

# Laura T Germine

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/1768511/laura-t-germine-publications-by-year.pdf>

**Version:** 2024-04-09

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

87 papers	3,626 citations	27 h-index	60 g-index
97 ext. papers	4,526 ext. citations	5.3 avg, IF	5.77 L-index

#	Paper	IF	Citations
87	Neurocognition after motor vehicle collision and adverse post-traumatic neuropsychiatric sequelae within 8 weeks: Initial findings from the AURORA study. <i>Journal of Affective Disorders</i> , <b>2022</b> , 298, 57-67	6.6	1
86	Evaluating the Reliability and Validity of the Famous Faces Doppelgangers Test, a Novel Measure of Familiar Face Recognition.. <i>Assessment</i> , <b>2022</b> , 10731911221087746	3.7	
85	The role of intraindividual cognitive variability in posttraumatic stress syndromes and cognitive aging: a literature search and proposed research agenda. <i>International Psychogeriatrics</i> , <b>2021</b> , 33, 677-687	3.4	3
84	Prior histories of posttraumatic stress disorder and major depression and their onset and course in the three months after a motor vehicle collision in the AURORA study. <i>Depression and Anxiety</i> , <b>2021</b> , 36, 100-107	8.4	1
83	Brain-Based Biotypes of Psychiatric Vulnerability in the Acute Aftermath of Trauma. <i>American Journal of Psychiatry</i> , <b>2021</b> , 178, 1037-1049	11.9	5
82	Technology meets tradition: a hybrid model for implementing digital tools in neuropsychology. <i>International Review of Psychiatry</i> , <b>2021</b> , 33, 382-393	3.6	6
81	Socio-demographic and trauma-related predictors of PTSD within 8 weeks of a motor vehicle collision in the AURORA study. <i>Molecular Psychiatry</i> , <b>2021</b> , 26, 3108-3121	15.1	6
80	Cognitive test scores vary with choice of personal digital device. <i>Behavior Research Methods</i> , <b>2021</b> , 53, 2544-2557	6.1	4
79	How do we measure attention? Using factor analysis to establish construct validity of neuropsychological tests. <i>Cognitive Research: Principles and Implications</i> , <b>2021</b> , 6, 51	2.7	3
78	Variable rather than extreme slow reaction times distinguish brain states during sustained attention. <i>Scientific Reports</i> , <b>2021</b> , 11, 14883	4.9	1
77	Toward dynamic phenotypes and the scalable measurement of human behavior. <i>Neuropsychopharmacology</i> , <b>2021</b> , 46, 209-216	8.7	6
76	Construct validity, ecological validity and acceptance of self-administered online neuropsychological assessment in adults. <i>Clinical Neuropsychologist</i> , <b>2021</b> , 35, 148-164	4.4	8
75	Prior sleep problems and adverse post-traumatic neuropsychiatric sequelae of motor vehicle collision in the AURORA study. <i>Sleep</i> , <b>2021</b> , 44,	1.1	6
74	Prognostic neuroimaging biomarkers of trauma-related psychopathology: resting-state fMRI shortly after trauma predicts future PTSD and depression symptoms in the AURORA study. <i>Neuropsychopharmacology</i> , <b>2021</b> , 46, 1263-1271	8.7	7
73	Comparability of social anhedonia across epidemiological dimensions: A multinational study of measurement invariance of the Revised Social Anhedonia Scale. <i>Psychological Assessment</i> , <b>2021</b> , 33, 171-179	5.3	3
72	Classification and Prediction of Post-Trauma Outcomes Related to PTSD Using Circadian Rhythm Changes Measured via Wrist-Worn Research Watch in a Large Longitudinal Cohort. <i>IEEE Journal of Biomedical and Health Informatics</i> , <b>2021</b> , 25, 2866-2876	7.2	2
71	Human talent and career development: Distinct cognitive profiles of STEM versus non-STEM professionals and college majors. <i>Journal of Vision</i> , <b>2021</b> , 21, 2393	0.4	

70	Web-Based Assessment of Visuospatial Processing Speed Across the Lifespan. <i>Journal of Vision</i> , <b>2021</b> , 21, 2768	0.4	
69	Development and Validation of a Model to Predict Posttraumatic Stress Disorder and Major Depression After a Motor Vehicle Collision. <i>JAMA Psychiatry</i> , <b>2021</b> , 78, 1228-1237	14.5	3
68	Thalamic volume and fear extinction interact to predict acute posttraumatic stress severity. <i>Journal of Psychiatric Research</i> , <b>2021</b> , 141, 325-332	5.2	2
67	A prospective examination of sex differences in posttraumatic autonomic functioning. <i>Neurobiology of Stress</i> , <b>2021</b> , 15, 100384	7.6	3
66	The TestMyBrain Digital Neuropsychology Toolkit: Development and Psychometric Characteristics.. <i>Journal of Clinical and Experimental Neuropsychology</i> , <b>2021</b> , 1-10	2.1	0
65	Individual differences in trust evaluations are shaped mostly by environments, not genes. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , <b>2020</b> , 117, 10218-10224	11.5	27
64	Heterogeneous Indicators of Cognitive Performance and Performance Variability Across the Lifespan. <i>Frontiers in Aging Neuroscience</i> , <b>2020</b> , 12, 62	5.3	6
63	Higher integration scores are associated with facial emotion perception differences in dissociative identity disorder. <i>Journal of Psychiatric Research</i> , <b>2020</b> , 123, 164-170	5.2	1
62	Risk factors for loneliness: The high relative importance of age versus other factors. <i>PLoS ONE</i> , <b>2020</b> , 15, e0229087	3.7	33
61	Childhood Adversity and Dimensional Variations in Adult Sustained Attention. <i>Frontiers in Psychology</i> , <b>2020</b> , 11, 691	3.4	5
60	How do we measure attention? Visual cognition meets neuropsychology. <i>Journal of Vision</i> , <b>2020</b> , 20, 537	0.4	
59	Toward a Science of Effect Size Perception: the Case of Introductory Psychology Textbooks. <i>Journal of Vision</i> , <b>2020</b> , 20, 1185	0.4	
58	A Short, Valid, and Flexible Web-Based Screener for Mild Cognitive Impairment. <i>Innovation in Aging</i> , <b>2020</b> , 4, 272-272	0.1	78
57	Social anhedonia, social networks, and psychotic-like experiences: A test of social deafferentation. <i>Psychiatry Research</i> , <b>2020</b> , 284, 112682	9.9	8
56	The AURORA Study: a longitudinal, multimodal library of brain biology and function after traumatic stress exposure. <i>Molecular Psychiatry</i> , <b>2020</b> , 25, 283-296	15.1	38
55	Serum oxytocin levels are elevated in body dysmorphic disorder and related to severity of psychopathology. <i>Psychoneuroendocrinology</i> , <b>2020</b> , 113, 104541	5	
54	Simulation and social behavior: an fMRI study of neural processing during simulation in individuals with and without risk for psychosis. <i>Social Cognitive and Affective Neuroscience</i> , <b>2020</b> , 15, 165-174	4	1
53	Use of Geosocial Networking Applications Is Associated With Compulsive Sexual Behavior Disorder in an Online Sample. <i>Journal of Sexual Medicine</i> , <b>2020</b> , 17, 1574-1578	1.1	4

52	Exposure to early childhood maltreatment and its effect over time on social cognition. <i>Development and Psychopathology</i> , <b>2020</b> , 1-11	4.3	4
51	Reply to Cook and Over: Social learning and evolutionary mechanisms are not mutually exclusive. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , <b>2020</b> , 117, 16114-16115 <sup>11.5</sup>		3
50	Depression severity is associated with impaired facial emotion processing in a large international sample. <i>Journal of Affective Disorders</i> , <b>2020</b> , 275, 175-179	6.6	3
49	Socio-demographic and trauma-related predictors of depression within eight weeks of motor vehicle collision in the AURORA study. <i>Psychological Medicine</i> , <b>2020</b> , 1-14	6.9	9
48	Social cognition or social class and culture? On the interpretation of differences in social cognitive performance. <i>Psychological Medicine</i> , <b>2020</b> , 50, 133-145	6.9	23
47	Risk factors for loneliness: The high relative importance of age versus other factors <b>2020</b> , 15, e0229087		
46	Risk factors for loneliness: The high relative importance of age versus other factors <b>2020</b> , 15, e0229087		
45	Risk factors for loneliness: The high relative importance of age versus other factors <b>2020</b> , 15, e0229087		
44	Risk factors for loneliness: The high relative importance of age versus other factors <b>2020</b> , 15, e0229087		
43	Emotion sensitivity and self-reported symptoms of generalized anxiety disorder across the lifespan: A population-based sample approach. <i>Brain and Behavior</i> , <b>2019</b> , 9, e01282	3.4	19
42	The network structure of schizotypal personality traits in a population-based sample. <i>Schizophrenia Research</i> , <b>2019</b> , 208, 258-267	3.6	12
41	Self-reported face recognition is highly valid, but alone is not highly discriminative of prosopagnosia-level performance on objective assessments. <i>Behavior Research Methods</i> , <b>2019</b> , 51, 1102-1116 <sup>6.1</sup>		15
40	Emotion sensitivity across the lifespan: Mapping clinical risk periods to sensitivity to facial emotion intensity. <i>Journal of Experimental Psychology: General</i> , <b>2019</b> , 148, 1993-2005	4.7	26
39	Gender Differences in Familiar Face Recognition and the Influence of Sociocultural Gender Inequality. <i>Scientific Reports</i> , <b>2019</b> , 9, 17884	4.9	7
38	Digital neuropsychology: Challenges and opportunities at the intersection of science and software. <i>Clinical Neuropsychologist</i> , <b>2019</b> , 33, 271-286	4.4	43
37	Clinically significant cognitive impairment in older adults with type 1 diabetes. <i>Journal of Diabetes and Its Complications</i> , <b>2019</b> , 33, 91-97	3.2	34
36	Weak dorsolateral prefrontal response to social criticism predicts worsened mood and symptoms following social conflict in people at familial risk for schizophrenia. <i>NeuroImage: Clinical</i> , <b>2018</b> , 18, 40-50 <sup>5.3</sup>		4
35	Sensitivity to stimulus similarity is associated with greater sustained attention ability. <i>Attention, Perception, and Psychophysics</i> , <b>2018</b> , 80, 1390-1408	2	9

34	Digital devices and continuous telemetry: opportunities for aligning psychiatry and neuroscience. <i>Neuropsychopharmacology</i> , <b>2018</b> , 43, 2499-2503	8.7	20
33	Common social cognitive impairments do not mean common causes: A commentary on Cotter et al. (2018). <i>Neuroscience and Biobehavioral Reviews</i> , <b>2018</b> , 92, 150-151	9	3
32	Epidemiological Dimensions of Social Anhedonia. <i>Clinical Psychological Science</i> , <b>2018</b> , 6, 735-743	6	18
31	How generalizable is the inverse relationship between social class and emotion perception?. <i>PLoS ONE</i> , <b>2018</b> , 13, e0205949	3.7	4
30	Global/local processing style: Explaining the relationship between trait anxiety and binge eating. <i>International Journal of Eating Disorders</i> , <b>2017</b> , 50, 1264-1272	6.3	6
29	Estimating treatment coverage for people with substance use disorders: an analysis of data from the World Mental Health Surveys. <i>World Psychiatry</i> , <b>2017</b> , 16, 299-307	14.4	98
28	Dispelling the Myth: Training in Education or Neuroscience Decreases but Does Not Eliminate Beliefs in Neuromyths. <i>Frontiers in Psychology</i> , <b>2017</b> , 8, 1314	3.4	84
27	Where do cognitive limitations come from and why do we care? The divergent cases of visual working memory storage and approximate number sense acuity. <i>Journal of Vision</i> , <b>2017</b> , 17, 857	0.4	
26	Association between polygenic risk for schizophrenia, neurocognition and social cognition across development. <i>Translational Psychiatry</i> , <b>2016</b> , 6, e924	8.6	45
25	Multiple object tracking predicts math potential. <i>Journal of Vision</i> , <b>2016</b> , 16, 421	0.4	3
24	Gender Differences in Sustained Attentional Control Relate to Gender Inequality across Countries. <i>PLoS ONE</i> , <b>2016</b> , 11, e0165100	3.7	21
23	When does cognitive functioning peak? The asynchronous rise and fall of different cognitive abilities across the life span. <i>Psychological Science</i> , <b>2015</b> , 26, 433-43	7.9	299
22	Individual Aesthetic Preferences for Faces Are Shaped Mostly by Environments, Not Genes. <i>Current Biology</i> , <b>2015</b> , 25, 2684-9	6.3	60
21	Sustained Attention Across the Life Span in a Sample of 10,000: Dissociating Ability and Strategy. <i>Psychological Science</i> , <b>2015</b> , 26, 1497-510	7.9	115
20	Childhood Adversity Is Associated with Adult Theory of Mind and Social Affiliation, but Not Face Processing. <i>PLoS ONE</i> , <b>2015</b> , 10, e0129612	3.7	65
19	Face recognition: a model specific ability. <i>Frontiers in Human Neuroscience</i> , <b>2014</b> , 8, 769	3.3	22
18	Psychosis-proneness and the rubber hand illusion of body ownership. <i>Psychiatry Research</i> , <b>2013</b> , 207, 45-52	9.9	62
17	Face recognition ability matures late: evidence from individual differences in young adults. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , <b>2013</b> , 39, 1212-7	2.6	33

16	Is the Web as good as the lab? Comparable performance from Web and lab in cognitive/perceptual experiments. <i>Psychonomic Bulletin and Review</i> , <b>2012</b> , 19, 847-57	4.1	344
15	Number sense across the lifespan as revealed by a massive Internet-based sample. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , <b>2012</b> , 109, 11116-20	11.5	325
14	Capturing specific abilities as a window into human individuality: the example of face recognition. <i>Cognitive Neuropsychology</i> , <b>2012</b> , 29, 360-92	2.3	79
13	Social anhedonia is associated with neural abnormalities during face emotion processing. <i>NeuroImage</i> , <b>2011</b> , 58, 935-45	7.9	66
12	A new selective developmental deficit: Impaired object recognition with normal face recognition. <i>Cortex</i> , <b>2011</b> , 47, 598-607	3.8	40
11	Where cognitive development and aging meet: face learning ability peaks after age 30. <i>Cognition</i> , <b>2011</b> , 118, 201-10	3.5	247
10	Face emotion recognition is related to individual differences in psychosis-proneness. <i>Psychological Medicine</i> , <b>2011</b> , 41, 937-47	6.9	52
9	Human face recognition ability is specific and highly heritable. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , <b>2010</b> , 107, 5238-41	11.5	347
8	Response to Thomas: Is human face recognition ability entirely genetic?. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , <b>2010</b> , 107, E101-E101	11.5	7
7	Neural activity during social signal perception correlates with self-reported empathy. <i>Brain Research</i> , <b>2010</b> , 1308, 100-13	3.7	138
6	Normal gaze discrimination and adaptation in seven prosopagnosics. <i>Neuropsychologia</i> , <b>2009</b> , 47, 2029-36	3.2	20
5	Mentalizing about emotion and its relationship to empathy. <i>Social Cognitive and Affective Neuroscience</i> , <b>2008</b> , 3, 204-17	4	161
4	Family resemblance: ten family members with prosopagnosia and within-class object agnosia. <i>Cognitive Neuropsychology</i> , <b>2007</b> , 24, 419-30	2.3	271
3	Amygdala response to facial expressions reflects emotional learning. <i>Journal of Neuroscience</i> , <b>2006</b> , 26, 8915-22	6.6	74
2	Digital Cognitive Assessment: Results from the TestMyBrain NIMH Research Domain Criteria (RDoC) Field Test Battery Report		9
1	Generalized Anxiety Disorder Symptoms are Higher Among Same- and Both-Sex Attracted Individuals in a Large, International Sample. <i>Sexuality Research and Social Policy</i> , 1	2.1
