#	ARTICLE	IF	CITATIONS
1	The comparative efficacy of tyloxapol versus pentoxifylline against induced acute phase response in an ovine experimental endotoxemia model. <i>Inflammopharmacology</i> , 2016, 24, 59-64.	3.9	13
2	Anti-inflammatory effects of insulin regular and flunixin meglumine on endotoxemia experimentally induced by <i>Escherichia coli</i> serotype O55:B5 in an ovine model. <i>Inflammation Research</i> , 2013, 62, 61-67.	4.0	12
3	Modulation of inflammatory responses following insulin therapy in experimentally bolus intravenous <i>Escherichia coli</i> lipopolysaccharide serotype O55:B5 induced endotoxemia in Iranian fat-tailed sheep. <i>Small Ruminant Research</i> , 2013, 113, 283-289.	1.2	11
4	The comparative effects of dietary monensin and propylene glycol on insulin resistance of transition dairy cows. <i>Tropical Animal Health and Production</i> , 2020, 52, 1573-1582.	1.4	5
5	Intravenous Administration of Butaphosphan and Cyanocobalamin Combination to Late-Pregnant Dairy Cows Reduces Their Insulin Resistance After Calving. <i>Biological Trace Element Research</i> , 2021, 199, 2191-2200.	3.5	3
6	Evaluating heart electrical activities and cardiac arrhythmias of Holstein cows during ageing by short-term electrocardiography in comparison with 24-hour holter monitoring. <i>Veterinary Medicine and Science</i> , 2021, 7, 843-850.	1.6	3
7	Effects of intravenous butaphosphan and cyanocobalamin to late pregnant ewes on the metabolic indices around parturition and weight gain of their lambs after birth. <i>Veterinary Medicine and Science</i> , 2022, 8, 781-791.	1.6	3
8	Impact of tyloxapol to combat acute phase response in comparison with betamethasone and flunixin meglumine following an ovine experimentally induced endotoxemia model. <i>Veterinary Science Development</i> , 2016, 6, .	0.0	2
9	Unfractionated heparin counteracts the systemic inflammatory responses and multiple organ damages caused by endotoxaemia in sheep. <i>Veterinary Medicine and Science</i> , 2022, , .	1.6	2
10	Alterations of circulating cortisol, IGF-1, and thyroid hormones in Darehshori horses during a year. <i>Turkish Journal of Veterinary and Animal Sciences</i> , 2018, 42, 521-532.	0.5	0
11	Effects of Polymyxin B on Clinical Signs, Serum TNF- α , Haptoglobin and Plasma Lactate Concentrations in Experimental Endotoxaemia in Sheep. <i>Journal of Veterinary Research (Poland)</i> , 2018, 62, 79-85.	1.0	0
12	Low molecular weight heparin reduces acute phase response and multiple organ dysfunction following Ovine experimental endotoxemia model. <i>Veterinary Immunology and Immunopathology</i> , 2022, 243, 110361.	1.2	0
13	Effects of nitroglycerin and flunixin meglumine on circulating inflammatory, cardiovascular and hepatorenal biomarkers of ovine experimental endotoxemia model. <i>Small Ruminant Research</i> , 2022, 207, 106615.	1.2	0
