#	ARTICLE	IF	CITATIONS
1	Associations between Parental Concerns about Preschoolers' Weight and Eating and Parental Feeding Practices: Results from Analyses of the Child Eating Behavior Questionnaire, the Child Feeding Questionnaire, and the Lifestyle Behavior Checklist. <i>PLoS ONE</i> , 2016, 11, e0147257.	2.5	109
2	A question of balance: Explaining differences between parental and grandparental perspectives on preschoolers' feeding and physical activity. <i>Social Science and Medicine</i> , 2016, 154, 28-35.	3.8	61
3	“A little on the heavy side”: a qualitative analysis of parents' and grandparents' perceptions of preschoolers' body weights: Table 1. <i>BMJ Open</i> , 2014, 4, e006609.	1.9	46
4	Planting a seed - child health care nurses' perceptions of speaking to parents about overweight and obesity: a qualitative study within the STOP project. <i>BMC Public Health</i> , 2019, 19, 1494.	2.9	35
5	Moving from Knowledge to Action: A Qualitative Study of Elite Coaches' Capacity for Early Intervention in Cases of Eating Disorders. <i>International Journal of Sports Science and Coaching</i> , 2013, 8, 343-355.	1.4	28
6	Between Difference and Belonging: Configuring Self and Others in Inpatient Treatment for Eating Disorders. <i>PLoS ONE</i> , 2014, 9, e105452.	2.5	25
7	Water, juice, or soda? Mothers and grandmothers of preschoolers discuss the acceptability and accessibility of beverages. <i>Appetite</i> , 2017, 112, 133-142.	3.7	25
8	Picky eating in an obesity intervention for preschool-aged children – what role does it play, and does the measurement instrument matter?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019, 16, 76.	4.6	25
9	Picky eating in Swedish preschoolers of different weight status: application of two new screening cut-offs. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018, 15, 74.	4.6	24
10	Striving for liminality: Eating disorders and social suffering. <i>Transcultural Psychiatry</i> , 2018, 55, 475-494.	1.6	23
11	Mobile activism, material imaginings, and the ethics of the edible: Framing political engagement through the Buycott app. <i>Geoforum</i> , 2016, 74, 63-73.	2.5	19
12	“Those Comments Last Forever”: Parents and Grandparents of Preschoolers Recount How They Became Aware of Their Own Body Weights as Children. <i>PLoS ONE</i> , 2014, 9, e111974.	2.5	18
13	Feeding the extended family: gender, generation, and socioeconomic disadvantage in food provision to children. <i>Food, Culture & Society</i> , 2019, 22, 45-62.	1.1	17
14	Changes in parental feeding practices and preschoolers' food intake following a randomized controlled childhood obesity trial. <i>Appetite</i> , 2020, 154, 104746.	3.7	16
15	Governance by campaign: the co-constitution of food issues, publics and expertise through new information and communication technologies. <i>Information, Communication and Society</i> , 2019, 22, 172-192.	4.0	15
16	Secondary care consultant clinicians' experiences of conducting emergency care and treatment planning conversations in England: an interview-based analysis. <i>BMJ Open</i> , 2020, 10, e031633.	1.9	14
17	Public Expressions of Trust and Distrust in Governmental Dietary Advice in Sweden. <i>Qualitative Health Research</i> , 2019, 29, 1161-1173.	2.1	13
18	Why, when and how do secondary-care clinicians have emergency care and treatment planning conversations? Qualitative findings from the ReSPECT Evaluation study. <i>Resuscitation</i> , 2021, 162, 343-350.	3.0	13

#	ARTICLE	IF	CITATIONS
19	Anthropological Perspectives on Eating Disorders: Deciphering Cultural Logics. <i>Transcultural Psychiatry</i> , 2018, 55, 443-453.	1.6	12
20	Responding positively to "children who like to eat": Parents' experiences of skills-based treatment for childhood obesity. <i>Appetite</i> , 2020, 145, 104488.	3.7	12
21	"The body remembers": narrating embodied reconciliations of eating disorder and recovery. <i>Anthropology and Medicine</i> , 2016, 23, 71-85.	1.2	11
22	Associations between maternal sense of coherence and controlling feeding practices: The importance of resilience and support in families of preschoolers. <i>Appetite</i> , 2016, 105, 134-143.	3.7	11
23	Choreographing lived experience: dance, feelings and the storytelling body. <i>Medical Humanities</i> , 2015, 41, 63-68.	1.2	10
24	Body image among eating disorder patients with disabilities: A review of published case studies. <i>Body Image</i> , 2014, 11, 266-274.	4.3	9
25	Perceived child eating behaviours and maternal migrant background. <i>Appetite</i> , 2018, 125, 302-313.	3.7	9
26	Distinct and Untamed: Articulating Bulimic Identities. <i>Culture, Medicine and Psychiatry</i> , 2018, 42, 159-179.	1.2	9
27	Binge eating as a meaningful experience in bulimia nervosa and anorexia nervosa: a qualitative analysis. <i>Journal of Mental Health</i> , 2015, 24, 363-368.	1.9	8
28	"A holistic approach": incorporating sustainability into biopedagogies of healthy eating in Sweden's dietary guidelines. <i>Sociology of Health and Illness</i> , 2020, 42, 1785-1800.	2.1	8
29	Assessing the quality of ReSPECT documentation using an accountability for reasonableness framework. <i>Resuscitation Plus</i> , 2021, 7, 100145.	1.7	8
30	Explaining the complex impact of the Covid-19 pandemic on children with overweight and obesity: a comparative ecological analysis of parents' perceptions in three countries. <i>BMC Public Health</i> , 2022, 22, 1000.	2.9	8
31	General practitioners' experiences of emergency care and treatment planning in England: a focus group study. <i>BMC Family Practice</i> , 2021, 22, 128.	2.9	7
32	Eating Disorders During Compulsory Service in the Israeli Defense Forces. <i>Military Behavioral Health</i> , 2014, 2, 89-97.	0.8	6
33	Controlling feeding practices and maternal migrant background: an analysis of a multicultural sample. <i>Public Health Nutrition</i> , 2017, 20, 848-858.	2.2	6
34	Stakeholder responses to governmental dietary guidelines. <i>British Food Journal</i> , 2018, 120, 613-624.	2.9	6
35	The influence of preschoolers' emotional and behavioural problems on obesity treatment outcomes: Secondary findings from a randomized controlled trial. <i>Pediatric Obesity</i> , 2019, 14, e12556.	2.8	6
36	How active can preschoolers be at home? Parents' and grandparents' perceptions of children's day-to-day activity, with implications for physical activity policy. <i>Social Science and Medicine</i> , 2022, 292, 114557.	3.8	6

#	ARTICLE	IF	CITATIONS
37	Caring in the silences: why physicians and surgeons do not discuss emergency care and treatment planning with their patients – an analysis of hospital-based ethnographic case studies in England. <i>BMJ Open</i> , 2022, 12, e046189.	1.9	6
38	Making Childhood Obesity a Priority: A Qualitative Study of Healthcare Professionals' Perspectives on Facilitating Communication and Improving Treatment. <i>Frontiers in Public Health</i> , 2021, 9, 652491.	2.7	5
39	Implementation of ReSPECT in acute hospitals: A retrospective observational study. <i>Resuscitation</i> , 2022, 178, 26-35.	3.0	5
40	The role of parental depression during early childhood obesity treatment – Secondary findings from a randomized controlled trial. <i>Pediatric Obesity</i> , 2021, 16, e12754.	2.8	4
