#	ARTICLE	IF	CITATIONS
1	ADHD symptoms and diagnosis in adult preterms: systematic review, IPD meta-analysis, and register-linkage study. <i>Pediatric Research</i> , 2023, 93, 1399-1409.	1.1	13
2	Using system traps to understand and potentially prevent human resource development intervention failure. <i>Human Resource Development Quarterly</i> , 2022, 33, 47-67.	2.1	3
3	Growth in extremely preterm children born in England in 1995 and 2006: the EPICure studies. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2022, 107, 193-200.	1.4	6
4	Maternal education and cognitive development in 15 European very-preterm birth cohorts from the RECAP Preterm platform. <i>International Journal of Epidemiology</i> , 2022, 50, 1824-1839.	0.9	18
5	Etiology of persistent mathematics difficulties from childhood to adolescence following very preterm birth. <i>Child Neuropsychology</i> , 2022, 28, 82-98.	0.8	3
6	Reduced health-related quality of life in children born extremely preterm in 2006 compared with 1995: the EPICure Studies. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2022, 107, 408-413.	1.4	10
7	Neuropsychological abilities underpinning academic attainment in children born extremely preterm. <i>Child Neuropsychology</i> , 2022, , 1-22.	0.8	3
8	Development of a data classification system for preterm birth cohort studies: the RECAP Preterm project. <i>BMC Medical Research Methodology</i> , 2022, 22, 8.	1.4	5
9	Mathematical performance in childhood and early adult outcomes after very preterm birth: an individual participant data meta-analysis. <i>Developmental Medicine and Child Neurology</i> , 2022, 64, 421-428.	1.1	7
10	The effect of mode of delivery on health-related quality-of-life in mothers: a systematic review and meta-analysis. <i>BMC Pregnancy and Childbirth</i> , 2022, 22, 149.	0.9	8
11	Motor-related health care for 5-year-old children born extremely preterm with movement impairments. <i>Developmental Medicine and Child Neurology</i> , 2022, 64, 1131-1144.	1.1	4
12	The Impact of Preterm Birth on Sleep through Infancy, Childhood and Adolescence and Its Implications. <i>Children</i> , 2022, 9, 626.	0.6	6
13	Movement Difficulties at Age Five Among Extremely Preterm Infants. <i>Pediatrics</i> , 2022, 149, .	1.0	7
14	The extremely preterm young adult – State of the art. <i>Seminars in Fetal and Neonatal Medicine</i> , 2022, 27, 101365.	1.1	2
15	Common Core Assessments in follow-up studies of adults born preterm – Recommendation of the Adults Born Preterm International Collaboration. <i>Paediatric and Perinatal Epidemiology</i> , 2021, 35, 371-387.	0.8	17
16	Testing the neurodevelopmental, trauma and developmental risk factor models of psychosis using a naturalistic experiment. <i>Psychological Medicine</i> , 2021, 51, 460-469.	2.7	17
17	No change in neurodevelopment at 11 years after extremely preterm birth. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2021, 106, 418-424.	1.4	44
18	Gestational age at birth and child special educational needs: a UK representative birth cohort study. <i>Archives of Disease in Childhood</i> , 2021, 106, 842-848.	1.0	11

#	ARTICLE	IF	CITATIONS
19	Preterm birth: Educational and mental health outcomes. <i>Clinical Child Psychology and Psychiatry</i> , 2021, 26, 750-759.	0.8	11
20	Extremely preterm birth and autistic traits in young adulthood: the EPICure study. <i>Molecular Autism</i> , 2021, 12, 30.	2.6	13
21	Association of Very Preterm Birth or Very Low Birth Weight With Intelligence in Adulthood. <i>JAMA Pediatrics</i> , 2021, 175, e211058.	3.3	58
22	Evaluation of the effectiveness of an incentive strategy on the questionnaire response rate in parents of premature babies: a randomised controlled Study Within A Trial (SWAT) nested within SIFT. <i>Trials</i> , 2021, 22, 554.	0.7	2
23	Teachers' knowledge and approaches to supporting preterm children in the classroom. <i>Early Human Development</i> , 2021, 159, 105415.	0.8	3
24	Use of artificial intelligence for image analysis in breast cancer screening programmes: systematic review of test accuracy. <i>BMJ</i> , The, 2021, 374, n1872.	3.0	131
25	Editorial: Is Preterm Birth Overlooked in Child and Adolescent Psychiatry?. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2021, 60, 1066-1068.	0.3	2
26	Associations between gestational age at birth and infection-related hospital admission rates during childhood in England: Population-based record linkage study. <i>PLoS ONE</i> , 2021, 16, e0257341.	1.1	5
27	Disturbed sleep in children born extremely preterm is associated with behavioural and emotional symptoms. <i>Sleep Medicine</i> , 2021, 85, 157-165.	0.8	3
28	Birth outcomes between 22 and 26 weeks' gestation in national population-based cohorts from Sweden, England and France. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, , .	0.7	17
29	Health-Related Quality of Life from Adolescence to Adulthood Following Extremely Preterm Birth. <i>Journal of Pediatrics</i> , 2021, 237, 227-236.e5.	0.9	18
30	Social Functioning in Adults Born Very Preterm: Individual Participant Meta-analysis. <i>Pediatrics</i> , 2021, 148, .	1.0	15
31	A comparison of simultaneous and sequential visuo-spatial memory in children born very preterm. <i>Child Neuropsychology</i> , 2021, , 1-14.	0.8	1
32	No Excess of Mathematics Anxiety in Adolescents Born Very Preterm. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2021, 42, 220-226.	0.6	3
33	Neonatal Morbidity and Mortality in Advanced Aged Mothers—Maternal Age Is Not an Independent Risk Factor for Infants Born Very Preterm. <i>Frontiers in Pediatrics</i> , 2021, 9, 747203.	0.9	5
34	Psychiatric disorders in individuals born very preterm / very low-birth weight: An individual participant data (IPD) meta-analysis. <i>EClinicalMedicine</i> , 2021, 42, 101216.	3.2	37
35	The challenges of heterogeneity in gestational age and birthweight inclusion criteria for research synthesis on very preterm birth and childhood cognition: An umbrella review and meta-regression analysis. <i>Paediatric and Perinatal Epidemiology</i> , 2021, , .	0.8	6
36	The prevalence of obstructive sleep apnoea in women with polycystic ovary syndrome: a systematic review and meta-analysis. <i>Sleep and Breathing</i> , 2020, 24, 339-350.	0.9	55

#	ARTICLE	IF	CITATIONS
37	Gestational age and hospital admissions during childhood: population based, record linkage study in England (TIGAR study). <i>BMJ</i> , The, 2020, 371, m4075.	3.0	33
38	Performance of the German version of the PARCA-R questionnaire as a developmental screening tool in two-year-old very preterm infants. <i>PLoS ONE</i> , 2020, 15, e0236289.	1.1	7
39	The Role of Executive and General Cognitive Functioning in the Attention Problems of Very and Extremely Preterm Adults. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2020, 41, 461-469.	0.6	6
40	Priorities for collaborative research using very preterm birth cohorts. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2020, 105, 538-544.	1.4	20
41	The impact of choice of norms on classification of motor impairment for children born very preterm. <i>Early Human Development</i> , 2020, 146, 105056.	0.8	6
42	Economic evaluation alongside the Speed of Increasing milk Feeds Trial (SIFT). <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2020, 105, 587-592.	1.4	4
43	EPICE cohort: two-year neurodevelopmental outcomes after very preterm birth. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2020, 105, 350-356.	1.4	25
44	Maternal education and language development at 2 years corrected age in children born very preterm: results from a European population-based cohort study. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, 346-353.	2.0	23
45	Neuropsychological Outcomes at 19 Years of Age Following Extremely Preterm Birth. <i>Pediatrics</i> , 2020, 145, .	1.0	55
46	Randomised trial of cord clamping at very preterm birth: outcomes at 2 years. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2020, 105, 292-298.	1.4	20
47	Two speeds of increasing milk feeds for very preterm or very low-birthweight infants: the SIFT RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-94.	1.3	15
48	Introduction. <i>Seminars in Fetal and Neonatal Medicine</i> , 2020, 25, 101124.	1.1	0
49	Using drift diffusion modeling to understand inattentive behavior in preterm and term-born children.. <i>Neuropsychology</i> , 2020, 34, 77-87.	1.0	1
50	Behavioural and Educational Outcomes Following Extremely Preterm Birth: Current Controversies and Future Directions. , 2020, , 367-385.		1
51	Title is missing!. , 2020, 15, e0236289.		0
52	Title is missing!. , 2020, 15, e0236289.		0
53	Title is missing!. , 2020, 15, e0236289.		0
54	Title is missing!. , 2020, 15, e0236289.		0

#	ARTICLE	IF	CITATIONS
55	Standardisation of the Parent Report of Children's Abilitiesâ€œRevised (PARCA-R): a norm-referenced assessment of cognitive and language development at age 2 years. <i>The Lancet Child and Adolescent Health</i> , 2019, 3, 705-712.	2.7	24
56	Controlled Trial of Two Incremental Milk-Feeding Rates in Preterm Infants. <i>New England Journal of Medicine</i> , 2019, 381, 1434-1443.	13.9	98
57	Assessment of long-term neurodevelopmental outcome following trials of medicinal products in newborn infants. <i>Pediatric Research</i> , 2019, 86, 567-572.	1.1	20
58	Choice architecture interventions to improve diet and/or dietary behaviour by healthcare staff in high-income countries: a systematic review. <i>BMJ Open</i> , 2019, 9, e023687.	0.8	17
59	Psychiatric Symptoms and Disorders in Extremely Preterm Young Adults at 19 Years of Age and Longitudinal Findings From Middle Childhood. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2019, 58, 820-826.e6.	0.3	26
60	Hand Preference Develops Across Childhood and Adolescence in Extremely Preterm Children: The EPICure Study. <i>Pediatric Neurology</i> , 2019, 99, 40-46.	1.0	6
61	Improving developmental and educational support for children born preterm: evaluation of an e-learning resource for education professionals. <i>BMJ Open</i> , 2019, 9, e029720.	0.8	17
62	The Life Course Consequences of Very Preterm Birth. <i>Annual Review of Developmental Psychology</i> , 2019, 1, 69-92.	1.4	83
63	Trajectories of behavior, attention, social and emotional problems from childhood to early adulthood following extremely preterm birth: a prospective cohort study. <i>European Child and Adolescent Psychiatry</i> , 2019, 28, 531-542.	2.8	79
64	Cognitive predictors of parent-rated inattention in very preterm children: The role of working memory and processing speed. <i>Child Neuropsychology</i> , 2019, 25, 617-635.	0.8	11
65	Developing and Recruiting the Future Public Servant. <i>SpringerBriefs in Political Science</i> , 2019, , 111-123.	0.1	0
66	Differentiating the Preterm Phenotype: Distinct Profiles of Cognitive and Behavioral Development Following Late and Moderately Preterm Birth. <i>Journal of Pediatrics</i> , 2018, 193, 85-92.e1.	0.9	43
67	The association between obstructive sleep apnea and metabolic abnormalities in women with polycystic ovary syndrome: a systematic review and meta-analysis. <i>Sleep</i> , 2018, 41, .	0.6	26
68	Chasing Zero. <i>Journal of Nursing Care Quality</i> , 2018, 33, 67-71.	0.5	3
69	Cognitive trajectories from infancy to early adulthood following birth before 26 weeks of gestation: a prospective, population-based cohort study. <i>Archives of Disease in Childhood</i> , 2018, 103, 363-370.	1.0	140
70	A Comparison of Changes in Strength And Dynamic Balance Following 8 Weeks of Eccentric Training in Older Adults. <i>Medicine and Science in Sports and Exercise</i> , 2018, 50, 207.	0.2	0
71	The 70:20:10 framework and the transfer of learning. <i>Human Resource Development Quarterly</i> , 2018, 29, 383-402.	2.1	31
72	Understanding arithmetic concepts: The role of domain-specific and domain-general skills. <i>PLoS ONE</i> , 2018, 13, e0201724.	1.1	16

#	ARTICLE	IF	CITATIONS
73	Enabling Middle Managers as Change Agents: Why Organisational Support Needs to Change. Australian Journal of Public Administration, 2018, 77, 222-235.	1.0	25
74	Investigating the relationship between fetal growth and academic attainment: secondary analysis of the Born in Bradford (BiB) cohort. International Journal of Epidemiology, 2018, 47, 1475-1484.	0.9	11
75	The Speed of Increasing milk Feeds: a randomised controlled trial. BMC Pediatrics, 2017, 17, 39.	0.7	28
76	Early and long-term outcome of infants born extremely preterm. Archives of Disease in Childhood, 2017, 102, 97-102.	1.0	209
77	Newborn screening for Tyrosinemia type 1 using succinylacetone – a systematic review of test accuracy. Orphanet Journal of Rare Diseases, 2017, 12, 48.	1.2	27
78	Comparison of a full systematic review versus rapid review approaches to assess a newborn screening test for tyrosinemia type 1. Research Synthesis Methods, 2017, 8, 475-484.	4.2	35
79	OC-59 – Born at the threshold of viability: the impact on cognitive development into adulthood. , 2017, , .		0
80	Improved Strength and Balance in Older Adults Following an 8-week Eccentric Training Program. Medicine and Science in Sports and Exercise, 2017, 49, 343.	0.2	0
81	Evaluation of pre-symptomatic nitisinone treatment on long-term outcomes in Tyrosinemia type 1 patients: a systematic review. Orphanet Journal of Rare Diseases, 2017, 12, 154.	1.2	18
82	Rainbow trout exposed to benzo[a]pyrene yields conserved microRNA binding sites in DNA methyltransferases across 500 million years of evolution. Scientific Reports, 2017, 7, 16843.	1.6	17
83	Prognostic Factors for Behavioral Problems and Psychiatric Disorders in Children Born Very Preterm or Very Low Birth Weight. Journal of Developmental and Behavioral Pediatrics, 2016, 37, 88-102.	0.6	53
84	Authors' Response. Journal of Developmental and Behavioral Pediatrics, 2016, 37, 177.	0.6	0
85	Communication With Residents and Families in Nursing Homes at the End of Life. Journal of Hospice and Palliative Nursing, 2016, 18, 124-130.	0.5	18
86	Antecedents of Attention-Deficit/Hyperactivity Disorder Symptoms in Children Born Extremely Preterm. Journal of Developmental and Behavioral Pediatrics, 2016, 37, 285-297.	0.6	46
87	Evaluation of the use of a parent questionnaire to provide later health status data: the PANDA study. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2016, 101, F304-F308.	1.4	4
88	Charting the survival, health and development of extremely preterm infants: EPICure and beyond. Paediatrics and Child Health (United Kingdom), 2016, 26, 498-504.	0.2	7
89	Learning disabilities among extremely preterm children without neurosensory impairment: Comorbidity, neuropsychological profiles and scholastic outcomes. Early Human Development, 2016, 103, 69-75.	0.8	54
90	Explaining the relationship between number line estimation and mathematical achievement: The role of visuomotor integration and visuospatial skills. Journal of Experimental Child Psychology, 2016, 145, 22-33.	0.7	77

#	ARTICLE	IF	CITATIONS
91	Correcting for prematurity affects developmental test scores in infants born late and moderately preterm. <i>Early Human Development</i> , 2016, 94, 1-6.	0.8	16
92	Eating difficulties in children born late and moderately preterm at 2 y of age: a prospective population-based cohort study. <i>American Journal of Clinical Nutrition</i> , 2016, 103, 406-414.	2.2	51
93	Towards reducing variations in infant mortality and morbidity: a population-based approach. <i>Programme Grants for Applied Research</i> , 2016, 4, 1-218.	0.4	7
94	The long-term consequences of preterm birth: what do teachers know?. <i>Developmental Medicine and Child Neurology</i> , 2015, 57, 571-577.	1.1	44
95	Understanding social development following very preterm birth. <i>Developmental Medicine and Child Neurology</i> , 2015, 57, 890-890.	1.1	2
96	Delayed school entry and academic performance: a natural experiment. <i>Developmental Medicine and Child Neurology</i> , 2015, 57, 652-659.	1.1	18
97	Economic costs associated with moderate and late preterm birth: a prospective population-based study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2015, 122, 1495-1505.	1.1	68
98	Early Emergence of Delayed Social Competence in Infants Born Late and Moderately Preterm. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2015, 36, 690-699.	0.6	41
99	Bullying of Preterm Children and Emotional Problems at School Age: Cross-Culturally Invariant Effects. <i>Journal of Pediatrics</i> , 2015, 166, 1417-1422.	0.9	66
100	The Impact of Online Social Networks on Health and Health Systems: A Scoping Review and Case Studies. <i>Policy and Internet</i> , 2015, 7, 473-496.	2.0	28
101	Infants Born Late/Moderately Preterm Are at Increased Risk for a Positive Autism Screen at 2 Years of Age. <i>Journal of Pediatrics</i> , 2015, 166, 269-275.e3.	0.9	88
102	Nature and origins of mathematics difficulties in very preterm children: a different etiology than developmental dyscalculia. <i>Pediatric Research</i> , 2015, 77, 389-395.	1.1	77
103	Accounting for deaths in neonatal trials: is there a correct approach?. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2015, 100, F193-F197.	1.4	10
104	Neonatal outcomes and delivery of care for infants born late preterm or moderately preterm: a prospective population-based study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2015, 100, F479-F485.	1.4	113
105	Neurodevelopmental outcomes following late and moderate prematurity: a population-based cohort study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2015, 100, F301-F308.	1.4	209
106	Associations between late and moderately preterm birth and smoking, alcohol, drug use and diet: a population-based case-cohort study. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2015, 100, F486-F491.	1.4	36
107	Universal Gestational Age Effects on Cognitive and Basic Mathematic Processing: 2 Cohorts in 2 Countries. <i>Journal of Pediatrics</i> , 2015, 166, 1410-1416.e2.	0.9	59
108	Preterm Birth and Adult Wealth. <i>Psychological Science</i> , 2015, 26, 1608-1619.	1.8	54
