#	ARTICLE	IF	CITATIONS
1	<i>Stratum corneum</i> biomarkers after <i>in vivo</i> repeated exposure to sub&#x2013;erythematous dosages of ultraviolet radiation in unprotected and sunscreen (SPF 50+) protected skin. <i>Photodermatology Photoimmunology and Photomedicine</i> , 2022, 38, 60-68.	0.7	6
2	Proposal of 0.5&#x2013;mg of protein/100&#x2013;g of processed food as threshold for voluntary declaration of food allergen traces in processed food&#x2013;A first step in an initiative to better inform patients and avoid fatal allergic reactions: A GA&#x2013;LEN position paper. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2022, 77, 1736-1750.	2.7	21
3	Novel insights into pivotal risk factors for rectal carriage of extended-spectrum-&#x2013;lactamase-producing enterobacterales within the general population in Lower Saxony, Germany. <i>Journal of Applied Microbiology</i> , 2022, 132, 3256-3264.	1.4	2
4	Development and Evaluation of a Bayesian Risk Stratification Method for Major Amputations in Patients with Diabetic Foot Ulcers. <i>Studies in Health Technology and Informatics</i> , 2022, 289, 212-215.	0.2	1
5	European patch test results with audit allergens as candidates for inclusion in the European Baseline Series, 2019/20: Joint results of the <sup>A</sup> and the <sup>B</sup> working groups of the <sup>C</sup>, and the <sup>D</sup>. <i>Contact Dermatitis</i> , 2022, 86, 379-389.	0.8	18
6	Differences between hairdressers and consumers in skin exposure to hair cosmetic products: A review. <i>Contact Dermatitis</i> , 2022, 86, 333-343.	0.8	10
7	Prevalence and incidence of hand eczema in hairdressers&#x2013;A systematic review and meta&#x2013;analysis of the published literature from 2000&#x2013;2021. <i>Contact Dermatitis</i> , 2022, 86, 254-265.	0.8	15
8	Occupational contact dermatitis among young people in Denmark &#x2013;A survey of causes and long&#x2013;term consequences. <i>Contact Dermatitis</i> , 2022, 86, 404-416.	0.8	10
9	Allergic contact dermatitis caused by 2&#x2013;hydroxyethyl methacrylate and ethyl cyanoacrylate contained in cosmetic glues among hairdressers and beauticians who perform nail treatments and eyelash extension as well as hair extension applications: A systematic review. <i>Contact Dermatitis</i> , 2022, 86, 480-492.	0.8	18
10	Nickel and cobalt: Underestimated contact allergens in hairdressers?. <i>Allergologie Select</i> , 2022, 6, 98-103.	1.6	4
11	Effects of skin washing frequency on the epidermal barrier function and inflammatory processes of the epidermis: An experimental study. <i>Contact Dermatitis</i> , 2022, 87, 241-246.	0.8	9
12	Respiratory toxicity of persulphate salts and their adverse effects on airways in hairdressers: a systematic review. <i>International Archives of Occupational and Environmental Health</i> , 2022, 95, 1679-1702.	1.1	9
13	Occupational Exposure of Hairdressers to Airborne Hazardous Chemicals: A Scoping Review. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 4176.	1.2	16
14	Guidelines for diagnosis, prevention, and treatment of hand eczema. <i>Contact Dermatitis</i> , 2022, 86, 357-378.	0.8	83
15	Effects and acceptance of semipermeable gloves compared to cotton gloves in patients with hand dermatoses: Results of a controlled intervention study. <i>Contact Dermatitis</i> , 2022, 87, 176-184.	0.8	4
16	Nickel and cobalt release from beauty tools: A field study in the German cosmetics trade. <i>Contact Dermatitis</i> , 2022, 87, 162-169.	0.8	8
17	Influence of physical activity on well-being at times of the COVID-19 pandemic: a review. <i>Sports Orthopaedics and Traumatology</i> , 2022, , .	0.1	1
18	Skin Toxicity of Selected Hair Cosmetic Ingredients: A Review Focusing on Hairdressers. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 7588.	1.2	5

#	ARTICLE	IF	CITATIONS
19	Global evidence on occupational sun exposure and keratinocyte cancers: a systematic review. <i>British Journal of Dermatology</i> , 2021, 184, 208-218.	1.4	42
20	Sensitization to 1,3-bis(4-aminophenyl)guanidine: An underestimated problem in physicians and nurses using surgical gloves?. <i>Contact Dermatitis</i> , 2021, 84, 207-208.	0.8	4
21	Improved protection of outdoor workers from solar ultraviolet radiation: position statement. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2021, 35, 1278-1284.	1.3	20
22	Experimental evaluation of nickel and cobalt release from tools and self-reported prevalence of nickel and cobalt allergy in the German hairdressing trade. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2021, 35, 965-972.	1.3	13
23	Degree of employment, sick leave, and costs following notification of occupational contact dermatitisâ€”A registerâ€based study. <i>Contact Dermatitis</i> , 2021, 84, 224-235.	0.8	14
24	Incidence of occupational contact dermatitis in healthcare workers: a systematic review. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2021, 35, 1285-1289.	1.3	25
25	Developing a cosmetic series: Results from the <scp>ESSCA</scp> network, 2009â€2018. <i>Contact Dermatitis</i> , 2021, 84, 82-94.	0.8	10
26	European Surveillance System on Contact Allergies (ESSCA): Characteristics of patients patch tested and diagnosed with irritant contact dermatitis. <i>Contact Dermatitis</i> , 2021, 85, 186-197.	0.8	11
27	Illness perceptions of adults with eczematous skin diseases: a systematic mixed studies review. <i>Systematic Reviews</i> , 2021, 10, 141.	2.5	8
28	Exosome-Derived MicroRNAs of Human Milk and Their Effects on Infant Health and Development. <i>Biomolecules</i> , 2021, 11, 851.	1.8	66
29	Incidence rates of occupational contact dermatitis in Denmark between 2007 and 2018: A populationâ€based study. <i>Contact Dermatitis</i> , 2021, 85, 421-428.	0.8	17
30	New methods for assessing secondary performance attributes of sunscreens suitable for professional outdoor work. <i>Journal of Occupational Medicine and Toxicology</i> , 2021, 16, 25.	0.9	8
31	Acceptance of semipermeable glove liners compared to cotton glove liners in health care workers with workâ€related skin diseases: Results of a quasiâ€randomized trial under real workplace conditions. <i>Contact Dermatitis</i> , 2021, 85, 543-553.	0.8	4
32	Patch test informed consent form: position statement by European Academy of Dermatology and Venereology Task Force on Contact Dermatitis. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2021, 35, 1957-1962.	1.3	2
33	Expressiveness of an International Semantic Standard for Wound Care: Mapping a Standardized Item Set for Leg Ulcers to the Systematized Nomenclature of Medicineâ€Clinical Terms. <i>JMIR Medical Informatics</i> , 2021, 9, e31980.	1.3	2
34	Protocol for a Systematic Review on the Effectiveness of Interventions to Reduce Exposure to Occupational Solar UltraViolet Radiation (UVR) Among Outdoor Workers. <i>Frontiers in Public Health</i> , 2021, 9, 756566.	1.3	5
35	UV-Induced Skin Cancer Knowledge, Sun Exposure, and Tanning Behavior among University Students: Investigation of an Opportunity Sample of German University Students. <i>Journal of Skin Cancer</i> , 2021, 2021, 1-12.	0.5	3
36	Protocol for a systematic review on systemic and skin toxicity of important hazardous hair and nail cosmetic ingredients in hairdressers. <i>BMJ Open</i> , 2021, 11, e050612.	0.8	8

#	ARTICLE	IF	CITATIONS
37	Outdoor workersâ€™ perceptions of skin cancer risk and attitudes to sun-protective measures: A qualitative study. <i>Journal of Occupational Health</i> , 2020, 62, e12083.	1.0	25
38	Assessment of occupational exposure and spectrum of contact sensitization in metalworkers with occupational dermatitis: results of a cohort study within the <scp>OCCUDERM</scp> project. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2020, 34, 1536-1544.	1.3	11
39	Exposure to solar UV radiation in outdoor construction workers using personal dosimetry. <i>Environmental Research</i> , 2020, 181, 108967.	3.7	25
40	Tape stripping the stratum corneum for biomarkers of ultraviolet radiation exposure at sub-erythral dosages: a study in human volunteers. <i>Biomarkers</i> , 2020, 25, 490-497.	0.9	5
41	Quality of life measurement in occupational skin diseases. Position paper of the European Academy of Dermatology and Venereology Task Forces on Quality of Life and Patient Oriented Outcomes and Occupational Skin Disease. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2020, 34, 1924-1931.	1.3	17
42	A One-Month Monitoring of Exposure to Solar UV Radiation of a Group of Construction Workers in Tuscany. <i>Energies</i> , 2020, 13, 6035.	1.6	6
43	Occupational solar UV exposure in construction workers in Italy: results of a one-month monitoring with personal dosimeters. , 2020, , .		10
44	Effectiveness of secondary prevention in metalworkers with workâ€related skin diseases and comparison with participants of a tertiary prevention program: A prospective cohort study. <i>Contact Dermatitis</i> , 2020, 83, 497-506.	0.8	6
45	MicroRNA-21-Enriched Exosomes as Epigenetic Regulators in Melanogenesis and Melanoma Progression: The Impact of Western Lifestyle Factors. <i>Cancers</i> , 2020, 12, 2111.	1.7	22
46	The evolving field of Dermatoâ€oncology and the role of dermatologists: Position Paper of the EADO, EADV and Task Forces, EDF, IDS, EBDVâ€UEMS and EORTC Cutaneous Lymphoma Task Force. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2020, 34, 2183-2197.	1.3	22
47	Predicting the amputation risk for patients with diabetic foot ulceration â€ a Bayesian decision support tool. <i>BMC Medical Informatics and Decision Making</i> , 2020, 20, 200.	1.5	8
48	Contact sensitization in metalworkers: Data from the information network of departments of dermatology (<scp>IVDK</scp>), 2010â€2018. <i>Contact Dermatitis</i> , 2020, 83, 487-496.	0.8	15
49	Relevance of contact sensitizations in occupational dermatitis patients with special focus on patch testing of workplace materials. <i>Contact Dermatitis</i> , 2020, 83, 475-486.	0.8	14
50	European Task Force on Contact Dermatitis statement on coronavirus diseaseâ€19 (COVIDâ€19) outbreak and the risk of adverse cutaneous reactions. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2020, 34, e353-e354.	1.3	52
51	Secondary prevention of UV-induced skin cancer: development and pilot testing of an educational patient counseling approach for individual sun protection as standard procedure of patient care. <i>International Archives of Occupational and Environmental Health</i> , 2020, 93, 765-777.	1.1	9
52	Economic evaluation of a tertiary prevention program for occupational skin diseases in Germany. <i>Contact Dermatitis</i> , 2020, 82, 361-369.	0.8	12
53	Personal solar ultraviolet radiation dosimetry in an occupational setting across Europe. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2020, 34, 1835-1841.	1.3	28
54	Personal ultraviolet radiation dosimetry and its relationship with environmental data: A longitudinal pilot study in Croatian construction workers. <i>Journal of Photochemistry and Photobiology B: Biology</i> , 2020, 207, 111866.	1.7	16

#	ARTICLE	IF	CITATIONS
55	Is Occupational Skin Cancer More Aggressive than Sporadic Skin Cancer?. <i>MÃ  dica</i> , 2020, 15, 155-161.	0.4	0
56	Skin cancer in outdoor workers exposed to solar radiation: a largely underreported occupational disease in Italy. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 2068-2074.	1.3	27
57	S3 guidelines: Epicutaneous patch testing with contact allergens and drugs â€“ Short version, Part 1. <i>JDDG - Journal of the German Society of Dermatology</i> , 2019, 17, 1076-1093.	0.4	81
58	Microbiological contamination of cosmetic products â€“ observations from Europe, 2005â€“2018. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 2151-2157.	1.3	24
59	Effectiveness of Manual Therapy, Customised Foot Orthoses and Combined Therapy in the Management of Plantar Fasciitisâ€”A RCT. <i>Sports</i> , 2019, 7, 128.	0.7	7
60	The role of the dermatologist in the immuneâ€mediated/allergic diseases â€“ position statement of the EADV task force on contact dermatitis, EADV task force on occupational skin diseases, UEMSâ€EBDV subcommission allergology and European Dermatology Forum. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 1459-1464.	1.3	0
61	Translating the <sc>WHA</sc> resolution in a member state: towards a German programme on â€Destigmatizationâ€™ for individuals with visible chronic skin diseases. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 2202-2208.	1.3	18
62	Nickel release from metal tools in the German hairdressing tradeâ€”A current analysis. <i>Contact Dermatitis</i> , 2019, 80, 382-385.	0.8	15
63	Commentary to â€Minimal clinically important difference (<sc>MCID</sc>) for work productivity and activity impairment (<sc>WPAl</sc>) questionnaire in psoriasis patientsâ€™ by J.J. Wu <i>etÂ >.. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 257-258.	1.3	1
64	WHO/ILO work-related burden of disease and injury: Protocol for systematic reviews of occupational exposure to solar ultraviolet radiation and of the effect of occupational exposure to solar ultraviolet radiation on melanoma and non-melanoma skin cancer. <i>Environment International</i> , 2019, 126, 804-815.	4.8	71
65	S3 Guidelines: Epicutaneous patch testing with contact allergens and drugs â€“ Short version, Part 2. <i>JDDG - Journal of the German Society of Dermatology</i> , 2019, 17, 1187-1207.	0.4	44
66	Tertiary prevention of occupational skin diseases: Prevalence of allergic contact dermatitis and pattern of patch test results. <i>Contact Dermatitis</i> , 2019, 80, 35-44.	0.8	33
67	Isotretinoin's paradoxical effects in immortalized sebocytes. <i>British Journal of Dermatology</i> , 2019, 180, 957-958.	1.4	11
68	Decreasing sunbed use in the German population between 2001 and 2015: survey in 155Â679 working persons. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 541-545.	1.3	3
69	European Surveillance System on Contact Allergies (ESSCA): Contact allergies in relation to body sites in patients with allergic contact dermatitis. <i>Contact Dermatitis</i> , 2019, 80, 263-272.	0.8	39
70	T helper 17 cell/regulatory T-cell imbalance in hidradenitis suppurativa/acne inversa: the link to hair follicle dissection, obesity, smoking and autoimmune comorbidities. <i>British Journal of Dermatology</i> , 2018, 179, 260-272.	1.4	61
71	Occupational contact allergy to sodium cocoamphopropionate in a skin protection cream. <i>Contact Dermatitis</i> , 2018, 78, 295-296.	0.8	7
72	Is ultraviolet exposure acquired at work the most important risk factor for cutaneous squamous cell carcinoma? Results of the population-based case-control study FB-181. <i>British Journal of Dermatology</i> , 2018, 178, 462-472.	1.4	62

#	ARTICLE	IF	CITATIONS
73	Occupational UV-Exposure is a Major Risk Factor for Basal Cell Carcinoma. Journal of Occupational and Environmental Medicine, 2018, 60, 36-43.	0.9	52
74	The implementation of knowledge dissemination in the prevention of occupational skin diseases. Journal of the European Academy of Dermatology and Venereology, 2018, 32, 449-458.	1.3	11
75	Interdisciplinary and multiprofessional outpatient secondary individual prevention of work-related skin diseases in the metalworking industry: 1-year follow-up of a patient cohort. BMC Dermatology, 2018, 18, 12.	2.1	13
76	1616â€¦Title of (joint) special session â€œoedâ€™™ and â€œradiation at workâ€™™: how to tackle the increasing disease burden of occupational skin cancer. , 2018, , .		0
77	Positionspapier: Telemedizin in der Berufsdermatologie â€œ Aktueller Stand und Perspektiven. JDDG - Journal of the German Society of Dermatology, 2018, 16, 969-975.	0.4	5
78	Skin Protection Seminars to Prevent Occupational Skin Diseases: Results of a Prospective Longitudinal Study in Apprentices of High-risk Professions. Safety and Health at Work, 2018, 9, 398-407.	0.3	11
79	Position paper: Telemedicine in occupational dermatology â€œ current status and perspectives. JDDG - Journal of the German Society of Dermatology, 2018, 16, 969-974.	0.4	21
80	Response to letter to the editor re. Hines J, Wilkinson <sc>SM</sc>, John <sc>SM</sc>, <i> et al</i>. The three moments of skin cream application: an evidenceâ€based proposal for use of skin creams in the prevention of irritant contact dermatitis in the workplace. Journal of the European Academy of Dermatology and Venereology, 2017, 31, e308.	1.3	0
81	Current knowledge on biomarkers for contact sensitization and allergic contact dermatitis. Contact Dermatitis, 2017, 77, 1-16.	0.8	64
82	European Surveillance System on Contact Allergies (<sc>ESSCA</sc>): results with the European baseline series, 2013/14. Journal of the European Academy of Dermatology and Venereology, 2017, 31, 1516-1525.	1.3	106
83	The Eastern European experience on occupational skin diseases. Make underreporting an issue?. Journal of the European Academy of Dermatology and Venereology, 2017, 31, 5-11.	1.3	13
84	Instructions for use of the <sc>OSD</sc> notification forms. Journal of the European Academy of Dermatology and Venereology, 2017, 31, 44-46.	1.3	4
85	Occupational skin diseases â€œ Development and Implementation of European Standards on Prevention of Occupational Skin Diseases. Journal of the European Academy of Dermatology and Venereology, 2017, 31, 3-4.	1.3	9
86	Occupational skin diseases: actual state analysis of patient management pathways in 28 European countries. Journal of the European Academy of Dermatology and Venereology, 2017, 31, 12-30.	1.3	56
87	Minimum standards on prevention, diagnosis and treatment of occupational and workâ€related skin diseases in Europe â€œ position paper of the COST Action StanDerm (TD 1206). Journal of the European Academy of Dermatology and Venereology, 2017, 31, 31-43.	1.3	94
88	A systematic review of worldwide epidemiology of psoriasis. Journal of the European Academy of Dermatology and Venereology, 2017, 31, 205-212.	1.3	714
89	The three moments of skin cream application: an evidenceâ€based proposal for use of skin creams in the prevention of irritant contact dermatitis in the workplace. Journal of the European Academy of Dermatology and Venereology, 2017, 31, 53-64.	1.3	20
90	Occupational skin cancer: sweeping the path to prevention. Occupational Medicine, 2017, 67, 328-330.	0.8	4

#	ARTICLE	IF	CITATIONS
91	Colonisation with methicillin-resistant <i>Staphylococcus aureus</i> and associated factors among nurses with occupational skin diseases. <i>Occupational and Environmental Medicine</i> , 2016, 73, 670-675.	1.3	20
92	Milk: a postnatal imprinting system stabilizing FoxP3 expression and regulatory T cell differentiation. <i>Clinical and Translational Allergy</i> , 2016, 6, 18.	1.4	60
93	Milk: An epigenetic inducer of FoxP3 expression. <i>Journal of Allergy and Clinical Immunology</i> , 2016, 138, 937-938.	1.5	14
