| #  | ARTICLE                                                                                                                                                                                                                   | IF  | CITATIONS |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Risk of invasive pneumococcal disease in children with sickle cell disease in the era of conjugate vaccines: a systematic review of the literature. <i>British Journal of Haematology</i> , 2019, 185, 743-751.           | 2.5 | 32        |
| 2  | Childhood Deaths Attributable to Invasive Pneumococcal Disease in England and Wales, 2006â€“2014. <i>Clinical Infectious Diseases</i> , 2017, 65, 308-314.                                                                | 5.8 | 29        |
| 3  | Clinical Characteristics of Children with COVID-19. <i>AIMS Public Health</i> , 2020, 7, 258-273.                                                                                                                         | 2.6 | 23        |
| 4  | Risk of Transverse Myelitis Following Dengue Infection: A Systematic Review of the Literature. <i>Pharmacy (Basel, Switzerland)</i> , 2019, 7, 3.                                                                         | 1.6 | 13        |
| 5  | Infection is associated with one in five childhood deaths in England and Wales: analysis of national death registrations data, 2013â€“15. <i>Archives of Disease in Childhood</i> , 2020, 105, 857-863.                   | 1.9 | 13        |
| 6  | Risk of Invasive Pneumococcal Disease in Children with Sickle Cell Disease in England: A National Observational Cohort Study, 2010â€“2015. <i>Archives of Disease in Childhood</i> , 2017, 103, archdischild-2017-313611. | 1.9 | 11        |
| 7  | The Pneumococcus and Its Critical Role in Public Health. <i>Methods in Molecular Biology</i> , 2019, 1968, 205-213.                                                                                                       | 0.9 | 9         |
| 8  | The Epidemiology and Biostatistics of Pneumococcus. <i>Methods in Molecular Biology</i> , 2019, 1968, 215-224.                                                                                                            | 0.9 | 9         |
| 9  | Does norovirus induce acute hepatitis?. <i>AIMS Public Health</i> , 2020, 7, 148-157.                                                                                                                                     | 2.6 | 5         |
| 10 | Higher valent Pneumococcal Conjugate Vaccines: is it a roller coaster?. <i>AIMS Public Health</i> , 2020, 7, 29-32.                                                                                                       | 2.6 | 4         |
| 11 | Catatonia as a presentation of autism in a child: a case report. <i>AIMS Neuroscience</i> , 2020, 7, 327-332.                                                                                                             | 2.3 | 3         |
| 12 | Rare and Imported Infections: Are We Prepared?. <i>Pharmacy (Basel, Switzerland)</i> , 2019, 7, 9.                                                                                                                        | 1.6 | 2         |
| 13 | The Dilemma of Chronic Recurrent Multifocal Osteomyelitis. <i>ReumatologĂa ClĂınica</i> , 2020, 16, 490-492.                                                                                                              | 0.5 | 2         |
| 14 | Retrospective analysis of neonatal deaths secondary to infections in England and Wales, 2013â€“2015. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2021, 106, 363-369.                            | 2.8 | 2         |
| 15 | Teicoplanin-Induced Anaphylactic Reaction in Children: A Case Report. <i>Pharmacy (Basel, Switzerland)</i> , 2018, 6, 110.                                                                                                | 1.6 | 1         |
| 16 | A Rare Case of Juvenile Idiopathic Arthritis following a Ruptured Bakerâ€™s Cyst in a Toddler. <i>Case Reports in Pediatrics</i> , 2020, 2020, 1-3.                                                                       | 0.4 | 1         |
| 17 | Community Pharmacy Minor Ailment Service (PMAS): An Untapped Resource for Children and Their Carers. <i>Pharmacy (Basel, Switzerland)</i> , 2021, 9, 102.                                                                 | 1.6 | 1         |
| 18 | The dilemma of chronic recurrent multifocal osteomyelitis. <i>ReumatologĂa ClĂınica (English Edition)</i> , 2020, 16, 490-492.                                                                                            | 0.3 | 0         |
