#	ARTICLE	IF	CITATIONS
1	Multidrug resistance-associated protein 2 is negatively regulated by oxidative stress in rat intestine via a posttranslational mechanism. Impact on its membrane barrier function. <i>Toxicology</i> , 2021, 460, 152873.	4.2	0
2	Role of interleukin 1 beta in the regulation of rat intestinal multidrug resistance-associated protein 2 under conditions of experimental endotoxemia. <i>Toxicology</i> , 2020, 441, 152527.	4.2	3
3	Reversion of down-regulation of intestinal multidrug resistance-associated protein 2 in fructose-fed rats by geraniol and vitamin C: Potential role of inflammatory response and oxidative stress. <i>Journal of Nutritional Biochemistry</i> , 2019, 68, 7-15.	4.2	10
4	Biphasic modulation of cAMP levels by the contraceptive norgestrel acetate. Impact on P-glycoprotein expression and activity in hepatic cells. <i>Biochemical Pharmacology</i> , 2018, 154, 118-126.	4.4	3
5	Acute regulation of multidrug resistance-associated protein 2 localization and activity by cAMP and estradiol-17 β -d-glucuronide in rat intestine and Caco-2 cells. <i>Archives of Toxicology</i> , 2018, 92, 777-788.	4.2	8
6	Inhibition of multidrug resistance-associated protein 2 (MRP2) activity by the contraceptive norgestrel acetate in HepG2 and Caco-2 cells. <i>European Journal of Pharmaceutical Sciences</i> , 2018, 122, 205-213.	4.0	6
7	Intestinal multidrug resistance-associated protein 2 is down-regulated in fructose-fed rats. <i>Journal of Nutritional Biochemistry</i> , 2017, 40, 178-186.	4.2	13
8	Glucagon-like peptide 2 prevents down-regulation of intestinal multidrug resistance-associated protein 2 and P-glycoprotein in endotoxemic rats. <i>Toxicology</i> , 2017, 390, 22-31.	4.2	9
9	The phytoestrogen genistein enhances multidrug resistance in breast cancer cell lines by translational regulation of ABC transporters. <i>Cancer Letters</i> , 2016, 376, 165-172.	7.2	50
10	Modulation of expression and activity of intestinal multidrug resistance-associated protein 2 by xenobiotics. <i>Toxicology and Applied Pharmacology</i> , 2016, 303, 45-57.	2.8	22
11	Regulation of Multidrug Resistance Proteins by Genistein in a Hepatocarcinoma Cell Line: Impact on Sorafenib Cytotoxicity. <i>PLoS ONE</i> , 2015, 10, e0119502.	2.5	56
12	Coordinated induction of GST and MRP2 by cAMP in Caco-2 cells: Role of protein kinase A signaling pathway and toxicological relevance. <i>Toxicology and Applied Pharmacology</i> , 2015, 287, 178-190.	2.8	16
13	Estrogen receptor- α mediates human multidrug resistance associated protein 3 induction by 17 β -ethynylestradiol. Role of activator protein-1. <i>Biochemical Pharmacology</i> , 2013, 86, 401-409.	4.4	17
14	Induction of Hepatic Multidrug Resistance-Associated Protein 3 by Ethynylestradiol Is Independent of Cholestasis and Mediated by Estrogen Receptor. <i>Drug Metabolism and Disposition</i> , 2013, 41, 275-280.	3.3	20
15	Acetaminophen-induced stimulation of MDR1 expression and activity in rat intestine and in LS 174T human intestinal cell line. <i>Biochemical Pharmacology</i> , 2011, 81, 244-250.	4.4	20
16	Pregnane X receptor mediates the induction of P-glycoprotein by spironolactone in HepG2 cells. <i>Toxicology</i> , 2011, 285, 18-24.	4.2	46
