#	ARTICLE	IF	CITATIONS
1	Guideline for the Management of Clinically Localized Prostate Cancer: 2007 Update. <i>Journal of Urology</i> , 2007, 177, 2106-2131.	0.2	989
2	Combining Anchor and Distribution-Based Methods to Derive Minimal Clinically Important Differences on the Functional Assessment of Cancer Therapy (FACT) Anemia and Fatigue Scales. <i>Journal of Pain and Symptom Management</i> , 2002, 24, 547-561.	0.6	667
3	Minimally important differences were estimated for six Patient-Reported Outcomes Measurement Information System-Cancer scales in advanced-stage cancer patients. <i>Journal of Clinical Epidemiology</i> , 2011, 64, 507-516.	2.4	511
4	Rethinking the patient: using Burden of Treatment Theory to understand the changing dynamics of illness. <i>BMC Health Services Research</i> , 2014, 14, 281.	0.9	435
5	What is a clinically meaningful change on the Functional Assessment of Cancer Therapyâ€“Lung (FACT-L) Questionnaire? Results from Eastern Cooperative Oncology Group (ECOG) Study 5592. <i>Journal of Clinical Epidemiology</i> , 2002, 55, 285-295.	2.4	337
6	Combining Distribution- and Anchor-Based Approaches to Determine Minimally Important Differences. <i>Evaluation and the Health Professions</i> , 2005, 28, 172-191.	0.9	324
7	A combination of distribution- and anchor-based approaches determined minimally important differences (MIDs) for four endpoints in a breast cancer scale. <i>Journal of Clinical Epidemiology</i> , 2004, 57, 898-910.	2.4	321
8	Improving quality of life in men with prostate cancer: A randomized controlled trial of group education interventions. <i>Health Psychology</i> , 2003, 22, 443-452.	1.3	242
9	Building a measurement framework of burden of treatment in complex patients with chronic conditions: a qualitative study. <i>Patient Related Outcome Measures</i> , 2012, 3, 39.	0.7	239
10	Development and description of measurement properties of an instrument to assess treatment burden among patients with multiple chronic conditions. <i>BMC Medicine</i> , 2012, 10, 68.	2.3	186
11	Development and validation of the Patient Experience with Treatment and Self-management (PETS): a patient-reported measure of treatment burden. <i>Quality of Life Research</i> , 2017, 26, 489-503.	1.5	141
12	Factors that lessen the burden of treatment in complex patients with chronic conditions: a qualitative study. <i>Patient Preference and Adherence</i> , 2014, 8, 339.	0.8	111
13	A systematic review of patient-reported measures of burden of treatment in three chronic diseases. <i>Patient Related Outcome Measures</i> , 2013, 4, 7.	0.7	103
14	Finalizing a measurement framework for the burden of treatment in complex patients with chronic conditions. <i>Patient Related Outcome Measures</i> , 2015, 6, 117.	0.7	102
15	Responsiveness of 8 Patient-Reported Outcomes Measurement Information System (PROMIS) measures in a large, community-based cancer study cohort. <i>Cancer</i> , 2017, 123, 327-335.	2.0	69
16	Healthcare provider relational quality is associated with better self-management and less treatment burden in people with multiple chronic conditions. <i>Patient Preference and Adherence</i> , 2017, Volume 11, 1635-1646.	0.8	47
17	Harmonizing and consolidating the measurement of patient-reported information at health care institutions: a position statement of the Mayo Clinic. <i>Patient Related Outcome Measures</i> , 2014, 5, 7.	0.7	41
18	Impact of childhood psoriasis on parents of affected children. <i>Journal of the American Academy of Dermatology</i> , 2017, 76, 286-289.e5.	0.6	40

#	ARTICLE	IF	CITATIONS
19	Comparing Measures to Assess Health-Related Quality of Life in Heart Failure With Preserved Ejection Fraction. <i>JACC: Heart Failure</i> , 2018, 6, 552-560.	1.9	34
20	Validating the Patient Experience with Treatment and Self-Management (PETS), a patient-reported measure of treatment burden, in people with diabetes. <i>Patient Related Outcome Measures</i> , 2017, Volume 8, 143-156.	0.7	32
21	Constructing a Conceptual Framework of Patient-Reported Outcomes for Metastatic Hormone-Refractory Prostate Cancer. <i>Value in Health</i> , 2010, 13, 613-623.	0.1	29
22	Coping with colorectal cancer: a qualitative exploration with patients and their family members. <i>Family Practice</i> , 2014, 31, 598-606.	0.8	24
23	Patient experience after kidney transplant: a conceptual framework of treatment burden. <i>Journal of Patient-Reported Outcomes</i> , 2019, 3, 8.	0.9	23
24	Patient-Reported Outcomes in Studies of Complementary and Alternative Medicine: Problems, Solutions, and Future Directions. <i>Explore: the Journal of Science and Healing</i> , 2011, 7, 314-319.	0.4	22
25	<p>Risk factors for poor health-related quality of life in cancer survivors with multiple chronic conditions: exploring the role of treatment burden as a mediator</p>. <i>Patient Related Outcome Measures</i> , 2019, Volume 10, 89-99.	0.7	22
26	A method to create a standardized generic and condition-specific patient-reported outcome measure for patient care and healthcare improvement. <i>Quality of Life Research</i> , 2018, 27, 367-378.	1.5	19
27	Deriving and validating a brief measure of treatment burden to assess person-centered healthcare quality in primary care: a multi-method study. <i>BMC Family Practice</i> , 2020, 21, 221.	2.9	17
28	Reserve-building activities attenuate treatment burden in chronic illness: The mediating role of appraisal and social support. <i>Health Psychology Open</i> , 2018, 5, 205510291877344.	0.7	16
29	Systematic review of patient-reported measures of treatment burden in stroke. <i>BMJ Open</i> , 2019, 9, e029258.	0.8	14
30	Known-groups validity and responsiveness to change of the Patient Experience with Treatment and Self-management (PETS vs. 2.0): a patient-reported measure of treatment burden. <i>Quality of Life Research</i> , 2020, 29, 3143-3154.	1.5	13
31	Why we need response shift: an appeal to functionalism. <i>Quality of Life Research</i> , 2010, 19, 929-930.	1.5	10
32	Confirmatory Factor Analyses and Differential Item Functioning of the Patient Experience with Treatment and Self-Management (PETS vs. 2.0): A Measure of Treatment Burden. <i>Patient Related Outcome Measures</i> , 2020, Volume 11, 249-263.	0.7	8
33	Treatment Burden in People with Hypertension is Correlated with Patient Experience with Self-Management. <i>Journal of the American Board of Family Medicine</i> , 2021, 34, 1243-1245.	0.8	8
34	Longitudinal trajectories of treatment burden: A prospective survey study of adults living with multiple chronic conditions in the midwestern United States. <i>Journal of Multimorbidity and Comorbidity</i> , 2022, 12, 263355652210812.	0.8	6
35	Reducing the Burden of Treatment: Addressing How Our Patients Feel About What We Ask of Them. <i>Mayo Clinic Proceedings</i> , 2022, 97, 826-829.	1.4	6
36	Do Erythropoietic-Stimulating Agents Relieve Fatigue? A Review of Reviews. <i>Cancer Treatment and Research</i> , 2010, 157, 181-194.	0.2	4

#	ARTICLE	IF	CITATIONS
37	Data Pooling and Analysis to Build a Preliminary Item Bank. Evaluation and the Health Professions, 2005, 28, 142-159.	0.9	3
38	Functional Outcomes and Health-Related Quality of Life Before and After Primary Total Knee Replacement for Patients From Diverse Geographic Regions. Journal of Arthroplasty, 2021, 36, 1958-1965.	1.5	3
39	Score equivalence of paper-, tablet-, and interactive voice response system-based versions of PROMIS, PRO-CTCAE, and numerical rating scales among cancer patients. Journal of Patient-Reported Outcomes, 2021, 5, 95.	0.9	3
40	Lessons Learned: Recruiting Research Participants from an Underrepresented Patient Population at a Safety Net Hospital. Journal of General Internal Medicine, 2022, 37, 922-927.	1.3	3
41	Ensuring comprehensive assessment of urinary problems in prostate cancer through patient-physician concordance. Urologic Oncology: Seminars and Original Investigations, 2014, 32, 26.e25-26.e31.	0.8	2
42	Effects of patient-reported outcome assessment order. Clinical Trials, 2022, 19, 307-315.	0.7	2
