

Thomas J Lauterio

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/1905305/thomas-j-lauterio-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
15	Unapproved drugs in the United States and the Food and Drug Administration. <i>Advances in Therapy</i> , 2011 , 28, 842-56	4.1	29
14	A new perspective on the pharmacoeconomics of colchicine. <i>Current Medical Research and Opinion</i> , 2011 , 27, 931-7	2.5	19
13	Oxidative stress in a rat model of obesity-induced hypertension. <i>Hypertension</i> , 2001 , 37, 554-60	8.5	197
12	Development of hypertension in a rat model of diet-induced obesity. <i>Hypertension</i> , 2000 , 35, 1009-15	8.5	245
11	The regulation of GH-dependent hormones and enzymes after feed restriction in dwarf and control chickens. <i>Life Sciences</i> , 1999 , 64, 1359-71	6.8	8
10	Neuropeptide Y expression and endogenous leptin concentrations in a dietary model of obesity. <i>Obesity</i> , 1999 , 7, 498-505		28
9	Plasma growth hormone secretion is impaired in obesity-prone rats before onset of diet-induced obesity. <i>American Journal of Physiology - Endocrinology and Metabolism</i> , 1998 , 275, E6-11	6	4
8	Growth hormone secretion and synthesis are depressed in obesity-susceptible compared with obesity-resistant rats. <i>Metabolism: Clinical and Experimental</i> , 1997 , 46, 210-6	12.7	11
7	Development and characterization of a purified diet to identify obesity-susceptible and resistant rat populations. <i>Journal of Nutrition</i> , 1994 , 124, 2172-8	4.1	49
6	Effects of insulin and 2-deoxy-D-glucose administration on CNS IGF-II content. <i>Brain Research Bulletin</i> , 1994 , 34, 493-8	3.9	3
5	Fluoxetine induced insulin-like growth factor II (IGF-II) changes in hypothalami of normal, exercised and food restricted rats. <i>Regulatory Peptides</i> , 1993 , 48, 21-8		7
4	Intracerebroventricular injection of insulin or glucose alters insulin-like growth factor II (IGF-II) concentrations in specific hypothalamic nuclei. <i>Brain Research</i> , 1992 , 595, 242-8	3.7	12
3	Insulin-Like Growth Factor II Gene Expression. <i>Methods in Neurosciences</i> , 1992 , 9, 89-100		3
2	Divergent effects of insulin on insulin-like growth factor-II gene expression in the rat hypothalamus. <i>Endocrinology</i> , 1990 , 126, 392-8	4.8	33
1	Evidence for the role of insulin-like growth factor II (IGF-II) in the control of food intake. <i>Physiology and Behavior</i> , 1987 , 40, 755-8	3.5	42
