

# David T Eton

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/1780107/david-t-eton-publications-by-year.pdf>

**Version:** 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

41  
papers

4,114  
citations

19

#	Paper	IF	Citations
41	Lessons Learned: Recruiting Research Participants from an Underrepresented Patient Population at a Safety Net Hospital.. <i>Journal of General Internal Medicine</i> , <b>2022</b> , 37, 922	4	0
40	Effects of patient-reported outcome assessment order.. <i>Clinical Trials</i> , <b>2022</b> , 17407745211073788	2.2	1
39	Longitudinal trajectories of treatment burden: A prospective survey study of adults living with multiple chronic conditions in the midwestern United States.. <i>Journal of Multimorbidity and Comorbidity</i> , <b>2022</b> , 12, 26335565221081291		1
38	Treatment Burden in People with Hypertension is Correlated with Patient Experience with Self-Management. <i>Journal of the American Board of Family Medicine</i> , <b>2021</b> , 34, 1243-1245	1.6	0
37	Functional Outcomes and Health-Related Quality of Life Before and After Primary Total Knee Replacement for Patients From Diverse Geographic Regions. <i>Journal of Arthroplasty</i> , <b>2021</b> , 36, 1958-1963	4.4	2
36	Score equivalence of paper-, tablet-, and interactive voice response system-based versions of PROMIS, PRO-CTCAE, and numerical rating scales among cancer patients. <i>Journal of Patient-Reported Outcomes</i> , <b>2021</b> , 5, 95	2.6	1
35	Known-groups validity and responsiveness to change of the Patient Experience with Treatment and Self-management (PETS vs. 2.0): a patient-reported measure of treatment burden. <i>Quality of Life Research</i> , <b>2020</b> , 29, 3143-3154	3.7	5
34	Deriving and validating a brief measure of treatment burden to assess person-centered healthcare quality in primary care: a multi-method study. <i>BMC Family Practice</i> , <b>2020</b> , 21, 221	2.6	6
33	Confirmatory Factor Analyses and Differential Item Functioning of the Patient Experience with Treatment and Self-Management (PETS vs. 2.0): A Measure of Treatment Burden. <i>Patient Related Outcome Measures</i> , <b>2020</b> , 11, 249-263	2.9	2
32	Patient experience after kidney transplant: a conceptual framework of treatment burden. <i>Journal of Patient-Reported Outcomes</i> , <b>2019</b> , 3, 8	2.6	7
31	Risk factors for poor health-related quality of life in cancer survivors with multiple chronic conditions: exploring the role of treatment burden as a mediator. <i>Patient Related Outcome Measures</i> , <b>2019</b> , 10, 89-99	2.9	12
30	Systematic review of patient-reported measures of treatment burden in stroke. <i>BMJ Open</i> , <b>2019</b> , 9, e029258	3.258	5
29	A method to create a standardized generic and condition-specific patient-reported outcome measure for patient care and healthcare improvement. <i>Quality of Life Research</i> , <b>2018</b> , 27, 367-378	3.7	13
28	Comparing Measures to Assess Health-Related Quality of Life in Heart Failure With Preserved Ejection Fraction. <i>JACC: Heart Failure</i> , <b>2018</b> , 6, 552-560	7.9	19
27	Reserve-building activities attenuate treatment burden in chronic illness: The mediating role of appraisal and social support. <i>Health Psychology Open</i> , <b>2018</b> , 5, 2055102918773440	1.9	8
26	Healthcare provider relational quality is associated with better self-management and less treatment burden in people with multiple chronic conditions. <i>Patient Preference and Adherence</i> , <b>2017</b> , 11, 1635-1646	2.4	28
25	Impact of childhood psoriasis on parents of affected children. <i>Journal of the American Academy of Dermatology</i> , <b>2017</b> , 76, 286-289.e5	4.5	29

24	Responsiveness of 8 Patient-Reported Outcomes Measurement Information System (PROMIS) measures in a large, community-based cancer study cohort. <i>Cancer</i> , <b>2017</b> , 123, 327-335	6.4	43
23	Development and validation of the Patient Experience with Treatment and Self-management (PETS): a patient-reported measure of treatment burden. <i>Quality of Life Research</i> , <b>2017</b> , 26, 489-503	3.7	88
22	Validating the Patient Experience with Treatment and Self-Management (PETS), a patient-reported measure of treatment burden, in people with diabetes. <i>Patient Related Outcome Measures</i> , <b>2017</b> , 8, 143-156	2.9	19
21	Finalizing a measurement framework for the burden of treatment in complex patients with chronic conditions. <i>Patient Related Outcome Measures</i> , <b>2015</b> , 6, 117-26	2.9	74
20	Rethinking the patient: using Burden of Treatment Theory to understand the changing dynamics of illness. <i>BMC Health Services Research</i> , <b>2014</b> , 14, 281	2.9	297
19	Factors that lessen the burden of treatment in complex patients with chronic conditions: a qualitative study. <i>Patient Preference and Adherence</i> , <b>2014</b> , 8, 339-51	2.4	80
18	Harmonizing and consolidating the measurement of patient-reported information at health care institutions: a position statement of the Mayo Clinic. <i>Patient Related Outcome Measures</i> , <b>2014</b> , 5, 7-15	2.9	33
17	Coping with colorectal cancer: a qualitative exploration with patients and their family members. <i>Family Practice</i> , <b>2014</b> , 31, 598-606	1.9	18
16	Ensuring comprehensive assessment of urinary problems in prostate cancer through patient-physician concordance. <i>Urologic Oncology: Seminars and Original Investigations</i> , <b>2014</b> , 32, 26.e25-31	2.8	1
15	A systematic review of patient-reported measures of burden of treatment in three chronic diseases. <i>Patient Related Outcome Measures</i> , <b>2013</b> , 4, 7-20	2.9	81
14	Development and description of measurement properties of an instrument to assess treatment burden among patients with multiple chronic conditions. <i>BMC Medicine</i> , <b>2012</b> , 10, 68	11.4	143
13	Building a measurement framework of burden of treatment in complex patients with chronic conditions: a qualitative study. <i>Patient Related Outcome Measures</i> , <b>2012</b> , 3, 39-49	2.9	165
12	Patient-reported outcomes in studies of complementary and alternative medicine: problems, solutions, and future directions. <i>Explore: the Journal of Science and Healing</i> , <b>2011</b> , 7, 314-9	1.4	19
11	Minimally important differences were estimated for six Patient-Reported Outcomes Measurement Information System-Cancer scales in advanced-stage cancer patients. <i>Journal of Clinical Epidemiology</i> , <b>2011</b> , 64, 507-16	5.7	384
10	Do erythropoietic-stimulating agents relieve fatigue? A review of reviews. <i>Cancer Treatment and Research</i> , <b>2011</b> , 157, 181-94	3.5	4
9	Constructing a conceptual framework of patient-reported outcomes for metastatic hormone-refractory prostate cancer. <i>Value in Health</i> , <b>2010</b> , 13, 613-23	3.3	24
8	Why we need response shift: an appeal to functionalism. <i>Quality of Life Research</i> , <b>2010</b> , 19, 929-30	3.7	10
7	Guideline for the management of clinically localized prostate cancer: 2007 update. <i>Journal of Urology</i> , <b>2007</b> , 177, 2106-31	2.5	862

6	Data pooling and analysis to build a preliminary item bank: an example using bowel function in prostate cancer. <i>Evaluation and the Health Professions</i> , <b>2005</b> , 28, 142-59	2.5	3
5	Combining distribution- and anchor-based approaches to determine minimally important differences: the FACIT experience. <i>Evaluation and the Health Professions</i> , <b>2005</b> , 28, 172-91	2.5	269
4	A combination of distribution- and anchor-based approaches determined minimally important differences (MIDs) for four endpoints in a breast cancer scale. <i>Journal of Clinical Epidemiology</i> , <b>2004</b> , 57, 898-910	5.7	270
3	Improving quality of life in men with prostate cancer: a randomized controlled trial of group education interventions. <i>Health Psychology</i> , <b>2003</b> , 22, 443-52	5	214
2	Combining anchor and distribution-based methods to derive minimal clinically important differences on the Functional Assessment of Cancer Therapy (FACT) anemia and fatigue scales. <i>Journal of Pain and Symptom Management</i> , <b>2002</b> , 24, 547-61	4.8	574
1	What is a clinically meaningful change on the Functional Assessment of Cancer Therapy-Lung (FACT-L) Questionnaire? Results from Eastern Cooperative Oncology Group (ECOG) Study 5592. <i>Journal of Clinical Epidemiology</i> , <b>2002</b> , 55, 285-95	5.7	299
