

List of Publications by Citations

Source: <https://exaly.com/author-pdf/1775021/ciara-mccabe-publications-by-citations.pdf>
Version: 2024-04-09

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

43 papers	2,066 citations	24 h-index	45 g-index
48 ext. papers	2,325 ext. citations	4.6 avg, IF	5.26 L-index

#	Paper	IF	Citations
43	Diminished neural processing of aversive and rewarding stimuli during selective serotonin reuptake inhibitor treatment. <i>Biological Psychiatry</i> , 2010 , 67, 439-45	7.9	226
42	Neural representation of reward in recovered depressed patients. <i>Psychopharmacology</i> , 2009 , 205, 667-77	7.7	197
41	Cognitive influences on the affective representation of touch and the sight of touch in the human brain. <i>Social Cognitive and Affective Neuroscience</i> , 2008 , 3, 97-108	4	172
40	Umami: a delicious flavor formed by convergence of taste and olfactory pathways in the human brain. <i>European Journal of Neuroscience</i> , 2007 , 25, 1855-64	3.5	168
39	Increased neural processing of rewarding and aversive food stimuli in recovered anorexia nervosa. <i>Biological Psychiatry</i> , 2011 , 70, 736-743	7.9	164
38	Antidepressant medications reduce subcortical-cortical resting-state functional connectivity in healthy volunteers. <i>NeuroImage</i> , 2011 , 57, 1317-23	7.9	155
37	Enhanced affective brain representations of chocolate in cravers vs. non-cravers. <i>European Journal of Neuroscience</i> , 2007 , 26, 1067-76	3.5	143
36	Neural processing of reward and punishment in young people at increased familial risk of depression. <i>Biological Psychiatry</i> , 2012 , 72, 588-94	7.9	122
35	Increased resting state functional connectivity in the default mode network in recovered anorexia nervosa. <i>Human Brain Mapping</i> , 2014 , 35, 483-91	5.9	82
34	Reduced neural response to reward following 7 days treatment with the cannabinoid CB1 antagonist rimonabant in healthy volunteers. <i>International Journal of Neuropsychopharmacology</i> , 2010 , 13, 1103-13	5.8	67
33	Assessment of the relative reinforcing strength of cocaine in socially housed monkeys using a choice procedure. <i>Journal of Pharmacology and Experimental Therapeutics</i> , 2005 , 312, 96-102	4.7	49
32	Satiation attenuates BOLD activity in brain regions involved in reward and increases activity in dorsolateral prefrontal cortex: an fMRI study in healthy volunteers. <i>American Journal of Clinical Nutrition</i> , 2015 , 101, 697-704	7	44
31	Opposing neural effects of naltrexone on food reward and aversion: implications for the treatment of obesity. <i>Psychopharmacology</i> , 2014 , 231, 4323-35	4.7	36
30	The D2 antagonist sulpiride modulates the neural processing of both rewarding and aversive stimuli in healthy volunteers. <i>Psychopharmacology</i> , 2011 , 217, 271-8	4.7	35
29	Neural effects of cannabinoid CB1 neutral antagonist tetrahydrocannabivarin on food reward and aversion in healthy volunteers. <i>International Journal of Neuropsychopharmacology</i> , 2014 , 18,	5.8	34
28	Blunted neural response to anticipation, effort and consummation of reward and aversion in adolescents with depression symptomatology. <i>Journal of Psychopharmacology</i> , 2017 , 31, 303-311	4.6	32
27	Subtype-selective GABAergic drugs facilitate extinction of mouse operant behaviour. <i>Neuropharmacology</i> , 2004 , 46, 171-8	5.5	30

26	Anhedonia and depression severity dissociated by dmPFC resting-state functional connectivity in adolescents. <i>Journal of Psychopharmacology</i> , 2018 , 32, 1067-1074	4.6	30
25	Neural responses to emotional faces in women recovered from anorexia nervosa. <i>Psychiatry Research - Neuroimaging</i> , 2012 , 201, 190-5	2.9	29
24	NK1 receptor antagonism and the neural processing of emotional information in healthy volunteers. <i>International Journal of Neuropsychopharmacology</i> , 2009 , 12, 1261-74	5.8	26
23	Understanding anhedonia: a qualitative study exploring loss of interest and pleasure in adolescent depression. <i>European Child and Adolescent Psychiatry</i> , 2020 , 29, 489-499	5.5	25
22	Serotonergic activity influences the cognitive appraisal of close intimate relationships in healthy adults. <i>Biological Psychiatry</i> , 2011 , 69, 720-5	7.9	24
21	Effects of drugs that potentiate GABA on extinction of positively-reinforced operant behaviour. <i>Neuroscience and Biobehavioral Reviews</i> , 2004 , 28, 229-38	9	24
20	Decreased anticipated pleasure correlates with increased salience network resting state functional connectivity in adolescents with depressive symptomatology. <i>Journal of Psychiatric Research</i> , 2016 , 82, 40-7	5.2	24
19	Increased social anhedonia and reduced helping behaviour in young people with high depressive symptomatology. <i>Journal of Affective Disorders</i> , 2016 , 205, 372-377	6.6	22
18	The CB1 Neutral Antagonist Tetrahydrocannabivarin Reduces Default Mode Network and Increases Executive Control Network Resting State Functional Connectivity in Healthy Volunteers. <i>International Journal of Neuropsychopharmacology</i> , 2015 , 19,	5.8	22
17	Linking anhedonia symptoms with behavioural and neural reward responses in adolescent depression. <i>Current Opinion in Behavioral Sciences</i> , 2018 , 22, 143-151	4	12
16	Effects of pramipexole on the processing of rewarding and aversive taste stimuli. <i>Psychopharmacology</i> , 2013 , 228, 283-90	4.7	12
15	Impaired social learning predicts reduced real-life motivation in individuals with depression: A computational fMRI study. <i>Journal of Affective Disorders</i> , 2020 , 263, 698-706	6.6	10
14	Bupropion Administration Increases Resting-State Functional Connectivity in Dorso-Medial Prefrontal Cortex. <i>International Journal of Neuropsychopharmacology</i> , 2017 , 20, 455-462	5.8	9
13	Neural signals of intensity about not wanting or liking rewards may be trait markers for depression. <i>Journal of Psychopharmacology</i> , 2016 , 30, 1020-7	4.6	9
12	What Role Does the Prefrontal Cortex Play in the Processing of Negative and Positive Stimuli in Adolescent Depression?. <i>Brain Sciences</i> , 2019 , 9,	3.4	7
11	Social Reinforcement Learning as a Predictor of Real-Life Experiences in Individuals with High and Low Depressive Symptomatology		4
10	Increased anticipatory but decreased consummatory brain responses to food in sisters of anorexia nervosa patients. <i>BJPsych Open</i> , 2016 , 2, 255-261	5	4
9	Dimensional anhedonia and the adolescent brain: reward and aversion anticipation, effort and consummation. <i>BJPsych Open</i> , 2019 , 5, e99	5	4

8	Social reinforcement learning as a predictor of real-life experiences in individuals with high and low depressive symptomatology. <i>Psychological Medicine</i> , 2021 , 51, 408-415	6.9	4
7	Can Understanding Reward Help Illuminate Anhedonia?. <i>Current Behavioral Neuroscience Reports</i> , 2019 , 6, 236-242	1.7	2
6	Investigating subtypes of reward processing deficits as trait markers for depression. <i>Translational Developmental Psychiatry</i> , 2015 , 3, 27517		2
5	Effects of serotonin and dopamine depletion on neural prediction computations during social learning. <i>Neuropsychopharmacology</i> , 2020 , 45, 1431-1437	8.7	1
4	Investigating the Predictive Value of Functional MRI to Appetitive and Aversive Stimuli: A Pattern Classification Approach. <i>PLoS ONE</i> , 2016 , 11, e0165295	3.7	1
3	Development and validation of a new adolescent self-report scale to measure loss of interest and pleasure: The Anhedonia Scale for Adolescents. <i>Psychological Assessment</i> , 2021 , 33, 201-217	5.3	1
2	A qualitative study exploring adolescents' experience of brief behavioural activation for depression and its impact on the symptom of anhedonia. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2021 , 94, 266-288	3.5	1
1	Reply to: Punishing Food: What Brain Activity Can Tell Us About the Representation of Food in Recovered Anorexia Nervosa. <i>Biological Psychiatry</i> , 2012 , 71, e33	7.9
