

Benjamin Blondel

List of Publications by Citations

Source: <https://exaly.com/author-pdf/1867042/benjamin-blondel-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
144	Scoliosis Research Society-Schwab adult spinal deformity classification: a validation study. <i>Spine</i> , 2012 , 37, 1077-82	3.3	709
143	Radiographical spinopelvic parameters and disability in the setting of adult spinal deformity: a prospective multicenter analysis. <i>Spine</i> , 2013 , 38, E803-12	3.3	584
142	Cervical spine alignment, sagittal deformity, and clinical implications: a review. <i>Journal of Neurosurgery: Spine</i> , 2013 , 19, 141-59	2.8	408
141	Cervical radiographical alignment: comprehensive assessment techniques and potential importance in cervical myelopathy. <i>Spine</i> , 2013 , 38, S149-60	3.3	330
140	The comprehensive anatomical spinal osteotomy classification. <i>Neurosurgery</i> , 2014 , 74, 112-20; discussion 120	3.2	202
139	Spontaneous improvement of cervical alignment after correction of global sagittal balance following pedicle subtraction osteotomy. <i>Journal of Neurosurgery: Spine</i> , 2012 , 17, 300-7	2.8	121
138	Impact of magnitude and percentage of global sagittal plane correction on health-related quality of life at 2-years follow-up. <i>Neurosurgery</i> , 2012 , 71, 341-8; discussion 348	3.2	117
137	Pelvic tilt measurement before and after total hip arthroplasty. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2009 , 95, 568-72	2.9	93
136	Percutaneous kyphoplasty and pedicle screw fixation for the management of thoraco-lumbar burst fractures. <i>European Spine Journal</i> , 2010 , 19, 1281-7	2.7	85
135	Posterior global malalignment after osteotomy for sagittal plane deformity: it happens and here is why. <i>Spine</i> , 2013 , 38, E394-401	3.3	69
134	Percutaneous management of thoracolumbar burst fractures: Evolution of techniques and strategy. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2011 , 97, 527-32	2.9	56
133	Intraoperative neurophysiologic monitoring in spine surgery. Developments and state of the art in France in 2011. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2013 , 99, S319-27	2.9	35
132	A prospective, international, randomized, noninferiority study comparing an implantable titanium vertebral augmentation device versus balloon kyphoplasty in the reduction of vertebral compression fractures (SAKOS study). <i>Spine Journal</i> , 2019 , 19, 1782-1795	4	31
131	Reciprocal sagittal alignment changes after posterior fusion in the setting of adolescent idiopathic scoliosis. <i>European Spine Journal</i> , 2012 , 21, 1964-71	2.7	31
130	Sacro-femoral-pubic angle: a coronal parameter to estimate pelvic tilt. <i>European Spine Journal</i> , 2012 , 21, 719-24	2.7	30
129	Clinical results of lumbar total disc arthroplasty in accordance with Modic signs, with a 2-year-minimum follow-up. <i>Spine</i> , 2011 , 36, 2309-15	3.3	30
128	Limb lengthening and deformity correction in children using hexapodal external fixation: preliminary results for 36 cases. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2009 , 95, 425-30	2.9	29

127	Prospective Comparative Study in Spine Surgery Between O-Arm and Airo Systems: Efficacy and Radiation Exposure. <i>World Neurosurgery</i> , 2018 , 118, e175-e184	2.1	28
126	Use of the Universal Clamp in adolescent idiopathic scoliosis. <i>European Spine Journal</i> , 2014 , 23 Suppl 4, S446-51	2.7	26
125	Use of the Universal Clamp in adolescent idiopathic scoliosis for deformity correction and as an adjunct to fusion: 2-year follow-up. <i>Journal of Children's Orthopaedics</i> , 2011 , 5, 273-82	2.1	25
124	Evolution of adolescent idiopathic scoliosis: results of a multicenter study at 20 years' follow-up. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2015 , 101, 619-22	2.9	24
123	Interest of T1 parameters for sagittal alignment evaluation of adolescent idiopathic scoliosis patients. <i>European Spine Journal</i> , 2016 , 25, 424-9	2.7	22
122	Child pectus excavatum: correction by minimally invasive surgery. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2009 , 95, 190-5	2.9	22
121	Hexapodal external fixation in the management of children tibial fractures. <i>Journal of Pediatric Orthopaedics Part B</i> , 2010 , 19, 487-91	1.4	22
120	Retrospective multicenter study by the French Spine Society of surgical treatment for spinal metastasis in France. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2018 , 104, 589-595	2.9	21
119	Early percutaneous fixation of spinal thoracolumbar fractures in polytrauma patients. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2014 , 100, 449-54	2.9	20
118	Percutaneous cement-augmented screws fixation in the fractures of the aging spine: is it the solution?. <i>BioMed Research International</i> , 2014 , 2014, 610675	3	20
117	Selection of fusion levels in adults with spinal deformity: an update. <i>Spine Journal</i> , 2013 , 13, 464-74	4	19
116	Anterolateral kyphoplasty in the management of cervical spinal metastasis. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2012 , 98, 341-5	2.9	19
115	Use of the Universal Clamp for deformity correction and as an adjunct to fusion: preliminary results in scoliosis. <i>Journal of Children's Orthopaedics</i> , 2010 , 4, 73-80	2.1	19
114	Trends in the surgical management of odontoid fractures in patients above 75 years of age: Retrospective study of 70 cases. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2017 , 103, 1221-1228	2.9	18
113	Intraoperative monitoring in pediatric orthopedic spinal surgery: three hundred consecutive monitoring cases of which 10% of patients were younger than 4 years of age. <i>Spine</i> , 2011 , 36, 1855-63	3.3	18
112	Severe thoracolumbar osteoporotic burst fractures: treatment combining open kyphoplasty and short-segment fixation. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2009 , 95, 359-64	2.9	18
111	Minimally invasive posterior transforaminal lumbar interbody fusion: One-year postoperative morbidity, clinical and radiological results of a prospective multicenter study of 182 cases. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2015 , 101, S241-5	2.9	15
110	Sagittal spine posture assessment: feasibility of a protocol based on intersegmental moments. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2012 , 98, 109-13	2.9	15

109	Systems for long-segment percutaneous spinal fixation: technical feasibility for various indications. <i>Acta Neurochirurgica</i> , 2011 , 153, 985-91	3	15
108	Experience in Perioperative Management of Patients Undergoing Posterior Spine Fusion for Neuromuscular Scoliosis. <i>BioMed Research International</i> , 2016 , 2016, 3053056	3	15
107	The lateral wedge augmentation trochleoplasty in a pediatric population: a 5-year follow-up study. <i>Journal of Pediatric Orthopaedics Part B</i> , 2017 , 26, 458-464	1.4	14
106	Percutaneous surgery for thoraco-lumbar fractures in ankylosing spondylitis: Study of 31 patients. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2017 , 103, 1235-1239	2.9	14
105	Role of thoracoscopy for the sagittal correction of hypokyphotic adolescent idiopathic scoliosis patients. <i>European Spine Journal</i> , 2014 , 23, 2635-42	2.7	14
104	Corpectomy and Vertebral Body Reconstruction with Expandable Cage Placement and Osteosynthesis via the single stage Posterior Approach: a Retrospective Series of 34 Patients with Thoracic and Lumbar Spine Vertebral Body Tumors. <i>World Neurosurgery</i> , 2015 , 84, 1412-22	2.1	13
103	Single anterior procedure for stabilization of a three-part fracture of the axis (odontoid dens and hangman fracture): case report. <i>Spine</i> , 2009 , 34, E255-7	3.3	13
102	Mortality, complication, and fusion rates of patients with odontoid fracture: the impact of age and comorbidities in 204 cases. <i>Archives of Orthopaedic and Trauma Surgery</i> , 2019 , 139, 43-51	3.6	13
101	Correlations linking static quantitative gait analysis parameters to radiographic parameters in adolescent idiopathic scoliosis. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2019 , 105, 541-545	2.9	12
100	Endovascular aortic injury repair after thoracic pedicle screw placement. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2014 , 100, 569-73	2.9	12
99	Preoperative Planning for Pedicle Subtraction Osteotomy: Does Pelvic Tilt Matter?. <i>Spine Deformity</i> , 2014 , 2, 358-366	2	12
98	Influence of screw type on initial coronal and sagittal radiological correction with hybrid constructs in adolescent idiopathic scoliosis. Correction priorities. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2012 , 98, 873-8	2.9	12
97	High-grade child spondylolisthesis: a custom-made canulated screw to treat the so-called double instability. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2011 , 97, 179-85	2.9	12
96	Surgical techniques for lumbo-sacral fusion. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2017 , 103, S151-S159	2.9	11
95	Circumferential fusion using a custom-made screw in the management of high-grade spondylolisthesis. <i>European Spine Journal</i> , 2014 , 23 Suppl 4, S457-62	2.7	11
94	Cervicosternotomy as an anterior approach to the upper thoracic and cervicothoracic spinal junction. <i>Journal of Neurosurgery: Spine</i> , 2010 , 12, 160-4	2.8	11
93	Experience and volume are determinative factors for operative management of supracondylar humeral fractures in children. <i>Journal of Shoulder and Elbow Surgery</i> , 2018 , 27, 404-410	4.3	10
92	Anterior approach with expandable cage implantation in management of unstable thoracolumbar fractures: Results of a series of 93 patients. <i>Neurochirurgie</i> , 2016 , 62, 78-85	1.4	10

91	Anterior minimally invasive extrapleural retroperitoneal approach to the thoraco-lumbar junction of the spine. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2013 , 99, 94-8	2.9	10
90	Circumferential management of unstable thoracolumbar fractures using an anterior expandable cage, as an alternative to an iliac crest graft, combined with a posterior screw fixation: results of a series of 85 patients. <i>Neurosurgical Focus</i> , 2014 , 37, E10	4.2	10
89	Posterior elements disruption with hybrid constructs in AIS patients: is there an impact on proximal junctional kyphosis?. <i>Archives of Orthopaedic and Trauma Surgery</i> , 2017 , 137, 631-635	3.6	9
88	Surgeon's and Patient's Radiation Exposure Through Vertebral Body Cement Augmentation Procedures: A Prospective Multicentric Study of 49 Cases. <i>World Neurosurgery</i> , 2016 , 93, 371-6	2.1	9
87	Minimally invasive transforaminal lumbar interbody fusion through a unilateral approach and percutaneous osteosynthesis. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2011 , 97, 595-601	2.9	9
86	Open kyphoplasty for management of severe osteoporotic spinal fractures. <i>Operative Neurosurgery</i> , 2009 , 64, 350-4; discussion 354-5	1.6	9
85	Is anatomic acetabular orientation related to pelvic morphology? CT analysis of 150 healthy pelvises. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2018 , 104, 347-351	2.9	9
84	Bone substitutes in adolescent idiopathic scoliosis surgery using sublaminar bands: is it useful? A case-control study. <i>International Orthopaedics</i> , 2017 , 41, 2083-2090	3.8	8
83	Surgeon's and patient's radiation exposure during percutaneous thoraco-lumbar pedicle screw fixation: A prospective multicenter study of 100 cases. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2018 , 104, 597-602	2.9	8
82	Postural spinal balance defined by net intersegmental moments: Results of a biomechanical approach and experimental errors measurement. <i>World Journal of Orthopedics</i> , 2015 , 6, 983-90	2.2	8
81	Clinical results of total lumbar disc replacement regarding various aetiologies of the disc degeneration: a study with a 2-year minimal follow-up. <i>Spine</i> , 2011 , 36, E313-9	3.3	8
80	Cirq [®] Robotic Assistance for Minimally Invasive C1-C2 Posterior Instrumentation: Report on Feasibility and Safety. <i>Operative Neurosurgery</i> , 2020 , 19, 730-734	1.6	8
79	Minimally invasive transforaminal lumbar interbody fusion with unilateral pedicle screw fixation (UNILIF): morbidity, clinical and radiological 2-year outcomes of a 66-patient prospective series. <i>European Spine Journal</i> , 2018 , 27, 1933-1939	2.7	7
78	Circumferential minimally invasive approach for low-grade isthmic spondylolisthesis: A clinical and radiological study of 43 patients. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2018 , 104, 575-579	2.9	7
77	Spinal osteotomies for rigid deformities. <i>Neurosurgery Clinics of North America</i> , 2013 , 24, 203-11	4	7
76	Anterior dislocation of the sacroiliac joint in children: a new technique for pelvic fixation. <i>Journal of Pediatric Orthopaedics Part B</i> , 2011 , 20, 209-11	1.4	7
75	Minimally invasive treatment of thoracolumbar flexion-distraction fracture. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2019 , 105, 347-350	2.9	6
74	Curve location influences spinal balance in coronal and sagittal planes but not transversal trunk motion in adolescents with idiopathic scoliosis: a prospective observational study. <i>European Spine Journal</i> , 2020 , 29, 1972-1980	2.7	6

73	Characterization of trunk motion in adolescents with right thoracic idiopathic scoliosis. <i>European Spine Journal</i> , 2019 , 28, 2025-2033	2.7	6
72	Validation of 3D spino-pelvic muscle reconstructions based on dedicated MRI sequences for fat-water quantification. <i>Irbm</i> , 2014 , 35, 119-127	4.8	6
71	French Spine Surgery Society guidelines for management of spinal surgeries during COVID-19 pandemic. <i>World Journal of Clinical Cases</i> , 2020 , 8, 1756-1762	1.6	6
70	How Sublaminar Bands Affect Postoperative Sagittal Alignment in AIS Patients with Preoperative Hypokyphosis? Results of a Series of 34 Patients with 2-Year Follow-Up. <i>BioMed Research International</i> , 2016 , 2016, 1954712	3	6
69	Hangman's fracture: Management strategy and healing rate in a prospective multi-centre observational study of 34 patients. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2019 , 105, 703-707	2.9	5
68	Does static trunk motion analysis reflect its true position during daily activities in adolescent with idiopathic scoliosis?. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2020 , 106, 1251-1256	2.9	5
67	Percutaneous internal fixation in the management of lumbar spondylitis: report of two cases. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2009 , 95, 220-3	2.9	5
66	Robotic Assistance for Minimally Invasive Cervical Pedicle Instrumentation: Report on Feasibility and Safety. <i>World Neurosurgery</i> , 2021 , 150, e777-e782	2.1	5
65	Treatment of osteoporotic vertebral fractures. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2021 , 107, 102779	2.9	5
64	"Patient-specific" rods in the management of adult spinal deformity. One-year radiographic results of a prospective study about 86 patients. <i>Neurochirurgie</i> , 2020 , 66, 162-167	1.4	4
63	Cervical Facet Orientation Varies with Age in Children: An MRI Study. <i>Journal of Bone and Joint Surgery - Series A</i> , 2018 , 100, e57	5.6	4
62	Siblings with vascular involvement associated with hereditary multiples exostosis. <i>Journal of Pediatric Orthopaedics Part B</i> , 2013 , 22, 501-4	1.4	4
61	Small bowel entrapment and ureteropelvic junction disruption associated with L3 Chance fracture-dislocation. <i>World Journal of Clinical Cases</i> , 2016 , 4, 264-8	1.6	4
60	Use of Cement-Augmented Percutaneous Pedicular Screws in the Management of Multifocal Tumoral Spinal Fractures. <i>Asian Spine Journal</i> , 2019 , 13, 305-312	2.8	4
59	Minimally Invasive Percutaneous C1-C2 Fixation Using an Intraoperative Three-Dimensional Imaging-Based Navigation System for Management of Odontoid Fractures. <i>World Neurosurgery</i> , 2020 , 137, 266-271	2.1	4
58	Outcomes of surgical treatments of spinal metastases: a prospective study. <i>Supportive Care in Cancer</i> , 2020 , 28, 2127-2135	3.9	4
57	C1 fracture: Analysis of consolidation and complications rates in a prospective multicenter series. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2018 , 104, 1049-1054	2.9	4
56	Surgical management of post-traumatic atlantoaxial rotatory fixation due to C2 facet fracture: 5 clinical cases. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2017 , 103, 67-70	2.9	3

55	Surgical management of cervical radiculomedullary arterial aneurysm with subarachnoid haemorrhage: a case report. <i>Neurochirurgie</i> , 2014 , 60, 265-8	1.4	3
54	Metastatic odontoid fracture management by anterior screw fixation and kyphoplasty. <i>Neurochirurgie</i> , 2013 , 59, 191-4	1.4	3
53	Minimally Invasive Extrapleural Retroperitoneal Approach to the Thoracolumbar Spine Junction: Clinicoradiologic Study of 29 Consecutive Cases. <i>Neurosurgery Quarterly</i> , 2010 , 20, 100-106		3
52	Spinal alignment evolution with age: A prospective gait analysis study. <i>World Journal of Orthopedics</i> , 2017 , 8, 256-263	2.2	3
51	Minimally invasive posterior fixation and anterior debridement-fusion for thoracolumbar spondylodiscitis: A 40-case series and review of the literature. <i>Neurochirurgie</i> , 2020 , 66, 24-28	1.4	3
50	Impact of surgical correction of a U-shaped sacral fracture on sagittal spino-pelvic alignment: Regarding one case. <i>Neurochirurgie</i> , 2016 , 62, 344-348	1.4	3
49	Surgical site infection following surgery for spinal deformity: About 102 patients. <i>Neurochirurgie</i> , 2021 , 67, 152-156	1.4	3
48	C1-C2 Injury: Factors influencing mortality, outcome, and fracture healing. <i>European Spine Journal</i> , 2021 , 30, 1574-1584	2.7	3
47	Odontoid Fracture in Patients Age >75 Years Surgically Managed by the Harms Technique: Bone Healing and 1-Year Mortality Rate in 57 Cases. <i>World Neurosurgery</i> , 2018 , 116, e1087-e1091	2.1	3
46	Delayed hypersensitivity reaction after cervical disc replacement: a case report. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2015 , 101, 643-5	2.9	2
45	Estimation of sagittal pelvic orientation from frontal standard radiograph using the sacral-femoral-pubic angle: feasibility study in the pediatric population. <i>European Spine Journal</i> , 2015 , 24, 1143-7	2.7	2
44	Isolated unstable burst fractures of the fifth lumbar vertebra: functional and radiological outcome after posterior stabilization with reconstruction of the anterior column: About 6 cases and literature review. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2020 , 106, 1215-1220	2.9	2
43	Robot-assisted multi-level anterior lumbar interbody fusion: an anatomical study. <i>Acta Neurochirurgica</i> , 2018 , 160, 1891-1898	3	2
42	Minimal Invasive Circumferential Management of Thoracolumbar Spine Fractures. <i>BioMed Research International</i> , 2015 , 2015, 639542	3	2
41	Limb lengthening using ankle joint distraction (arthrodiastasis) followed by arthrodesis. Experience with one case. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2011 , 97, 438-42	2.9	2
40	Adult Spinal Deformities: Can Patient-Specific Rods Change the Preoperative Planning into Clinical Reality? Feasibility Study and Preliminary Results about 77 Cases. <i>Advances in Orthopedics</i> , 2020 , 2020, 6120580	2.1	2
39	Optimal Correction of Adult Spinal Deformities Requires Restoration of Distal Lumbar Lordosis. <i>Advances in Orthopedics</i> , 2021 , 2021, 5572181	2.1	2
38	L1 burst fracture with associated vertebral angioma. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2013 , 99, 241-6	2.9	1

37	The proximal femur fracture epidemic continued during the COVID-19 pandemic: results of an observational study. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2021 , 103143	2.9	1
36	Variation of cervical sagittal alignment parameters according to gender, pelvic incidence and age.. <i>European Spine Journal</i> , 2022 , 1	2.7	1
35	Sacral hiatus corticosteroid injection in the management of radicular pain in adults. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2020 , 106, 1191-1193	2.9	1
34	Influence of preoperative biological parameters on postoperative complications and survival in spinal bone metastasis. A multicenter prospective study. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2020 , 106, 1033-1038	2.9	1
33	Minimally invasive triangular lumboiliac and iliosacral fixation of posterior pelvic ring injuries with vertical instability: Technical note. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2021 , 107, 102993	2.9	1
32	Surgery for spinal deformity in Parkinson's disease patients: What are we missing?. <i>Neurochirurgie</i> , 2021 , 68, 183-183	1.4	1
31	Do Age-Related Variations Of Sagittal Alignment Rely On SpinoPelvic Organization? An Observational Study Of 1540 Subjects.. <i>Global Spine Journal</i> , 2022 , 21925682221074660	2.7	1
30	Early dynamic changes within the spine following posterior fusion using hybrid instrumentation in adolescents with idiopathic scoliosis: a gait analysis study. <i>Archives of Orthopaedic and Trauma Surgery</i> , 2021 , 1	3.6	0
29	Description of spine motion during gait in normal adolescents and young adults. <i>European Spine Journal</i> , 2021 , 30, 2520-2530	2.7	0
28	Prise en charge mini-invasive des fractures en flexion-distraction du rachis thoraco-lombaire. <i>Revue De Chirurgie Orthopedique Et Traumatologique</i> , 2019 , 105, 199-203	0	0
27	Surgical treatment of bone metastasis from osteophilic cancer. Results in 401 peripheral and spinal locations.. <i>Orthopaedics and Traumatology: Surgery and Research</i> , 2021 , 103193	2.9	0
26	Arthrode lombaire postérieure trans-foraminale par technique mini-invasive : morbidité, résultats cliniques et radiologiques 1 an d'une série multicentrique prospective de 182 cas. <i>Revue De Chirurgie Orthopedique Et Traumatologique</i> , 2015 , 101, S66-S71	0	0
25	L'analyse statique du tronc reflète-t-elle sa position réelle dans la vie quotidienne chez les adolescents porteurs d'une scoliose idiopathique?. <i>Revue De Chirurgie Orthopedique Et Traumatologique</i> , 2020 , 106, 777-783	0	0
24	Traumatismos recientes de la columna vertebral toracolumbar. <i>EMC - Técnicas Quirúrgicas - Ortopedia Y Traumatología</i> , 2016 , 8, 1-14	0	0
23	L'orientation acétabulaire anatomique est-elle liée à la morphologie du bassin ? Résultats d'une analyse tomodensitométrique de 150 bassins sains. <i>Revue De Chirurgie Orthopedique Et Traumatologique</i> , 2018 , 104, 237-242	0	0
22	Ostéosynthèse percutanée précoce des fractures rachidiennes thoracolombaires chez le polytraumatisé. <i>Revue De Chirurgie Orthopedique Et Traumatologique</i> , 2014 , 100, 343-348	0	0
21	Abord antérieur mini-invasif extrapleurale, réopératoire de la charnière rachidienne thoracolombaire : une note technique. <i>Revue De Chirurgie Orthopedique Et Traumatologique</i> , 2013 , 99, 70-74	0	0
20	Monitoring peropératoire en chirurgie vertébrale. Mise au point et état de l'art en France en 2011. <i>Revue De Chirurgie Orthopedique Et Traumatologique</i> , 2013 , 99, S225-S233	0	0

- 19 Chirurgie percutan  des fractures thoracolombaires chez des patients atteints de spondylarthrite ankylosante. S rie de 31 patients. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2017**, 103, 901-905 0
- 18 Response to the letter by Vedran Deletis, David B. Mac Donald, Francesco Sala and Isabel Fernandez Conejero. *Orthopaedics and Traumatology: Surgery and Research*, **2014**, 100, 355-6 2.9
- 17 Response to the letter by Vedran Deletis, David B. Mac Donald, Francesco Sala and Isabel Fernandez Conejero. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2014**, 100, 270-271 0
- 16 Influence du type de vis sur la correction chirurgicale radiologique initiale coronale et sagittale des montages hybrides dans la scoliose idiopathique de l'adolescent. Consid rations sur la correction   privil gier. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2012**, 98, 785-791 0
- 15 Analyse de posture sagittale du rachis :  tude de faisabilit  d'un protocole fond  sur les moments intersegmentaires. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2012**, 98, 104-109 0
- 14 Spondylolisth s de haut grade chez l'enfant : le concept de la double instabilit  et son corollaire la vis sacrolombaire sur mesure. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2011**, 97, 167-174 0
- 13 Prise en charge des fractures ost oporotiques du rachis **2020**, 103-114
- 12 Influence des param tres biologiques pr op atoires sur la survenue de complications postop atoires et la survie des patients pris en charge pour une m tastase rachidienne. R sultats d'une  tude prospective multicentrique **2020**, 106, 600-600
- 11 Fracture instable isol e de L5 : r sultats fonctionnels et radiologiques apr s stabilisation post rieure et reconstruction corporelle par voie ant rieure :   propos de 6 cas et revue de la litt rature. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2020**, 106, 742-747 0
- 10 Prise en charge des radiculalgies de l'adulte par infiltration du hiatus sacro-coccygien. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2020**, 106, 721-724 0
- 9  valuation multicentrique r trospective de la prise en charge chirurgicale de m tastases rachidiennes : r sultats de la s rie de la Soci t  Fran aise de chirurgie rachidienne. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2018**, 104, 425-432 0
- 8 Arthroplastie discale lombaire : indications, technique, r sultats. *Bulletin De L'Academie Nationale De Medecine*, **2015**, 199, 1345-1365 0.1
- 7 Sagittal reduction of spinal deformity: Superior versus lateral screw-rod connection. *Orthopaedics and Traumatology: Surgery and Research*, **2021**, 107, 102954 2.9
- 6 Fixation en triangulation lombo-iliaque et iliosacr e mini-invasive des l sions post rieures de l'anneau pelvien avec instabilit  verticale : note de technique. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2021**, 107, 780-780 0
- 5 Computation of Intersegmental Moments during Standing Posture: Can We Neglect the Horizontal Ground Reaction Force? Results from an Experimental Study. *Advances in Orthopedics*, **2019**, 2019, 7129682 2.1
- 4  tude de corr lation entre l'analyse statique au laboratoire de la marche et les param tres radiographiques chez les adolescents porteurs d'une scoliose idiopathique. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2019**, 105, 363-368 0
- 3 Approche circonf rentielle mini-invasive pour le spondylolisth s par lyse isthmique de bas grade : une  tude clinico-radiologique de 43 patients. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2018**, 104, 409-414 0
- 2 Exposition des chirurgiens et des patients aux rayonnements ionisants pendant les proc dures d'ost osynth se rachidienne post rieure percutan e :  tude prospective de 100 patients. *Revue De Chirurgie Orthopedique Et Traumatologique*, **2018**, 104, 433-439 0

- 1 Reintervenciones tardías de cirugías raquídeas. *EMC - Técnicas Quirúrgicas - Ortopedia Y Traumatología*, 2022, 14, 1-10
