#	ARTICLE	IF	CITATIONS
1	Fight or Flight? Understanding Different Stakeholder Responses to Conservation Conflicts. <i>Society and Natural Resources</i> , 2022, 35, 628-645.	0.9	2
2	Individuals and Multilevel Management: A Study of the Perceived Adaptive Capacity of the Goose Management System among Farmers in Sweden. <i>Society and Natural Resources</i> , 2022, 35, 1-19.	0.9	3
3	Associations between abundances of free-roaming gamebirds and common buzzards <i>Buteo buteo</i> are not driven by consumption of gamebirds in the buzzard breeding season. <i>Ecology and Evolution</i> , 2022, 12, e8877.	0.8	4
4	Multispecies study of patterns and drivers of wildlife impacts on human livelihoods in communal conservancies. <i>Conservation Science and Practice</i> , 2022, 4, .	0.9	3
5	Understanding people's responses toward predators in the Indian Himalaya. <i>Animal Conservation</i> , 2021, 24, 424-431.	1.5	11
6	Assessing the Effectiveness of a Community-based Livestock Insurance Program. <i>Environmental Management</i> , 2021, 68, 87-99.	1.2	13
7	Broadening the toolset for stakeholder engagement to explore consensus over wolf management. <i>Journal of Environmental Management</i> , 2021, 296, 113125.	3.8	13
8	Predicting intervention priorities for wildlife conflicts. <i>Conservation Biology</i> , 2020, 34, 232-243.	2.4	14
9	Evaluating Bayesian stable isotope mixing models of wild animal diet and the effects of trophic discrimination factors and informative priors. <i>Methods in Ecology and Evolution</i> , 2020, 11, 139-149.	2.2	35
10	European bird declines: Do we need to rethink approaches to the management of abundant generalist predators?. <i>Journal of Applied Ecology</i> , 2020, 57, 1885-1890.	1.9	36
11	Understanding diverse approaches to predator management among gamekeepers in England. <i>People and Nature</i> , 2020, 2, 495-508.	1.7	7
12	Intervener trustworthiness predicts cooperation with conservation interventions in an elephant conflict public goods game. <i>People and Nature</i> , 2020, 2, 1075-1084.	1.7	4
13	Conflict and cooperation in the management of European rabbit <i>Oryctolagus cuniculus</i> damage to agriculture in Spain. <i>People and Nature</i> , 2020, 2, 1223-1236.	1.7	4
14	Livestock grazing impacts components of the breeding productivity of a common upland insectivorous passerine: Results from a long-term experiment. <i>Journal of Applied Ecology</i> , 2020, 57, 1514-1523.	1.9	6
15	Integrating conflict, lobbying, and compliance to predict the sustainability of natural resource use. <i>Ecology and Society</i> , 2020, 25, .	1.0	10
16	The influence of habitat edge on a ground nesting bird species: hen harrier <i>Circus cyaneus</i> . <i>Wildlife Biology</i> , 2020, 2020, .	0.6	3
17	Breeding ground correlates of the distribution and decline of the Common Cuckoo <i>Cuculus canorus</i> at two spatial scales. <i>Ibis</i> , 2019, 161, 346-358.	1.0	12
18	Changing use of ecosystem services along a rural-urban continuum in the Indian Trans-Himalayas. <i>Ecosystem Services</i> , 2019, 40, 101030.	2.3	15

#	ARTICLE	IF	CITATIONS
19	Value diversity and conservation conflict: Lessons from the management of red grouse and hen harriers in England. <i>People and Nature</i> , 2019, 1, 6-17.	1.7	23
20	Patterns of satellite tagged hen harrier disappearances suggest widespread illegal killing on British grouse moors. <i>Nature Communications</i> , 2019, 10, 1094.	5.8	32
21	Impact of increased predation risk on vigilance behaviour in a gregarious waterfowl, the Egyptian goose <i>Alopochen aegyptiaca</i> . <i>Journal of Avian Biology</i> , 2019, 50, .	0.6	3
22	The conundrum of agenda-driven science in conservation. <i>Frontiers in Ecology and the Environment</i> , 2019, 17, 80-82.	1.9	31
23	The impact of uncertainty on cooperation intent in a conservation conflict. <i>Journal of Applied Ecology</i> , 2019, 56, 1278-1288.	1.9	11
24	Parasite-mediated selection in red grouse – consequences for population dynamics and mate choice. , 2019, , 296-320.		2
25	Reinforcing the concept of agenda-driven science: a response to Rohlf. <i>Frontiers in Ecology and the Environment</i> , 2019, 17, 556-557.	1.9	0
26	Consequences Matter: Compassion in Conservation Means Caring for Individuals, Populations and Species. <i>Animals</i> , 2019, 9, 1115.	1.0	18
27	Who knows best? Understanding the use of research-based knowledge in conservation conflicts. <i>Journal of Environmental Management</i> , 2019, 231, 1065-1075.	3.8	26
28	Time series analysis reveals synchrony and asynchrony between conflict management effort and increasing large grazing bird populations in northern Europe. <i>Conservation Letters</i> , 2019, 12, e12450.	2.8	12
29	Consequences of game bird management for non-game species in Europe. <i>Journal of Applied Ecology</i> , 2018, 55, 2285-2295.	1.9	16
30	Conservation conflicts: Behavioural threats, frames, and intervention recommendations. <i>Biological Conservation</i> , 2018, 222, 180-188.	1.9	71
31	The changing environment of conservation conflict: Geese and farming in Scotland. <i>Journal of Applied Ecology</i> , 2018, 55, 651-662.	1.9	28
32	Games as Tools to Address Conservation Conflicts. <i>Trends in Ecology and Evolution</i> , 2018, 33, 415-426.	4.2	62
33	Speaking up for collaboration in conservation. <i>Biological Conservation</i> , 2018, 223, 186-187.	1.9	6
34	Fighting talk: Organisational discourses of the conflict over raptors and grouse moor management in Scotland. <i>Land Use Policy</i> , 2018, 77, 332-343.	2.5	29
35	Disagreement About Invasive Species Does Not Equate to Denialism: A Response to Russell and Blackburn. <i>Trends in Ecology and Evolution</i> , 2017, 32, 228-229.	4.2	30
36	Experimentally manipulating the landscape of fear to manage problem animals. <i>Journal of Wildlife Management</i> , 2017, 81, 610-616.	0.7	21

#	ARTICLE	IF	CITATIONS
37	Building partnerships with communities for biodiversity conservation: lessons from Asian mountains. <i>Journal of Applied Ecology</i> , 2017, 54, 1583-1591.	1.9	66
38	Ecology of Problem Individuals and the Efficacy of Selective Wildlife Management. <i>Trends in Ecology and Evolution</i> , 2017, 32, 518-530.	4.2	76
39	Impact of wild prey availability on livestock predation by snow leopards. <i>Royal Society Open Science</i> , 2017, 4, 170026.	1.1	88
40	Don't forget to look down—collaborative approaches to predator conservation. <i>Biological Reviews</i> , 2017, 92, 2157-2163.	4.7	157
41	The value of ecosystem services in the high altitude Spiti Valley, Indian Trans-Himalaya. <i>Ecosystem Services</i> , 2017, 28, 115-123.	2.3	23
42	International Wildlife Law: Understanding and Enhancing Its Role in Conservation. <i>BioScience</i> , 2017, 67, 784-790.	2.2	57
43	Female begging calls reflect nutritional need of nestlings in the hen harrier <i>Circus cyaneus</i> . <i>BMC Evolutionary Biology</i> , 2017, 17, 144.	3.2	1
44	An interdisciplinary review of current and future approaches to improving human-predator relations. <i>Conservation Biology</i> , 2017, 31, 513-523.	2.4	227
45	The Relationship Between Religion and Attitudes Toward Large Carnivores in Northern India?. <i>Human Dimensions of Wildlife</i> , 2017, 22, 30-42.	1.0	69
46	Habitat suitability and movement corridors of grey wolf (<i>Canis lupus</i>) in Northern Pakistan. <i>PLoS ONE</i> , 2017, 12, e0187027.	1.1	75
47	Livestock Predation by Snow Leopards: Conflicts and the Search for Solutions. , 2016, , 59-67.		21
48	A conflict management tool for conservation agencies. <i>Journal of Applied Ecology</i> , 2016, 53, 705-711.	1.9	58
49	The role of parasite-driven selection in shaping landscape genomic structure in red grouse (<i>Lagopus lagopus scoticus</i>). <i>Molecular Ecology</i> , 2016, 25, 324-341.	2.0	16
50	Reply to comment on: Vegetation burning for game management in the UK uplands is increasing and overlaps spatially with soil carbon and protected areas. <i>Biological Conservation</i> , 2016, 195, 295-296.	1.9	2
51	Conservation Conflicts: Future Research Challenges. <i>Wildlife Research Monographs</i> , 2016, , 267-282.	0.4	14
52	Parasites, mate attractiveness and female feather corticosterone levels in a socially monogamous bird. <i>Behavioral Ecology and Sociobiology</i> , 2016, 70, 277-283.	0.6	7
53	Impact of Management on Avian Communities in the Scottish Highlands. <i>PLoS ONE</i> , 2016, 11, e0155473.	1.1	13
54	An introduction to conservation conflicts. , 2015, , 3-18.		21

#	ARTICLE	IF	CITATIONS
55	Philosophy, conflict and conservation. , 2015, , 19-32.		5
56	The value of ecological information in conservation conflict. , 2015, , 35-48.		11
57	Environmental history and conservation conflicts. , 2015, , 49-63.		4
58	Law and conservation conflicts. , 2015, , 108-121.		13
59	Modelling conservation conflicts. , 2015, , 195-211.		2
60	Defining scales for managing biodiversity and natural resources in the face of conflicts. , 2015, , 212-225.		8
61	Mediation and conservation conflicts: from top-down to bottom-up. , 2015, , 226-239.		6
62	Conservation conflict transformation: the missing link in conservation. , 2015, , 257-270.		6
63	Legislated collaboration in a conservation conflict: a case study of the Quincy Library Group in California, USA. , 2015, , 271-286.		4
64	Vegetation burning for game management in the UK uplands is increasing and overlaps spatially with soil carbon and protected areas. <i>Biological Conservation</i> , 2015, 191, 243-250.	1.9	61
65	Indirect effects of primary prey population dynamics on alternative prey. <i>Theoretical Population Biology</i> , 2015, 103, 44-59.	0.5	19
66	When the hunter becomes the hunted. <i>Science</i> , 2015, 348, 1312-1314.	6.0	44
67	The cascading impacts of livestock grazing in upland ecosystems: a 10-year experiment. <i>Ecosphere</i> , 2015, 6, 1-15.	1.0	72
68	Hunted predators: Intrinsic value response. <i>Science</i> , 2015, 349, 1295-1295.	6.0	3
69	Tilting at wildlife: reconsidering human-wildlife conflict. <i>Oryx</i> , 2015, 49, 222-225.	0.5	280
70	Modelling Hen Harrier Dynamics to Inform Human-Wildlife Conflict Resolution: A Spatially-Realistic, Individual-Based Approach. <i>PLoS ONE</i> , 2014, 9, e112492.	1.1	5
71	Ranging behaviour of Hen Harriers breeding in Special Protection Areas in Scotland. <i>Bird Study</i> , 2014, 61, 48-55.	0.4	11
72	Working with stakeholders to reduce conflict – modelling the impact of varying hen harrier <i>Circus cyaneus</i> densities on red grouse <i>Lagopus lagopus</i> populations. <i>Journal of Applied Ecology</i> , 2014, 51, 1236-1245.	1.9	14

#	ARTICLE	IF	CITATIONS
73	Multiscale Factors Affecting Human Attitudes toward Snow Leopards and Wolves. <i>Conservation Biology</i> , 2014, 28, 1657-1666.	2.4	65
74	Insights into population ecology from long-term studies of red grouse <i>Lagopus lagopus scoticus</i> . <i>Journal of Animal Ecology</i> , 2014, 83, 85-98.	1.3	44
75	Experimental study on the effect of cover and vaccination on the survival of juvenile European rabbits. <i>Population Ecology</i> , 2014, 56, 195-202.	0.7	3
76	Experimental evidence that livestock grazing intensity affects cyclic vole population regulation processes. <i>Population Ecology</i> , 2014, 56, 55-61.	0.7	16
77	Experimentally elevated levels of testosterone at independence reduce fitness in a territorial bird. <i>Ecology</i> , 2014, 95, 1033-1044.	1.5	12
78	Colonization and extinction dynamics of a declining migratory bird are influenced by climate and habitat degradation. <i>Ibis</i> , 2014, 156, 788-798.	1.0	4
79	UK bill could prompt biodiversity loss. <i>Nature</i> , 2014, 512, 253-253.	13.7	7
80	Intra-sexual competition alters the relationship between testosterone and ornament expression in a wild territorial bird. <i>Hormones and Behavior</i> , 2014, 65, 435-444.	1.0	31
81	Use of Multicriteria Decision Analysis to Address Conservation Conflicts. <i>Conservation Biology</i> , 2013, 27, 936-944.	2.4	50
82	People, predators and perceptions: patterns of livestock depredation by snow leopards and wolves. <i>Journal of Applied Ecology</i> , 2013, 50, 550-560.	1.9	163
83	Understanding and managing conservation conflicts. <i>Trends in Ecology and Evolution</i> , 2013, 28, 100-109.	4.2	934
84	Experimental evidence that livestock grazing intensity affects the activity of a generalist predator. <i>Acta Oecologica</i> , 2013, 49, 12-16.	0.5	13
85	Seasonal variation in foraging conditions for <i>Ring Ouzels</i> <i>Turdus torquatus</i> in upland habitats and their effects on juvenile habitat selection. <i>Ibis</i> , 2013, 155, 42-54.	1.0	9
86	The condition dependence of a secondary sexual trait is stronger under high parasite infection level. <i>Behavioral Ecology</i> , 2012, 23, 502-511.	1.0	44
87	Parasitized Mates Increase Infection Risk for Partners. <i>American Naturalist</i> , 2012, 179, 811-820.	1.0	25
88	Environmental conditions influence red grouse ornamentation at a population level. <i>Biological Journal of the Linnean Society</i> , 2012, 107, 788-798.	0.7	18
89	What the "food security" agenda means for animal conservation in terrestrial ecosystems. <i>Animal Conservation</i> , 2012, 15, 115-116.	1.5	11
90	Environmental heterogeneity influences the reliability of secondary sexual traits as condition indicators. <i>Journal of Evolutionary Biology</i> , 2012, 25, 20-28.	0.8	35

#	ARTICLE	IF	CITATIONS
91	Modelling the impact of hen harrier management measures on a red grouse population in the UK. <i>Oikos</i> , 2012, 121, 1061-1072.	1.2	10
92	Exploring the relationships between wader declines and current land use in the British uplands. <i>Bird Study</i> , 2011, 58, 13-26.	0.4	39
93	Long-term impact of changes in sheep <i>Ovis aries</i> densities on the breeding output of the hen harrier <i>Circus cyaneus</i> . <i>Journal of Applied Ecology</i> , 2011, 48, 220-227.	1.9	19
94	Hen harrier management: insights from demographic models fitted to population data. <i>Journal of Applied Ecology</i> , 2011, 48, 1187-1194.	1.9	9
95	Putting the eco back in ecotourism. <i>Animal Conservation</i> , 2011, 14, 325-327.	1.5	5
96	The ornament-condition relationship varies with parasite abundance at population level in a female bird. <i>Die Naturwissenschaften</i> , 2011, 98, 897-902.	0.6	15
97	Condition- and parasite-dependent expression of a male-like trait in a female bird. <i>Biology Letters</i> , 2011, 7, 364-367.	1.0	27
98	Birds bias offspring sex ratio in response to livestock grazing. <i>Biology Letters</i> , 2011, 7, 958-960.	1.0	12
99	Bottoms up: great bustards use the sun to maximise signal efficacy. <i>Behavioral Ecology and Sociobiology</i> , 2010, 64, 927-937.	0.6	28
100	The emergence of biodiversity conflicts from biodiversity impacts: characteristics and management strategies. <i>Biodiversity and Conservation</i> , 2010, 19, 3973-3990.	1.2	193
101	Economic values of species management options in human-wildlife conflicts: Hen Harriers in Scotland. <i>Ecological Economics</i> , 2010, 70, 107-113.	2.9	34
102	New European Union fisheries regulations could benefit conservation of marine animals. <i>Animal Conservation</i> , 2010, 13, 1-2.	1.5	19
103	International year of biodiversity: missed targets and the need for better monitoring, real action and global policy. <i>Animal Conservation</i> , 2010, 13, 113-114.	1.5	5
104	Dying for conservation: eradicating invasive alien species in the face of opposition. <i>Animal Conservation</i> , 2010, 13, 227-228.	1.5	27
105	Protected areas: the challenge of maintaining a strong backbone for conservation strategies worldwide. <i>Animal Conservation</i> , 2010, 13, 333-334.	1.5	1
106	Confronting the costs and conflicts associated with biodiversity. <i>Animal Conservation</i> , 2010, 13, 429-431.	1.5	23
107	Animal conservation and ecosystem services: garnering the support of mightier forces. <i>Animal Conservation</i> , 2010, 13, 523-525.	1.5	3
108	Spatial and temporal associations between recovering populations of common raven <i>Corvus corax</i> and British upland wader populations. <i>Journal of Applied Ecology</i> , 2010, 47, 253-262.	1.9	19
