Tracy L Finch

List of Publications by Year in Descending Order

83 papers	**5,652** citations
31 h-index	**75** g-index
101 ext. papers	**6,991** ext. citations
4.7 avg, IF	**5.78** L-index

#	Paper	IF	Citations
83	Understanding implementation context and social processes through integrating Normalization Process Theory (NPT) and the Consolidated Framework for Implementation Research (CFIR).. *Implementation Science Communications*, **2022**, 3, 13	2.2	1
82	Telemedicine for Adults With Cochlear Implants in the United Kingdom (CHOICE): Protocol for a Prospective Interventional Multisite Study.. *JMIR Research Protocols*, **2022**, 11, e27207	2	
81	Translational framework for implementation evaluation and research: a normalisation process theory coding manual for qualitative research and instrument development.. *Implementation Science*, **2022**, 17, 19	8.4	0
80	"We couldn't think in the box if we tried. We can't even find the damn box": A qualitative study of the lived experiences of autistic adults and relatives of autistic adults.. *PLoS ONE*, **2022**, 17, e0264932	3.7	1
79	Changing healthcare professionals' non-reflective processes to improve the quality of care.. *Social Science and Medicine*, **2022**, 298, 114840	5.1	0
78	Tailoring and Evaluating an Intervention to Support Self-management After Stroke: Protocol for a Multi-case, Mixed Methods Comparison Study.. *JMIR Research Protocols*, **2022**, 11, e37672	2	
77	Barriers and facilitators to implementing interventions for medically unexplained symptoms in primary and secondary care: A systematic review. *General Hospital Psychiatry*, **2021**, 73, 101-113	5.6	0
76	Opportunities to enhance ward audit: a multi-site qualitative study. *BMC Health Services Research*, **2021**, 21, 226	2.9	0
75	How to improve healthcare for autistic people: A qualitative study of the views of autistic people and clinicians. *Autism*, **2021**, 25, 774-785	6.6	3
74	Economic evaluation of robot-assisted training versus an enhanced upper limb therapy programme or usual care for patients with moderate or severe upper limb functional limitation due to stroke: results from the RATULS randomised controlled trial. *BMJ Open*, **2021**, 11, e042081	3	2
73	Combining Realist approaches and Normalization Process Theory to understand implementation: a systematic review. *Implementation Science Communications*, **2021**, 2, 68	2.2	4
72	Improving the diagnosis and management of Lewy body dementia: the DIAMOND-Lewy research programme including pilot cluster RCT. *Programme Grants for Applied Research*, **2021**, 9, 1-120	1.5	1
71	Introduction of a Management Toolkit for Lewy Body Dementia: A Pilot Cluster-Randomized Trial. *Movement Disorders*, **2021**, 36, 143-151	7	4
70	Evaluation of the enhanced upper limb therapy programme within the Robot-Assisted Training for the Upper Limb after Stroke trial: descriptive analysis of intervention fidelity, goal selection and goal achievement. *Clinical Rehabilitation*, **2021**, 35, 119-134	3.3	6
69	Improving tracheostomy care in the United Kingdom: results of a guided quality improvement programme in 20 diverse hospitals. *British Journal of Anaesthesia*, **2020**, 125, e119-e129	5.4	27
68	Impetus to change: a multi-site qualitative exploration of the national audit of dementia. *Implementation Science*, **2020**, 15, 45	8.4	2
67	Cross-cultural adaptation of the NoMAD questionnaire to Brazilian Portuguese. *Revista Da Associação Médica Brasileira*, **2020**, 66, 1383-1390	1.4	1

66	Robot-assisted training compared with an enhanced upper limb therapy programme and with usual care for upper limb functional limitation after stroke: the RATULS three-group RCT. *Health Technology Assessment*, **2020**, 24, 1-232	4.4	7
65	Normalization Process Theory **2020**, 144-167		6
64	Developing oral health risk assessment as routine practice during early stages of clinical careers: A cross-sectional study of dental students using the NoMAD questionnaire. *European Journal of Dental Education*, **2020**, 24, 169-176	2.5	1
63	Tailored implementation of internet-based cognitive behavioural therapy in the multinational context of the ImpleMentAll project: a study protocol for a stepped wedge cluster randomized trial. *Trials*, **2020**, 21, 893	2.8	10
62	Ways Ahead: developing a supported self-management programme for people living with low- and intermediate-grade gliomas - a protocol for a multi-method study. *BMJ Open*, **2020**, 10, e041465	3	0
61	Implementing innovative evidence-based perinatal mental health screening for women of refugee background. *Women and Birth*, **2020**, 33, e245-e255	3.3	4
60	Robot assisted training for the upper limb after stroke (RATULS): a multicentre randomised controlled trial. *Lancet, The*, **2019**, 394, 51-62	40	149
59	Quality of life for older autistic people: The impact of mental health difficulties. *Research in Autism Spectrum Disorders*, **2019**, 63, 13-22	3	24
58	Acute kidney injury electronic alerts: mixed methods evaluation of their implementation into secondary care, utilising normalisation process theory. *Future Healthcare Journal*, **2019**, 6, 68	0.9	
57	The Year of Care approach: developing a model and delivery programme for care and support planning in long term conditions within general practice. *BMC Family Practice*, **2019**, 20, 153	2.6	4
56	Toward an Objective Assessment of Implementation Processes for Innovations in Health Care: Psychometric Evaluation of the Normalization Measure Development (NoMAD) Questionnaire Among Mental Health Care Professionals. *Journal of Medical Internet Research*, **2019**, 21, e12376	7.6	11
55	Prototyping for public health in a local context: a streamlined evaluation of a community-based weight management programme (Momenta), Northumberland, UK. *BMJ Open*, **2019**, 9, e029718	3	4
54	Acute kidney injury electronic alerts: mixed methods Normalisation Process Theory evaluation of their implementation into secondary care in England. *BMJ Open*, **2019**, 9, e032925	3	3
53	Exploring changes in oral hygiene behaviour in patients with diabetes and periodontal disease: A feasibility study. *International Journal of Dental Hygiene*, **2019**, 17, 55-63	2.6	4
52	Using Normalization Process Theory in feasibility studies and process evaluations of complex healthcare interventions: a systematic review. *Implementation Science*, **2018**, 13, 80	8.4	176
51	Contextualising health screening risk assessments in police custody suites - qualitative evaluation from the HELP-PC study in London, UK. *BMC Public Health*, **2018**, 18, 393	4.1	9
50	How best to assess quality of life in informal carers of people with dementia; A systematic review of existing outcome measures. *PLoS ONE*, **2018**, 13, e0193398	3.7	14
49	Improving Implementation of eMental Health for Mood Disorders in Routine Practice: Systematic Review of Barriers and Facilitating Factors. *JMIR Mental Health*, **2018**, 5, e20	6	82

48	Improving the normalization of complex interventions: part 1 - development of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). *BMC Medical Research Methodology*, **2018**, 18, 133	4.7	48
47	Improving the normalization of complex interventions: part 2 - validation of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). *BMC Medical Research Methodology*, **2018**, 18, 135	4.7	59
46	SP246ACUTE KIDNEY INJURY ELECTRONIC ALERTS: MIXED METHODS NORMALIZATION PROCESS THEORY EVALUATION OF THEIR IMPLEMENTATION INTO SECONDARY CARE. *Nephrology Dialysis Transplantation*, **2018**, 33, i426-i426	4.3	
45	The Swedish version of the Normalization Process Theory Measure S-NoMAD: translation, adaptation, and pilot testing. *Implementation Science*, **2018**, 13, 146	8.4	12
44	Understanding alcohol as an element of 'care practices' in adult White British women's everyday personal relationships: a qualitative study. *BMC Women's Health*, **2018**, 18, 137	2.9	5
43	Exploring the factors affecting the implementation of tobacco and substance use interventions within a secondary school setting: a systematic review. *Implementation Science*, **2017**, 12, 130	8.4	14
42	Robot Assisted Training for the Upper Limb after Stroke (RATULS): study protocol for a randomised controlled trial. *Trials*, **2017**, 18, 340	2.8	19
41	A Flexible Toolkit for Evaluating Person-Centred Digital Health and Wellness at Scale. *Advances in Intelligent Systems and Computing*, **2017**, 105-118	0.4	6
40	[P2312]: WHAT DIFFERENCE DOES IT MAKE? CLINICIAN VIEWS ON DIAGNOSING LEWY BODY DEMENTIA **2017**, 13, P737-P737		
39	Readiness for Delivering Digital Health at Scale: Lessons From a Longitudinal Qualitative Evaluation of a National Digital Health Innovation Program in the United Kingdom. *Journal of Medical Internet Research*, **2017**, 19, e42	7.6	80
38	Successful Implementation of Technological Innovations in Health Care Organizations **2017**, 179-189		4
37	The provision of assistive technology products and services for people with dementia in the United Kingdom. *Dementia*, **2016**, 15, 681-701	3	81
36	Implementation, context and complexity. *Implementation Science*, **2016**, 11, 141	8.4	363
35	Delivering digital health and well-being at scale: lessons learned during the implementation of the dallas program in the United Kingdom. *Journal of the American Medical Informatics Association: JAMIA*, **2016**, 23, 48-59	8.6	43
34	Cognitive-behavioural therapy-based intervention to reduce fear of falling in older people: therapy development and randomised controlled trial - the Strategies for Increasing Independence, Confidence and Energy (STRIDE) study. *Health Technology Assessment*, **2016**, 20, 1-206	4.4	43
33	Implementing a video-based intervention to empower staff members in an autism care organization: a qualitative study. *BMC Health Services Research*, **2016**, 16, 608	2.9	4
32	Successful Implementation of Technological Innovations in Health Care Organizations **2015**, 1-9		
31	The STRIDE (Strategies to Increase confidence, InDependence and Energy) study: cognitive behavioural therapy-based intervention to reduce fear of falling in older fallers living in the community - study protocol for a randomised controlled trial. *Trials*, **2014**, 15, 210	2.8	19

30	Making sense of a cognitive behavioural therapy intervention for fear of falling: qualitative study of intervention development. *BMC Health Services Research*, **2014**, 14, 436	2.9	9
29	Improving the normalization of complex interventions: measure development based on normalization process theory (NoMAD): study protocol. *Implementation Science*, **2013**, 8, 43	8.4	81
28	How should we manage fear of falling in older adults living in the community?. *BMJ, The*, **2013**, 346, f2933	93.9	18
27	Assistive technologies in caring for the oldest old: a review of current practice and future directions. *Aging Health*, **2013**, 9, 365-375		16
26	From theory to 'measurement' in complex interventions: methodological lessons from the development of an e-health normalisation instrument. *BMC Medical Research Methodology*, **2012**, 12, 69	4.7	64
25	Factors that promote or inhibit the implementation of e-health systems: an explanatory systematic review. *Bulletin of the World Health Organization*, **2012**, 90, 357-64	8.2	347
24	Established users and the making of telecare work in long term condition management: implications for health policy. *Social Science and Medicine*, **2011**, 72, 1077-84	5.1	50
23	Integrating telecare for chronic disease management in the community: what needs to be done?. *BMC Health Services Research*, **2011**, 11, 131	2.9	132
22	Evaluating complex interventions and health technologies using normalization process theory: development of a simplified approach and web-enabled toolkit. *BMC Health Services Research*, **2011**, 11, 245	2.9	133
21	Why is it difficult to implement e-health initiatives? A qualitative study. *Implementation Science*, **2011**, 6, 6	8.4	149
20	Genetic testing and research in Lynch Syndrome - is it a choice or a responsibility?. *Hereditary Cancer in Clinical Practice*, **2011**, 9, P6	2.3	1
19	Normalisation process theory: a framework for developing, evaluating and implementing complex interventions. *BMC Medicine*, **2010**, 8, 63	11.4	584
18	Making and Unmaking Telepatients: Identity and Governance in New Health Technologies. *Science Technology and Human Values*, **2009**, 34, 9-33	2.5	67
17	Implementing, Embedding, and Integrating Practices: An Outline of Normalization Process Theory. *Sociology*, **2009**, 43, 535-554	2.6	901
16	Paying for treatments? Influences on negotiating clinical need and decision-making for dental implant treatment. *BMC Health Services Research*, **2009**, 9, 7	2.9	11
15	Development of a theory of implementation and integration: Normalization Process Theory. *Implementation Science*, **2009**, 4, 29	8.4	618
14	Teledermatology for chronic disease management: coherence and normalization. *Chronic Illness*, **2008**, 4, 127-34	1.4	73
13	Future patients? Telehealthcare, roles and responsibilities. *Health and Social Care in the Community*, **2008**, 16, 86-95	2.6	31
