

Robert W Haley

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1844711/robert-w-haley-publications-by-year.pdf>

Version: 2024-04-19

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
147	Evaluation of a Gene-Environment Interaction of and Low-Level Nerve Agent Exposure with Gulf War Illness: A Prevalence Case-Control Study Drawn from the U.S. Military Health Survey's National Population Sample.. <i>Environmental Health Perspectives</i> , 2022 , 130, 57001	8.4	2
146	Epidemiology and risk factors for varicella zoster virus reactivation in heart transplant recipients. <i>Transplant Infectious Disease</i> , 2021 , 23, e13519	2.7	2
145	The use of automated data extraction tools to develop a solid organ transplant registry: Proof of concept study of bloodstream infections. <i>Journal of Infection</i> , 2021 , 82, 41-47	18.9	2
144	Resolving whether inhalation of depleted uranium contributed to Gulf War Illness using high-sensitivity mass spectrometry. <i>Scientific Reports</i> , 2021 , 11, 3218	4.9	3
143	Superiority of Out-of-Office Blood Pressure for Predicting Hypertensive Heart Disease in Non-Hispanic Black Adults. <i>Hypertension</i> , 2019 , 74, 1192-1199	8.5	3
142	Exploring brain mechanisms underlying Gulf War Illness with group ICA based analysis of fMRI resting state networks. <i>Neuroscience Letters</i> , 2019 , 701, 136-141	3.3	10
141	2664. Impact of Multidrug-Resistant Bacterial Infections in Solid-Organ Transplantation: The Value of Electronic Health Records-Based Registries and Data Extraction Tools. <i>Open Forum Infectious Diseases</i> , 2019 , 6, S932-S933	1	1
140	Gulf War illness associated with abnormal auditory P1 event-related potential: Evidence of impaired cholinergic processing replicated in a national sample. <i>Psychiatry Research - Neuroimaging</i> , 2019 , 283, 7-15	2.9	5
139	Estimating the Health and Economic Impacts of Changes in Local Air Quality. <i>American Journal of Public Health</i> , 2018 , 108, S151-S157	5.1	11
138	1554. Reactivation of Varicella Zoster Virus in Solid Organ Transplant Recipients: Identification of Risk Factors Using Data Mining Tools. <i>Open Forum Infectious Diseases</i> , 2018 , 5, S483-S484	1	78
137	1133. Epidemiology of Invasive Fungal Infections in Lung Transplant Recipients: Harnessing Data Mining Tools to Build a Comprehensive Database. <i>Open Forum Infectious Diseases</i> , 2018 , 5, S340-S340	1	78
136	Identification of biologically active β -lactone eicosanoids as paraoxonase substrates. <i>Biochemical and Biophysical Research Communications</i> , 2018 , 505, 87-92	3.4	16
135	Electrophysiological correlates of semantic memory retrieval in Gulf War Syndrome 2 patients. <i>Journal of the Neurological Sciences</i> , 2017 , 373, 66-72	3.2	5
134	Association of the serum myeloperoxidase/high-density lipoprotein particle ratio and incident cardiovascular events in a multi-ethnic population: Observations from the Dallas Heart Study. <i>Atherosclerosis</i> , 2017 , 263, 156-162	3.1	21
133	Solid Organ Transplantation (SOT) and Data Mining: Bloodstream Infections (BSI) Have a Significant Impact on One-Year Survival, and qSOFA \geq Predicts 30-Day Mortality. <i>Open Forum Infectious Diseases</i> , 2017 , 4, S10-S10	1	78
132	Memory and functional brain differences in a national sample of U.S. veterans with Gulf War Illness. <i>Psychiatry Research - Neuroimaging</i> , 2016 , 250, 33-41	2.9	15
131	Cognitive Slowing in Gulf War Illness Predicts Executive Network Hyperconnectivity: Study in a Population-Representative Sample. <i>NeuroImage: Clinical</i> , 2016 , 12, 535-541	5.3	6

130	Word-finding impairment in veterans of the 1991 Persian Gulf War. <i>Brain and Cognition</i> , 2015 , 98, 65-73	2.7	6
129	New-Onset Myocarditis in an Immunocompetent Adult with Acute Metapneumovirus Infection. <i>Case Reports in Medicine</i> , 2015 , 2015, 814269	0.7	4
128	Central Executive Dysfunction and Deferred Prefrontal Processing in Veterans with Gulf War Illness. <i>Clinical Psychological Science</i> , 2014 , 2, 319-327	6	33
127	Memory impairment exhibited by veterans with Gulf War Illness. <i>Neurocase</i> , 2013 , 19, 316-27	0.8	30
126	Anteroposterior perfusion heterogeneity in human hippocampus measured by arterial spin labeling MRI. <i>NMR in Biomedicine</i> , 2013 , 26, 613-21	4.4	12
125	Visual event-related potentials as markers of hyperarousal in Gulf War illness: evidence against a stress-related etiology. <i>Psychiatry Research - Neuroimaging</i> , 2013 , 211, 257-67	2.9	8
124	Cholinergic autonomic dysfunction in veterans with Gulf War illness: confirmation in a population-based sample. <i>JAMA Neurology</i> , 2013 , 70, 191-200	17.2	50
123	Prevalence and risk factors for renal scars in children with febrile UTI and/or VUR: a cross-sectional observational study of 565 consecutive patients. <i>Journal of Pediatric Urology</i> , 2013 , 9, 856-63	1.5	35
122	Meteorological and intelligence evidence of long-distance transit of chemical weapons fallout from bombing early in the 1991 Persian Gulf War. <i>Neuroepidemiology</i> , 2013 , 40, 160-77	5.4	27
121	Epidemiologic evidence of health effects from long-distance transit of chemical weapons fallout from bombing early in the 1991 Persian Gulf War. <i>Neuroepidemiology</i> , 2013 , 40, 178-89	5.4	38
120	The 2012 West Nile encephalitis epidemic in Dallas, Texas. <i>JAMA - Journal of the American Medical Association</i> , 2013 , 310, 297-307	27.4	66
119	Methods for measuring serum activity levels of the 192 Q and R isoenzymes of paraoxonase 1 in QR heterozygous individuals. <i>Clinical Chemistry</i> , 2013 , 59, 1251-9	5.5	5
118	A new class of semiparametric semivariogram and nugget estimators. <i>Computational Statistics and Data Analysis</i> , 2012 , 56, 1737-1747	1.6	4
117	Dynamic physostigmine effects on hippocampus perfusion. <i>Journal of Magnetic Resonance Imaging</i> , 2012 , 35, 280-6	5.6	1
116	Event-related potential patterns associated with hyperarousal in Gulf War illness syndrome groups. <i>NeuroToxicology</i> , 2012 , 33, 1096-105	4.4	14
115	Controlling urban epidemics of West Nile virus infection. <i>JAMA - Journal of the American Medical Association</i> , 2012 , 308, 1325-6	27.4	10
114	fMRI reveals abnormal central processing of sensory and pain stimuli in ill Gulf War veterans. <i>NeuroToxicology</i> , 2012 , 33, 261-71	4.4	23
113	Key properties of D-optimal designs for event-related functional MRI experiments with application to nonlinear models. <i>Statistics in Medicine</i> , 2012 , 31, 3907-20	2.3	7

112	Striatal functional connectivity networks are modulated by fMRI resting state conditions. <i>NeuroImage</i> , 2011 , 54, 380-8	7.9	24
111	Perfusion deficit to cholinergic challenge in veterans with Gulf War Illness. <i>NeuroToxicology</i> , 2011 , 32, 242-6	4.4	28
110	Improved quantification of brain perfusion using FAIR with active suppression of superior tagging (FAIR ASST). <i>Journal of Magnetic Resonance Imaging</i> , 2011 , 34, 1037-44	5.6	4
109	Hippocampal dysfunction in Gulf War veterans: investigation with ASL perfusion MR imaging and physostigmine challenge. <i>Radiology</i> , 2011 , 261, 218-25	20.5	48
108	Validation of a research case definition of Gulf War illness in the 1991 US military population. <i>Neuroepidemiology</i> , 2011 , 37, 129-40	5.4	41
107	Epidemiological similarities between appendicitis and diverticulitis suggesting a common underlying pathogenesis. <i>Archives of Surgery</i> , 2011 , 146, 308-14		43
106	Effectiveness of a barber-based intervention for improving hypertension control in black men: the BARBER-1 study: a cluster randomized trial. <i>Archives of Internal Medicine</i> , 2011 , 171, 342-50		122
105	Impaired response inhibition in ill Gulf War veterans. <i>Journal of the Neurological Sciences</i> , 2010 , 297, 1-5	3.2	15
104	Association of viral infection and appendicitis. <i>Archives of Surgery</i> , 2010 , 145, 63-71		44
103	Paraoxonase 2 is down-regulated by the <i>Pseudomonas aeruginosa</i> quorum-sensing signal N-(3-oxododecanoyl)-L-homoserine lactone and attenuates oxidative stress induced by pyocyanin. <i>Biochemical Journal</i> , 2010 , 426, 73-83	3.8	48
102	The neuroanatomic correlates of semantic memory deficits in patients with Gulf War illnesses: a pilot study. <i>Brain Imaging and Behavior</i> , 2010 , 4, 248-55	4.1	22
101	Distinct autoimmune syndromes in morphea: a review of 245 adult and pediatric cases. <i>Archives of Dermatology</i> , 2009 , 145, 545-50		170
100	Far Casting Cross-Validation. <i>Journal of Computational and Graphical Statistics</i> , 2009 , 18, 879-893	1.4	20
99	Abnormal brain response to cholinergic challenge in chronic encephalopathy from the 1991 Gulf War. <i>Psychiatry Research - Neuroimaging</i> , 2009 , 171, 207-20	2.9	34
98	A barber-based intervention for hypertension in African American men: design of a group randomized trial. <i>American Heart Journal</i> , 2009 , 157, 30-6	4.9	34
97	Validation of a questionnaire for self-reporting of hyperpigmentation disorders in Chinese-speaking women of Chinese descent. <i>Archives of Dermatology</i> , 2009 , 145, 202-3		
96	Acute myocardial infarction in young adults who abuse amphetamines. <i>Drug and Alcohol Dependence</i> , 2008 , 96, 49-56	4.9	67
95	Dominant role of paraoxonases in inactivation of the <i>Pseudomonas aeruginosa</i> quorum-sensing signal N-(3-oxododecanoyl)-L-homoserine lactone. <i>Infection and Immunity</i> , 2008 , 76, 2512-9	3.7	125

94	Factors associated with hypertension awareness, treatment, and control in Dallas County, Texas. <i>Archives of Internal Medicine</i> , 2008 , 168, 1285-93		44
93	Stroke in young adults who abuse amphetamines or cocaine: a population-based study of hospitalized patients. <i>Archives of General Psychiatry</i> , 2007 , 64, 495-502		213
92	Accounting for Spatial Dependence in the Analysis of SPECT Brain Imaging Data. <i>Journal of the American Statistical Association</i> , 2007 , 102, 464-473	2.8	13
91	Prevalence of self-diagnosed melasma among premenopausal Latino women in Dallas and Fort Worth, Tex. <i>Archives of Dermatology</i> , 2007 , 143, 424-5		42
90	Methicillin-resistant <i>Staphylococcus aureus</i> infection or colonization present at hospital admission: multivariable risk factor screening to increase efficiency of surveillance culturing. <i>Journal of Clinical Microbiology</i> , 2007 , 45, 3031-8	9.7	50
89	Barbershops as hypertension detection, referral, and follow-up centers for black men. <i>Hypertension</i> , 2007 , 49, 1040-6	8.5	80
88	Disconnect between incidence of nonperforated and perforated appendicitis: implications for pathophysiology and management. <i>Annals of Surgery</i> , 2007 , 245, 886-92	7.8	259
87	2006,		7
86	Using a white matter reference to remove the dependency of global signal on experimental conditions in SPECT analyses. <i>NeuroImage</i> , 2006 , 32, 49-53	7.9	17
85	Recurrent exposure to <i>Histoplasma capsulatum</i> in modern air-conditioned buildings. <i>Clinical Infectious Diseases</i> , 2005 , 41, 170-6	11.6	17
84	Biases in surveillance of hepatitis C infection systematically underestimate the etiologic role of tattooing. <i>Journal of Gastroenterology and Hepatology (Australia)</i> , 2004 , 19, 1222-3	4	4
83	The Dallas Heart Study: a population-based probability sample for the multidisciplinary study of ethnic differences in cardiovascular health. <i>American Journal of Cardiology</i> , 2004 , 93, 1473-80	3	419
82	Blunted circadian variation in autonomic regulation of sinus node function in veterans with Gulf War syndrome. <i>American Journal of Medicine</i> , 2004 , 117, 469-78	2.4	64
81	Improved agreement between Talairach and MNI coordinate spaces in deep brain regions. <i>NeuroImage</i> , 2004 , 22, 367-71	7.9	22
80	The tattooing paradox: are studies of acute hepatitis adequate to identify routes of transmission of subclinical hepatitis C infection?. <i>Archives of Internal Medicine</i> , 2003 , 163, 1095-8		32
79	Gulf war syndrome: narrowing the possibilities. <i>Lancet Neurology</i> , 2003 , 2, 272-3	24.1	18
78	Excess incidence of ALS in young Gulf War veterans. <i>Neurology</i> , 2003 , 61, 750-6	6.5	169
77	Reflex sympathetic activation during static exercise is severely impaired in patients with myophosphorylase deficiency. <i>Journal of Physiology</i> , 2003 , 548, 983-93	3.9	26

76	Severely reduced functional status in veterans fitting a case definition of Gulf War syndrome. <i>American Journal of Public Health</i> , 2002 , 92, 46-7	5.1	11
75	Gene therapy to prevent organophosphate intoxication. <i>Toxicology and Applied Pharmacology</i> , 2001 , 173, 1-6	4.6	65
74	Gulf syndrome research has passed peer review. <i>Nature</i> , 2001 , 410, 739	50.4	4
73	Use of structural equation modeling to test the construct validity of a case definition of Gulf War syndrome: invariance over developmental and validation samples, service branches and publicity. <i>Psychiatry Research</i> , 2001 , 102, 175-200	9.9	28
72	Commercial tattooing as a potentially important source of hepatitis C infection. Clinical epidemiology of 626 consecutive patients unaware of their hepatitis C serologic status. <i>Medicine (United States)</i> , 2001 , 80, 134-51	1.8	97
71	Effect of basal ganglia injury on central dopamine activity in Gulf War syndrome: correlation of proton magnetic resonance spectroscopy and plasma homovanillic acid levels. <i>Archives of Neurology</i> , 2000 , 57, 1280-5		56
70	Alternative case definitions of ventilator-associated pneumonia identify different patients in a surgical intensive care unit. <i>Shock</i> , 2000 , 14, 331-6; discussion 336-7	3.4	28
69	Stressful manipulations that elevate corticosterone reduce blood-brain barrier permeability to pyridostigmine in the Rat. <i>Toxicology and Applied Pharmacology</i> , 2000 , 165, 99-105	4.6	53
68	PON1 and low-dose sarin in marmosets. <i>Journal of Psychopharmacology</i> , 2000 , 14, 87-8	4.6	
67	Brain abnormalities in Gulf War syndrome: evaluation with 1H MR spectroscopy. <i>Radiology</i> , 2000 , 215, 807-17	20.5	84
66	Re: "Factor analysis of self-reported symptoms: does it identify a Gulf War syndrome?". <i>American Journal of Epidemiology</i> , 2000 , 152, 1204-6	3.8	
65	Vestibular dysfunction in Gulf War syndrome. <i>Otolaryngology - Head and Neck Surgery</i> , 2000 , 122, 319-29	5.5	15
64	Is there a connection between the concentration of cholesterol circulating in plasma and the rate of neuritic plaque formation in Alzheimer disease?. <i>Archives of Neurology</i> , 2000 , 57, 1410-2		68
63	Will we solve the Gulf War syndrome puzzle by population surveys or clinical research. <i>American Journal of Medicine</i> , 2000 , 109, 744-8	2.4	2
62	Vestibular Dysfunction in Gulf War Syndrome. <i>Otolaryngology - Head and Neck Surgery</i> , 2000 , 122, 319-330	5	31
61	Gulf War syndrome: another side of the debate. <i>Mayo Clinic Proceedings</i> , 2000 , 75, 1221-2	6.4	1
60	Association of low PON1 type Q (type A) arylesterase activity with neurologic symptom complexes in Gulf War veterans. <i>Toxicology and Applied Pharmacology</i> , 1999 , 157, 227-33	4.6	162
59	Is there a Gulf War syndrome?. <i>Lancet, The</i> , 1999 , 354, 1645-6	40	5

58	Chronic Multisystem Illness Among Gulf War Veterans. <i>JAMA - Journal of the American Medical Association</i> , 1999 , 282, 327-329	27.4	13
57	Evaluation of Neurologic Function in Gulf War VeteransA Blinded Case-Control Study. <i>JAMA - Journal of the American Medical Association</i> , 1997 , 277, 223	27.4	96
56	Identification of Gulf War Syndrome: Methodological Issues and Medical Illnesses-Reply. <i>JAMA - Journal of the American Medical Association</i> , 1997 , 278, 385	27.4	2
55	Neuropsychological correlates of Gulf War syndrome. <i>Archives of Clinical Neuropsychology</i> , 1997 , 12, 531-544	2.7	65
54	Self-reported Exposure to Neurotoxic Chemical Combinations in the Gulf WarA Cross-sectional Epidemiologic Study. <i>JAMA - Journal of the American Medical Association</i> , 1997 , 277, 231	27.4	153
53	Is There a Gulf War Syndrome?Searching for Syndromes by Factor Analysis of Symptoms. <i>JAMA - Journal of the American Medical Association</i> , 1997 , 277, 215	27.4	157
52	Neuropsychological correlates of Gulf War syndrome. <i>Archives of Clinical Neuropsychology</i> , 1997 , 12, 531-544	2.7	6
51	The scientific basis for using surveillance and risk factor data to reduce nosocomial infection rates. <i>Journal of Hospital Infection</i> , 1995 , 30 Suppl, 3-14	6.9	88
50	Measuring the costs of nosocomial infections: methods for estimating economic burden on the hospital. <i>American Journal of Medicine</i> , 1991 , 91, 32S-38S	2.4	101
49	Nosocomial infections in surgical patients: developing valid measures of intrinsic patient risk. <i>American Journal of Medicine</i> , 1991 , 91, 145S-151S	2.4	38
48	Methicillin-resistant Staphylococcus aureus: do we just have to live with it?. <i>Annals of Internal Medicine</i> , 1991 , 114, 162-4	8	30
47	Tuberculosis Epidemic among Hospital Personnel. <i>Infection Control and Hospital Epidemiology</i> , 1989 , 10, 204-210	2	109
46	The Vicissitudes of Prospective Multihospital Surveillance Studies: The Israeli Study of Surgical Infections. <i>Infection Control and Hospital Epidemiology</i> , 1988 , 9, 228-231	2	1
45	Who Will Generate Surgeon-Specific Rates? The Gauntlet Is Down. <i>Infection Control and Hospital Epidemiology</i> , 1988 , 9, 475-476	2	
44	The vicissitudes of prospective multihospital surveillance studies: the Israeli Study of Surgical Infections. <i>Infection Control and Hospital Epidemiology</i> , 1988 , 9, 228-31	2	2
43	The Financial Incentive for Hospitals to Prevent Nosocomial Infections Under the Prospective Payment System. <i>JAMA - Journal of the American Medical Association</i> , 1987 , 257, 1611	27.4	62
42	Factors which influence the risk of wound infection in trauma patients. <i>Journal of Trauma</i> , 1987 , 27, 774-81		24
41	Fever in hospitalized patients. With special reference to the medical service. <i>American Journal of Medicine</i> , 1987 , 82, 580-6	2.4	46

40	Dr. Robert Haley responds to Mr. Birnbaum's comments*. <i>Infection Control</i> , 1986 , 7, 10-11		1
39	How frequent are outbreaks of nosocomial infection in community hospitals?. <i>Infection Control</i> , 1985 , 6, 233-6		51
38	The nationwide nosocomial infection rate. A new need for vital statistics. <i>American Journal of Epidemiology</i> , 1985 , 121, 159-67	3.8	579
37	The efficacy of infection surveillance and control programs in preventing nosocomial infections in US hospitals. <i>American Journal of Epidemiology</i> , 1985 , 121, 182-205	3.8	1417
36	Identifying patients at high risk of surgical wound infection. A simple multivariate index of patient susceptibility and wound contamination. <i>American Journal of Epidemiology</i> , 1985 , 121, 206-15	3.8	552
35	Redesigning infection control programs for cost-effectiveness. <i>Clinical Microbiology Newsletter</i> , 1985 , 7, 161-162	1.1	
34	Increased recognition of infectious diseases in US hospitals through increased use of diagnostic tests, 1970-1976. <i>American Journal of Epidemiology</i> , 1985 , 121, 168-81	3.8	40
33	Update from the SENIC project. Hospital infection control: recent progress and opportunities under prospective payment. <i>American Journal of Infection Control</i> , 1985 , 13, 97-108	3.8	103
32	A new approach to the isolation of hospitalized patients with infectious diseases: Alternative systems. <i>Journal of Hospital Infection</i> , 1985 , 6, 128-139	6.9	15
31	Surveillance by objective: a new priority-directed approach to the control of nosocomial infections. The National Foundation for Infectious Diseases lecture. <i>American Journal of Infection Control</i> , 1985 , 13, 78-89	3.8	78
30	Response No. 1. <i>American Journal of Infection Control</i> , 1983 , 11, 40-41	3.8	
29	Polymicrobial bacteremia associated with lipid emulsion in a neonatal intensive care unit. <i>Pediatric Infectious Disease Journal</i> , 1983 , 2, 203-8	3.4	48
28	The emergence of methicillin-resistant <i>Staphylococcus aureus</i> infections in United States hospitals. Possible role of the house staff-patient transfer circuit. <i>Annals of Internal Medicine</i> , 1982 , 97, 297-308	8	320
27	CDC guidelines on infection control. <i>Infection Control</i> , 1982 , 3, 52-72		6
26	Comparison of surveillance and control activities of infection control nurses and infection control laboratorians in United States hospitals, 1976-1977. <i>American Journal of Infection Control</i> , 1982 , 10, 3-16	3.8	5
25	High cost nosocomial infections. <i>Infection Control</i> , 1982 , 3, 143-9		48
24	Extra charges and prolongation of stay attributable to nosocomial infections: a prospective interhospital comparison. <i>American Journal of Medicine</i> , 1981 , 70, 51-8	2.4	301
23	Techniques and uses of nosocomial infection surveillance in U.S. hospitals, 1976-1977. <i>American Journal of Medicine</i> , 1981 , 70, 933-40	2.4	20

22	Microbiologic sampling of the inanimate environment in U.S. hospitals, 1976-1977. <i>American Journal of Medicine</i> , 1981 , 70, 941-6	2.4	16
21	Nosocomial infections in U.S. hospitals, 1975-1976: estimated frequency by selected characteristics of patients. <i>American Journal of Medicine</i> , 1981 , 70, 947-59	2.4	404
20	The joint associations of multiple risk factors with the occurrence of nosocomial infection. <i>American Journal of Medicine</i> , 1981 , 70, 960-70	2.4	101
19	Progress report on the evaluation of the efficacy of infection surveillance and control programs. <i>American Journal of Medicine</i> , 1981 , 70, 971-5	2.4	23
18	This letter was referred to Dr. Robert Haley, who wrote the following reply. <i>Infection Control</i> , 1981 , 2, 288-288		
17	CDC guidelines on infection control. <i>Infection Control</i> , 1981 , 2, 117-46		5
16	The Employee Health Service and Infection Control in US Hospitals, 1976-1977. <i>JAMA - Journal of the American Medical Association</i> , 1981 , 246, 844	27.4	4
15	The Employee Health Service and Infection Control in US Hospitals, 1976-1977. <i>JAMA - Journal of the American Medical Association</i> , 1981 , 246, 962	27.4	7
14	The Employee Health Service and Infection Control in US hospitals, 1976-1977. II. Managing employee illness. <i>JAMA - Journal of the American Medical Association</i> , 1981 , 246, 962-966	27.4	3
13	The SENIC Project. Study on the efficacy of nosocomial infection control (SENIC Project). Summary of study design. <i>American Journal of Epidemiology</i> , 1980 , 111, 472-85	3.8	233
12	The SENIC sampling process: design for choosing hospitals and patients and results of sample selection. <i>American Journal of Epidemiology</i> , 1980 , 111, 486-502	3.8	20
11	Nosocomial surgical infections: incidence and cost. <i>Surgical Clinics of North America</i> , 1980 , 60, 15-25	4	86
10	The emergence of infection surveillance and control programs in US hospitals: an assessment, 1976. <i>American Journal of Epidemiology</i> , 1980 , 111, 574-91	3.8	64
9	The infection control nurse in US hospitals, 1976-1977. Characteristics of the position and its occupant. <i>American Journal of Epidemiology</i> , 1980 , 111, 592-607	3.8	36
8	The "hospital epidemiologist" in U.S. hospitals, 1976-1977: a description of the head of the infection surveillance and control program. Report from the SENIC project. <i>Infection Control</i> , 1980 , 1, 21-32		21
7	Effects of method error on the power of a statistical test. Implications of imperfect sensitivity and specificity in retrospective chart review. <i>American Journal of Epidemiology</i> , 1980 , 111, 534-42	3.8	14
6	A method for classifying patients according to the nosocomial infection risks associated with diagnoses and surgical procedures. <i>American Journal of Epidemiology</i> , 1980 , 111, 556-73	3.8	21
5	Effects of misclassifications on statistical inferences in epidemiology. <i>American Journal of Epidemiology</i> , 1980 , 111, 503-15	3.8	72

4	The accuracy of retrospective chart review in measuring nosocomial infection rates. Results of validation studies in pilot hospitals. <i>American Journal of Epidemiology</i> , 1980 , 111, 516-33	3.8	93
3	Effect of an infection surveillance and control program on the accuracy of retrospective chart review. <i>American Journal of Epidemiology</i> , 1980 , 111, 543-55	3.8	11
2	Estimating the extra charges and prolongation of hospitalization due to nosocomial infections: a comparison of methods. <i>Journal of Infectious Diseases</i> , 1980 , 141, 248-57	7	158
1	Recurrent St. Louis encephalitis infection in residents of a flood plain of the Trinity River, Roosevelt Heights (Dallas, Texas). <i>American Journal of Epidemiology</i> , 1972 , 96, 107-13	3.8	1
