#	Paper	IF	Citations
180	Observational Health Data Sciences and Informatics (OHDSI): Opportunities for Observational Researchers. *Studies in Health Technology and Informatics*, **2015**, 216, 574-8	0.5	418
179	Natural history and familial relationships of infant spilling to 9 years of age. *Pediatrics*, **2002**, 109, 1061-7	7.4	192
178	Characterizing treatment pathways at scale using the OHDSI network. *Proceedings of the National Academy of Sciences of the United States of America*, **2016**, 113, 7329-36	11.5	175
177	Comprehensive comparative effectiveness and safety of first-line antihypertensive drug classes: a systematic, multinational, large-scale analysis. *Lancet, The*, **2019**, 394, 1816-1826	40	117
176	The Australian Orthopaedic Association National Joint Replacement Registry. *Medical Journal of Australia*, **2004**, 180, S31-4	4	116
175	Risk factors for revision for early dislocation in total hip arthroplasty. *Journal of Arthroplasty*, **2008**, 23, 867-72	4.4	113
174	Risk factors for persistent and new chronic opioid use in patients undergoing total hip arthroplasty: a retrospective cohort study. *BMJ Open*, **2016**, 6, e010664	3	113
173	Trends in attention-deficit hyperactivity disorder medication use: a retrospective observational study using population-based databases. *Lancet Psychiatry,the*, **2018**, 5, 824-835	23.3	105
172	Impact of undergraduate and postgraduate rural training, and medical school entry criteria on rural practice among Australian general practitioners: national study of 2414 doctors. *Medical Education*, **2003**, 37, 809-14	3.7	103
171	The effectiveness of collaborative medicine reviews in delaying time to next hospitalization for patients with heart failure in the practice setting: results of a cohort study. *Circulation: Heart Failure*, **2009**, 2, 424-8	7.6	97
170	Increase in Total Joint Arthroplasty Projected from 2014 to 2046 in Australia: A Conservative Local Model With International Implications. *Clinical Orthopaedics and Related Research*, **2017**, 475, 2130-2137	2.2	89
169	The validity of the Rx-Risk Comorbidity Index using medicines mapped to the Anatomical Therapeutic Chemical (ATC) Classification System. *BMJ Open*, **2018**, 8, e021122	3	87
168	Multiple anticholinergic medication use and risk of hospital admission for confusion or dementia. *Journal of the American Geriatrics Society*, **2014**, 62, 1916-22	5.6	76
167	Chronic Use of Opioids Before and After Total Knee Arthroplasty: A Retrospective Cohort Study. *Journal of Arthroplasty*, **2017**, 32, 811-817.e1	4.4	66
166	Depressive disorders and unprotected casual anal sex among Australian homosexually active men in primary care. *HIV Medicine*, **2003**, 4, 271-5	2.7	66
165	Cardiovascular safety of methylphenidate among children and young people with attention-deficit/hyperactivity disorder (ADHD): nationwide self controlled case series study. *BMJ, The*, **2016**, 353, i2550	5.9	65
164	Perioperative mortality after hemiarthroplasty related to fixation method. *Monthly Notices of the Royal Astronomical Society: Letters*, **2011**, 82, 275-81	4.3	61

163	Risk of hospitalization for hip fracture and pneumonia associated with antipsychotic prescribing in the elderly: a self-controlled case-series analysis in an Australian health care claims database. *Drug Safety*, **2011**, 34, 567-75	5.1	59
162	Renin-angiotensin system blockers and susceptibility to COVID-19: an international, open science, cohort analysis. *The Lancet Digital Health*, **2021**, 3, e98-e114	14.4	52
161	The Asian Pharmacoepidemiology Network (AsPEN): promoting multi-national collaboration for pharmacoepidemiologic research in Asia. *Pharmacoepidemiology and Drug Safety*, **2013**, 22, 700-4	2.6	49
160	The validity of sequence symmetry analysis (SSA) for adverse drug reaction signal detection. *Pharmacoepidemiology and Drug Safety*, **2013**, 22, 496-502	2.6	47
159	Duration of the increase in early postoperative mortality after elective hip and knee replacement. *Journal of Bone and Joint Surgery - Series A*, **2010**, 92, 58-63	5.6	46
158	Update of mortality and cancer incidence in the Australian petroleum industry cohort. *Occupational and Environmental Medicine*, **2006**, 63, 476-81	2.1	45
157	Preoperative medication use and postoperative delirium: a systematic review. *BMC Geriatrics*, **2017**, 17, 298	4.1	43
156	Multi-country rapid adverse drug event assessment: the Asian Pharmacoepidemiology Network (AsPEN) antipsychotic and acute hyperglycaemia study. *Pharmacoepidemiology and Drug Safety*, **2013**, 22, 915-24	2.6	42
155	Brief Report: Databases in the Asia-Pacific Region: The Potential for a Distributed Network Approach. *Epidemiology*, **2015**, 26, 815-20	3.1	41
154	Collaborative home medicines review delays time to next hospitalization for warfarin associated bleeding in Australian war veterans. *Journal of Clinical Pharmacy and Therapeutics*, **2011**, 36, 27-32	2.2	41
153	Comparison of Cardiovascular and Safety Outcomes of Chlorthalidone vs Hydrochlorothiazide to Treat Hypertension. *JAMA Internal Medicine*, **2020**, 180, 542-551	11.5	40
152	Persistent Opioid Use Following Total Knee Arthroplasty: A Signal for Close Surveillance. *Journal of Arthroplasty*, **2018**, 33, 331-336	4.4	40
151	Sequence symmetry analysis in pharmacovigilance and pharmacoepidemiologic studies. *European Journal of Epidemiology*, **2017**, 32, 567-582	12.1	39
150	Increased risk of hip fracture in the elderly associated with prochlorperazine: is a prescribing cascade contributing?. *Pharmacoepidemiology and Drug Safety*, **2010**, 19, 977-82	2.6	39
149	Update of a prospective study of mortality and cancer incidence in the Australian petroleum industry. *Occupational and Environmental Medicine*, **2004**, 61, 150-6	2.1	39
148	Stroke risk and NSAIDs: an Australian population-based study. *Medical Journal of Australia*, **2011**, 195, 525-9	4	37
147	Opioid use after total hip arthroplasty surgery is associated with revision surgery. *BMC Musculoskeletal Disorders*, **2016**, 17, 122	2.8	36
146	Use of SGLT2 inhibitors for diabetes and risk of infection: Analysis using general practice records from the NPS MedicineWise MedicineInsight program. *Diabetes Research and Clinical Practice*, **2017**, 130, 180-185	7.4	35

145	Choice of observational study design impacts on measurement of antipsychotic risks in the elderly: a systematic review. *BMC Medical Research Methodology*, **2012**, 12, 72	4.7	34
144	Prescription sequence symmetry analysis: assessing risk, temporality, and consistency for adverse drug reactions across datasets in five countries. *Pharmacoepidemiology and Drug Safety*, **2015**, 24, 858-64	2.6	32
143	Effect of changes in antibiotic prescribing on patient outcomes in a community setting: a natural experiment in Australia. *Clinical Infectious Diseases*, **2002**, 34, 55-64	11.6	31
142	Risk of hospitalization for stroke associated with antipsychotic use in the elderly: a self-controlled case series. *Drugs and Aging*, **2010**, 27, 885-93	4.7	30
141	Antipsychotics and the risk of death in the elderly: an instrumental variable analysis using two preference based instruments. *Pharmacoepidemiology and Drug Safety*, **2010**, 19, 699-707	2.6	30
140	Postoperative opioid use as an early indication of total hip arthroplasty failure. *Monthly Notices of the Royal Astronomical Society: Letters*, **2016**, 87 Suppl 1, 37-43	4.3	29
139	Bridging evidence-practice gaps: improving use of medicines in elderly Australian veterans. *BMC Health Services Research*, **2013**, 13, 514	2.9	29
138	Potential risk factors for prolonged recovery following whiplash injury. *European Spine Journal*, **2005**, 14, 90-4	2.7	29
137	Variation in Association Between Thiazolidinediones and Heart Failure Across Ethnic Groups: Retrospective analysis of Large Healthcare Claims Databases in Six Countries. *Drug Safety*, **2015**, 38, 823-31	5.1	28
136	Proton pump inhibitors and risk of Clostridium difficile infection: a multi-country study using sequence symmetry analysis. *Expert Opinion on Drug Safety*, **2016**, 15, 1589-1595	4.1	26
135	Managing glaucoma in those with co-morbidity: not as easy as it seems. *Ophthalmic Epidemiology*, **2012**, 19, 74-82	1.9	26
134	Uptake of novel oral anticoagulants in Australia. *Medical Journal of Australia*, **2016**, 204, 104-5.e1	4	25
133	Improving medication safety: influence of a patient-specific prescriber feedback program on rate of medication reviews performed by Australian general medical practitioners. *Pharmacoepidemiology and Drug Safety*, **2007**, 16, 797-803	2.6	24
132	Evaluation of three co-morbidity measures to predict mortality in patients undergoing total joint arthroplasty. *Osteoarthritis and Cartilage*, **2016**, 24, 1718-1726	6.2	23
131	Association between use of multiple psychoactive medicines and hospitalization for falls: retrospective analysis of a large healthcare claim database. *Drug Safety*, **2014**, 37, 529-35	5.1	22
130	The performance of sequence symmetry analysis as a tool for post-market surveillance of newly marketed medicines: a simulation study. *BMC Medical Research Methodology*, **2014**, 14, 66	4.7	22
129	Heart failure after conventional metal-on-metal hip replacements. *Monthly Notices of the Royal Astronomical Society: Letters*, **2017**, 88, 2-9	4.3	22
128	Comparing time to adverse drug reaction signals in a spontaneous reporting database and a claims database: a case study of rofecoxib-induced myocardial infarction and rosiglitazone-induced heart failure signals in Australia. *Drug Safety*, **2014**, 37, 53-64	5.1	22

127	Use of proton pump inhibitors among older Australians: national quality improvement programmes have led to sustained practice change. *International Journal for Quality in Health Care*, **2017**, 29, 75-82	1.9	21
126	Comparing co-morbidities in total joint arthroplasty patients using the RxRisk-V, Elixhauser, and Charlson Measures: a cross-sectional evaluation. *BMC Musculoskeletal Disorders*, **2015**, 16, 385	2.8	21
125	Proton-pump inhibitors and the risk of antibiotic use and hospitalisation for pneumonia. *Medical Journal of Australia*, **2009**, 190, 114-6	4	21
124	Proton pump inhibitors and the risk of pneumonia: a comparison of cohort and self-controlled case series designs. *BMC Medical Research Methodology*, **2013**, 13, 82	4.7	20
123	Predictive performance of four frailty measures in an older Australian population. *Age and Ageing*, **2015**, 44, 967-72	3	19
122	The Uncertainty of the Association Between Proton Pump Inhibitor Use and the Risk of Dementia: Prescription Sequence Symmetry Analysis Using a Korean Healthcare Database Between 2002 and 2013. *Drug Safety*, **2018**, 41, 615-624	5.1	16
121	Sequence Symmetry Analysis as a Signal Detection Tool for Potential Heart Failure Adverse Events in an Administrative Claims Database. *Drug Safety*, **2016**, 39, 347-54	5.1	16
120	Risk of medication-associated initiation of oxybutynin in elderly men and women. *Journal of the American Geriatrics Society*, **2014**, 62, 690-5	5.6	16
119	Psychoactive medicine use and the risk of hip fracture in older people: a case-crossover study. *Pharmacoepidemiology and Drug Safety*, **2015**, 24, 576-82	2.6	16
118	Understanding 30-day re-admission after hospitalisation of older patients for diabetes: identifying those at greatest risk. *Medical Journal of Australia*, **2017**, 206, 170-175	4	15
117	Hypothesis-free screening of large administrative databases for unsuspected drug-outcome associations. *European Journal of Epidemiology*, **2018**, 33, 545-555	12.1	15
116	Posttraumatic Stress Disorder, Antipsychotic Use and Risk of Dementia in Veterans. *Journal of the American Geriatrics Society*, **2017**, 65, 1521-1526	5.6	13
115	Supervised signal detection for adverse drug reactions in medication dispensing data. *Computer Methods and Programs in Biomedicine*, **2018**, 161, 25-38	6.9	13
114	Prevalence and changes in analgesic medication utilisation 1 year prior to total joint replacement in an older cohort of patients. *Osteoarthritis and Cartilage*, **2018**, 26, 356-362	6.2	13
113	Does tablet formulation alone improve adherence and persistence: a comparison of ezetimibe fixed dose combination versus ezetimibe separate pill combination?. *British Journal of Clinical Pharmacology*, **2017**, 83, 202-210	3.8	13
112	Ranibizumab and risk of hospitalisation for ischaemic stroke and myocardial infarction in patients with age-related macular degeneration: a self-controlled case-series analysis. *Drug Safety*, **2014**, 37, 1021-7	5.1	13
111	Differential impact of NSAIDs on rate of adverse events that require hospitalization in high-risk and general veteran populations: a retrospective cohort study. *Drugs and Aging*, **2010**, 27, 63-71	4.7	13
110	NSAID use in individuals at risk of renal adverse events: an observational study to investigate trends in Australian veterans. *Drug Safety*, **2008**, 31, 997-1003	5.1	13

109	Increased risk of hospital admission for dehydration or heat-related illness after initiation of medicines: a sequence symmetry analysis. *Journal of Clinical Pharmacy and Therapeutics*, **2016**, 41, 503-7	2.2	13
108	Using the "proportion of patients covered" and the Kaplan-Meier survival analysis to describe treatment persistence. *Pharmacoepidemiology and Drug Safety*, **2018**, 27, 867-871	2.6	12
107	Association between Ophthalmic Timolol and Hospitalisation for Bradycardia. *Journal of Ophthalmology*, **2015**, 2015, 567387	2	12
106	A Grief Diagnostic Instrument for General Practice. *Omega: Journal of Death and Dying*, **2006**, 52, 169-195.	1.6	12
105	Seek COVER: Development and validation of a personalized risk calculator for COVID-19 outcomes in an international network		12
104	Principles of Large-scale Evidence Generation and Evaluation across a Network of Databases (LEGEND). *Journal of the American Medical Informatics Association: JAMIA*, **2020**, 27, 1331-1337	8.6	12
103	Persistence with opioids post discharge from hospitalisation for surgery in Australian adults: a retrospective cohort study. *BMJ Open*, **2019**, 9, e023990	3	11
102	Risk of Hip Fracture in Older People Using Selective Serotonin Reuptake Inhibitors and Other Psychoactive Medicines Concurrently: A Matched Case-Control Study in Australia. *Drugs - Real World Outcomes*, **2017**, 4, 87-96	2.2	11
101	Prescriber Feedback to Improve Quality Use of Medicines among Older People: the VeteransR MATES Program. *Journal of Pharmacy Practice and Research*, **2011**, 41, 316-319	0.7	11
100	Data linkage in pharmacoepidemiology: A call for rigorous evaluation and reporting. *Pharmacoepidemiology and Drug Safety*, **2020**, 29, 9-17	2.6	11
99	Analysis of anticholinergic and sedative medicine effects on physical function, cognitive function, appetite and frailty: a cross-sectional study in Australia. *BMJ Open*, **2019**, 9, e029221	3	11
98	Predicting Infections After Total Joint Arthroplasty Using a Prescription Based Comorbidity Measure. *Journal of Arthroplasty*, **2015**, 30, 1692-8	4.4	10
97	Large-scale evidence generation and evaluation across a network of databases (LEGEND): assessing validity using hypertension as a case study. *Journal of the American Medical Informatics Association: JAMIA*, **2020**, 27, 1268-1277	8.6	10
96	Comparative First-Line Effectiveness and Safety of ACE (Angiotensin-Converting Enzyme) Inhibitors and Angiotensin Receptor Blockers: A Multinational Cohort Study. *Hypertension*, **2021**, 78, 591-603	8.5	10
95	Commitment questions targeting patients promotes uptake of under-used health services: Findings from a national quality improvement program in Australia. *Social Science and Medicine*, **2015**, 145, 1-6	5.1	9
94	How common is frailty in older Australians?. *Australasian Journal on Ageing*, **2015**, 34, 247-51	1.5	9
93	Using Medications for Prediction of Revision after Total Joint Arthroplasty. *Journal of Arthroplasty*, **2015**, 30, 2061-70	4.4	9
92	Construct Validity of Four Frailty Measures in an Older Australian Population: A Rasch Analysis. *Journal of Frailty & Aging,the*, **2016**, 5, 78-81	2.6	9

91	The detection of adverse events in randomized clinical trials: can we really say new medicines are safe?. *Current Drug Safety*, **2013**, 8, 104-13	1.4	9
90	Renin-angiotensin system blockers and susceptibility to COVID-19: a multinational open science cohort study **2020**,		9
89	Uncertain Association Between Benzodiazepine Use and the Risk of Dementia: A Cohort Study. *Journal of the American Medical Directors Association*, **2020**, 21, 201-211.e2	5.9	9
88	CRISTAL: protocol for a cluster randomised, crossover, non-inferiority trial of aspirin compared to low molecular weight heparin for venous thromboembolism prophylaxis in hip or knee arthroplasty, a registry nested study. *BMJ Open*, **2019**, 9, e031657	3	9
87	Detecting signals of detrimental prescribing cascades from social media. *Artificial Intelligence in Medicine*, **2016**, 71, 43-56	7.4	8
86	The Risk of Hip Fracture Due to Mirtazapine Exposure When Switching Antidepressants or Using Other Antidepressants as Add-On Therapy. *Drugs - Real World Outcomes*, **2017**, 4, 247-255	2.2	8
85	Rehospitalizations for complications and mortality following pacemaker implantation: A retrospective cohort study in an older population. *Clinical Cardiology*, **2018**, 41, 1480-1486	3.3	8
84	Authenticity and credibility aware detection of adverse drug events from social media. *International Journal of Medical Informatics*, **2018**, 120, 101-115	5.3	8
83	Comparative effectiveness and safety of low-strength and high-strength direct oral anticoagulants compared with warfarin: a sequential cohort study. *BMJ Open*, **2019**, 9, e026486	3	7
82	The development and process evaluation of an information-based intervention for pregnant women aimed at addressing rates of caesarean section. *BJOG: an International Journal of Obstetrics and Gynaecology*, **2005**, 112, 1605-14	3.7	7
81	How Does Mortality Risk Change Over Time After Hip and Knee Arthroplasty?. *Clinical Orthopaedics and Related Research*, **2019**, 477, 1414-1421	2.2	7
80	Assessment of Medication Safety Using Only Dispensing Data. *Current Epidemiology Reports*, **2018**, 5, 357-369	2.9	7
79	Patient-specific prescriber feedback can increase the rate of osteoporosis screening and treatment: results from two national interventions. *Archives of Osteoporosis*, **2017**, 12, 17	2.9	6
78	Sustaining practice change in health care: the impact of a national quality improvement program on the uptake of collaborative medicines reviews. *Journal of Pharmacy Practice and Research*, **2018**, 48, 222-230	0.7	6
77	Tobacco and alcohol-related mortality in men: estimates from the Australian cohort of petroleum industry workers. *Australian and New Zealand Journal of Public Health*, **2006**, 30, 318-24	2.3	6
76	Comparative safety of NSAIDs for gastrointestinal events in Asia-Pacific populations: A multi-database, international cohort study. *Pharmacoepidemiology and Drug Safety*, **2018**, 27, 1223-1230	2.6	6
75	Authenticity and credibility aware detection of adverse drug events from social media. *International Journal of Medical Informatics*, **2018**, 120, 157-171	5.3	6
74	Use of Potentially Inappropriate Medications in People With Dementia in Vietnam and Its Associated Factors. *American Journal of Alzheimer's Disease and Other Dementias*, **2018**, 33, 423-432	2.5	5

73	Do Risk Prediction Models for Postoperative Delirium Consider Patients'Preoperative Medication Use?. *Drugs and Aging*, **2018**, 35, 213-222	4.7	5
72	Does a fixed-dose combination of amlodipine and atorvastatin improve persistence with therapy in the Australian population?. *Current Medical Research and Opinion*, **2018**, 34, 305-311	2.5	5
71	Reducing hypnotic use in insomnia management among Australian veterans: results from repeated national interventions. *BMC Health Services Research*, **2018**, 18, 626	2.9	5
70	A self-controlled case series to assess the effectiveness of beta blockers for heart failure in reducing hospitalisations in the elderly. *BMC Medical Research Methodology*, **2011**, 11, 106	4.7	5
69	Trends over 5 years in cardiovascular medicine use in Australian veterans with diabetes. *British Journal of Clinical Pharmacology*, **2007**, 64, 100-4	3.8	5
68	Distributed Networks of Databases Analyzed Using Common Protocols and/or Common Data Models **2019**, 617-638		5
67	Use of analgesics following rescheduling of codeine in Australia: An interrupted time series analysis in the veteran population. *International Journal of Drug Policy*, **2020**, 81, 102767	5.5	4
66	Magnetic Resonance Imaging in People With Cardiac Implantable Electronic Devices: A Population Based Cohort Study. *Heart Lung and Circulation*, **2018**, 27, 748-751	1.8	4
65	A data-driven method to detect adverse drug events from prescription data. *Journal of Biomedical Informatics*, **2018**, 85, 10-20	10.2	4
64	Reduction in Use of Risperidone for Dementia in Australia Following Changed Guidelines. *Pharmacy (Basel, Switzerland)*, **2019**, 7,	2	4
63	Process trumps potential public good: better vaccine safety through linked cross-jurisdictional immunisation data in Australia. *Australian and New Zealand Journal of Public Health*, **2019**, 43, 496-503	2.3	4
62	Medicine Use among Older Australians Before and After Hip Fracture. *Journal of Pharmacy Practice and Research*, **2013**, 43, 265-268	0.7	4
61	Factors associated with choice of antipsychotic treatment in elderly veterans: potential confounders for observational studies. *Australian and New Zealand Journal of Public Health*, **2010**, 34, 589-93	2.3	4
60	Asbestos-related cancers in refinery workers in the Australian petroleum industry. *Archives of Environmental and Occupational Health*, **2006**, 61, 11-6	2	4
59	Safety of meningococcal B vaccine (4CMenB) in adolescents in Australia. *Vaccine*, **2020**, 38, 5914-5922	4.1	4
58	Central Nervous System-Acting Medicines and Risk of Hospital Admission for Confusion, Delirium, or Dementia. *Journal of the American Medical Directors Association*, **2016**, 17, 530-4	5.9	4
57	Prevalence of Psychotropic Medicine Use in Australian Children with Autism Spectrum Disorder: A Drug Utilization Study Based on Children Enrolled in the Longitudinal Study of Australian Children. *Journal of Autism and Developmental Disorders*, **2019**, 49, 227-235	4.6	4
56	Cardiovascular risk in patients receiving ranibizumab for exudative age-related macular degeneration: a nationwide self-controlled case-series study. *British Journal of Ophthalmology*, **2021**, 105, 543-548	5.5	4
