

# Rolf Teschke

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/1873544/rolf-teschke-publications-by-year.pdf>

**Version:** 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

162  
papers

5,421  
citations

#	Paper	IF	Citations
162	DILI Cases in Registries and Databases: An Analysis of Quality <b>2022</b> , 1,		2
161	Alcohol basic and translational research 15th Charles Lieber - 1st Samuel French satellite symposium.. <i>Experimental and Molecular Pathology</i> , <b>2022</b> , 104750	4.4	1
160	Molecular, Viral and Clinical Features of Alcohol- and Non-Alcohol-Induced Liver Injury. <i>Current Issues in Molecular Biology</i> , <b>2022</b> , 44, 1294-1315	2.9	1
159	Letter to the editor: Electronic RUCAM: Major pitfalls call for caution and proper validation.. <i>Hepatology</i> , <b>2022</b> ,	11.2	1
158	Idiosyncratic Drug-Induced Liver Injury (DILI) and Herb-Induced Liver Injury (HILI): Diagnostic Algorithm Based on the Quantitative Roussel Uclaf Causality Assessment Method (RUCAM). <i>Diagnostics</i> , <b>2021</b> , 11,	3.8	10
157	Idiosyncratic Drug Induced Liver Injury, Cytochrome P450, Metabolic Risk Factors and Lipophilicity: Highlights and Controversies. <i>International Journal of Molecular Sciences</i> , <b>2021</b> , 22,	6.3	9
156	Efficacy of Xuebijing Injection for Acute Pancreatitis: A Systematic Review and Meta-Analysis of Randomized Controlled Trials. <i>Evidence-based Complementary and Alternative Medicine</i> , <b>2021</b> , 2021, 6621368	2.3	0
155	Mechanism of idiosyncratic drug induced liver injury (DILI): unresolved basic issues. <i>Annals of Translational Medicine</i> , <b>2021</b> , 9, 730	3.2	4
154	Herb-induced liver injury (HILI) with 12,068 worldwide cases published with causality assessments by Roussel Uclaf Causality Assessment Method (RUCAM): an overview. <i>Translational Gastroenterology and Hepatology</i> , <b>2021</b> , 6, 51	5.2	8
153	The LiverTox Paradox-Gaps between Promised Data and Reality Check. <i>Diagnostics</i> , <b>2021</b> , 11,	3.8	5
152	Metabolic Toxication of 1,2-Unsaturated Pyrrolizidine Alkaloids Causes Human Hepatic Sinusoidal Obstruction Syndrome: The Update. <i>International Journal of Molecular Sciences</i> , <b>2021</b> , 22,	6.3	7
151	Herbs including shell ginger, antioxidant profiles, aging, and longevity in Okinawa, Japan: A critical analysis of current concepts <b>2020</b> , 209-222		0
150	Liver Injury by Drugs Metabolized via Cytochrome P450. <i>Journal of Modern Medicinal Chemistry</i> , <b>2020</b> , 8, 93-98	1.8	3
149	Herb-induced Liver Injury in Asia and Current Role of RUCAM for Causality Assessment in 11,160 Published Cases. <i>Journal of Clinical and Translational Hepatology</i> , <b>2020</b> , 8, 200-214	5.2	15
148	Drug Induced Liver Injury: Mechanisms, Diagnosis, and Clinical Management <b>2020</b> , 95-105		1
147	Acetaminophen syn. Paracetamol: Acute Liver Injury and Acute on Chronic Liver Failure with Case Analysis and Causality Assessment Using RUCAM <b>2020</b> , 233-258		0
146	Worldwide Use of RUCAM for Causality Assessment in 81,856 Idiosyncratic DILI and 14,029 HILI Cases Published 1993-Mid 2020: A Comprehensive Analysis. <i>Medicines (Basel, Switzerland)</i> , <b>2020</b> , 7,	4.1	25

145	Potential Hepatotoxins Found in Herbal Medicinal Products: A Systematic Review. <i>International Journal of Molecular Sciences</i> , <b>2020</b> , 21,	6.3	16
144	Incidence, risk factors, and prognosis of abnormal liver biochemical tests in COVID-19 patients: a systematic review and meta-analysis. <i>Hepatology International</i> , <b>2020</b> , 14, 621-637	8.8	59
143	Alcoholic Liver Disease: Current Mechanistic Aspects with Focus on Their Clinical Relevance. <i>Biomedicines</i> , <b>2019</b> , 7,	4.8	24
142	Microsomal Ethanol-Oxidizing System: Success Over 50 Years and an Encouraging Future. <i>Alcoholism: Clinical and Experimental Research</i> , <b>2019</b> , 43, 386-400	3.7	19
141	Momilactones A and B Are $\alpha$ -Amylase and $\beta$ -Glucosidase Inhibitors. <i>Molecules</i> , <b>2019</b> , 24,	4.8	26
140	Idiosyncratic DILI: Analysis of 46,266 Cases Assessed for Causality by RUCAM and Published From 2014 to Early 2019. <i>Frontiers in Pharmacology</i> , <b>2019</b> , 10, 730	5.6	32
139	Cordycepin Isolated from : Its Newly Discovered Herbicidal Property and Potential Plant-Based Novel Alternative to Glyphosate. <i>Molecules</i> , <b>2019</b> , 24,	4.8	11
138	Roussel Uclaf Causality Assessment Method for Drug-Induced Liver Injury: Present and Future. <i>Frontiers in Pharmacology</i> , <b>2019</b> , 10, 853	5.6	41
137	Biochemical Aspects of the Hepatic Microsomal Ethanol-oxidizing System (MEOS): Resolved Initial Controversies and Updated Molecular Views <b>2019</b> , 08,		2
136	Diagnostic Biomarkers in Liver Injury by Drugs, Herbs, and Alcohol: Tricky Dilemma after EMA Correctly and Officially Retracted Letter of Support. <i>International Journal of Molecular Sciences</i> , <b>2019</b> , 21,	6.3	14
135	Liver Injury from Herbs and Dietary Supplements—Highlights of a Literature Review from 2015 to 2017. <i>Current Pharmacology Reports</i> , <b>2018</b> , 4, 120-131	5.5	11
134	Drug-Induced Liver Injury: Why is the Roussel Uclaf Causality Assessment Method (RUCAM) Still Used 25 Years After Its Launch?. <i>Drug Safety</i> , <b>2018</b> , 41, 735-743	5.1	50
133	Drug induced liver injury with analysis of alternative causes as confounding variables. <i>British Journal of Clinical Pharmacology</i> , <b>2018</b> , 84, 1467-1477	3.8	33
132	Clinical characteristics and outcomes of traditional Chinese medicine-induced liver injury: a systematic review. <i>Expert Review of Gastroenterology and Hepatology</i> , <b>2018</b> , 12, 425-434	4.2	28
131	Alcoholic steatohepatitis (ASH) and alcoholic hepatitis (AH): cascade of events, clinical aspects, and pharmacotherapy options. <i>Expert Opinion on Pharmacotherapy</i> , <b>2018</b> , 19, 779-793	4	19
130	Causality Assessment Methods in Drug-Induced Liver Injury. <i>Methods in Pharmacology and Toxicology</i> , <b>2018</b> , 555-594	1.1	13
129	Viewpoint: A Contributory Role of Shell Ginger ( <i>Alpinia zerumbet</i> (Pers.) B.L. Burtt & R.M. Sm) for Human Longevity in Okinawa, Japan?. <i>Nutrients</i> , <b>2018</b> , 10,	6.7	32
128	Efficacy from Different Extractions for Chemical Profile and Biological Activities of Rice Husk. <i>Sustainability</i> , <b>2018</b> , 10, 1356	3.6	10

127	Liver Injury by Carbon Tetrachloride Intoxication in 16 Patients Treated with Forced Ventilation to Accelerate Toxin Removal via the Lungs: A Clinical Report. <i>Toxics</i> , <b>2018</b> , 6,	4.7	18
126	Aliphatic Halogenated Hydrocarbons: Report and Analysis of Liver Injury in 60 Patients. <i>Journal of Clinical and Translational Hepatology</i> , <b>2018</b> , 6, 350-361	5.2	5
125	Heavy Metal Accumulation in Water, Soil, and Plants of Municipal Solid Waste Landfill in Vientiane, Laos. <i>International Journal of Environmental Research and Public Health</i> , <b>2018</b> , 16,	4.6	84
124	Hormesis and dose-responses in herbal traditional Chinese medicine (TCM) alone are insufficient solving real clinical TCM challenges and associated herbal quality issues. <i>Longhua Chinese Medicine</i> , <b>2018</b> , 1, 3-3	0.3	3
123	Alcoholic Liver Disease: Alcohol Metabolism, Cascade of Molecular Mechanisms, Cellular Targets, and Clinical Aspects. <i>Biomedicines</i> , <b>2018</b> , 6,	4.8	66
122	Is obesity rather than the dietary supplement used for weight reduction the cause of liver injury?. <i>JGH Open</i> , <b>2018</b> , 2, 152-157	1.8	6
121	Momilactones A and B: Optimization of Yields from Isolation and Purification. <i>Separations</i> , <b>2018</b> , 5, 28	3.1	7
120	Top-ranking drugs out of 3312 drug-induced liver injury cases evaluated by the Roussel Uclaf Causality Assessment Method. <i>Expert Opinion on Drug Metabolism and Toxicology</i> , <b>2018</b> , 14, 1169-1187	5.5	24
119	Traditional Chinese Medicine and Herb-induced Liver Injury: Comparison with Drug-induced Liver Injury. <i>Journal of Clinical and Translational Hepatology</i> , <b>2018</b> , 6, 57-68	5.2	46
118	Xuebijing Injection Combined with Antibiotics for the Treatment of Spontaneous Bacterial Peritonitis in Liver Cirrhosis: A Meta-Analysis. <i>Evidence-based Complementary and Alternative Medicine</i> , <b>2018</b> , 2018, 2989846	2.3	5
117	Suspected Liver Injury and the Dilemma of Causality. <i>Digestive Diseases and Sciences</i> , <b>2017</b> , 62, 1095-1098	3.1	10
116	Green Tea and Its Extracts in Cancer Prevention and Treatment. <i>Beverages</i> , <b>2017</b> , 3, 17	3.4	8
115	Herbal Traditional Chinese Medicine and suspected liver injury: A prospective study. <i>World Journal of Hepatology</i> , <b>2017</b> , 9, 1141-1157	3.4	43
114	Drug-induced liver injury: Is chronic liver disease a risk factor and a clinical issue?. <i>Expert Opinion on Drug Metabolism and Toxicology</i> , <b>2017</b> , 13, 425-438	5.5	35
113	Prospective Indian Study of DILI with Confirmed Causality Using the Roussel Uclaf Causality Assessment Method (RUCAM): A report of Excellence. <i>Annals of Hepatology</i> , <b>2017</b> , 16, 324-325	3.1	13
112	Drug Induced Liver Injury: Can Biomarkers Assist RUCAM in Causality Assessment?. <i>International Journal of Molecular Sciences</i> , <b>2017</b> , 18,	6.3	41
111	The Honolulu Liver Disease Cluster at the Medical Center: Its Mysteries and Challenges. <i>International Journal of Molecular Sciences</i> , <b>2016</b> , 17, 476	6.3	24
110	Herbal Hepatotoxicity: Clinical Characteristics and Listing Compilation. <i>International Journal of Molecular Sciences</i> , <b>2016</b> , 17,	6.3	75

109	Traditional Chinese Medicine (TCM) and Herbal Hepatotoxicity: RUCAM and the Role of Novel Diagnostic Biomarkers Such as MicroRNAs. <i>Medicines (Basel, Switzerland)</i> , <b>2016</b> , 3,	4.1	57
108	The mystery of the Hawaii liver disease cluster in summer 2013: A pragmatic and clinical approach to solve the problem. <i>Annals of Hepatology</i> , <b>2016</b> , 15, 91-109	3.1	29
107	Diagnosis and Management of Drug-Induced Liver Injury (DILI) in Patients with Pre-Existing Liver Disease. <i>Drug Safety</i> , <b>2016</b> , 39, 729-44	5.1	42
106	Herbal hepatotoxicity in traditional and modern medicine: actual key issues and new encouraging steps. <i>Frontiers in Pharmacology</i> , <b>2015</b> , 6, 72	5.6	89
105	Kava for the treatment of generalised anxiety disorder (K-GAD): study protocol for a randomised controlled trial. <i>Trials</i> , <b>2015</b> , 16, 493	2.8	25
104	Dihydro-5,6-dehydrokavain (DDK) from <i>Alpinia zerumbet</i> : Its Isolation, Synthesis, and Characterization. <i>Molecules</i> , <b>2015</b> , 20, 16306-19	4.8	22
103	Traditional Chinese Medicine and herbal hepatotoxicity: a tabular compilation of reported cases. <i>Annals of Hepatology</i> , <b>2015</b> , 14, 7-19	3.1	55
102	Herbal traditional Chinese medicine and its evidence base in gastrointestinal disorders. <i>World Journal of Gastroenterology</i> , <b>2015</b> , 21, 4466-90	5.6	66
101	Chinese herbs and their molecules: Clinical and pathophysiological implications for the liver. <i>Journal of Molecular Pathophysiology</i> , <b>2015</b> , 4, 85	0	5
100	RUCAM in Drug and Herb Induced Liver Injury: The Update. <i>International Journal of Molecular Sciences</i> , <b>2015</b> , 17,	6.3	321
99	Traditional Chinese Medicine and herbal hepatotoxicity: a tabular compilation of reported cases. <i>Annals of Hepatology</i> , <b>2015</b> , 14, 7-19	3.1	32
98	Green tea extract and the risk of drug-induced liver injury. <i>Expert Opinion on Drug Metabolism and Toxicology</i> , <b>2014</b> , 10, 1663-76	5.5	34
97	Traditional Chinese Medicine Induced Liver Injury. <i>Journal of Clinical and Translational Hepatology</i> , <b>2014</b> , 2, 80-94	5.2	41
96	Drug and herb induced liver injury: Council for International Organizations of Medical Sciences scale for causality assessment. <i>World Journal of Hepatology</i> , <b>2014</b> , 6, 17-32	3.4	55
95	Drug induced liver injury: do we still need a routine liver biopsy for diagnosis today?. <i>Annals of Hepatology</i> , <b>2014</b> , 13, 121-126	3.1	21
94	Drug induced liver injury: accuracy of diagnosis in published reports. <i>Annals of Hepatology</i> , <b>2014</b> , 13, 248-255	3.55	45
93	Herbal hepatotoxicity: analysis of cases with initially reported positive re-exposure tests. <i>Digestive and Liver Disease</i> , <b>2014</b> , 46, 264-9	3.3	30
92	Drug induced liver injury: accuracy of diagnosis in published reports. <i>Annals of Hepatology</i> , <b>2014</b> , 13, 248-255	3.55	30

91	Contaminant hepatotoxins as culprits for kava hepatotoxicity--fact or fiction?. <i>Phytotherapy Research</i> , <b>2013</b> , 27, 472-4	6.7	25
90	Clinical and causality assessment in herbal hepatotoxicity. <i>Expert Opinion on Drug Safety</i> , <b>2013</b> , 12, 339-66	6.1	49
89	Kava in the treatment of generalized anxiety disorder: a double-blind, randomized, placebo-controlled study. <i>Journal of Clinical Psychopharmacology</i> , <b>2013</b> , 33, 643-8	1.7	70
88	Herbal hepatotoxicity: suspected cases assessed for alternative causes. <i>European Journal of Gastroenterology and Hepatology</i> , <b>2013</b> , 25, 1093-8	2.2	59
87	Herbal hepatotoxicity: a critical review. <i>British Journal of Clinical Pharmacology</i> , <b>2013</b> , 75, 630-6	3.8	53
86	Herbal hepatotoxicity: challenges and pitfalls of causality assessment methods. <i>World Journal of Gastroenterology</i> , <b>2013</b> , 19, 2864-82	5.6	49
85	Herbalife hepatotoxicity: Evaluation of cases with positive reexposure tests. <i>World Journal of Hepatology</i> , <b>2013</b> , 5, 353-63	3.4	32
84	Herbal hepatotoxicity and WHO global introspection method. <i>Annals of Hepatology</i> , <b>2013</b> , 12, 11-21	3.1	19
83	Drug- and Herb-Induced Liver Injury in Clinical and Translational Hepatology: Causality Assessment Methods, Quo Vadis?. <i>Journal of Clinical and Translational Hepatology</i> , <b>2013</b> , 1, 59-74	5.2	13
82	Herbal hepatotoxicity and WHO global introspection method. <i>Annals of Hepatology</i> , <b>2013</b> , 12, 11-21	3.1	9
81	Drug induced liver injury: do we still need a routine liver biopsy for diagnosis today?. <i>Annals of Hepatology</i> , <b>2013</b> , 13, 121-6	3.1	15
80	Spontaneous reports of primarily suspected herbal hepatotoxicity by <i>Pelargonium sidoides</i> : was causality adequately ascertained?. <i>Regulatory Toxicology and Pharmacology</i> , <b>2012</b> , 63, 1-9	3.4	36
79	Herbal hepatotoxicity: a tabular compilation of reported cases. <i>Liver International</i> , <b>2012</b> , 32, 1543-56	7.9	95
78	Suspected Herbal Hepatotoxicity. <i>Drug Safety</i> , <b>2012</b> , 35, 1091-1097	5.1	28
77	Suspected herbal hepatotoxicity: The pharmacovigilance dilemma with disputed and obsolete evaluation methods. <i>Regulatory Toxicology and Pharmacology</i> , <b>2012</b> , 64, 343-344	3.4	10
76	Rare statin hepatotoxicity: convincing evidence based on breakthrough case study. <i>Journal of Hepatology</i> , <b>2012</b> , 57, 699-700	13.4	5
75	Greater Celandine hepatotoxicity: a clinical review. <i>Annals of Hepatology</i> , <b>2012</b> , 11, 838-848	3.1	34
74	Initially purported hepatotoxicity by <i>Pelargonium sidoides</i> : the dilemma of pharmacovigilance and proposals for improvement. <i>Annals of Hepatology</i> , <b>2012</b> , 11, 500-512	3.1	26

73	USP suspected herbal hepatotoxicity: Quality of causality assessment is more important than quantity of counted cases, not vice versa. <i>Pharmacoepidemiology and Drug Safety</i> , <b>2012</b> , 21, 336-338	2.6	11
72	Kava hepatotoxicity in traditional and modern use: the presumed Pacific kava paradox hypothesis revisited. <i>British Journal of Clinical Pharmacology</i> , <b>2012</b> , 73, 170-4	3.8	34
71	Suspected Greater Celandine hepatotoxicity: liver-specific causality evaluation of published case reports from Europe. <i>European Journal of Gastroenterology and Hepatology</i> , <b>2012</b> , 24, 270-80	2.2	38
70	Suspected herbal hepatotoxicity: requirements for appropriate causality assessment by the US Pharmacopeia. <i>Drug Safety</i> , <b>2012</b> , 35, 1091-7	5.1	14
69	Hepatotoxicity associated with statins. <i>Annals of Hepatology</i> , <b>2012</b> , 11, 418-20	3.1	1
68	Initially purported hepatotoxicity by <i>Pelargonium sidoides</i> : the dilemma of pharmacovigilance and proposals for improvement. <i>Annals of Hepatology</i> , <b>2012</b> , 11, 500-12	3.1	13
67	Greater Celandine hepatotoxicity: a clinical review. <i>Annals of Hepatology</i> , <b>2012</b> , 11, 838-48	3.1	18
66	Herbal hepatotoxicity by kava: update on pipermethystine, flavokavain B, and mould hepatotoxins as primarily assumed culprits. <i>Digestive and Liver Disease</i> , <b>2011</b> , 43, 676-81	3.3	56
65	Proposal for a kava quality standardization code. <i>Food and Chemical Toxicology</i> , <b>2011</b> , 49, 2503-16	4.7	48
64	Herb induced liver injury presumably caused by black cohosh: A survey of initially purported cases and herbal quality specifications. <i>Annals of Hepatology</i> , <b>2011</b> , 10, 249-259	3.1	41
63	Kava, the anxiolytic herb: back to basics to prevent liver injury?. <i>British Journal of Clinical Pharmacology</i> , <b>2011</b> , 71, 445-8	3.8	22
62	Kava hepatotoxicity solution: A six-point plan for new kava standardization. <i>Phytomedicine</i> , <b>2011</b> , 18, 96-103	6.5	37
61	Regulatory causality evaluation methods applied in kava hepatotoxicity: are they appropriate?. <i>Regulatory Toxicology and Pharmacology</i> , <b>2011</b> , 59, 1-7	3.4	36
60	Herbal hepatotoxicity by Greater Celandine ( <i>Chelidonium majus</i> ): causality assessment of 22 spontaneous reports. <i>Regulatory Toxicology and Pharmacology</i> , <b>2011</b> , 61, 282-91	3.4	47
59	Spontaneous reports of assumed herbal hepatotoxicity by black cohosh: is the liver-unspecific Naranjo scale precise enough to ascertain causality?. <i>Pharmacoepidemiology and Drug Safety</i> , <b>2011</b> , 20, 567-82	2.6	38
58	Kava and kava hepatotoxicity: requirements for novel experimental, ethnobotanical and clinical studies based on a review of the evidence. <i>Phytotherapy Research</i> , <b>2011</b> , 25, 1263-74	6.7	26
57	Re-introduction of kava ( <i>Piper methysticum</i> ) to the EU: is there a way forward?. <i>Planta Medica</i> , <b>2011</b> , 77, 107-10	3.1	26
56	Herb induced liver injury presumably caused by black cohosh: a survey of initially purported cases and herbal quality specifications. <i>Annals of Hepatology</i> , <b>2011</b> , 10, 249-59	3.1	15

55	Kava hepatotoxicity: pathogenetic aspects and prospective considerations. <i>Liver International</i> , <b>2010</b> , 30, 1270-9	7.9	49
54	Kava hepatotoxicity. A clinical review. <i>Annals of Hepatology</i> , <b>2010</b> , 9, 251-265	3.1	94
53	Risk of kava hepatotoxicity and the FDA consumer advisory. <i>JAMA - Journal of the American Medical Association</i> , <b>2010</b> , 304, 2174-5	27.4	35
52	Black cohosh and suspected hepatotoxicity: inconsistencies, confounding variables, and prospective use of a diagnostic causality algorithm. A critical review. <i>Menopause</i> , <b>2010</b> , 17, 426-40	2.5	62
51	The effects of St. John's wort on hot flashes. <i>Menopause</i> , <b>2010</b> , 17, 1089-90	2.5	4
50	Kava hepatotoxicity--a clinical review. <i>Annals of Hepatology</i> , <b>2010</b> , 9, 251-65	3.1	26
49	Hepatotoxicity by drugs and dietary supplements: safety perspectives on clinical and regulatory issues. <i>Annals of Hepatology</i> , <b>2009</b> , 8, 184-195	3.1	17
48	Severe hepatotoxicity by Indian Ayurvedic herbal products: A structured causality assessment. <i>Annals of Hepatology</i> , <b>2009</b> , 8, 258-266	3.1	66
47	Suspected hepatotoxicity by <i>Cimicifugae racemosae rhizoma</i> (black cohosh, root): critical analysis and structured causality assessment. <i>Phytomedicine</i> , <b>2009</b> , 16, 72-84	6.5	47
46	Suspected black cohosh hepatotoxicity--challenges and pitfalls of causality assessment. <i>Maturitas</i> , <b>2009</b> , 63, 302-14	5	51
45	Reply to: Suspected black cohosh hepatotoxicity-Causality assessment versus safety signal. Quality versus quantity. <i>Maturitas</i> , <b>2009</b> , 64, 141-142	5	10
44	Kava hepatotoxicity: comparison of aqueous, ethanolic, acetonic kava extracts and kava-herbs mixtures. <i>Journal of Ethnopharmacology</i> , <b>2009</b> , 123, 378-84	5	57
43	Black cohosh hepatotoxicity: quantitative causality evaluation in nine suspected cases. <i>Menopause</i> , <b>2009</b> , 16, 956-65	2.5	30
42	Liver failure associated with the use of black cohosh for menopausal symptoms. <i>Medical Journal of Australia</i> , <b>2009</b> , 190, 99-100; author reply 100	4	8
41	Hepatotoxicity by drugs and dietary supplements: safety perspectives on clinical and regulatory issues. <i>Annals of Hepatology</i> , <b>2009</b> , 8, 184-95	3.1	3
40	Severe hepatotoxicity by Indian Ayurvedic herbal products: a structured causality assessment. <i>Annals of Hepatology</i> , <b>2009</b> , 8, 258-66	3.1	34
39	Causality assessment in hepatotoxicity by drugs and dietary supplements. <i>British Journal of Clinical Pharmacology</i> , <b>2008</b> , 66, 758-66	3.8	80
38	Kava hepatotoxicity: a clinical survey and critical analysis of 26 suspected cases. <i>European Journal of Gastroenterology and Hepatology</i> , <b>2008</b> , 20, 1182-93	2.2	104

37	Questions regarding causality in presumed black cohosh hepatotoxicity. <i>Delaware Medical Journal</i> , <b>2008</b> , 80, 233-4; author reply 235		4
36	Kava hepatotoxicity: a European view. <i>New Zealand Medical Journal</i> , <b>2008</b> , 121, 90-8	0.8	7
35	Hepatic microsomal ethanol-oxidizing system (MEOS): metabolic aspects and clinical implications. <i>Alcoholism: Clinical and Experimental Research</i> , <b>1986</b> , 10, 20S-32S	3.7	58
34	Biliary excretion of gamma-glutamyltransferase. Selective enhancement by acute ethanol administration. <i>Biochemical Pharmacology</i> , <b>1986</b> , 35, 2521-5	6	18
33	Hepatic alcohol metabolizing enzymes after prolonged administration of sex hormones and alcohol in female rats. <i>Biochemical Pharmacology</i> , <b>1986</b> , 35, 521-7	6	26
32	Alcohol abstinence in alcoholic liver disease. <i>Acta Medica Scandinavica</i> , <b>1985</b> , 703, 185-94		5
31	Correspondence. Does Ethanol Produce a Hyperthyroid Hepatic State? <i>Hepatology</i> , <b>1984</b> , 4, 161-162	11.2	3
30	Effect of ethanol on carbon tetrachloride levels and hepatotoxicity after acute carbon tetrachloride poisoning. <i>Archives of Toxicology</i> , <b>1984</b> , 56, 78-82	5.8	13
29	Effect of an acute dose of ethanol on the hepatotoxicity due to carbon tetrachloride. <i>Liver</i> , <b>1983</b> , 3, 100-9		17
