#	ARTICLE	IF	CITATIONS
1	Comparison of long-term outcome of two endoscopic transtympanic myringoplasty without tympanomeatal flap elevating for repairing large chronic perforations. <i>European Archives of Oto-Rhino-Laryngology</i> , 2022, 279, 2293-2301.	1.6	7
2	Excising or preserving perforation margins in endoscopic transtympanic cartilage myringoplasty does not affect surgical success. <i>Clinical Otolaryngology</i> , 2022, 47, 94-99.	1.2	8
3	Comparison of endoscopic over-underlay technique with and without packing for repairing chronic perforation. <i>European Archives of Oto-Rhino-Laryngology</i> , 2022, 279, 4761-4768.	1.6	5
4	Topical Application of bFGF Alone for the Regeneration of Chronic Tympanic Membrane Perforations: A Preliminary Case Series. <i>Stem Cells International</i> , 2021, 2021, 1-8.	2.5	1
5	The effect of concurrent nasal surgery on the eustachian tube function and myringoplasty outcomes. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2021, 42, 102926.	1.3	2
6	Microwave ablation for the removal of pharyngeal benign lesions: A prospective pilot case series. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2021, 42, 102916.	1.3	1
7	FGF2 and EGF for the Regeneration of Tympanic Membrane: A Systematic Review. <i>Stem Cells International</i> , 2021, 2021, 1-15.	2.5	4
8	Microwave ablation eustachian tuboplasty: a preliminary investigation with long-term follow-up. <i>Journal of Otolaryngology - Head and Neck Surgery</i> , 2021, 50, 39.	1.9	2
9	Is no de-squamization of the TM reliable for cartilage over-underlay myringoplasty without external auditory canal packing?. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2021, 42, 103064.	1.3	2
10	Identification of bleeding sites and microwave thermal ablation of posterior epistaxis. <i>Acta Oto-Laryngologica</i> , 2019, 139, 70-74.	0.9	10
11	Microwave ablation versus silver nitrate cautery for treating recurrent epistaxis in adolescents: A prospective, randomized case-control study. <i>International Journal of Pediatric Otorhinolaryngology</i> , 2019, 121, 41-45.	1.0	4
12	Microwave ablation for the treatment of arterial epistaxis: "how I do it". <i>International Forum of Allergy and Rhinology</i> , 2019, 9, 702-706.	2.8	12
13	Comparative study of epidermal growth factor and observation only on human subacute tympanic membrane perforation. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2019, 40, 209-212.	1.3	11
14	Comparison of the medical costs and effects of large traumatic eardrum perforations treatment. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2019, 40, 46-51.	1.3	2
15	Identification and management of inverted or everted edges of traumatic tympanic membrane perforations. <i>Brazilian Journal of Otorhinolaryngology</i> , 2019, 85, 17-23.	1.0	1
16	Anatomical anomalies of the Eustachian tube and chronic otitis media. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2018, 39, 359-360.	1.3	3
17	Surgical indications or inclusion/exclusion criteria of explorative tympanotomy on sudden sensorineural hearing. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2018, 39, 365-366.	1.3	0
18	The level and extent of upper airway obstruction affects the severity of laryngopharyngeal reflux. <i>European Archives of Oto-Rhino-Laryngology</i> , 2018, 275, 2415-2416.	1.6	0

#	ARTICLE	IF	CITATIONS
19	Post-tonsillectomy hemorrhage: Underlying factors and prevention. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2018, 39, 230-231.	1.3	12
20	The clinical value of the RGB value of an image of the interarytenoid area for diagnosis of laryngopharyngeal reflux. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2018, 39, 362-363.	1.3	0
21	Minimally invasive endoscopic transcanal cartilage myringoplasty is the treatment of choice for repair of anterosuperior perforations. European Archives of Oto-Rhino-Laryngology, 2018, 275, 639-641.	1.6	0
22	In reference to <i>Butterfly myringoplasty for total, subtotal, and annular perforations</i> . Laryngoscope, 2018, 128, E194-E195.	2.0	0
23	Laryngopharyngeal reflux is a potential cause of nasal congestion and obstructive sleep apnea syndrome. European Archives of Oto-Rhino-Laryngology, 2018, 275, 2409-2411.	1.6	3
24	Calculation of indirect costs of associated with postoperative caregiver absences after pediatric tonsil surgery. European Archives of Oto-Rhino-Laryngology, 2018, 275, 1031-1032.	1.6	0
25	Assessment of the causes of second surgery following pediatric adenotonsillar surgery. European Archives of Oto-Rhino-Laryngology, 2018, 275, 839-840.	1.6	0
26	Treatment of sphenopalatine artery bleeding. European Archives of Oto-Rhino-Laryngology, 2018, 275, 649-651.	1.6	0
27	Endoscopic observation of different repair patterns in human traumatic tympanic membrane perforations. Brazilian Journal of Otorhinolaryngology, 2018, 84, 545-552.	1.0	9
28	Nasal packing and trans-septal suturing after septoplasty. European Archives of Oto-Rhino-Laryngology, 2018, 275, 653-655.	1.6	1
29	Laryngopharyngeal reflux disease in the elderly. European Archives of Oto-Rhino-Laryngology, 2018, 275, 315-316.	1.6	0
30	Efficacy of EGF and Gelatin Sponge for Traumatic Tympanic Membrane Perforations: A Randomized Controlled Study. Otolaryngology - Head and Neck Surgery, 2018, 159, 1028-1036.	1.9	21
31	Pretreatment factors affecting traumatic tympanic membrane regeneration therapy using epidermal growth factor. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2018, 39, 711-718.	1.3	3
32	Serum cotinine levels should optimally be measured when evaluating the outcomes of cartilage tympanoplasty in smokers. European Archives of Oto-Rhino-Laryngology, 2017, 274, 3553-3555.	1.6	0
33	Assessment of the success rates of type 1 cartilage tympanoplasty in pediatric and adult patients. European Archives of Oto-Rhino-Laryngology, 2017, 274, 2669-2671.	1.6	0
34	Full-thickness cartilage myringoplasty on the patulous Eustachian tube. European Archives of Oto-Rhino-Laryngology, 2017, 274, 4051-4053.	1.6	0
35	Progress in endoscopic tympanoplasty and a surgeon's experience with the middle ear. European Archives of Oto-Rhino-Laryngology, 2017, 274, 4057-4059.	1.6	2
36	Assessment and spontaneous healing outcomes of traumatic eardrum perforation with bleeding. American Journal of Otolaryngology - Head and Neck Medicine and Surgery, 2017, 38, 479-483.	1.3	1

#	ARTICLE	IF	CITATIONS
37	Comparing the outcome of tympanoplasties using bovine pericardium underlay xenografts versus butterfly inlay autografts. <i>European Archives of Oto-Rhino-Laryngology</i> , 2017, 274, 3535-3537.	1.6	0
38	It is prudent to consider use of endoscopic tympanoplasty to treat complicated middle-ear disease. <i>European Archives of Oto-Rhino-Laryngology</i> , 2017, 274, 4063-4065.	1.6	0
39	Changes in gustatory function in patients with chronic otitis media before and after tympanoplasty. <i>European Archives of Oto-Rhino-Laryngology</i> , 2017, 274, 4043-4045.	1.6	2
40	Assessment of multiple factors is necessary when evaluating the success rate of myringoplasty. <i>Journal of Laryngology and Otology</i> , 2017, 131, 90-91.	0.8	2
41	Effects of perforation size on the success rate of tympanoplasty using a cartilage graft. <i>Brazilian Journal of Otorhinolaryngology</i> , 2017, 83, 494-495.	1.0	2
42	A comparative study to evaluate the efficacy of EGF, FGF-2, and 0.3% (w/v) ofloxacin drops on eardrum regeneration. <i>Medicine (United States)</i> , 2017, 96, e7654.	1.0	14
43	The effects of fibroblast growth factor-2 delivered via a Gelfoam patch on the regeneration of myringosclerotic traumatic eardrum perforations lying close to the malleus. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2017, 38, 582-587.	1.3	14
44	Inlay butterfly cartilage tympanoplasty in dry central perforated chronic otitis media. <i>European Archives of Oto-Rhino-Laryngology</i> , 2017, 274, 1765-1767.	1.6	0
45	Healing Human Moderate and Large Traumatic Tympanic Membrane Perforations Using Basic Fibroblast Growth Factor, 0.3% Ofloxacin Eardrops, and Gelfoam Patching. <i>Otology and Neurotology</i> , 2016, 37, 735-741.	1.3	22
46	Utility of basic fibroblast growth factor in the repair of blast-induced total or near-total tympanic membrane perforations: A pilot study. <i>American Journal of Otolaryngology - Head and Neck Medicine and Surgery</i> , 2015, 36, 794-797.	1.3	14
47	A prospective, randomized, single-blind study comparing coblation and monopolar extracapsular tonsillectomy. <i>Laryngoscope Investigative Otolaryngology</i> , 0, , .	1.5	4
