|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | CIDP diagnostic pitfalls and perception of treatment benefit. <i>Neurology</i> , 2015, 85, 498-504.                                                                                                                                                                            | 1.1 | 188       |
| 2  | European Academy of Neurology/Peripheral Nerve Society guideline on diagnosis and treatment of chronic inflammatory demyelinating polyradiculoneuropathy: Report of a joint Task Forceâ€”Second revision. <i>Journal of the Peripheral Nervous System</i> , 2021, 26, 242-268. | 3.1 | 176       |
| 3  | European Academy of Neurology/Peripheral Nerve Society guideline on diagnosis and treatment of chronic inflammatory demyelinating polyradiculoneuropathy: Report of a joint Task Forceâ€”Second revision. <i>European Journal of Neurology</i> , 2021, 28, 3556-3583.          | 3.3 | 153       |
| 4  | Electrodiagnostic errors contribute to chronic inflammatory demyelinating polyneuropathy misdiagnosis. <i>Muscle and Nerve</i> , 2018, 57, 542-549.                                                                                                                            | 2.2 | 56        |
| 5  | Gastrostomy tube placement by endoscopy versus radiologic methods in patients with ALS: A retrospective study of complications and outcome. <i>Amyotrophic Lateral Sclerosis and Frontotemporal Degeneration</i> , 2013, 14, 308-314.                                          | 1.7 | 49        |
| 6  | Ocular myasthenia gravis in a senior population: Diagnosis, therapy, and prognosis. <i>Muscle and Nerve</i> , 2010, 41, 379-384.                                                                                                                                               | 2.2 | 41        |
| 7  | Updated cerebrospinal fluid total protein reference values improve chronic inflammatory demyelinating polyneuropathy diagnosis. <i>Muscle and Nerve</i> , 2019, 60, 180-183.                                                                                                   | 2.2 | 37        |
| 8  | Optimizing IgG therapy in chronic autoimmune neuropathies: A hypothesis driven approach. <i>Muscle and Nerve</i> , 2015, 51, 315-326.                                                                                                                                          | 2.2 | 33        |
| 9  | Patient Preferences for Subcutaneous versus Intravenous Administration of Treatment for Chronic Immune System Disorders: A Systematic Review. <i>Patient Preference and Adherence</i> , 2021, Volume 15, 811-834.                                                              | 1.8 | 32        |
| 10 | Challenges in the diagnosis of chronic inflammatory demyelinating polyneuropathy. <i>Brain and Behavior</i> , 2018, 8, e00932.                                                                                                                                                 | 2.2 | 26        |
| 11 | Risk factors for the development of paclitaxelâ€”induced neuropathy in breast cancer patients. <i>Journal of the Peripheral Nervous System</i> , 2018, 23, 129-133.                                                                                                            | 3.1 | 26        |
| 12 | Monitoring Clinical Course and Treatment Response in Chronic Inflammatory Demyelinating Polyneuropathy During Routine Care. <i>JAMA Neurology</i> , 2020, 77, 1159.                                                                                                            | 9.0 | 26        |
| 13 | The Misdiagnosis of CIDP: A Review. <i>Neurology and Therapy</i> , 2020, 9, 43-54.                                                                                                                                                                                             | 3.2 | 25        |
| 14 | Editorial by concerned physicians: Unintended effect of the orphan drug act on the potential cost of 3,4-diaminopyridine. <i>Muscle and Nerve</i> , 2016, 53, 165-168.                                                                                                         | 2.2 | 24        |
| 15 | Misdiagnosis and diagnostic pitfalls of chronic inflammatory demyelinating polyradiculoneuropathy. <i>European Journal of Neurology</i> , 2021, 28, 2065-2073.                                                                                                                 | 3.3 | 23        |
| 16 | Individualized immunoglobulin therapy in chronic immuneâ€”mediated peripheral neuropathies*. <i>Journal of the Peripheral Nervous System</i> , 2018, 23, 78-87.                                                                                                                | 3.1 | 21        |
| 17 | Immunoglobulin administration for the treatment of CIDP: IVIG or SCIG?. <i>Journal of the Neurological Sciences</i> , 2020, 408, 116497.                                                                                                                                       | 0.6 | 21        |
| 18 | Quantifying Treatment-Related Fluctuations in CIDP. <i>Neurology</i> , 2021, 96, e1876-e1886.                                                                                                                                                                                  | 1.1 | 15        |

| #  | ARTICLE                                                                                                                                                                                          | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Fatigue in chronic inflammatory demyelinating polyneuropathy. <i>Muscle and Nerve</i> , 2020, 62, 673-680.                                                                                       | 2.2 | 12        |
| 20 | Reversible demyelinating neuropathy associated with renal cell carcinoma. <i>Neuromuscular Disorders</i> , 2011, 21, 227-231.                                                                    | 0.6 | 8         |
| 21 | Chronic Demyelinating Polyneuropathies. <i>CONTINUUM Lifelong Learning in Neurology</i> , 2017, 23, 1310-1331.                                                                                   | 0.8 | 8         |
| 22 | Optimizing the Use of Outcome Measures in Chronic Inflammatory Demyelinating Polyneuropathy. <i>US Neurology</i> , 2017, 13, 26.                                                                 | 0.2 | 8         |
| 23 | A Global Survey of Disease Burden in Patients Who Carry a Diagnosis of Chronic Inflammatory Demyelinating Polyneuropathy. <i>Advances in Therapy</i> , 2021, 38, 316-328.                        | 2.9 | 6         |
| 24 | Measuring treatment response to chronic inflammatory demyelinating polyneuropathy in clinical practice: More than just asking. <i>Muscle and Nerve</i> , 2021, 64, 1-3.                          | 2.2 | 6         |
| 25 | Outcome measures and biomarkers in chronic inflammatory demyelinating polyradiculoneuropathy: from research to clinical practice. <i>Expert Review of Neurotherapeutics</i> , 2021, 21, 805-816. | 2.8 | 6         |
| 26 | Acquired Immunologic Neuropathies. <i>Seminars in Neurology</i> , 2015, 35, 398-406.                                                                                                             | 1.4 | 5         |
| 27 | Total spinal and brainstem anesthesia as complication of paravertebral ropivacaine administration. <i>Neurology: Clinical Practice</i> , 2017, 7, 430-432.                                       | 1.6 | 4         |
| 28 | Improving the management of chronic inflammatory demyelinating polyradiculoneuropathy. <i>Neurodegenerative Disease Management</i> , 2016, 6, 237-247.                                           | 2.2 | 2         |
| 29 | Reply. <i>Muscle and Nerve</i> , 2018, 57, E132-E133.                                                                                                                                            | 2.2 | 0         |
| 30 | Could posturography be a useful outcome measure for chronic inflammatory demyelinating polyneuropathy?. <i>Muscle and Nerve</i> , 2022, 65, 7-9.                                                 | 2.2 | 0         |
