e63	59.2	151
193	A way toward ventilator-associated lower respiratory tract infection research: reply. <i>Intensive Care Medicine</i> , 2020 , 46, 1506-1507	14.5	
192	Using electronic health records to identify candidates for human immunodeficiency virus pre-exposure prophylaxis: An application of super learning to risk prediction when the outcome is rare. <i>Statistics in Medicine</i> , 2020 , 39, 3059-3073	2.3	5
191	Impact of Risk Adjustment Using Clinical vs Administrative Data on Hospital Sepsis Mortality Comparisons. <i>Open Forum Infectious Diseases</i> , 2020 , 7, ofaa213	1	3
190	Sepsis trends: increasing incidence and decreasing mortality, or changing denominator?. <i>Journal of Thoracic Disease</i> , 2020 , 12, S89-S100	2.6	30
189	More Screening or More Disease? Gonorrhea Testing and Positivity Patterns Among Men in 3 Large Clinical Practices in Massachusetts, 2010-2017. <i>Clinical Infectious Diseases</i> , 2020 , 71, e399-e405	11.6	1
188	What is ventilator-associated pneumonia? How do I diagnose it? How do I treat it? 2020 , 325-331.e1		
187	56: EPIDEMIOLOGY, OUTCOMES, AND TRENDS OF SEPSIS IN PATIENTS WITH OPIOID USE DISORDERS IN U.S. HOSPITALS. <i>Critical Care Medicine</i> , 2020 , 48, 28-28	1.4	2

186	Response. <i>Chest</i> , 2020 , 157, 233-234		5.3
185	Observational Bias Within Hospital-Wide Hand Hygiene Program. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, s333-s333		2
184	Population-Level Burden of Delayed or In Vitro Discordant Empiric Antibiotics Among Bacteremic Patients at US Hospitals. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, s44-s45		2
183	Incidence and risk factors of non-device-associated pneumonia in an acute-care hospital. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 73-79	2	9
182	Improvements in Sepsis-associated Mortality in Hospitalized Patients with Cancer versus Those without Cancer. A 12-Year Analysis Using Clinical Data. <i>Annals of the American Thoracic Society</i> , 2020 , 17, 466-473	4.7	13
181	Restarting Essential Surgery in the Era of COVID-19: A Cautious Data Driven Approach Based on the Literature and Local Data. <i>Annals of Surgery</i> , 2020 , 272, e208-e210	7.8	4
180	Surveillance Strategies for Tracking Sepsis Incidence and Outcomes. <i>Journal of Infectious Diseases</i> , 2020 , 222, S74-S83	7	10
179	A Critical Analysis of the Literature on Time-to-Antibiotics in Suspected Sepsis. <i>Journal of Infectious Diseases</i> , 2020 , 222, S110-S118	7	15
178	Prevalence of Clinical Signs Within Reference Ranges Among Hospitalized Patients Prescribed Antibiotics for Pneumonia. <i>JAMA Network Open</i> , 2020 , 3, e2010700	10.4	4
177	Does Severe Acute Respiratory Syndrome Coronavirus 2 Cause Sepsis?. <i>Critical Care Medicine</i> , 2020 , 48, 1707-1709	1.4	9
176	Who Owns Sepsis?. <i>Annals of Internal Medicine</i> , 2020 , 172, 210-211	8	8
175	Coronavirus Disease 2019 (COVID-19): Protecting Hospitals From the Invisible. <i>Annals of Internal Medicine</i> , 2020 , 172, 619-620	8	81
174	Healthcare worker infection with SARS-CoV-2 and test-based return to work. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 1464-1466	2	2
173	Incidence of Nosocomial COVID-19 in Patients Hospitalized at a Large US Academic Medical Center. <i>JAMA Network Open</i> , 2020 , 3, e2020498	10.4	110
172	Effects of daily treatment with acid suppressants for stress ulcer prophylaxis on risk of ventilator-associated events. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 187-193	2	3
171	Accuracy and reliability of electronic versus CDC surveillance criteria for non-ventilator hospital-acquired pneumonia. <i>Infection Control and Hospital Epidemiology</i> , 2020 , 41, 219-221	2	3
170	Current Sepsis Mandates Are Overly Prescriptive, and Some Aspects May Be Harmful. <i>Critical Care Medicine</i> , 2020 , 48, 890-893	1.4	6
169	Prevalence of Antibiotic-Resistant Pathogens in Culture-Proven Sepsis and Outcomes Associated With Inadequate and Broad-Spectrum Empiric Antibiotic Use. <i>JAMA Network Open</i> , 2020 , 3, e202899	10.4	65

168	Diagnosis of ventilator-associated pneumonia in critically ill adult patients-a systematic review and meta-analysis. <i>Intensive Care Medicine</i> , 2020 , 46, 1170-1179	14.5	25
167	Response. <i>Chest</i> , 2020 , 157, 231-232	5.3	
166	Uptake and Accuracy of the Diagnosis Code for COVID-19 Among US Hospitalizations. <i>JAMA - Journal of the American Medical Association</i> , 2020 , 324, 2553-2554	27.4	55
165	Electronic Health Record Use in Public Health Infectious Disease Surveillance, USA, 2018-2019. <i>Current Infectious Disease Reports</i> , 2019 , 21, 32	3.9	10
164	Incidence and risk factors of non-device-associated urinary tract infections in an acute-care hospital. <i>Infection Control and Hospital Epidemiology</i> , 2019 , 40, 1242-1247	2	3
163	Ventilator-Associated Events: What They Are and What They Are Not. <i>Respiratory Care</i> , 2019 , 64, 953-961	1.1	19
162	External Validation of Difficult-to-Treat Resistance Prevalence and Mortality Risk in Gram-Negative Bloodstream Infection Using Electronic Health Record Data From 140 US Hospitals. <i>Open Forum Infectious Diseases</i> , 2019 , 6, ofz110	1	21
161	Barriers to the adoption of ventilator-associated events surveillance and prevention. <i>Clinical Microbiology and Infection</i> , 2019 , 25, 1180-1185	9.5	7
160	Epidemiology of Quick Sequential Organ Failure Assessment Criteria in Undifferentiated Patients and Association With Suspected Infection and Sepsis. <i>Chest</i> , 2019 , 156, 289-297	5.3	26
159	Oral vancomycin prophylaxis during systemic antibiotic exposure to prevent <i>Clostridioides difficile</i> infection relapses. <i>Infection Control and Hospital Epidemiology</i> , 2019 , 40, 662-667	2	16
158	Changes in outpatient antibiotic utilization, 2000-2016: More people are receiving fewer antibiotics. <i>Infection Control and Hospital Epidemiology</i> , 2019 , 40, 372-374	2	0
157	Early Administration of Antibiotics for Suspected Sepsis. <i>New England Journal of Medicine</i> , 2019 , 380, 593-596	59.2	27
156	Prevalence, Underlying Causes, and Preventability of Sepsis-Associated Mortality in US Acute Care Hospitals. <i>JAMA Network Open</i> , 2019 , 2, e187571	10.4	140
155	Sepsis Surveillance Using Adult Sepsis Events Simplified eSOFA Criteria Versus Sepsis-3 Sequential Organ Failure Assessment Criteria. <i>Critical Care Medicine</i> , 2019 , 47, 307-314	1.4	47
154	Hospital Length of Stay With a Proactive Psychiatric Consultation Model in the Medical Intensive Care Unit: A Prospective Cohort Analysis. <i>Psychosomatics</i> , 2019 , 60, 263-270	2.6	7
153	Reply to Al-Hasan and Justo. <i>Clinical Infectious Diseases</i> , 2019 , 68, 1432	11.6	2
152	Development and validation of an automated HIV prediction algorithm to identify candidates for pre-exposure prophylaxis: a modelling study. <i>Lancet HIV</i> , 2019 , 6, e696-e704	7.8	41
151	Development and Assessment of Objective Surveillance Definitions for Nonventilator Hospital-Acquired Pneumonia. <i>JAMA Network Open</i> , 2019 , 2, e1913674	10.4	14

150	Prevention of Intensive Care Unit-Acquired Pneumonia. <i>Seminars in Respiratory and Critical Care Medicine</i> , 2019 , 40, 548-557	3.9	11
149	Temporal Patterns in Chlamydia Repeat Testing in Massachusetts. <i>American Journal of Preventive Medicine</i> , 2019 , 56, 458-463	6.1	6
148	1624. <i>Critical Care Medicine</i> , 2019 , 47, 787	1.4	
147	A National Approach to Pediatric Sepsis Surveillance. <i>Pediatrics</i> , 2019 , 144,	7.4	16
146	Epidemiology of Hospital-Onset Versus Community-Onset Sepsis in U.S. Hospitals and Association With Mortality: A Retrospective Analysis Using Electronic Clinical Data. <i>Critical Care Medicine</i> , 2019 , 47, 1169-1176	1.4	34
145	Variation in Identifying Sepsis and Organ Dysfunction Using Administrative Versus Electronic Clinical Data and Impact on Hospital Outcome Comparisons. <i>Critical Care Medicine</i> , 2019 , 47, 493-500	1.4	28
144	Ramelteon is Not Associated With Improved Outcomes Among Critically Ill Delirious Patients: A Single-Center Retrospective Cohort Study. <i>Psychosomatics</i> , 2019 , 60, 289-297	2.6	5
143	Variability in antimicrobial use in pediatric ventilator-associated events. <i>Infection Control and Hospital Epidemiology</i> , 2019 , 40, 32-39	2	7
142	Using objective clinical data to track progress on preventing and treating sepsis: CDC's new Adult Sepsis Event Surveillance strategy. <i>BMJ Quality and Safety</i> , 2019 , 28, 305-309	5.4	21
141	Medical mistrust in the context of Ebola: Implications for intended care-seeking and quarantine policy support in the United States. <i>Journal of Health Psychology</i> , 2019 , 24, 219-228	3.1	32
140	Infectious Diseases Society of America (IDSA) POSITION STATEMENT: Why IDSA Did Not Endorse the Surviving Sepsis Campaign Guidelines. <i>Clinical Infectious Diseases</i> , 2018 , 66, 1631-1635	11.6	74
139	Quality measurement for infection: turning lemons into lemonade. <i>BMJ Quality and Safety</i> , 2018 , 27, 414-416	5.4	2
138	Difficult-to-Treat Resistance in Gram-negative Bacteremia at 173 US Hospitals: Retrospective Cohort Analysis of Prevalence, Predictors, and Outcome of Resistance to All First-line Agents. <i>Clinical Infectious Diseases</i> , 2018 , 67, 1803-1814	11.6	128
137	Variability in determining sepsis time zero and bundle compliance rates for the centers for medicare and medicaid services SEP-1 measure. <i>Infection Control and Hospital Epidemiology</i> , 2018 , 39, 994-996	2	24
136	Trends in "usual care" for septic shock. <i>Infection Control and Hospital Epidemiology</i> , 2018 , 39, 1125-1126	2	5
135	Rethinking Ventilator Bundles. <i>Critical Care Medicine</i> , 2018 , 46, 1201-1203	1.4	8
134	A Comparison of Early, Late, and No Treatment of Intensive Care Unit Delirium With Antipsychotics: A Retrospective Cohort Study. <i>primary care companion for CNS disorders, The</i> , 2018 , 20,	1.2	4
133	Ceftazidime-avibactam versus meropenem for the treatment of nosocomial pneumonia. <i>Lancet Infectious Diseases, The</i> , 2018 , 18, 229-231	25.5	2

132	Compliance With the National SEP-1 Quality Measure and Association With Sepsis Outcomes: A Multicenter Retrospective Cohort Study. <i>Critical Care Medicine</i> , 2018 , 46, 1585-1591	1.4	69
131	1163. Impact of Difficult-to-Treat Resistance on Survival in Gram-Negative Bacteremia: A Risk-Adjusted Analysis Using Electronic Health Record-based Clinical Data From 140 US Hospitals. <i>Open Forum Infectious Diseases</i> , 2018 , 5, S350-S350	1	78
130	Tackling the Hospital-Acquired Pneumonia Enrollment Paradox. <i>JAMA Network Open</i> , 2018 , 1, e185821	10.4	1
129	What Is the Best Treatment for Vancomycin-Resistant Enterococcal Bloodstream Infections?. <i>Critical Care Medicine</i> , 2018 , 46, 1700-1703	1.4	2
128	Antibiotics for Sepsis-Finding the Equilibrium. <i>JAMA - Journal of the American Medical Association</i> , 2018 , 320, 1433-1434	27.4	87
127	Changes in Rates of Ventilator-Associated Pneumonia-Reply. <i>JAMA - Journal of the American Medical Association</i> , 2017 , 317, 1581-1582	27.4	
126	Reply to Hassoun et al. <i>Clinical Infectious Diseases</i> , 2017 , 64, 1633-1634	11.6	
125	Two-State Collaborative Study of a Multifaceted Intervention to Decrease Ventilator-Associated Events. <i>Critical Care Medicine</i> , 2017 , 45, 1208-1215	1.4	31
124	Reply to Boyer et al. <i>Clinical Infectious Diseases</i> , 2017 , 64, 1803-1804	11.6	5
123	Evolving Insights Into the Epidemiology and Control of Clostridium difficile in Hospitals. <i>Clinical Infectious Diseases</i> , 2017 , 65, 1232-1238	11.6	23
122	Oropharyngeal Decontamination with Antiseptics to Prevent Ventilator-Associated Pneumonia: Rethinking the Benefits of Chlorhexidine. <i>Seminars in Respiratory and Critical Care Medicine</i> , 2017 , 38, 381-390	3.9	22
