| #  | ARTICLE                                                                                                                                                                                                                          | IF  | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Impact of nutrient warning labels on choice of ultra-processed food and drinks high in sugar, sodium, and saturated fat in Colombia: A randomized controlled trial. PLoS ONE, 2022, 17, e0263324.                                | 1.1 | 8         |
| 2  | Niveles de micronutrientes en niños escolares colombianos e inseguridad alimentaria. Biomedica, 2021, 41, 458-471.                                                                                                               | 0.3 | 1         |
| 3  | Extent and nutritional quality of foods and beverages to which children are exposed in Colombian TV food advertising. Public Health Nutrition, 2021, 24, 706-716.                                                                | 1.1 | 5         |
| 4  | Claims on Ready-to-Eat Cereals: Are Those With Claims Healthier?. Frontiers in Nutrition, 2021, 8, 770489.                                                                                                                       | 1.6 | 2         |
| 5  | Micronutrient status and leukocyte telomere length in school-age Colombian children. European Journal of Nutrition, 2020, 59, 1055-1065.                                                                                         | 1.8 | 12        |
| 6  | Vitamin D Deficiency in Middle Childhood Is Related to Behavior Problems in Adolescence. Journal of Nutrition, 2020, 150, 140-148.                                                                                               | 1.3 | 14        |
| 7  | Polyunsaturated fatty acids in middle childhood and externalizing and internalizing behavior problems in adolescence. European Journal of Clinical Nutrition, 2020, 74, 481-490.                                                 | 1.3 | 4         |
| 8  | Designing an Effective Front-of-Package Warning Label for Food and Drinks High in Added Sugar, Sodium, or Saturated Fat in Colombia: An Online Experiment. Nutrients, 2020, 12, 3124.                                            | 1.7 | 13        |
| 9  | Tabla de intercambios de alimentos para uso en pediatría. Revista Facultad De Medicina, 2020, 68, .                                                                                                                              | 0.0 | 1         |
| 10 | Reformulation of Packaged Foods and Beverages in the Colombian Food Supply. Nutrients, 2020, 12, 3260.                                                                                                                           | 1.7 | 13        |
| 11 | Scoping review of studies on food marketing in Latin America: Summary of existing evidence and research gaps. Revista De Saude Publica, 2020, 53, 107.                                                                           | 0.7 | 13        |
| 12 | Nutrition Quality of Packaged Foods in Bogotá, Colombia: A Comparison of Two Nutrient Profile Models. Nutrients, 2019, 11, 1011.                                                                                                 | 1.7 | 27        |
| 13 | Prevalence of diabetes and hypertension in Colombia: A systematic review. Revista Facultad Nacional De Salud Publica, 2019, 37, .                                                                                                | 0.1 | 1         |
| 14 | Iron Deficiency, Anemia, and Low Vitamin B-12 Serostatus in Middle Childhood Are Associated with Behavior Problems in Adolescent Boys: Results from the Bogotá School Children Cohort. Journal of Nutrition, 2018, 148, 760-770. | 1.3 | 23        |
| 15 | Processed and ultra-processed foods are associated with lower-quality nutrient profiles in children from Colombia. Public Health Nutrition, 2018, 21, 142-147.                                                                   | 1.1 | 65        |
| 16 | Results from Colombia's 2018 Report Card on Physical Activity for Children and Youth. Journal of Physical Activity and Health, 2018, 15, S335-S337.                                                                              | 1.0 | 13        |
| 17 | Micronutrient status in middle childhood and age at menarche: results from the Bogotá School Children Cohort. British Journal of Nutrition, 2017, 118, 1097-1105.                                                                | 1.2 | 10        |
| 18 | Higher Childhood Red Meat Intake Frequency Is Associated with Earlier Age at Menarche. Journal of Nutrition, 2016, 146, 792-798.                                                                                                 | 1.3 | 28        |

| #  | ARTICLE                                                                                                                                                                                                                | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Maternal body image dissatisfaction and BMI change in school-age children. <i>Public Health Nutrition</i> , 2016, 19, 287-292.                                                                                         | 1.1 | 12        |
| 20 | Cooking with soyabean oil increases whole-blood $\hat{\pm}$ -linolenic acid in school-aged children: results from a randomized trial. <i>Public Health Nutrition</i> , 2015, 18, 3420-3428.                            | 1.1 | 4         |
| 21 | <i>Trans</i> -fatty acids in cooking oils in Bogota, Colombia: changes in the food supply from 2008 to 2013. <i>Public Health Nutrition</i> , 2015, 18, 3260-3264.                                                     | 1.1 | 4         |
| 22 | A prospective study of body image dissatisfaction and BMI change in school-age children. <i>Public Health Nutrition</i> , 2015, 18, 322-328.                                                                           | 1.1 | 12        |
| 23 | Vitamin B-12 Deficiency in Children Is Associated with Grade Repetition and School Absenteeism, Independent of Folate, Iron, Zinc, or Vitamin A Status Biomarkers. <i>Journal of Nutrition</i> , 2015, 145, 1541-1548. | 1.3 | 21        |
| 24 | Serum Trans Fatty Acids Are Not Associated with Weight Gain or Linear Growth in School-Age Children. <i>Journal of Nutrition</i> , 2015, 145, 2102-2108.                                                               | 1.3 | 4         |
| 25 | Accuracy of self-reported weight and height in women from Bogotá, Colombia. <i>Annals of Human Biology</i> , 2014, 41, 473-476.                                                                                        | 0.4 | 10        |
| 26 | Vitamin A Deficiency Is Associated with Gastrointestinal and Respiratory Morbidity in School-Age Children. <i>Journal of Nutrition</i> , 2014, 144, 496-503.                                                           | 1.3 | 40        |
| 27 | BMI and sociodemographic correlates of body image perception and attitudes in school-aged children. <i>Public Health Nutrition</i> , 2014, 17, 2216-2225.                                                              | 1.1 | 8         |
| 28 | Adherence to a snacking dietary pattern and soda intake are related to the development of adiposity: a prospective study in school-age children. <i>Public Health Nutrition</i> , 2014, 17, 1507-1513.                 | 1.1 | 53        |
| 29 | Vitamin D Deficiency Associated With Increased Incidence of Gastrointestinal and Ear Infections in School-age Children. <i>Pediatric Infectious Disease Journal</i> , 2013, 32, 585-593.                               | 1.1 | 52        |
| 30 | A Prospective Study of LINE-1 DNA Methylation and Development of Adiposity in School-Age Children. <i>PLoS ONE</i> , 2013, 8, e62587.                                                                                  | 1.1 | 44        |
| 31 | Micronutrient status and global DNA methylation in school-age children. <i>Epigenetics</i> , 2012, 7, 1133-1141.                                                                                                       | 1.3 | 49        |
| 32 | Validity of Maternal Birthweight Recall Among Colombian Children. <i>Maternal and Child Health Journal</i> , 2012, 16, 753-759.                                                                                        | 0.7 | 14        |
| 33 | Micronutrient and anthropometric status indicators are associated with physical fitness in Colombian schoolchildren. <i>British Journal of Nutrition</i> , 2011, 105, 1832-1842.                                       | 1.2 | 10        |
| 34 | Vitamin D deficiency and age at menarche: a prospective study. <i>American Journal of Clinical Nutrition</i> , 2011, 94, 1020-1025.                                                                                    | 2.2 | 71        |
| 35 | Stunting Associated with Poor Socioeconomic and Maternal Nutrition Status and Respiratory Morbidity in Colombian Schoolchildren. <i>Food and Nutrition Bulletin</i> , 2010, 31, 242-250.                               | 0.5 | 50        |
| 36 | Intestinal Protozoan Infections in Relation to Nutritional Status and Gastrointestinal Morbidity in Colombian School Children. <i>Journal of Tropical Pediatrics</i> , 2010, 56, 299-306.                              | 0.7 | 41        |

| #  | ARTICLE                                                                                                                                                                                                                              | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Vitamin D deficiency and anthropometric indicators of adiposity in school-age children: a prospective study. <i>American Journal of Clinical Nutrition</i> , 2010, 92, 1446-1451.                                                    | 2.2 | 128       |
| 38 | Correlates of Obesity and Body Image in Colombian Women. <i>Journal of Women's Health</i> , 2009, 18, 1145-1151.                                                                                                                     | 1.5 | 37        |
| 39 | Provision of a School Snack Is Associated with Vitamin B-12 Status, Linear Growth, and Morbidity in Children from Bogotá, Colombia. <i>Journal of Nutrition</i> , 2009, 139, 1744-1750.                                              | 1.3 | 60        |
| 40 | Overweight Is More Prevalent Than Stunting and Is Associated with Socioeconomic Status, Maternal Obesity, and a Snacking Dietary Pattern in School Children from Bogotá, Colombia. <i>Journal of Nutrition</i> , 2009, 139, 370-376. | 1.3 | 95        |
| 41 | Predictors of usage and fatty acid composition of cooking fats in Bogotá, Colombia. <i>Public Health Nutrition</i> , 2009, 12, 531.                                                                                                  | 1.1 | 12        |
| 42 | Are Vitamin A and Iron Deficiencies Re-Emerging in Urban Latin America? A Survey of Schoolchildren in Bogotá, Colombia. <i>Food and Nutrition Bulletin</i> , 2009, 30, 103-111.                                                      | 0.5 | 12        |
| 43 | Extracellular pH defense against lactic acid in untrained and trained altitude residents. <i>European Journal of Applied Physiology</i> , 2008, 103, 127-137.                                                                        | 1.2 | 16        |
| 44 | Vitamin B-12 Status Is Associated with Socioeconomic Level and Adherence to an Animal Food Dietary Pattern in Colombian School Children. <i>Journal of Nutrition</i> , 2008, 138, 1391-1398.                                         | 1.3 | 48        |
