| #  | ARTICLE                                                                                                                                                                                                          | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | INSTAGRAF 2.0 A LEARNING TOOL. NEW CHALLENGES AND OPPORTUNITIES. INTED Proceedings, 2022, , .                                                                                                                    | 0.0 | 0         |
| 2  | â€œGENYALâ€•Study to Childhood Obesity Prevention: Methodology and Preliminary Results. Frontiers in Nutrition, 2022, 9, 777384.                                                                                 | 1.6 | 0         |
| 3  | BDNF Gene as a Precision Skill of Obesity Management. Advances in Experimental Medicine and Biology, 2021, 1331, 233-248.                                                                                        | 0.8 | 7         |
| 4  | Ranking of a wide multidomain set of predictor variables of children obesity by machine learning variable importance techniques. Scientific Reports, 2021, 11, 1910.                                             | 1.6 | 16        |
| 5  | INSTAGRAF: A NEW TOOL MIXING INFOGRAPHICS AND SOCIAL MEDIA NETWORKS TO STIMULATE GROUP WORK AND VISUAL LEARNING. , 2021, , .                                                                                     |     | 0         |
| 6  | A Potential Endurance Algorithm Prediction in the Field of Sports Performance. Frontiers in Genetics, 2020, 11, 711.                                                                                             | 1.1 | 2         |
| 7  | Food Implications in Central Sensitization Syndromes. Journal of Clinical Medicine, 2020, 9, 4106.                                                                                                               | 1.0 | 6         |
| 8  | The Q223R Polymorphism of the Leptin Receptor Gene as a Predictor of Weight Gain in Childhood Obesity and the Identification of Possible Factors Involved. Genes, 2020, 11, 560.                                 | 1.0 | 7         |
| 9  | Polymorphic Appetite Effects on Waist Circumference Depend on rs3749474 CLOCK Gene Variant. Nutrients, 2020, 12, 1846.                                                                                           | 1.7 | 7         |
| 10 | Polymorphism of CLOCK Gene rs3749474 as a Modulator of the Circadian Evening Carbohydrate Intake Impact on Nutritional Status in an Adult Sample. Nutrients, 2020, 12, 1142.                                     | 1.7 | 8         |
| 11 | GCKR rs780094 Polymorphism as A Genetic Variant Involved in Physical Exercise. Genes, 2019, 10, 570.                                                                                                             | 1.0 | 8         |
| 12 | Tolerability and Safety of a Nutritional Supplement with Potential as Adjuvant in Colorectal Cancer Therapy: A Randomized Trial in Healthy Volunteers. Nutrients, 2019, 11, 2001.                                | 1.7 | 13        |
| 13 | Deciphering the Human Gut Microbiome of Urolithin Metabotypes: Association with Enterotypes and Potential Cardiometabolic Health Implications. Molecular Nutrition and Food Research, 2019, 63, e1800958.        | 1.5 | 97        |
| 14 | Association of calcium and dairy product consumption with childhood obesity and the presence of a Brain Derived Neurotropic Factor-Antisense (BDNF-AS) polymorphism. Clinical Nutrition, 2019, 38, 2616-2622.    | 2.3 | 14        |
| 15 | Characteristics and determinants of dietary intake and physical activity in a group of patients with multiple chemical sensitivity. EndocrinologÃa Diabetes Y NutriciÃ³n (English Ed ), 2018, 65, 564-570.       | 0.1 | 2         |
| 16 | CaracterÃsticas y condicionantes de la ingesta dietÃ©tica y actividad fÃsica en un grupo de pacientes diagnosticados de sensibilidad quÃmica mÃltiple. EndocrinologÃa, Diabetes Y NutriciÃ³n, 2018, 65, 564-570. | 0.1 | 6         |
| 17 | The gut microbiota urolithin metabotypes revisited: the human metabolism of ellagic acid is mainly determined by aging. Food and Function, 2018, 9, 4100-4106.                                                   | 2.1 | 119       |
| 18 | Sensibilidad quÃmica mÃltiple: caracterizaciÃ³n genotÃpica, estado nutricional y calidad de vida de 52 pacientes. Medicina ClÃnica, 2017, 149, 141-146.                                                          | 0.3 | 15        |

| #  | ARTICLE                                                                                                                                                                                                                                | IF  | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Multiple chemical sensitivity: Genotypic characterization, nutritional status and quality of life in 52 patients. <i>Medicina Clínica (English Edition)</i> , 2017, 149, 141-146.                                                      | 0.1 | 11        |
| 20 | Dietary Strategies Implicated in the Prevention and Treatment of Metabolic Syndrome. <i>International Journal of Molecular Sciences</i> , 2016, 17, 1877.                                                                              | 1.8 | 126       |
| 21 | Polymorphism in the CLOCK gene may influence the effect of fat intake reduction on weight loss. <i>Nutrition</i> , 2016, 32, 453-460.                                                                                                  | 1.1 | 19        |
| 22 | Cardiovascular Fitness and Energy Expenditure Response during a Combined Aerobic and Circuit Weight Training Protocol. <i>PLoS ONE</i> , 2016, 11, e0164349.                                                                           | 1.1 | 13        |
| 23 | One-week administration of hydroxytyrosol to humans does not activate Phase II enzymes. <i>Pharmacological Research</i> , 2015, 95-96, 132-137.                                                                                        | 3.1 | 54        |
| 24 | A genetic variant of PPARA modulates cardiovascular risk biomarkers after milk consumption. <i>Nutrition</i> , 2014, 30, 1144-1150.                                                                                                    | 1.1 | 9         |
| 25 | Nutritional and Functional Properties of Edible Mushrooms: A Food with Promising Health Claims. <i>Journal of Pharmacy and Nutrition Sciences (discontinued)</i> , 2014, 4, 187-198.                                                   | 0.2 | 15        |
| 26 | Effect of different exercise modalities plus a hypocaloric diet on inflammation markers in overweight patients: A randomised trial. <i>Clinical Nutrition</i> , 2013, 32, 511-518.                                                     | 2.3 | 19        |
| 27 | A pilot study of folic acid supplementation for improving homocysteine levels, cognitive and depressive status in eating disorders. <i>Nutricion Hospitalaria</i> , 2013, 28, 807-15.                                                  | 0.2 | 14        |
| 28 | Evaluation of the usefulness of a low-calorie diet with or without bread in the treatment of overweight/obesity. <i>Clinical Nutrition</i> , 2012, 31, 455-461.                                                                        | 2.3 | 6         |
| 29 | PP210-MON SAFETY EVALUATION OF THE DAILY INTAKE OF A DAIRY PRODUCT WITH CLA (C9-T11/T10-C12, 50%) IN OVERWEIGHT TYPE II PATIENTS. <i>Clinical Nutrition Supplements</i> , 2011, 6, 193-194.                                            | 0.0 | 0         |
| 30 | Evaluation of a Lifestyle Modification Program for Treatment of Overweight and Nonmorbid Obesity in Primary Healthcare and Its Influence on Health-Related Quality of Life. <i>Nutrition in Clinical Practice</i> , 2011, 26, 316-321. | 1.1 | 21        |
| 31 | Importance of a balanced omega 6/omega 3 ratio for the maintenance of health: nutritional recommendations. <i>Nutricion Hospitalaria</i> , 2011, 26, 323-9.                                                                            | 0.2 | 218       |
| 32 | Impact of two low-calorie meals with and without bread on the sensation of hunger, satiety and amount of food consumed. <i>Nutricion Hospitalaria</i> , 2011, 26, 1155-60.                                                             | 0.2 | 5         |
| 33 | Tratamientos «alternativos» de la obesidad: mito y realidad. <i>Medicina Clínica</i> , 2003, 121, 500-510.                                                                                                                             | 0.3 | 4         |
