#	ARTICLE	IF	CITATIONS
1	Health-related quality of life impact of scabies in the Solomon Islands. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2022, 116, 148-156.	1.8	6
2	Mass Drug Administration for the Control of Scabies: A Systematic Review and Meta-analysis. Clinical Infectious Diseases, 2022, 75, 959-967.	5.8	11
3	Costs of mass drug administration for scabies in Fiji. PLoS Neglected Tropical Diseases, 2022, 16, e0010147.	3.0	3
4	Community perceptions and acceptability of mass drug administration for the control of neglected tropical diseases in Asia-Pacific countries: A systematic scoping review of qualitative research. PLoS Neglected Tropical Diseases, 2022, 16, e0010215.	3.0	5
5	Prevention of bacterial complications of scabies using mass drug administration: A population-based, before-after trial in Fiji, 2018–2020. The Lancet Regional Health - Western Pacific, 2022, 22, 100433.	2.9	5
6	Using quantitative PCR to identify opportunities to strengthen soil-transmitted helminth control in Solomon Islands: A cross-sectional epidemiological survey. PLoS Neglected Tropical Diseases, 2022, 16, e0010350.	3.0	8
7	Defining the need for public health control of scabies in Solomon Islands. PLoS Neglected Tropical Diseases, 2021, 15, e0009142.	3.0	10
8	A systematic review and an individual patient data meta-analysis of ivermectin use in children weighing less than fifteen kilograms: Is it time to reconsider the current contraindication?. PLoS Neglected Tropical Diseases, 2021, 15, e0009144.	3.0	34
9	Individual Efficacy and Community Impact of Ivermectin, Diethylcarbamazine, and Albendazole Mass Drug Administration for Lymphatic Filariasis Control in Fiji: A Cluster Randomized Trial. Clinical Infectious Diseases, 2021, 73, 994-1002.	5.8	5
10	Recent advances in understanding and treating scabies. Faculty Reviews, 2021, 10, 28.	3.9	9
11	Prospective Surveillance of Primary Healthcare Presentations for Scabies and Bacterial Skin Infections in Fiji, 2018–2019. American Journal of Tropical Medicine and Hygiene, 2021, , .	1.4	6
12	Prospective surveillance for invasive Staphylococcus aureus and group A Streptococcus infections in a setting with high community burden of scabies and impetigo. International Journal of Infectious Diseases, 2021, 108, 333-339.	3.3	4
13	Community control strategies for scabies: A cluster randomised noninferiority trial. PLoS Medicine, 2021, 18, e1003849.	8.4	7
14	Estimation of scabies prevalence using simplified criteria and mapping procedures in three Pacific and southeast Asian countries. BMC Public Health, 2021, 21, 2060.	2.9	4
15	Prevalence of Scabies and Impetigo 3 Years After Mass Drug Administration With Ivermectin and Azithromycin. Clinical Infectious Diseases, 2020, 70, 1591-1595.	5.8	29
16	Protocol for a cluster-randomised non-inferiority trial of one versus two doses of ivermectin for the control of scabies using a mass drug administration strategy (the RISE study). BMJ Open, 2020, 10, e037305.	1.9	11
17	Impact of Community Treatment With Ivermectin for the Control of Scabies on the Prevalence of Antibodies to <i>Strongyloides stercoralis</i> in Children. Clinical Infectious Diseases, 2020, 71, 3226-3228.	5.8	13
18	The safety of combined triple drug therapy with ivermectin, diethylcarbamazine and albendazole in the neglected tropical diseases co-endemic setting of Fiji: A cluster randomised trial. PLoS Neglected Tropical Diseases, 2020, 14, e0008106.	3.0	17

#	ARTICLE	IF	CITATIONS
19	Community perspectives on scabies, impetigo and mass drug administration in Fiji: A qualitative study. PLoS Neglected Tropical Diseases, 2020, 14, e0008825.	3.0	12
20	Hospital admissions for skin and soft tissue infections in a population with endemic scabies: A prospective study in Fiji, 2018–2019. PLoS Neglected Tropical Diseases, 2020, 14, e0008887.	3.0	7
21	Does mass drug administration for community-based scabies control works? The experience in Ethiopia. Journal of Infection in Developing Countries, 2020, 14, 78S-85S.	1.2	5
22	Title is missing!. , 2020, 14, e0008106.		0
23	Title is missing!. , 2020, 14, e0008106.		0
24	Title is missing!. , 2020, 14, e0008106.		0
25	Title is missing!. , 2020, 14, e0008106.		0
26	Randomized Trial of Community Treatment With Azithromycin and Ivermectin Mass Drug Administration for Control of Scabies and Impetigo. Clinical Infectious Diseases, 2019, 68, 927-933.	5.8	58
27	Mass Drug Administration for Scabies – 2 Years of Follow-up. New England Journal of Medicine, 2019, 381, 186-187.	27.0	37
28	The public health control of scabies: priorities for research and action. Lancet, The, 2019, 394, 81-92.	13.7	105
29	Efficacy of mass drug administration with ivermectin for control of scabies and impetigo, with coadministration of azithromycin: a single-arm community intervention trial. Lancet Infectious Diseases, The, 2019, 19, 510-518.	9.1	74
30	Exploration of a simplified clinical examination for scabies to support public health decision-making. PLoS Neglected Tropical Diseases, 2018, 12, e0006996.	3.0	24
31	Feasibility and safety of mass drug coadministration with azithromycin and ivermectin for the control of neglected tropical diseases: a single-arm intervention trial. The Lancet Global Health, 2018, 6, e1132-e1138.	6.3	33
32	The Epidemiology of Scabies and Impetigo in Relation to Demographic and Residential Characteristics: Baseline Findings from the Skin Health Intervention Fiji Trial. American Journal of Tropical Medicine and Hygiene, 2017, 97, 845-850.	1.4	47
33	The Prevalence of Scabies and Impetigo in the Solomon Islands: A Population-Based Survey. PLoS Neglected Tropical Diseases, 2016, 10, e0004803.	3.0	71
34	Mass Drug Administration for Scabies Control. New England Journal of Medicine, 2016, 374, 1689-1690.	27.0	5
35	Mass Drug Administration for Scabies Control in a Population with Endemic Disease. New England Journal of Medicine, 2015, 373, 2305-2313.	27.0	211
36	Prevalence of scabies and impetigo worldwide: a systematic review. Lancet Infectious Diseases, The, 2015, 15, 960-967.	9.1	285

#	ARTICLE	IF	CITATIONS
37	Scabies and Impetigo Prevalence and Risk Factors in Fiji: A National Survey. PLoS Neglected Tropical Diseases, 2015, 9, e0003452.	3.0	103
38	Scabies community prevalence and mass drug administration in two Fijian villages. International Journal of Dermatology, 2014, 53, 739-745.	1.0	44
39	Kava dermopathy in Fiji: an acquired ichthyosis?. International Journal of Dermatology, 2014, 53, 1490-1494.	1.0	11
40	The body distribution of scabies skin lesions. , 0, , .		3
