citing authors

#	ARTICLE	IF	CITATIONS
1	Causes of delay in offshore wind turbine construction projects. <i>Production Planning and Control</i> , 2023, 34, 1513-1526.	5.8	5
2	Ranking and comparing key factors causing time-overruns in on-site construction. <i>International Journal of Construction Management</i> , 2022, 22, 2724-2730.	2.2	11
3	Learning to see value-adding and non-value-adding work time in renovation production systems. <i>Production Planning and Control</i> , 2022, 33, 790-802.	5.8	12
4	What can be learned from variability in offshore wind projects. <i>Energy Strategy Reviews</i> , 2022, 39, 100794.	3.3	4
5	Application of Last Planner System to Modular Offshore Wind Construction. <i>Journal of Construction Engineering and Management - ASCE</i> , 2020, 146, .	2.0	14
6	Construction resource efficiency improvement by Long Range Wide Area Network tracking and monitoring. <i>Automation in Construction</i> , 2020, 116, 103245.	4.8	33
7	Determining the Relationship between Direct Work and Construction Labor Productivity in North America: Four Decades of Insights. <i>Journal of Construction Engineering and Management - ASCE</i> , 2020, 146, .	2.0	25
8	Feedback Loopâ€™The Missing Link in Activity Analysis. <i>Lecture Notes in Mechanical Engineering</i> , 2020, , 459-470.	0.3	3
9	Continuous Improvements at Operator Level. <i>Journal of Engineering, Project, and Production Management</i> , 2020, 10, 64-70.	0.5	6
10	Categorization of offshore wind production system. <i>International Journal of Operational Research</i> , 2020, 1, 1.	0.1	1
11	Combining Takt and Deming Cycles at Operator Levelâ€™Practical Study. <i>Lecture Notes in Mechanical Engineering</i> , 2020, , 623-632.	0.3	1
12	Selecting the right collaborative components in a construction project. <i>International Journal of Project Organisation and Management</i> , 2019, 11, 65.	0.0	1
13	Towards Developing a Framework for User-Driven Innovation in Refurbishment. <i>Emerald Reach Proceedings Series</i> , 2019, , 427-435.	0.2	2
14	Impact of Activity Sequencing on Reducing Variability. <i>Journal of Construction Engineering and Management - ASCE</i> , 2019, 145, .	2.0	14
15	Key mechanisms for employee-driven innovation in governmental client organisations. <i>International Journal of Entrepreneurship and Innovation Management</i> , 2018, 22, 427.	0.1	4
16	Key mechanisms for employee-driven innovation in governmental client organisations. <i>International Journal of Entrepreneurship and Innovation Management</i> , 2018, 22, 427.	0.1	1
17	Reducing Variability of Workforce as a Tool to Improve Plan Reliability. <i>Procedia Engineering</i> , 2017, 172, 969-976.	1.2	1
18	Facilitating Industrial Placement in the Construction Engineering Curriculum. , 2016, , .		0

#	ARTICLE	IF	CITATIONS
19	Legal Aspects Connected to the Use of BIM in the Danish Building Sector. , 2016, , .		4
20	PRACTITIONERSâ€™ PERCEPTION OF VALUE IN CONSTRUCTION. Journal of Civil Engineering and Management, 2015, 21, 1027-1035.	1.9	11
21	Exploration of correct LPS practices in scheduling of large, complex, and constrained construction projects. International Journal of Project Organisation and Management, 2015, 7, 56.	0.0	5
22	Exploration of the reasons for delays in construction. International Journal of Construction Management, 2014, 14, 36-44.	2.2	20
23	Scheduling of large, complex, and constrained construction projects - an exploration of LPS application. International Journal of Project Organisation and Management, 2014, 6, 237.	0.0	12
24	A Lean Framework for Production Control in Complex and Constrained Construction Projects () Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 54 Engineering, 2014, , 233-257.	0.3	2
25	Enablers of Innovation in the Construction Material Industry. Lecture Notes in Production Engineering, 2014, , 159-178.	0.3	0
26	Unfavorable Communications Lead to Conflicts in Building Projects. , 2013, , .		1
27	Sustainable Industrialization in the Building Industry: On the Road to Energy Efficient Construction Management. , 2013, , .		1
28	Looking for Improvement in the Last Planner System: Defining Selection Criteria. , 2013, , .		6
29	On the Road to Improved Scheduling: Reducing the Effects of Variation in Duration. , 2013, , .		4
30	Userâ€driven innovation in a construction material supply network. Construction Innovation, 2011, 11, 399-415.	1.5	19
31	Future cooperation trends in the building industry. International Journal of Environment and Pollution, 2008, 35, 296.	0.2	8
32	Visual value clarification â€A method for an effective brief. Journal of Civil Engineering and Management, 2004, 10, 317-326.	1.9	8
33	Why Would Location-Based Scheduling Be Applicable for Offshore Oil and Gas Construction?. , 0, , .		1
34	Why Would Location-Based Scheduling Be Applicable for Offshore Wind Turbine Construction?. , 0, , .		5
35	Lessons for Construction: Delivering Mega Project on Time Through Culture and Hoshin Kanri. , 0, , .		4
