

Jenny Veitch

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1898335/jenny-veitch-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
104	Outdoor public recreation spaces and social connectedness among adolescents.. <i>BMC Public Health</i> , 2022 , 22, 165	4.1	0
103	Socioecological correlates associated with muscle-strengthening exercise at home during COVID-19 among adolescents: The our life at home study.. <i>Journal of Sports Sciences</i> , 2022 , 1-9	3.6	
102	What entices older adults to parks? Identification of park features that encourage park visitation, physical activity, and social interaction. <i>Landscape and Urban Planning</i> , 2022 , 217, 104254	7.7	9
101	What do adults want in parks? A qualitative study using walk-along interviews.. <i>BMC Public Health</i> , 2022 , 22, 753	4.1	0
100	People with the least positive attitudes to green exercise derive most anxiolytic benefit from walking in green space. <i>Urban Forestry and Urban Greening</i> , 2022 , 72, 127587	5.4	
99	Associations of public open space attributes with active and sedentary behaviors in dense urban areas: A systematic review of observational studies.. <i>Health and Place</i> , 2022 , 75, 102816	4.6	0
98	Neighbourhood food typologies, fast food outlet visitation and snack food purchasing among adolescents in Melbourne, Australia. <i>Public Health Nutrition</i> , 2021 , 1-9	3.3	0
97	Understanding children's preference for park features that encourage physical activity: an adaptive choice based conjoint analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 133	8.4	2
96	Physical activity and active recreation before and during COVID-19: The Our Life at Home study. <i>Journal of Science and Medicine in Sport</i> , 2021 ,	4.4	3
95	Changes in Families' Leisure, Educational/Work and Social Screen Time Behaviours before and during COVID-19 in Australia: Findings from the Our Life at Home Study. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18,	4.6	2
94	Children's ratings of park features that encourage park visitation, physical activity and social interaction. <i>Urban Forestry and Urban Greening</i> , 2021 , 58, 126963	5.4	5
93	Critical factors influencing adolescents' active and social park use: A qualitative study using walk-along interviews. <i>Urban Forestry and Urban Greening</i> , 2021 , 58, 126948	5.4	6
92	Participatory school ground design: play behaviour and student and teacher views of a school ground post-construction. <i>Landscape Research</i> , 2021 , 46, 860-877	1.4	1
91	Important park features for encouraging park visitation, physical activity and social interaction among adolescents: A conjoint analysis. <i>Health and Place</i> , 2021 , 70, 102617	4.6	8
90	Reliability of streetscape audits comparing on-street and online observations: MAPS-Global in 5 countries. <i>International Journal of Health Geographics</i> , 2021 , 20, 6	3.5	4
89	Are park availability and satisfaction with neighbourhood parks associated with physical activity and time spent outdoors?. <i>BMC Public Health</i> , 2021 , 21, 306	4.1	9
88	The Use of Digital Platforms for Adults' and Adolescents' Physical Activity During the COVID-19 Pandemic (Our Life at Home): Survey Study. <i>Journal of Medical Internet Research</i> , 2021 , 23, e23389	7.6	39

87	Understanding the impact of the installation of outdoor fitness equipment and a multi-sports court on park visitation and park-based physical activity: A natural experiment. <i>Health and Place</i> , 2021 , 71, 102662	4.6	1
86	Individual, Social and Environmental Correlates of Active School Travel among Adolescents in India. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	2
85	Changes in and the mediating role of physical activity in relation to active school transport, fitness and adiposity among Spanish youth: the UP&DOWN longitudinal study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 37	8.4	2
84	Exploring Children's Views on Important Park Features: A Qualitative Study Using Walk-Along Interviews. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	11
83	Designing parks for older adults: A qualitative study using walk-along interviews. <i>Urban Forestry and Urban Greening</i> , 2020 , 54, 126768	5.4	19
82	Environmental Mismatch: Do Associations between the Built Environment and Physical Activity among Youth Depend on Concordance with Perceptions?. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	5
81	Moderators of Parents' Perceptions of the Neighborhood Environment and Children's Physical Activity, Time Outside, and Screen Time. <i>Journal of Physical Activity and Health</i> , 2020 , 17, 557-565	2.5	9
80	Comparing the features of parks that children usually visit with those that are closest to home: A brief report. <i>Urban Forestry and Urban Greening</i> , 2020 , 48, 126560	5.4	6
79	Home-based screen time behaviors amongst youth and their parents: familial typologies and their modifiable correlates. <i>BMC Public Health</i> , 2020 , 20, 1492	4.1	4
78	Perceptions and patronage of public transport Òare women different from men?. <i>Journal of Transport and Health</i> , 2020 , 19, 100955	3	3
77	Examining Health-Related Effects of Refurbishment to Parks in a Lower Socioeconomic Area: The ShadePlus Natural Experiment. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	3
76	Is greenery associated with mental health among residents of aged care facilities? A systematic search and narrative review. <i>Aging and Mental Health</i> , 2020 , 24, 1-7	3.5	12
75	Individual, social and neighbourhood correlates of cycling among children living in disadvantaged neighbourhoods. <i>Journal of Science and Medicine in Sport</i> , 2020 , 23, 157-163	4.4	3
74	ÒÈ fun in the legsÒchildrenÒ dwelling in garden trampolines. <i>Children's Geographies</i> , 2020 , 18, 312-324	1.5	
73	Residential vs school neighborhoods: Associations with physical activity among adolescents. <i>Health and Place</i> , 2020 , 63, 102328	4.6	3
72	Increasing translation of research evidence for optimal park design: a qualitative study with stakeholders. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 49	8.4	4
71	Designing Activating Schoolyards: Seen from the Girls' Viewpoint. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	6
70	Examining the Features of Parks That Children Visit During Three Stages of Childhood. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	14

69	Impact of an Australian state-wide active travel campaign targeting primary schools. <i>Preventive Medicine Reports</i> , 2019 , 14, 100866	2.6	2
68	Differences in park characteristic preferences for visitation and physical activity among adolescents: A latent class analysis. <i>PLoS ONE</i> , 2019 , 14, e0212920	3.7	10
67	The impact of a park refurbishment in a low socioeconomic area on physical activity: a cost-effectiveness study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 26	8.4	6
66	Physical activity benefits from taking your dog to the park. <i>Landscape and Urban Planning</i> , 2019 , 185, 173-179	7.7	7
65	The Relationship between Objectively Measured and Self-Reported Sedentary Behaviours and Social Connectedness among Adolescents. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	12
64	Ecological correlates of activity-related behavior typologies among adolescents. <i>BMC Public Health</i> , 2019 , 19, 1041	4.1	11
63	Informing Behaviour Change: What Sedentary Behaviours Do Families Perform at Home and How Can They Be Targeted?. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	10
62	Development and validation of the neighborhood environment walkability scale for youth across six continents. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 122	8.4	12
61	Built environment and physical activity among adolescents: the moderating effects of neighborhood safety and social support. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 132	8.4	26
60	Public open space characteristics influencing adolescents' use and physical activity: A systematic literature review of qualitative and quantitative studies. <i>Health and Place</i> , 2018 , 51, 158-173	4.6	49
59	Development and reliability of a streetscape observation instrument for international use: MAPS-global. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018 , 15, 19	8.4	22
58	Who Goes to Metropolitan Parks? A Latent Class Analysis Approach to Understanding Park Visitation. <i>Leisure Sciences</i> , 2018 , 40, 343-355	1.4	7
57	Park characteristics preferred for adolescent park visitation and physical activity: A choice-based conjoint analysis using manipulated photographs. <i>Landscape and Urban Planning</i> , 2018 , 178, 144-155	7.7	32
56	The REVAMP natural experiment study: the impact of a play-scape installation on park visitation and park-based physical activity. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018 , 15, 10	8.4	31
55	Physical Activity and Fundamental Motor Skill Performance of 5?10 Year Old Children in Three Different Playgrounds. <i>International Journal of Environmental Research and Public Health</i> , 2018 , 15,	4.6	17
54	Advantages of public green spaces in enhancing population health. <i>Landscape and Urban Planning</i> , 2018 , 178, 12-17	7.7	48
53	Built and Physical Environment Correlates of Active Transportation 2018 , 141-153		1
52	What predicts children's active transport and independent mobility in disadvantaged neighborhoods?. <i>Health and Place</i> , 2017 , 44, 103-109	4.6	42

51	Park attributes that encourage park visitation among adolescents: A conjoint analysis. <i>Landscape and Urban Planning</i> , 2017 , 161, 52-58	7.7	49
50	Study protocol for a natural experiment in a lower socioeconomic area to examine the health-related effects of refurbishment to parks including built-shade (ShadePlus). <i>BMJ Open</i> , 2017 , 7, e013493	3	6
49	Daily Weather and Children's Physical Activity Patterns. <i>Medicine and Science in Sports and Exercise</i> , 2017 , 49, 922-929	1.2	21
48	Perceived Health Benefits and Willingness to Pay for Parks by Park Users: Quantitative and Qualitative Research. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	19
47	Challenges in conducting natural experiments in parks-lessons from the REVAMP study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017 , 14, 5	8.4	12
46	Is the Association between Park Proximity and Recreational Physical Activity among Mid-Older Aged Adults Moderated by Park Quality and Neighborhood Conditions?. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	15
45	A Cross-Sectional Investigation of the Importance of Park Features for Promoting Regular Physical Activity in Parks. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	29
44	Active Use of Parks in Flanders (Belgium): An Exploratory Observational Study. <i>International Journal of Environmental Research and Public Health</i> , 2016 , 14,	4.6	19
43	A systematic review of the prevalence of sedentary behavior during the after-school period among children aged 5-18 years. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016 , 13, 93	8.4	110
42	Adolescents' ratings of features of parks that encourage park visitation and physical activity. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016 , 13, 73	8.4	22
41	Does parental accompaniment when walking or cycling moderate the association between physical neighbourhood environment and active transport among 10-12 year olds?. <i>Journal of Science and Medicine in Sport</i> , 2016 , 19, 149-53	4.4	17
40	Objectively measured sedentary behaviour and health and development in children and adolescents: systematic review and meta-analysis. <i>Obesity Reviews</i> , 2016 , 17, 330-44	10.6	185
39	Park availability and physical activity, TV time, and overweight and obesity among women: Findings from Australia and the United States. <i>Health and Place</i> , 2016 , 38, 96-102	4.6	30
38	The correlates of after-school sedentary behavior among children aged 5-18 years: a systematic review. <i>BMC Public Health</i> , 2016 , 16, 58	4.1	25
37	Social and Physical Environmental Factors Influencing Adolescents' Physical Activity in Urban Public Open Spaces: A Qualitative Study Using Walk-Along Interviews. <i>PLoS ONE</i> , 2016 , 11, e0155686	3.7	39
36	Safety in numbers: does perceived safety mediate associations between the neighborhood social environment and physical activity among women living in disadvantaged neighborhoods?. <i>Preventive Medicine</i> , 2015 , 74, 49-54	4.3	28
35	Park proximity, quality and recreational physical activity among mid-older aged adults: moderating effects of individual factors and area of residence. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015 , 12, 46	8.4	46
34	How active are people in metropolitan parks? An observational study of park visitation in Australia. <i>BMC Public Health</i> , 2015 , 15, 610	4.1	56

33	Playability: Built and Social Environment Features That Promote Physical Activity Within Children. <i>Current Obesity Reports</i> , 2015 , 4, 460-76	8.4	28
32	The impact of interventions to promote physical activity in urban green space: a systematic review and recommendations for future research. <i>Social Science and Medicine</i> , 2015 , 124, 246-56	5.1	206
31	Contribution of the After-School Period to Children's Daily Participation in Physical Activity and Sedentary Behaviours. <i>PLoS ONE</i> , 2015 , 10, e0140132	3.7	31
30	Active transport, independent mobility and territorial range among children residing in disadvantaged areas. <i>Journal of Transport and Health</i> , 2014 , 1, 267-273	3	37
29	A natural experiment to examine the impact of park renewal on park-use and park-based physical activity in a disadvantaged neighbourhood: the REVAMP study methods. <i>BMC Public Health</i> , 2014 , 14, 600	4.1	32
28	Are independent mobility and territorial range associated with park visitation among youth?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014 , 11, 73	8.4	21
27	Exploring associations between parental and peer variables, personal variables and physical activity among adolescents: a mediation analysis. <i>BMC Public Health</i> , 2014 , 14, 966	4.1	13
26	What helps children to be more active and less sedentary? Perceptions of mothers living in disadvantaged neighbourhoods. <i>Child: Care, Health and Development</i> , 2013 , 39, 94-102	2.8	19
25	Is park visitation associated with leisure-time and transportation physical activity?. <i>Preventive Medicine</i> , 2013 , 57, 732-4	4.3	20
24	Standardising the 'after-school' period for children's physical activity and sedentary behaviour. <i>Health Promotion Journal of Australia</i> , 2013 , 24, 65-7	1.7	11
23	Environmental perceptions as mediators of the relationship between the objective built environment and walking among socio-economically disadvantaged women. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013 , 10, 108	8.4	32
22	5-year changes in afterschool physical activity and sedentary behavior. <i>American Journal of Preventive Medicine</i> , 2013 , 44, 605-11	6.1	59
21	Neighborhood perceptions moderate the association between the family environment and children's objectively assessed physical activity. <i>Health and Place</i> , 2013 , 24, 203-9	4.6	7
20	Are associations between the perceived home and neighbourhood environment and children's physical activity and sedentary behaviour moderated by urban/rural location?. <i>Health and Place</i> , 2013 , 24, 44-53	4.6	34
19	Do features of public open spaces vary between urban and rural areas?. <i>Preventive Medicine</i> , 2013 , 56, 107-11	4.3	33
18	Children's perceptions of the factors helping them to be 'resilient' to sedentary lifestyles. <i>Health Education Research</i> , 2013 , 28, 692-703	1.8	10
17	Socio-demographic characteristics of children experiencing socioeconomic disadvantage who meet physical activity and screen-time recommendations: the READI study. <i>Preventive Medicine</i> , 2012 , 54, 61-4	4.3	8
16	Park improvements and park activity: a natural experiment. <i>American Journal of Preventive Medicine</i> , 2012 , 42, 616-9	6.1	118

15	The neighborhood social environment and body mass index among youth: a mediation analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2012 , 9, 31	8.4	30
14	Physical activity, sedentary behavior, and depressive symptoms among adolescents. <i>Journal of Physical Activity and Health</i> , 2011 , 8, 152-6	2.5	63
13	Is the neighbourhood environment associated with sedentary behaviour outside of school hours among children?. <i>Annals of Behavioral Medicine</i> , 2011 , 41, 333-41	4.5	66
12	What helps children eat well? A qualitative exploration of resilience among disadvantaged families. <i>Health Education Research</i> , 2011 , 26, 296-307	1.8	21
11	Reduction in sugar-sweetened beverages is not associated with more water or diet drinks. <i>Public Health Nutrition</i> , 2011 , 14, 1388-93	3.3	16
10	Individual, social and physical environmental correlates of children's active free-play: a cross-sectional study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2010 , 7, 11	8.4	93
9	Dog ownership, dog walking, and children's and parents' physical activity. <i>Research Quarterly for Exercise and Sport</i> , 2010 , 81, 264-71	1.9	53
8	The validity and reliability of an instrument to assess children's outdoor play in various locations. <i>Journal of Science and Medicine in Sport</i> , 2009 , 12, 579-82	4.4	25
7	Children's active free play in local neighborhoods: a behavioral mapping study. <i>Health Education Research</i> , 2008 , 23, 870-9	1.8	145
6	Children's Perceptions of the Use of Public Open Spaces for Active Free-play. <i>Children's Geographies</i> , 2007 , 5, 409-422	1.5	105
5	Where do children usually play? A qualitative study of parents' perceptions of influences on children's active free-play. <i>Health and Place</i> , 2006 , 12, 383-93	4.6	370
4	Physical activity initiatives for male factory workers: gatekeepers' perceptions of potential motivators and barriers. <i>Australian and New Zealand Journal of Public Health</i> , 1999 , 23, 505-10	2.3	5
3	Physical inactivity and other health risks among Australian males in less-skilled occupations. <i>Journal of Occupational and Environmental Medicine</i> , 1999 , 41, 794-8	2	2
2	Dog Ownership, Dog Walking, and Children's and Parents' Physical Activity		2
1	Substituting passive for active travel: what is the potential among adolescents?. <i>International Journal of Sustainable Transportation</i> , 1-10	3.6	0
