#	ARTICLE	IF	CITATIONS
1	Physiology of repetitive transcranial magnetic stimulation of the human brain. <i>Brain Stimulation</i> , 2010, 3, 95-118.	0.7	527
2	ENIGMA and global neuroscience: A decade of large-scale studies of the brain in health and disease across more than 40 countries. <i>Translational Psychiatry</i> , 2020, 10, 100.	2.4	365
3	Commentary: Gray Matter Structural Alterations in Social Anxiety Disorder: A Voxel-Based Meta-Analysis. <i>Frontiers in Psychiatry</i> , 2019, 10, 1.	1.3	219
4	Functional differences in emotion processing during adolescence and early adulthood. <i>NeuroImage</i> , 2014, 91, 70-76.	2.1	121
5	Transcranial Magnetic Stimulation and Functional MRI Reveal Cortical and Subcortical Interactions during Stop-signal Response Inhibition. <i>Journal of Cognitive Neuroscience</i> , 2013, 25, 157-174.	1.1	108
6	Frontostriatal activity and connectivity increase during proactive inhibition across adolescence and early adulthood. <i>Human Brain Mapping</i> , 2014, 35, 4415-4427.	1.9	96
7	Voxel-based morphometry multi-center mega-analysis of brain structure in social anxiety disorder. <i>NeuroImage: Clinical</i> , 2017, 16, 678-688.	1.4	68
8	Different developmental trajectories for anticipation and receipt of reward during adolescence. <i>Developmental Cognitive Neuroscience</i> , 2013, 6, 113-124.	1.9	63
9	Neurobiological candidate endophenotypes of social anxiety disorder. <i>Neuroscience and Biobehavioral Reviews</i> , 2016, 71, 362-378.	2.9	61
10	Prefrontal lobe dysfunction predicts treatment response in medication-naive first-episode schizophrenia. <i>Schizophrenia Research</i> , 2011, 129, 156-162.	1.1	59
11	<scp>Mega-analysis</scp> methods in <scp>ENIGMA</scp>: The experience of the generalized anxiety disorder working group. <i>Human Brain Mapping</i> , 2022, 43, 255-277.	1.9	51
12	Altered neural processing of emotional faces in remitted Cushing's disease. <i>Psychoneuroendocrinology</i> , 2015, 59, 134-146.	1.3	40
13	Subcortical brain volumes, cortical thickness and cortical surface area in families genetically enriched for social anxiety disorder "A multiplex multigenerational neuroimaging study. <i>EBioMedicine</i> , 2018, 36, 410-428.	2.7	39
14	FMRI, Antipsychotics and Schizophrenia. Influence of Different Antipsychotics on BOLD-Signal. <i>Current Pharmaceutical Design</i> , 2010, 16, 2012-2025.	0.9	36
15	Reduced language lateralization in first-episode medication-naive schizophrenia. <i>Schizophrenia Research</i> , 2011, 127, 195-201.	1.1	36
16	<scp>ENIGMA-anxiety</scp> working group: Rationale for and organization of <scp>large-scale</scp> neuroimaging studies of anxiety disorders. <i>Human Brain Mapping</i> , 2022, 43, 83-112.	1.9	31
17	How embarrassing! The behavioral and neural correlates of processing social norm violations. <i>PLoS ONE</i> , 2017, 12, e0176326.	1.1	30
18	Cortical and subcortical brain structure in generalized anxiety disorder: findings from 28 research sites in the ENIGMA-Anxiety Working Group. <i>Translational Psychiatry</i> , 2021, 11, 502.	2.4	24

#	ARTICLE	IF	CITATIONS
19	F27. Subcortical Volumes in Social Anxiety Disorder: Preliminary Results From Enigma-Anxiety. <i>Biological Psychiatry</i> , 2018, 83, S247-S248.	0.7	18
20	Altered Neurobiological Processing of Unintentional Social Norm Violations: A Multiplex, Multigenerational Functional Magnetic Resonance Imaging Study on Social Anxiety Endophenotypes. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2020, 5, 981-990.	1.1	18
21	Amygdala hyperreactivity to faces conditioned with a social-evaluative meaningâ€” a multiplex, multigenerational fMRI study on social anxiety endophenotypes. <i>NeuroImage: Clinical</i> , 2020, 26, 102247.	1.4	18
22	The <sc>L</sc>eiden <sc>F</sc>amily <sc>L</sc>ab study on <sc>S</sc>ocial <sc>A</sc>nxiety <sc>D</sc>isorder: A multiplex, multigenerational family study on neurocognitive endophenotypes. <i>International Journal of Methods in Psychiatric Research</i> , 2018, 27, e1616.	1.1	17
23	Imaging the socially-anxious brain: recent advances and future prospects. <i>F1000Research</i> , 2020, 9, 230.	0.8	13
24	Not intended, still embarrassed: Social anxiety is related to increased levels of embarrassment in response to unintentional social norm violations. <i>European Psychiatry</i> , 2018, 52, 15-21.	0.1	10
25	Impaired neural habituation to neutral faces in families genetically enriched for social anxiety disorder. <i>Depression and Anxiety</i> , 2019, 36, 1143-1153.	2.0	10
26	Investigating microstructure of white matter tracts as candidate endophenotypes of Social Anxiety Disorder â€” Findings from the Leiden Family Lab study on Social Anxiety Disorder (LFLSAD). <i>NeuroImage: Clinical</i> , 2020, 28, 102493.	1.4	6
27	Intrinsic functional connectivity in families genetically enriched for social anxiety disorder â€” an endophenotype study. <i>EBioMedicine</i> , 2021, 69, 103445.	2.7	5
28	Exploring the course of adolescent anxiety and depression: associations with white matter tract microstructure. <i>European Archives of Psychiatry and Clinical Neuroscience</i> , 2022, 272, 849-858.	1.8	4
29	Gray matter matters: The structure of the socially-anxious brain. <i>EBioMedicine</i> , 2020, 59, 102937.	2.7	3
30	P.491 Social conditioning of neutral faces in families genetically enriched for social anxiety disorder. <i>European Neuropsychopharmacology</i> , 2019, 29, S345-S346.	0.3	2
31	Structural Brain Correlates of Childhood Inhibited Temperament: An ENIGMA-Anxiety Mega-analysis. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2022, 61, 1182-1188.	0.3	2
32	DECREASED LANGUAGE LATERALIZATION IN MEDICATION NAIVE SCHIZOPHRENIA. <i>Schizophrenia Research</i> , 2010, 117, 475-476.	1.1	1
33	16. Sample Size Matters: A Voxel-Based Morphometry Multi-Center Mega-Analysis of Gray Matter Volume in Social Anxiety Disorder. <i>Biological Psychiatry</i> , 2017, 81, S7-S8.	0.7	1
34	Social norm processing as an endophenotype of social anxiety disorder: a family study in two generations. <i>European Neuropsychopharmacology</i> , 2017, 27, S49-S50.	0.3	1
35	ENIGMA Mega-Analysis of Brain Structure in Generalized Anxiety Disorder. <i>Biological Psychiatry</i> , 2020, 87, S386.	0.7	1
36	Alterations in White Matter Integrity as Candidate Endophenotypes of Social Anxiety Disorder: Findings From the Leiden Family Lab on Social Anxiety Disorder (LFLSAD). <i>Biological Psychiatry</i> , 2020, 87, S248.	0.7	1

#	ARTICLE	IF	CITATIONS
37	Increased Intrinsic Functional Connectivity in Families Genetically Enriched for Social Anxiety. <i>Biological Psychiatry</i> , 2020, 87, S296-S297.	0.7	1
38	F131. Multimodal Graph Theoretical Brain Networks and the 9-Year Cumulative Disease Load of Depression and Anxiety. <i>Biological Psychiatry</i> , 2019, 85, S264.	0.7	0
39	P.307 Alterations in white matter integrity as candidate endophenotypes of social anxiety disorder: preliminary findings. <i>European Neuropsychopharmacology</i> , 2020, 31, S51-S52.	0.3	0
