

Andreas L S Meyer

List of Publications by Citations

Source: <https://exaly.com/author-pdf/1854534/andreas-l-s-meyer-publications-by-citations.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
18	Impending extinction crisis of the world's primates: Why primates matter. <i>Science Advances</i> , 2017 , 3, e1600946	14.3	569
17	A62 A major likelihood-based approach gives problematic estimates of diversification dynamics and rates. <i>Virus Evolution</i> , 2019 , 5,	3.7	78
16	Estimating diversification rates for higher taxa: BAMM can give problematic estimates of rates and rate shifts. <i>Evolution; International Journal of Organic Evolution</i> , 2018 , 72, 39-53	3.8	60
15	BAMM gives misleading rate estimates in simulated and empirical datasets. <i>Evolution; International Journal of Organic Evolution</i> , 2018 , 72, 2257-2266	3.8	37
14	Understanding the mechanisms underlying the distribution of microendemic montane frogs (<i>Brachycephalus</i> spp., Terrarana: <i>Brachycephalidae</i>) in the Brazilian Atlantic Rainforest. <i>Ecological Modelling</i> , 2013 , 250, 165-176	3	37
13	Assessing the exposure of lion tamarins (<i>Leontopithecus</i> spp.) to future climate change. <i>American Journal of Primatology</i> , 2014 , 76, 551-62	2.5	29
12	Climatic niche evolution in New World monkeys (Platyrrhini). <i>PLoS ONE</i> , 2013 , 8, e83684	3.7	22
11	The evolution of climatic niches in squamate reptiles. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2017 , 284,	4.4	20
10	Geographical and altitudinal distribution of (<i>Anura</i> : <i>Brachycephalidae</i>) endemic to the Brazilian Atlantic Rainforest. <i>PeerJ</i> , 2016 , 4, e2490	3.1	16
9	The Evolution of Range Sizes in Mammals and Squamates: Heritability and Differential Evolutionary Rates for Low- and High-Latitude Limits. <i>Evolutionary Biology</i> , 2017 , 44, 347-355	3	11
8	Phylogeography of ants from the Brazilian Atlantic Forest. <i>Organisms Diversity and Evolution</i> , 2019 , 19, 435-445	1.7	6
7	Environmental prevalence and the distribution of species richness across climatic niche space. <i>Journal of Biogeography</i> , 2018 , 45, 2348-2360	4.1	4
6	How to prioritize areas for new ant surveys? Integrating historical data on species occurrence records and habitat loss. <i>Journal of Insect Conservation</i> , 2020 , 24, 901-911	2.1	4
5	Climate Change, Forests, and Primate Conservation 2017 , 1-6		3
4	ATLANTIC ANTS: a data set of ants in Atlantic Forests of South America. <i>Ecology</i> , 2021 , e03580	4.6	3
3	Variation in Guiana dolphin parental care according to calf age class. <i>Acta Ethologica</i> , 2018 , 21, 119-126	1.1	1
2	Climate Change Estimates Surpass Rates of Climatic Niche Evolution in Primates. <i>International Journal of Primatology</i> , 1	2	1

- 1 Climate change and primate conservation **2018**, 1-2
