#	ARTICLE	IF	CITATIONS
1	Children's exposure to outdoor food advertising near primary and secondary schools in Australia. <i>Health Promotion Journal of Australia</i> , 2022, 33, 642-648.	1.2	10
2	Socioecological correlates associated with muscle-strengthening exercise at home during COVID-19 among adolescents: The our life at home study. <i>Journal of Sports Sciences</i> , 2022, 40, 899-907.	2.0	2
3	Is having a 20-minute neighbourhood associated with eating out behaviours and takeaway home delivery? A cross-sectional analysis of ProjectPLAN. <i>BMC Public Health</i> , 2022, 22, 191.	2.9	5
4	Operationalising the 20-minute neighbourhood. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2022, 19, 15.	4.6	33
5	Does fast-food outlet density differ by area-level disadvantage in metropolitan Perth, Western Australia?. <i>Health Promotion Journal of Australia</i> , 2022, 33, 262-265.	1.2	1
6	Influence of work hours and commute time on food practices: a longitudinal analysis of the Household, Income and Labour Dynamics in Australia Survey. <i>BMJ Open</i> , 2022, 12, e056212.	1.9	7
7	Do residents with a 20-min neighbourhood walk more? Findings from ProjectPLAN. <i>Health and Place</i> , 2022, 76, 102859.	3.3	1
8	The role of dwelling type on food expenditure: a cross-sectional analysis of the 2015-2016 Australian Household Expenditure Survey. <i>Public Health Nutrition</i> , 2021, 24, 1-12.	2.2	5
9	Urban-regional patterns of food purchasing behaviour: a cross-sectional analysis of the 2015-2016 Australian Household Expenditure Survey. <i>European Journal of Clinical Nutrition</i> , 2021, 75, 697-707.	2.9	7
10	Tobacco retailer density and smoking behavior in a rural Australian jurisdiction without a tobacco retailer licensing system. <i>Tobacco Induced Diseases</i> , 2021, 19, 1-10.	0.6	5
11	Exposure to unhealthy food and beverage advertising during the school commute in Australia. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 1232-1235.	3.7	7
12	Association between food-outlet availability near secondary schools and junk-food purchasing among Australian adolescents. <i>Nutrition</i> , 2021, 91-92, 111488.	2.4	6
13	Understanding regional food environments: A qualitative exploration of food purchasing behaviour. <i>Health and Place</i> , 2021, 71, 102652.	3.3	3
14	Educational differences in diabetes and diabetes self-management behaviours in WHO SAGE countries. <i>BMC Public Health</i> , 2021, 21, 2108.	2.9	4
15	A qualitative exploration of perspectives of physical activity and sedentary behaviour among Indian migrants in Melbourne, Australia: how are they defined and what can we learn?. <i>BMC Public Health</i> , 2021, 21, 2085.	2.9	3
16	Socio-economic patterning of food and drink advertising at public transport stops in Edinburgh, UK. <i>Public Health Nutrition</i> , 2021, , 1-9.	2.2	6
17	Pie in the sky: exploring food practices amongst those living in apartments within Melbourne, Australia. <i>Cities and Health</i> , 2020, , 1-4.	2.6	2
18	The use and misuse of ratio and proportion exposure measures in food environment research. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 118.	4.6	25

#	ARTICLE	IF	CITATIONS
19	A cross-sectional comparison of meal delivery options in three international cities. <i>European Journal of Clinical Nutrition</i> , 2020, 74, 1465-1473.	2.9	43
20	Neighbourhood fast food exposure and consumption: the mediating role of neighbourhood social norms. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 61.	4.6	27
21	Methods for accounting for neighbourhood self-selection in physical activity and dietary behaviour research: a systematic review. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 45.	4.6	42
22	Public open space exposure measures in Australian health research: a critical review of the literature. <i>Geographical Research</i> , 2019, 57, 67-83.	1.8	21
23	Introduction to Antipodean Health Geographies. <i>Geographical Research</i> , 2019, 57, 5-7.	1.8	0
24	Built and social environmental factors influencing healthy behaviours in older Chinese immigrants to Australia: a qualitative study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019, 16, 116.	4.6	21
25	Built environment and physical activity among adolescents: the moderating effects of neighborhood safety and social support. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019, 16, 132.	4.6	48
26	A qualitative study of the drivers of socioeconomic inequalities in men's eating behaviours. <i>BMC Public Health</i> , 2018, 18, 1257.	2.9	14
27	Australian consumers' views towards an environmentally sustainable eating pattern. <i>Public Health Nutrition</i> , 2018, 21, 2714-2722.	2.2	27
28	Dietary patterns of Australian children at three and five years of age and their changes over time: A latent class and latent transition analysis. <i>Appetite</i> , 2018, 129, 207-216.	3.7	12
29	What is known about consumer nutrition environments in Australia? A scoping review of the literature. <i>Obesity Science and Practice</i> , 2018, 4, 318-337.	1.9	8
30	Do the foods advertised in Australian supermarket catalogues reflect national dietary guidelines?. <i>Health Promotion International</i> , 2017, 32, dav089.	1.8	14
31	Prospective associations between diet quality and body mass index in disadvantaged women: the Resilience for Eating and Activity Despite Inequality (READI) study. <i>International Journal of Epidemiology</i> , 2017, 46, 1433-1443.	1.9	12
32	Where do people purchase food? A novel approach to investigating food purchasing locations. <i>International Journal of Health Geographics</i> , 2017, 16, 9.	2.5	49
33	Exploring the influence of local food environments on food behaviours: a systematic review of qualitative literature. <i>Public Health Nutrition</i> , 2017, 20, 2393-2405.	2.2	125
34	Associations between major chain fast-food outlet availability and change in body mass index: a longitudinal observational study of women from Victoria, Australia. <i>BMJ Open</i> , 2017, 7, e016594.	1.9	14
35	Associations between access to alcohol outlets and alcohol intake and depressive symptoms in women from socioeconomically disadvantaged neighbourhoods in Australia. <i>BMC Public Health</i> , 2017, 17, 83.	2.9	7
36	Measuring Blue Space Visibility and "Blue Recreation" in the Everyday Lives of Children in a Capital City. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 563.	2.6	31

#	ARTICLE	IF	CITATIONS
37	Variations in area-level disadvantage of Australian registered fitness trainers usual training locations. <i>BMC Public Health</i> , 2016, 16, 551.	2.9	7
38	Associations of public transport accessibility with walking, obesity, metabolic syndrome and diabetes. <i>Journal of Transport and Health</i> , 2016, 3, 141-153.	2.2	18
39	Socioeconomic position in young adulthood is associated with BMI in Australian families. <i>Journal of Public Health</i> , 2016, 38, e39-e46.	1.8	3
40	The impact of a new McDonald's restaurant on eating behaviours and perceptions of local residents: A natural experiment using repeated cross-sectional data. <i>Health and Place</i> , 2016, 39, 86-91.	3.3	9
41	Using kernel density estimation to understand the influence of neighbourhood destinations on BMI. <i>BMJ Open</i> , 2016, 6, e008878.	1.9	34
42	Fast food restaurant locations according to socioeconomic disadvantage, urban–regional locality, and schools within Victoria, Australia. <i>SSM - Population Health</i> , 2016, 2, 1-9.	2.7	55
43	Socioeconomic inequalities in fruit and vegetable intakes. , 2016, , 3-22.		0
44	Environmental barriers and enablers to physical activity participation among rural adults: a qualitative study. <i>Health Promotion Journal of Australia</i> , 2015, 26, 99-104.	1.2	26
45	Neighbourhood socioeconomic disadvantage and fruit and vegetable consumption: a seven countries comparison. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015, 12, 68.	4.6	58
46	Does the presence and mix of destinations influence walking and physical activity?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015, 12, 115.	4.6	32
47	Statistical Approaches Used to Assess the Equity of Access to Food Outlets: A Systematic Review. <i>AIMS Public Health</i> , 2015, 2, 358-401.	2.6	15
48	The Use of Kernel Density Estimation to Examine Associations between Neighborhood Destination Intensity and Walking and Physical Activity. <i>PLoS ONE</i> , 2015, 10, e0137402.	2.5	16
49	Does food store access modify associations between intrapersonal factors and fruit and vegetable consumption?. <i>European Journal of Clinical Nutrition</i> , 2015, 69, 902-906.	2.9	8
50	Maternal efficacy and sedentary behavior rules predict child obesity resilience. <i>BMC Obesity</i> , 2015, 2, 26.	3.1	8
51	Associations between the purchase of healthy and fast foods and restrictions to food access: a cross-sectional study in Melbourne, Australia. <i>Public Health Nutrition</i> , 2015, 18, 143-150.	2.2	21
52	A Qualitative Study of Environmental Factors Important for Physical Activity in Rural Adults. <i>PLoS ONE</i> , 2015, 10, e0140659.	2.5	26
53	Sociodemographic factors associated with healthy eating and food security in socio-economically disadvantaged groups in the UK and Victoria, Australia. <i>Public Health Nutrition</i> , 2014, 17, 20-30.	2.2	35
54	Is neighbourhood obesogenicity associated with body mass index in women? Application of an obesogenicity index in socioeconomically disadvantaged neighbourhoods. <i>Health and Place</i> , 2014, 30, 20-27.	3.3	21

#	ARTICLE	IF	CITATIONS
55	Effect of changes to the school food environment on eating behaviours and/or body weight in children: a systematic review. <i>Obesity Reviews</i> , 2014, 15, 968-982.	6.5	141
56	Socioeconomic differences in outdoor food advertising at public transit stops across Melbourne suburbs. <i>Australian and New Zealand Journal of Public Health</i> , 2014, 38, 414-418.	1.8	27
57	Is access to alcohol associated with alcohol/substance abuse among people diagnosed with anxiety/mood disorder?. <i>Public Health</i> , 2014, 128, 968-976.	2.9	6
58	Food insecurity among university students in Victoria: A pilot study. <i>Nutrition and Dietetics</i> , 2014, 71, 258-264.	1.8	46
59	Improving perceptions of healthy food affordability: results from a pilot intervention. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014, 11, 33.	4.6	13
60	Explaining educational disparities in adiposity: The role of neighborhood environments. <i>Obesity</i> , 2014, 22, 2413-2419.	3.0	15
61	Does the availability of snack foods in supermarkets vary internationally?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013, 10, 56.	4.6	73
62	Environmental perceptions as mediators of the relationship between the objective built environment and walking among socio-economically disadvantaged women. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013, 10, 108.	4.6	43
63	Employment status, residential and workplace food environments: Associations with women's eating behaviours. <i>Health and Place</i> , 2013, 24, 80-89.	3.3	39
64	Cohort Profile: The Resilience for Eating and Activity Despite Inequality (READI) study. <i>International Journal of Epidemiology</i> , 2013, 42, 1629-1639.	1.9	45
65	Barriers to avoiding fast-food consumption in an environment supportive of unhealthy eating. <i>Public Health Nutrition</i> , 2013, 16, 2105-2113.	2.2	19
66	Variation in supermarket exposure to energy-dense snack foods by socio-economic position. <i>Public Health Nutrition</i> , 2013, 16, 1178-1185.	2.2	51
67	Food environments: measuring, mapping, monitoring and modifying. <i>Public Health Nutrition</i> , 2013, 16, 1147-1150.	2.2	4
68	Monitoring the availability of healthy and unhealthy foods and non-alcoholic beverages in community and consumer retail food environments globally. <i>Obesity Reviews</i> , 2013, 14, 108-119.	6.5	147
69	Effective recruitment and retention strategies in community health programs. <i>Health Promotion Journal of Australia</i> , 2013, 24, 104-110.	1.2	12
70	Association between fast food purchasing and the local food environment. <i>Nutrition and Diabetes</i> , 2012, 2, e53-e53.	3.2	46
71	Resilience to obesity among socioeconomically disadvantaged women: the READI study. <i>International Journal of Obesity</i> , 2012, 36, 855-865.	3.4	50
72	Is the objective food environment associated with perceptions of the food environment?. <i>Public Health Nutrition</i> , 2012, 15, 291-298.	2.2	46

#	ARTICLE	IF	CITATIONS
73	Perceived quality and availability of fruit and vegetables are associated with perceptions of fruit and vegetable affordability among socio-economically disadvantaged women. <i>Public Health Nutrition</i> , 2012, 15, 1262-1267.	2.2	24
74	Optimising women's diets. An examination of factors that promote healthy eating and reduce the likelihood of unhealthy eating. <i>Appetite</i> , 2012, 59, 41-46.	3.7	27
75	The availability of snack food displays that may trigger impulse purchases in Melbourne supermarkets. <i>BMC Public Health</i> , 2012, 12, 194.	2.9	117
76	Does the choice of neighbourhood supermarket access measure influence associations with individual-level fruit and vegetable consumption? A case study from Glasgow. <i>International Journal of Health Geographics</i> , 2012, 11, 29.	2.5	79
77	Does parkland influence walking? The relationship between area of parkland and walking trips in Melbourne, Australia. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2012, 9, 115.	4.6	21
78	Do obesity-promoting food environments cluster around socially disadvantaged schools in Glasgow, Scotland?. <i>Health and Place</i> , 2012, 18, 1335-1340.	3.3	37
79	Do food and physical activity environments vary between disadvantaged urban and rural areas? Findings from the READI Study. <i>Health Promotion Journal of Australia</i> , 2012, 23, 153-156.	1.2	21
80	Access to alcohol outlets and harmful alcohol consumption: a multi-level study in Melbourne, Australia. <i>Addiction</i> , 2011, 106, 1772-1779.	3.3	70
81	Is greater variety of chocolates and confectionery in supermarkets associated with more consumption?. <i>Australian and New Zealand Journal of Public Health</i> , 2011, 35, 292-293.	1.8	6
82	Using Geographic Information Systems (GIS) to assess the role of the built environment in influencing obesity: a glossary. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011, 8, 71.	4.6	182
83	Reduced food access due to a lack of money, inability to lift and lack of access to a car for food shopping: a multilevel study in Melbourne, Victoria. <i>Public Health Nutrition</i> , 2011, 14, 1017-1023.	2.2	56
84	Who is eating where? Findings from the SocioEconomic Status and Activity in Women (SESAM) study. <i>Public Health Nutrition</i> , 2011, 14, 523-531.	2.2	28
85	Individual and area-level socioeconomic associations with fast food purchasing. <i>Journal of Epidemiology and Community Health</i> , 2011, 65, 873-880.	3.7	57
86	Neighbourhood-socioeconomic variation in women's diet: the role of nutrition environments. <i>European Journal of Clinical Nutrition</i> , 2010, 64, 1423-1432.	2.9	82
87	Fast food purchasing and access to fast food restaurants: a multilevel analysis of VicLANES. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2009, 6, 28.	4.6	79
88	Area variation in recreational cycling in Melbourne: a compositional or contextual effect?. <i>Journal of Epidemiology and Community Health</i> , 2008, 62, 890-898.	3.7	39
89	Rock Strength: A Control of Shore Platform Elevation. <i>Journal of Coastal Research</i> , 2006, 221, 224-231.	0.3	48
90	Australian Rock Coasts: review and prospects. <i>Australian Geographer</i> , 2005, 36, 95-115.	1.7	47
