#	ARTICLE	IF	CITATIONS
1	Dieting and Disordered Eating Behaviors from Adolescence to Young Adulthood: Findings from a 10-Year Longitudinal Study. <i>Journal of the American Dietetic Association</i> , 2011, 111, 1004-1011.	1.3	569
2	Intuitive eating in young adults. Who is doing it, and how is it related to disordered eating behaviors?. <i>Appetite</i> , 2013, 60, 13-19.	1.8	149
3	Parent Conversations About Healthful Eating and Weight. <i>JAMA Pediatrics</i> , 2013, 167, 746.	3.3	119
4	Food Insecurity and Eating Disorders: a Review of Emerging Evidence. <i>Current Psychiatry Reports</i> , 2020, 22, 74.	2.1	116
5	Food-Related Parenting Practices and Adolescent Weight Status: A Population-Based Study. <i>Pediatrics</i> , 2013, 131, e1443-e1450.	1.0	115
6	What's for dinner? Types of food served at family dinner differ across parent and family characteristics. <i>Public Health Nutrition</i> , 2014, 17, 145-155.	1.1	107
7	Eat this, not that! Parental demographic correlates of food-related parenting practices. <i>Appetite</i> , 2013, 60, 140-147.	1.8	103
8	Food availability, modeling and restriction: How are these different aspects of the family eating environment related to adolescent dietary intake?. <i>Appetite</i> , 2016, 96, 80-86.	1.8	99
9	Family meals. Associations with weight and eating behaviors among mothers and fathers. <i>Appetite</i> , 2012, 58, 1128-1135.	1.8	95
10	Predictors of Dieting and Disordered Eating Behaviors From Adolescence to Young Adulthood. <i>Journal of Adolescent Health</i> , 2014, 55, 705-712.	1.2	86
11	Are food restriction and pressure to eat parenting practices associated with adolescent disordered eating behaviors?. <i>International Journal of Eating Disorders</i> , 2014, 47, 310-314.	2.1	79
12	Overeating and binge eating in emerging adulthood: 10-year stability and risk factors.. <i>Developmental Psychology</i> , 2016, 52, 475-483.	1.2	71
13	Parent-adolescent conversations about eating, physical activity and weight: prevalence across sociodemographic characteristics and associations with adolescent weight and weight-related behaviors. <i>Journal of Behavioral Medicine</i> , 2015, 38, 122-135.	1.1	70
14	Body satisfaction during pregnancy. <i>Body Image</i> , 2011, 8, 297-300.	1.9	68
15	The course of binge eating from adolescence to young adulthood.. <i>Health Psychology</i> , 2014, 33, 457-460.	1.3	64
16	Stressful Life Events and Disordered Eating Behaviors: Findings from Project EAT. <i>Journal of Adolescent Health</i> , 2008, 43, 514-516.	1.2	63
17	Risk Factors for Disordered Eating in Overweight Adolescents and Young Adults: Table I.. <i>Journal of Pediatric Psychology</i> , 2015, 40, 1048-1055.	1.1	55
18	Factors Predicting an Escalation of Restrictive Eating During Adolescence. <i>Journal of Adolescent Health</i> , 2016, 59, 391-396.	1.2	54

#	ARTICLE	IF	CITATIONS
19	Time 2 tlk 2nite: Use of Electronic Media by Adolescents during Family Meals and Associations with Demographic Characteristics, Family Characteristics, and Foods Served. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2014, 114, 1053-1058.	0.4	50
20	Disordered eating and psychological well-being in overweight and nonoverweight adolescents: Secular trends from 1999 to 2010. <i>International Journal of Eating Disorders</i> , 2015, 48, 323-327.	2.1	50
21	Stability and change in patterns of eating disorder symptoms from adolescence to young adulthood. <i>International Journal of Eating Disorders</i> , 2017, 50, 748-757.	2.1	49
22	Socioeconomic differences in overweight and weight-related behaviors across adolescence and young adulthood: 10-year longitudinal findings from Project EAT. <i>Preventive Medicine</i> , 2016, 87, 194-199.	1.6	48
23	Overeating with and without loss of control: Associations with weight status, weight-related characteristics, and psychosocial health. <i>International Journal of Eating Disorders</i> , 2015, 48, 1150-1157.	2.1	46
24	Associations Between Food Restriction and Pressure-to-Eat Parenting Practices and Dietary Intake in Children: a Selective Review of the Recent Literature. <i>Current Nutrition Reports</i> , 2016, 5, 61-67.	2.1	40
25	Does Body Satisfaction Help or Harm Overweight Teens? A 10-Year Longitudinal Study of the Relationship Between Body Satisfaction and Body Mass Index. <i>Journal of Adolescent Health</i> , 2015, 57, 559-561.	1.2	37
26	Compared to Pre-prepared Meals, Fully and Partly Home-Cooked Meals in Diverse Families with Young Children Are More Likely to Include Nutritious Ingredients. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2019, 119, 818-830.	0.4	37
27	Associations between parental stress, parent feeding practices, and child eating behaviors within the context of food insecurity. <i>Preventive Medicine Reports</i> , 2020, 19, 101146.	0.8	36
28	Understanding the impact of the COVID-19 pandemic on stress, mood, and substance use among young adults in the greater Minneapolis-St. Paul area: Findings from project EAT. <i>Social Science and Medicine</i> , 2021, 276, 113826.	1.8	36
29	Informing family approaches to eating disorder prevention: Perspectives of those who have been there. <i>International Journal of Eating Disorders</i> , 2009, 42, 146-152.	2.1	33
30	Family meals and disordered eating in adolescents: Are the benefits the same for everyone?. <i>International Journal of Eating Disorders</i> , 2015, 48, 100-110.	2.1	33
31	Associations between severe food insecurity and disordered eating behaviors from adolescence to young adulthood: Findings from a 10-year longitudinal study. <i>Preventive Medicine</i> , 2022, 154, 106895.	1.6	32
32	Intergenerational transmission of family meal patterns from adolescence to parenthood: longitudinal associations with parents' dietary intake, weight-related behaviours and psychosocial well-being. <i>Public Health Nutrition</i> , 2018, 21, 299-308.	1.1	31
33	A qualitative exploration into momentary impacts on food parenting practices among parents of pre-school aged children. <i>Appetite</i> , 2018, 130, 35-44.	1.8	31
34	Patterns of weight control behavior persisting beyond young adulthood: Results from a 15-year longitudinal study. <i>International Journal of Eating Disorders</i> , 2018, 51, 1090-1097.	2.1	30
35	Examining variability in parent feeding practices within a low-income, racially/ethnically diverse, and immigrant population using ecological momentary assessment. <i>Appetite</i> , 2018, 127, 110-118.	1.8	29
36	The Transmission of Family Food and Mealtime Practices From Adolescence to Adulthood: Longitudinal Findings From Project EAT-IV. <i>Journal of Nutrition Education and Behavior</i> , 2018, 50, 141-147.e1.	0.3	26

#	ARTICLE	IF	CITATIONS
37	Weight Status and Emotional Well-Being: Longitudinal Findings from Project EAT. <i>Journal of Pediatric Psychology</i> , 2011, 36, 216-225.	1.1	25
38	A Qualitative Exploration Into the Parentâ€“Child Feeding Relationship: How Parents of Preschoolers Divide the Responsibilities of Feeding With Their Children. <i>Journal of Nutrition Education and Behavior</i> , 2018, 50, 655-667.	0.3	24
39	Family dinner frequency interacts with dinnertime context in associations with child and parent BMI outcomes.. <i>Journal of Family Psychology</i> , 2017, 31, 945-951.	1.0	24
40	Nutrition Facts Use in Relation to Eating Behaviors and Healthy and Unhealthy Weight Control Behaviors. <i>Journal of Nutrition Education and Behavior</i> , 2018, 50, 267-274.e1.	0.3	20
41	Application of latent profile analysis to define subgroups of parenting styles and food parenting practices. <i>Appetite</i> , 2019, 139, 8-18.	1.8	19
42	Parent/Adolescent Weight Status Concordance and Parent Feeding Practices. <i>Pediatrics</i> , 2015, 136, e591-e598.	1.0	18
43	Characteristics of a Favorable Weight Status Change From Adolescence to Young Adulthood. <i>Journal of Adolescent Health</i> , 2016, 58, 403-409.	1.2	18
44	The longitudinal relationship between family and peer teasing in young adulthood and later unhealthy weight control behaviors: The mediating role of body image. <i>International Journal of Eating Disorders</i> , 2021, 54, 831-840.	2.1	18
45	Could the resource depletion model of selfâ€“control help the field to better understand momentary processes that lead to binge eating?. <i>International Journal of Eating Disorders</i> , 2016, 49, 998-1001.	2.1	17
46	Ecological Momentary Assessment of the Breakfast, Lunch, and Dinner Family Meal Environment in Racially/Ethnically Diverse and Immigrant Households. <i>Journal of Nutrition Education and Behavior</i> , 2019, 51, 658-676.	0.3	17
47	Body dissatisfaction and disordered eating are prevalent problems among U.S. young people from diverse socioeconomic backgrounds: Findings from the EAT 2010â€“2018 study. <i>Eating Behaviors</i> , 2021, 42, 101535.	1.1	17
48	Parent-child health- and weight-focused conversations: Who is saying what and to whom?. <i>Appetite</i> , 2018, 126, 114-120.	1.8	16
49	Significant othersâ€™ weight-related comments and their associations with weight-control behavior, muscle-enhancing behavior, and emotional well-being.. <i>Families, Systems and Health</i> , 2017, 35, 474-485.	0.4	15
50	Ecological Momentary Assessment of Weight-Related Behaviors in the Home Environment of Children From Low-Income and Racially and Ethnically Diverse Households: Development and Usability Study. <i>JMIR Research Protocols</i> , 2021, 10, e30525.	0.5	14
51	Ecological momentary assessment of the snacking environments of children from racially/ethnically diverse households. <i>Appetite</i> , 2020, 145, 104497.	1.8	13
52	Acceptance of a meal kit programme in an outpatient paediatric weight management clinic: A qualitative pilot study. <i>Clinical Obesity</i> , 2020, 10, e12371.	1.1	13
53	Does exposure to controlling parental feeding practices during adolescence predict disordered eating behaviors 8â€“years later in emerging adulthood?. <i>Pediatric Obesity</i> , 2020, 15, e12709.	1.4	13
54	Self-Weighing Throughout Adolescence and Young Adulthood: Implications for Well-Being. <i>Journal of Nutrition Education and Behavior</i> , 2015, 47, 506-515.e1.	0.3	12

#	ARTICLE	IF	CITATIONS
55	Associations between parental perception of- and concern about-child weight and use of specific food-related parenting practices. <i>Appetite</i> , 2021, 160, 105068.	1.8	12
56	Associations Between Parent Self-Reported and Accelerometer-Measured Physical Activity and Sedentary Time in Children: Ecological Momentary Assessment Study. <i>JMIR MHealth and UHealth</i> , 2020, 8, e15458.	1.8	12
57	An Exploration of How Family Dinners Are Served and How Service Style Is Associated With Dietary and Weight Outcomes in Children. <i>Journal of Nutrition Education and Behavior</i> , 2017, 49, 513-518.e1.	0.3	11
58	Family meal characteristics in racially/ethnically diverse and immigrant/refugee households by household food security status: A mixed methods study. <i>Appetite</i> , 2021, 157, 105000.	1.8	11
59	Do Parents Treat Siblings Similarly or Differently with Regard to Feeding Practices, Weight-Related Conversations, and Support for Physical Activity? An Exploratory Analysis. <i>Childhood Obesity</i> , 2016, 12, 87-93.	0.8	9
60	Using apps to self-monitor diet and physical activity is linked to greater use of disordered eating behaviors among emerging adults. <i>Preventive Medicine</i> , 2022, 155, 106967.	1.6	9
61	Associations between parent and child physical activity and eating behaviours in a diverse sample: an ecological momentary assessment study. <i>Public Health Nutrition</i> , 2020, 23, 2728-2736.	1.1	8
62	Changes to the home food environment and parent feeding practices during the COVID-19 pandemic: A qualitative exploration. <i>Appetite</i> , 2022, 169, 105806.	1.8	8
63	Change in the implementation of healthy nutrition and physical activity best practices in Minnesota early care settings: A longitudinal cohort study (2010â€“2016). <i>Preventive Medicine Reports</i> , 2018, 10, 234-241.	0.8	7
64	Staff Training Interests, Barriers, and Preferences in Rural and Urban Child Care Programs in Minnesota. <i>Journal of Nutrition Education and Behavior</i> , 2019, 51, 335-341.	0.3	7
65	First, Do No Harm: Understanding Primary Care Providersâ€™ Perception of Risks Associated With Discussing Weight With Pediatric Patients. <i>Global Pediatric Health</i> , 2021, 8, 2333794X2110409.	0.3	7
66	Healthy Eating and Activity Across the Lifespan (HEAL): A call to action to integrate research, clinical practice, policy, and community resources to address weight-related health disparities. <i>Preventive Medicine</i> , 2017, 101, 199-203.	1.6	6
67	Self-weighing among young adults: who weighs themselves and for whom does weighing affect mood? A cross-sectional study of a population-based sample. <i>Journal of Eating Disorders</i> , 2021, 9, 37.	1.3	5
68	Correlates of weight-related self-monitoring application use during emerging adulthood in a population-based sample. <i>Eating and Weight Disorders</i> , 2022, , 1.	1.2	4
69	Management of Childhood Obesity and Overweight in Primary Care Visits: Gaps Between Recommended Care and Typical Practice. <i>Current Nutrition Reports</i> , 2017, 6, 307-314.	2.1	3
70	Examining Predictors of Watching Television During Family Meals in a Diverse Sample. <i>Journal of Nutrition Education and Behavior</i> , 2019, 51, 1113-1120.	0.3	3
71	The intergenerational transmission of family meal practices: a mixed-methods study of parents of young children. <i>Public Health Nutrition</i> , 2019, 22, 1-12.	1.1	3
72	Concordance of childrenâ€™s intake of selected food groups as reported by parents via 24-h dietary recall and ecological momentary assessment. <i>Public Health Nutrition</i> , 2021, 24, 22-33.	1.1	3

#	ARTICLE	IF	CITATIONS
73	Social Isolation in a Population-Based Sample of Emerging Adults: Who Is on Their Own?. <i>Emerging Adulthood</i> , 2022, 10, 1247-1255.	1.4	3
74	Kitchen Adequacy and Child Diet Quality in a Racially/Ethnically Diverse Sample. <i>Ecology of Food and Nutrition</i> , 2022, 61, 81-89.	0.8	3
75	Adverse childhood experiences and disordered eating among middle-aged adults: Findings from the coronary artery risk development in young adults study. <i>Preventive Medicine</i> , 2022, 162, 107124.	1.6	3
76	Physical Activity and Sociodemographic Correlates of Adolescent Exergamers. <i>Journal of Adolescent Health</i> , 2018, 62, 630-632.	1.2	2
77	Primary care providers's perspectives on initiating childhood obesity conversations: a qualitative study. <i>Family Practice</i> , 2021, 38, 460-467.	0.8	2
78	Expanding Family Medicine Scholarship to All Faculty: The Minnesota Model for Harmonizing Clinical Care, Education, and Research Missions. <i>Journal of the American Board of Family Medicine</i> , 2021, 34, 1055-1065.	0.8	2
79	Participant characteristics and dietary correlates of SNAP and other assistance programs among families with children from racially and ethnically diverse households. <i>Appetite</i> , 2022, 174, 106015.	1.8	2
80	The Mastery Matrix for Integration Praxis: The development of a rubric for integration practice in addressing weight-related public health problems. <i>Preventive Medicine</i> , 2018, 111, 78-86.	1.6	1
81	Integration as a tool for interprofessional work: A synthesis of the literature regarding how to use integrative strategies to address complex public health problems. <i>Journal of Interprofessional Education and Practice</i> , 2020, 21, 100383.	0.2	1
82	CHAOS in the Home Environment and Child Weight-Related Outcomes. <i>Journal of the American Board of Family Medicine</i> , 2021, 34, 1163-1173.	0.8	1
83	An Integrated Approach to Eating Disorders and Obesity Prevention: What Has the Research Taught Us?. , 2018, , 228-244.		1
84	Change that Matters: A Health Behavior Change and Behavioral Health Curriculum for Primary Care. <i>Journal of Clinical Psychology in Medical Settings</i> , 2022, 29, 773-784.	0.8	1
85	Lipid Levels in Refugees from Burma. <i>Journal of Community Health</i> , 2021, 46, 1083-1089.	1.9	0
86	Intuitive Eating among Parents: Associations with the Home Food and Meal Environment. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2022, 122, 1336-1344.	0.4	0
87	Experiences with public health recommendations for COVID-19: a qualitative study of diverse mothers with young children in the United States. <i>Journal of Communication in Healthcare</i> , 2022, 15, 64-73.	0.8	0
