#	ARTICLE	IF	CITATIONS
1	The state of globular clusters at birth – II. Primordial binaries. Monthly Notices of the Royal Astronomical Society, 2015, 446, 226-239.	4.4	52
2	CHARACTERIZING THE BROWN DWARF FORMATION CHANNELS FROM THE INITIAL MASS FUNCTION AND BINARY-STAR DYNAMICS. Astrophysical Journal, 2015, 800, 72.	4.5	36
3	M-dwarf binaries as tracers of star and brown dwarf formation. Monthly Notices of the Royal Astronomical Society, 2015, 452, 1014-1025.	4.4	9
4	Revisiting the universality of (multiple) star formation in present-day star formation regions. Monthly Notices of the Royal Astronomical Society, 2014, 441, 3503-3512.	4.4	20
5	Monte Carlo modeling of globular star clusters: many primordial binaries and IMBH formation. Proceedings of the International Astronomical Union, 2014, 10, 213-222.	0.0	0
6	The Stellar and Sub-Stellar Initial Mass Function of Simple and Composite Populations. , 2013, , 115-242.		196
7	Evidence for top-heavy stellar initial mass functions with increasing density and decreasing metallicity. Monthly Notices of the Royal Astronomical Society, 2012, 422, 2246-2254.	4.4	180
8	Dynamical population synthesis: constructing the stellar single and binary contents of galactic field populations. Monthly Notices of the Royal Astronomical Society, 2011, 417, 1702-1714.	4.4	62
9	An analytical description of the evolution of binary orbital-parameter distributions in N-body computations of star clusters. Monthly Notices of the Royal Astronomical Society, 2011, 417, 1684-1701.	4.4	58
10	The influence of gas expulsion and initial mass segregation on the stellar mass function of globular star clusters. Monthly Notices of the Royal Astronomical Society, 2008, 386, 2047-2054.	4.4	48
11	Initial conditions for globular clusters and assembly of the old globular cluster population of the Milky Way. Monthly Notices of the Royal Astronomical Society, 0, , no-no.	4.4	22
