#	ARTICLE	IF	CITATIONS
1	Know Your Heart: Rationale, design and conduct of a cross-sectional study of cardiovascular structure, function and risk factors in 4500 men and women aged 35-69 years from two Russian cities, 2015-18. Wellcome Open Research, 2018, 3, 67.	0.9	40
2	External validation of a deep learning electrocardiogram algorithm to detect ventricular dysfunction. International Journal of Cardiology, 2021, 329, 130-135.	0.8	36
3	Know Your Heart: Rationale, design and conduct of a cross-sectional study of cardiovascular structure, function and risk factors in 4500 men and women aged 35-69 years from two Russian cities, 2015-18. Wellcome Open Research, 2018, 3, 67.	0.9	29
4	Time trends in smoking in Russia in the light of recent tobacco control measures: synthesis of evidence from multiple sources. BMC Public Health, 2020, 20, 378.	1.2	27
5	Evidence for a Direct Harmful Effect of Alcohol on Myocardial Health: A Large Cross-sectional Study of Consumption Patterns and Cardiovascular Disease Risk Biomarkers From Northwest Russia, 2015 to 2017. Journal of the American Heart Association, 2020, 9, e014491.	1.6	22
6	Road traffic fatalities in Arkhangelsk, Russia in 2005–2010: Reliability of police and healthcare data. Accident Analysis and Prevention, 2013, 53, 46-54.	3.0	21
7	Suicides in the indigenous and non-indigenous populations in the Nenets Autonomous Okrug, Northwestern Russia, and associated socio-demographic characteristics. International Journal of Circumpolar Health, 2014, 73, 24308.	0.5	21
8	The relation of gender role attitudes with depression and generalised anxiety disorder in two Russian cities. Journal of Affective Disorders, 2020, 264, 348-357.	2.0	17
9	Know Your Heart: Rationale, design and conduct of a cross-sectional study of cardiovascular structure, function and risk factors in 4500 men and women aged 35-69 years from two Russian cities, 2015-18. Wellcome Open Research, 0, 3, 67.	0.9	17
10	Road traffic crashes with fatal and non-fatal injuries in Arkhangelsk, Russia in 2005–2010. International Journal of Injury Control and Safety Promotion, 2013, 20, 349-357.	1.0	14
11	Uncontrolled and apparent treatment resistant hypertension: a cross-sectional study of Russian and Norwegian 40–69-year olds. BMC Cardiovascular Disorders, 2020, 20, 135.	0.7	12
12	Weather Conditions and Outdoor Fall Injuries in Northwestern Russia. International Journal of Environmental Research and Public Health, 2020, 17, 6096.	1.2	11
13	Variations in suicide method and in suicide occurrence by season and day of the week in Russia and the Nenets Autonomous Okrug, Northwestern Russia: a retrospective population-based mortality study. BMC Psychiatry, 2015, 15, 224.	1.1	10
14	Risk factors for perinatal mortality in Murmansk County, Russia: a registry-based study. Global Health Action, 2017, 10, 1270536.	0.7	10
15	Why does Russia have such high cardiovascular mortality rates? Comparisons of blood-based biomarkers with Norway implicate non-ischaemic cardiac damage. Journal of Epidemiology and Community Health, 2020, 74, jech-2020-213885.	2.0	10
16	Untreated hypertension in Russian 35-69 year olds – a cross-sectional study. PLoS ONE, 2020, 15, e0233801.	1.1	10
17	Explaining reduction of pedestrian–motor vehicle crashes in Arkhangelsk, Russia, in 2005–2010. International Journal of Circumpolar Health, 2012, 71, 19107.	0.5	9
18	Studying accelerated cardiovascular ageing in Russian adults through a novel deep-learning ECG biomarker. Wellcome Open Research, 0, 6, 12.	0.9	8

#	ARTICLE	IF	CITATIONS
19	Primary care use and cardiovascular disease risk in Russian 40–69 year olds: a cross-sectional study. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, jech-2019-213549.	2.0	7
20	Injury registration for primary prevention in a provincial Russian region: setting up a new trauma registry. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2019, 27, 47.	1.1	6
21	Prevalence of symptoms, ever having received a diagnosis and treatment of depression and anxiety, and associations with health service use amongst the general population in two Russian cities. <i>BMC Psychiatry</i> , 2020, 20, 537.	1.1	6
22	Socio-demographic, behavioural and psycho-social factors associated with depression in two Russian cities. <i>Journal of Affective Disorders</i> , 2021, 290, 202-210.	2.0	6
23	Between-study differences in grip strength: a comparison of Norwegian and Russian adults aged 40–69 years. <i>Journal of Cachexia, Sarcopenia and Muscle</i> , 2021, 12, 2091-2100.	2.9	5
24	What factors explain the much higher diabetes prevalence in Russia compared with Norway? Major sex differences in the contribution of adiposity. <i>BMJ Open Diabetes Research and Care</i> , 2021, 9, e002021.	1.2	4
25	Quantifying the contribution of established risk factors to cardiovascular mortality differences between Russia and Norway. <i>Scientific Reports</i> , 2020, 10, 20796.	1.6	3
26	Effect of adiposity on differences in carotid plaque burden in studies conducted in Norway and Russia: a cross-sectional analysis of two populations at very different risk of cardiovascular mortality. <i>BMJ Open</i> , 2020, 10, e036583.	0.8	3
27	Mechanisms of accidental fall injuries and involved injury factors: a registry-based study. <i>Injury Epidemiology</i> , 2020, 7, 8.	0.8	3
28	Chronic Obstructive Pulmonary Disease (COPD) in Population Studies in Russia and Norway: Comparison of Prevalence, Awareness and Management. <i>International Journal of COPD</i> , 2021, Volume 16, 1353-1368.	0.9	3
29	Long-term trends in blood pressure and hypertension in Russia: an analysis of data from 14 health surveys conducted in 1975–2017. <i>BMC Public Health</i> , 2021, 21, 2226.	1.2	3
30	Socioeconomic inequalities in physiological risk biomarkers and the role of lifestyles among Russians aged 35-69 years. <i>International Journal for Equity in Health</i> , 2022, 21, 51.	1.5	3
31	Injury Prevention and Safety Promotion course in a Russian Master of Public Health programme. <i>International Journal of Injury Control and Safety Promotion</i> , 2012, 19, 290-296.	1.0	2
32	Alcohol and suicide in the Nenets Autonomous Okrug and Arkhangelsk Oblast, Russia. <i>International Journal of Circumpolar Health</i> , 2016, 75, 30965.	0.5	2
33	Oncological Morbidity of Children in the Arkhangelsk Region and the Nenets Autonomous District: An Ecological Study. <i>Onkopediatria</i> , 2019, 6, 70-79.	0.2	2
34	Establishment of the first russian injury registry in shenkursk. <i>Injury Prevention</i> , 2016, 22, A84.3-A85.	1.2	1
35	Heavy alcohol drinking and subclinical echocardiographic abnormalities of structure and function. <i>Open Heart</i> , 2021, 8, e001457.	0.9	1
36	Hazardous alcohol consumption and problem drinking in Norwegian and Russian women and men: The TromsÅ Study 2015–2016 and the Know Your Heart study 2015–2018. <i>Scandinavian Journal of Public Health</i> , 2021, , 140349482110636.	1.2	1

#	ARTICLE	IF	CITATIONS
37	Socio-demographic Characteristics of Suicides in the Nenets Autonomous Okrug, Northwestern Russia.. <i>European Psychiatry</i> , 2015, 30, 949.	0.1	0
38	P22â€œ...Associations between social capital and mental health in two russian cities. , 2018, , .		0
39	P53â€œ...The associations between common mental disorders (anxiety and depression) and socio-economic and demographic factors in two russian cities. , 2018, , .		0
40	OP20â€œ...Cardiovascular disease biomarker profiles among harmful and hazardous drinkers: a cross-sectional study from north west russia. , 2019, , .		0
41	Pharmacological management of modifiable cardiovascular risk factors (blood pressure and lipids) following diagnosis of myocardial infarction, stroke and diabetes: comparison between population-based studies in Russia and Norway. <i>BMC Cardiovascular Disorders</i> , 2020, 20, 234.	0.7	0
42	IMMUNOPHENOTYPIC AND CYTOGENETIC FEATURES OF ACUTE LEUKEMIA IN CHILDREN OF THE ARKHANGELSK REGION: A RETROSPECTIVE STUDYN: A RETROSPECTIVE STUDY. <i>Siberian Journal of Oncology</i> , 2021, 20, 13-21.	0.1	0
43	Factors associated with awareness and passage of medical screening in hypertensive persons: data from the Know Your Heart study. <i>Cardiovascular Therapy and Prevention (Russian Federation)</i> , 2022, 21, 3156.	0.4	0
44	PREVENTIVE COUNSELLING OF THE POPULATION ON SMOKING CESSATION AND WEIGHT LOSS ACCORDING TO THE DATA OF THE "KNOW YOUR HEART" STUDY. <i>Ekologiya Cheloveka (Human Ecology)</i> , 0, , .	0.2	0
45	Comparing prevalence of chronic kidney disease and its risk factors between population-based surveys in Russia and Norway. <i>BMC Nephrology</i> , 2022, 23, 145.	0.8	0
46	Understanding East-West differences in cardiovascular disease in Europe: Early findings of the Heart to Heart comparative population-based studies in Russia and Norway, 2015-2018. <i>European Journal of Public Health</i> , 2018, 28, .	0.1	0
47	Smoking in Russia: Recent trends and socio-demographic features. Synthesis of evidence from multiple studies. <i>European Journal of Public Health</i> , 2018, 28, .	0.1	0
48	Dissecting hypertension in Russia: identifying aetiological and behavioural factors associated with treatment and control. <i>European Journal of Public Health</i> , 2018, 28, .	0.1	0
49	Untreated hypertension in Russian 35-69 year olds â€œ a cross-sectional study. , 2020, 15, e0233801.		0
50	Untreated hypertension in Russian 35-69 year olds â€œ a cross-sectional study. , 2020, 15, e0233801.		0
51	Untreated hypertension in Russian 35-69 year olds â€œ a cross-sectional study. , 2020, 15, e0233801.		0
52	Untreated hypertension in Russian 35-69 year olds â€œ a cross-sectional study. , 2020, 15, e0233801.		0
53	Low vitamin D levels among children and adolescents in an Arctic population. <i>Scandinavian Journal of Public Health</i> , 2022, , 140349482210922.	1.2	0
