#	Paper	IF	Citations
36	Sexual function after voluntary medical male circumcision for human immunodeficiency virus prevention: Results from a programmatic delivery setting in Botswana. <i>Southern African Journal of HIV Medicine</i> , 2020 , 21, 1042	1.4	1
35	Sexual risk compensation following voluntary medical male circumcision: Results from a prospective cohort study amongst human immunodeficiency virus-negative adult men in Botswana. <i>Southern African Journal of HIV Medicine</i> , 2020 , 21, 1157	1.4	0
34	Voluntary Medical Male Circumcision and Perceived Sexual Functioning, Satisfaction, and Risk Behavior: A Qualitative Study in Botswana. <i>Archives of Sexual Behavior</i> , 2020 , 49, 983-998	3.5	2
33	Early resumption of sex after voluntary medical male circumcision for HIV prevention within a programmatic delivery setting in Botswana. <i>International Journal of STD and AIDS</i> , 2019 , 30, 1275-1283	1.4	1
32	Modifying the health system to maximize voluntary medical male circumcision uptake: a qualitative study in Botswana. <i>HIV/AIDS - Research and Palliative Care</i> , 2018 , 10, 1-8	1.2	2
31	Implementation of a National Workplace Wellness Program for Health Workers in Botswana. <i>Journal of Occupational and Environmental Medicine</i> , 2017 , 59, 867-874	2	35
30	A prospective cohort study of safety and patient satisfaction of voluntary medical male circumcision in Botswana. <i>PLoS ONE</i> , 2017 , 12, e0185904	3.7	5
29	Early resumption of sexual activity following voluntary medical male circumcision in Botswana: A qualitative study. <i>PLoS ONE</i> , 2017 , 12, e0186831	3.7	6
28	Triggering the decision to undergo medical male circumcision: a qualitative study of adult men in Botswana. <i>AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV</i> , 2016 , 28, 1007-12	2.2	8
27	Improving the quality of health information: a qualitative assessment of data management and reporting systems in Botswana. <i>Health Research Policy and Systems</i> , 2014 , 12, 7	3.7	53
26	Continuing professional development training needs of medical laboratory personnel in Botswana. <i>Human Resources for Health</i> , 2014 , 12, 46	4.6	8
25	Maximizing the benefit of health workforce secondment in Botswana: an approach for strengthening health systems in resource-limited settings. <i>Risk Management and Healthcare Policy</i> , 2014 , 7, 91-8	2.8	6
24	Scaling-up voluntary medical male circumcision - what have we learned?. <i>HIV/AIDS - Research and Palliative Care</i> , 2014 , 6, 139-46	1.2	16
23	An innovative educational approach to professional development of medical laboratory scientists in Botswana. <i>Advances in Medical Education and Practice</i> , 2014 , 5, 73-81	1.5	1
22	Strengthening monitoring and evaluation (M&E) and building sustainable health information systems in resource limited countries: lessons learned from an M&E task-shifting initiative in Botswana. <i>BMC Public Health</i> , 2014 , 14, 1032	4.1	15
21	Establishing a health information workforce: innovation for low- and middle-income countries. <i>Human Resources for Health</i> , 2013 , 11, 35	4.6	20
20	Evaluation of a well-established task-shifting initiative: the lay counselor cadre in Botswana. <i>PLoS ONE</i> , 2013 , 8, e61601	3.7	41

19	Accuracy of self-reported energy intakes in low-income urban 4th grade minority children. <i>Obesity</i> , 2010 , 18, 2220-6	8	10
18	ChefsTopinions of restaurant portion sizes. <i>Obesity</i> , 2007 , 15, 2086-94	8	55
17	Reductions in dietary energy density are associated with weight loss in overweight and obese participants in the PREMIER trial. <i>American Journal of Clinical Nutrition</i> , 2007 , 85, 1212-21	7	168
16	Dietary energy density in the treatment of obesity: a year-long trial comparing 2 weight-loss diets. <i>American Journal of Clinical Nutrition</i> , 2007 , 85, 1465-77	7	260
15	A reliable, valid questionnaire indicates that preference for dietary fat declines when following a reduced-fat diet. <i>Appetite</i> , 2007 , 49, 74-83	4.5	53
14	Reductions in Dietary Energy Density as a Weight Management Strategy 2007 , 265-280		2
13	Low-energy-density diets are associated with high diet quality in adults in the United States. <i>Journal of the American Dietetic Association</i> , 2006 , 106, 1172-80		160
12	Dietary energy density is associated with energy intake and weight status in US adults. <i>American Journal of Clinical Nutrition</i> , 2006 , 83, 1362-8	7	322
11	Changing the energy density of the diet as a strategy for weight management. <i>Journal of the American Dietetic Association</i> , 2005 , 105, S98-103		285
10	Dietary energy density determined by eight calculation methods in a nationally representative United States population. <i>Journal of Nutrition</i> , 2005 , 135, 273-8	4.1	227
9	The influence of food portion size and energy density on energy intake: implications for weight management. <i>American Journal of Clinical Nutrition</i> , 2005 , 82, 236S-241S	7	348
8	Portion sizes and the obesity epidemic. <i>Journal of Nutrition</i> , 2005 , 135, 905-9	4.1	200
7	The oral health of older adults: an interdisciplinary mandate. <i>Journal of Gerontological Nursing</i> , 2005 , 31, 11-7	1.2	18
6	The influence of food portion size and energy density on energy intake: implications for weight management. <i>American Journal of Clinical Nutrition</i> , 2005 , 82, 236S-241S	7	16
5	Dietary patterns of rural older adults are associated with weight and nutritional status. <i>Journal of the American Geriatrics Society</i> , 2004 , 52, 589-95	5.6	87
4	Nutritional risk assessment and obesity in rural older adults: a sex difference. <i>American Journal of Clinical Nutrition</i> , 2003 , 77, 551-8	7	68
3	Nutritional Considerations of Older Women. <i>Modern Nutrition</i> , 2003 , 155-181		1
2	Accuracy and Completeness of Diabetes Self-Care Information Detected Searching the Internet. <i>Journal of Nutrition in Gerontology and Geriatrics</i> , 2002 , 22, 1-13		3
