#	Paper	IF	Citations
28	Opinion: Gender diversity leads to better science. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2017 , 114, 1740-1742	11.5	188
27	COVID-19 medical papers have fewer women first authors than expected. <i>ELife</i> , 2020 , 9,	8.9	149
26	Limits to meritocracy? Gender in academic recruitment and promotion processes. <i>Science and Public Policy</i> , 2016 , 43, 386-399	1.8	78
25	One and a half million medical papers reveal a link between author gender and attention to gender and sex analysis. <i>Nature Human Behaviour</i> , 2017 , 1, 791-796	12.8	72
24	Making gender diversity work for scientific discovery and innovation. <i>Nature Human Behaviour</i> , 2018 , 2, 726-734	12.8	67
23	A global call for action to include gender in research impact assessment. <i>Health Research Policy and Systems</i> , 2016 , 14, 50	3.7	62
22	Gender inequality and research performance: moving beyond individual-meritocratic explanations of academic advancement. <i>Studies in Higher Education</i> , 2016 , 41, 2044-2060	2.6	58
21	Gender variations in citation distributions in medicine are very small and due to self-citation and journal prestige. <i>ELife</i> , 2019 , 8,	8.9	30
20	Reasons for Leaving the Academy: a Case Study on the Opt Out Phenomenon among Younger Female Researchers. <i>Gender, Work and Organization</i> , 2017 , 24, 134-155	4.5	25
19	Lack of consideration of sex and gender in COVID-19 clinical studies. <i>Nature Communications</i> , 2021 , 12, 4015	17.4	25
18	Scandinavian Approaches to Gender Equality in Academia: A Comparative Study. <i>Scandinavian Journal of Educational Research</i> , 2017 , 61, 295-318	1.2	21
17	Gender and citation impact in management research. <i>Journal of Informetrics</i> , 2017 , 11, 1213-1228	3.1	21
16	Gender-related variables for health research. <i>Biology of Sex Differences</i> , 2021 , 12, 23	9.3	21
15	Locating science in society across Europe: Clusters and consequences. <i>Science and Public Policy</i> , 2012 , 39, 741-750	1.8	20
14	Gender diversity in the management field: Does it matter for research outcomes?. <i>Research Policy</i> , 2019 , 48, 1617-1632	7.5	16
13	Global citation inequality is on the rise. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021 , 118,	11.5	16
12	Gender consequences of a national performance-based funding model: new pieces in an old puzzle. <i>Studies in Higher Education</i> , 2017 , 42, 1033-1055	2.6	14

11	Justifications of Gender Equality in Academia: Comparing Gender Equality Policies of Six Scandinavian Universities. <i>NORA - Nordic Journal of Feminist and Gender Research</i> , 2014 , 22, 187-203	1.2	14
10	Google Scholar and Web of Science: Examining gender differences in citation coverage across five scientific disciplines. <i>Journal of Informetrics</i> , 2018 , 12, 950-959	3.1	12
9	Author response: COVID-19 medical papers have fewer women first authors than expected 2020 ,		8
8	Concentration or dispersal of research funding?. <i>Quantitative Science Studies</i> , 2019 , 1-33	3.8	5
7	Lack of consideration of sex and gender in clinical trials for COVID-19		5
6	The Societal Readiness Thinking Tool: A Practical Resource for Maturing the Societal Readiness of Research Projects.. <i>Science and Engineering Ethics</i> , 2022 , 28, 6	3.1	3
5	Make academic job advertisements fair to all. <i>Nature</i> , 2015 , 525, 427	50.4	2
4	Author response: Gender variations in citation distributions in medicine are very small and due to self-citation and journal prestige 2019 ,		2
3	Selective referencing and questionable evidence in Strumia's paper on Gender issues in fundamental physics <i>Quantitative Science Studies</i> , 2021 , 2, 254-262	3.8	2
2	Weak evidence of country- and institution-related status bias in the peer review of abstracts. <i>ELife</i> , 2021 , 10,	8.9	1
1	Diversifying history: A large-scale analysis of changes in researcher demographics and scholarly agendas.. <i>PLoS ONE</i> , 2022 , 17, e0262027	3.7	0
