

Young Ah Lee

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/2002244/young-ah-lee-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
59	The association of prenatal and childhood pyrethroid pesticide exposure with school-age ADHD traits.. <i>Environment International</i> , 2022 , 161, 107124	12.9	0
58	Clinical practice guidelines for optimizing bone health in Korean children and adolescents.. <i>Annals of Pediatric Endocrinology and Metabolism</i> , 2022 , 27, 5-14	2.9	1
57	Metabolic Impacts of Discontinuation and Resumption of Recombinant Human Growth Hormone Treatment during the Transition Period in Patients with Childhood-Onset Growth Hormone Deficiency.. <i>Endocrinology and Metabolism</i> , 2022 , 37, 359-368	3.5	0
56	Total, bioavailable and free 25-hydroxyvitamin D levels as functional indicators for bone parameters in healthy children. <i>PLoS ONE</i> , 2021 , 16, e0258585	3.7	1
55	A Comparison of Free and Total 25-hydroxyvitamin D Levels as Functional Indicators of Bone Health in Healthy Children. <i>Journal of the Endocrine Society</i> , 2021 , 5, A270-A270	0.4	78
54	The Effect of Hypothalamic Involvement and Growth Hormone Treatment on Cardiovascular Risk Factors in Patients With Childhood-Onset Craniopharyngioma. <i>Journal of the Endocrine Society</i> , 2021 , 5, A636-A637	0.4	78
53	Relationship Between Iodine Status and Thyroid Function in Preschool Children: From the Environmental and Development of Children (EDC) Study. <i>Journal of the Endocrine Society</i> , 2021 , 5, A720-A721	0.4	78
52	The Relationship Between Iodine Status and Thyroid Function in Congenital Hypothyroidism With Eutopic Thyroid Gland. <i>Journal of the Endocrine Society</i> , 2021 , 5, A722-A722	0.4	
51	Thyroid nodules in childhood-onset Hashimoto's thyroiditis: Frequency, risk factors, follow-up course and genetic alterations of thyroid cancer. <i>Clinical Endocrinology</i> , 2021 , 95, 638-648	3.4	2
50	Clinical Application of Sequential Epigenetic Analysis for Diagnosis of Silver-Russell Syndrome. <i>Annals of Laboratory Medicine</i> , 2021 , 41, 401-408	3.1	1
49	Associations between surrounding residential greenness and intelligence quotient in 6-year-old children. <i>Science of the Total Environment</i> , 2021 , 759, 143561	10.2	9
48	Associations Between Thyroid Hormone Levels and Urinary Concentrations of Bisphenol A, F, and S in 6-Year-old Children in Korea. <i>Journal of Preventive Medicine and Public Health</i> , 2021 , 54, 37-45	3.7	0
47	Cardiac autonomic dysfunction is associated with hypothalamic damage in patients with childhood-onset craniopharyngioma. <i>PLoS ONE</i> , 2021 , 16, e0246789	3.7	
46	NTRK and RET fusion-directed therapy in pediatric thyroid cancer yields a tumor response and radioiodine uptake. <i>Journal of Clinical Investigation</i> , 2021 , 131,	15.9	13
45	Early-Life Exposure to Per- and Poly-Fluorinated Alkyl Substances and Growth, Adiposity, and Puberty in Children: A Systematic Review. <i>Frontiers in Endocrinology</i> , 2021 , 12, 683297	5.7	5
44	Prenatal and postnatal exposures to four metals mixture and IQ in 6-year-old children: A prospective cohort study in South Korea. <i>Environment International</i> , 2021 , 157, 106798	12.9	1
43	Association of phthalate exposure with autistic traits in children. <i>Environment International</i> , 2021 , 157, 106775	12.9	5

42	Prenatal and early childhood phthalate exposures and thyroid function among school-age children. <i>Environment International</i> , 2020 , 141, 105782	12.9	2
41	Residential pyrethroid insecticide use, urinary 3-phenoxybenzoic acid levels, and attention-deficit/hyperactivity disorder-like symptoms in preschool-age children: The Environment and Development of Children study. <i>Environmental Research</i> , 2020 , 188, 109739	7.9	4
40	Effect of prenatal bisphenol A exposure on early childhood body mass index through epigenetic influence on the insulin-like growth factor 2 receptor (IGF2R) gene. <i>Environment International</i> , 2020 , 143, 105929	12.9	13
39	A Case of Consumptive Hypothyroidism in a 1-Month-Old Boy with Diffuse Infantile Hepatic Hemangiomas. <i>Journal of Korean Medical Science</i> , 2020 , 35, e180	4.7	2
38	The Effect of Prenatal Cadmium Exposure on Attention-deficit/Hyperactivity Disorder in 6-Year-old Children in Korea. <i>Journal of Preventive Medicine and Public Health</i> , 2020 , 53, 29-36	3.7	6
37	Autonomic Dysfunction is Associated with Increased Cardiometabolic Risk in Patients with Childhood-Onset Craniopharyngioma. <i>Hormone and Metabolic Research</i> , 2020 , 52, 500-508	3.1	2
36	Changes in Adrenal Androgens and Steroidogenic Enzyme Activities From Ages 2, 4, to 6 Years: A Prospective Cohort Study. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2020 , 105,	5.6	4
35	Prenatal exposure to traffic-related air pollution and risk of congenital diseases in South Korea. <i>Environmental Research</i> , 2020 , 191, 110060	7.9	7
34	Dietary patterns are associated with attention-deficit hyperactivity disorder (ADHD) symptoms among preschoolers in South Korea: a prospective cohort study. <i>Nutritional Neuroscience</i> , 2020 , 1-9	3.6	4
33	How can the occurrence of delayed elevation of thyroid stimulating hormone in preterm infants born between 35 and 36 weeks gestation be predicted?. <i>PLoS ONE</i> , 2019 , 14, e0220240	3.7	2
32	Relationship between systolic hypertension assessed by 24-hour ambulatory blood pressure monitoring and aortic diameters in young women with Turner syndrome. <i>Clinical Endocrinology</i> , 2019 , 91, 156-162	3.4	1
31	The relationship of urinary 3-phenoxybenzoic acid concentrations in utero and during childhood with adiposity in 4-year-old children. <i>Environmental Research</i> , 2019 , 172, 446-453	7.9	15
30	Measurement of serum steroid profiles by HPLC-tandem mass spectrometry. <i>Journal of Chromatography B: Analytical Technologies in the Biomedical and Life Sciences</i> , 2019 , 1117, 1-9	3.2	13
29	Early-life exposure to endocrine-disrupting chemicals and pubertal development in girls. <i>Annals of Pediatric Endocrinology and Metabolism</i> , 2019 , 24, 78-91	2.9	39
28	Arterial stiffness in young women with Turner syndrome using cardio-ankle vascular index. <i>Annals of Pediatric Endocrinology and Metabolism</i> , 2019 , 24, 158-163	2.9	0
27	Cardiac autonomic neuropathy in nonobese young adults with type 1 diabetes. <i>Annals of Pediatric Endocrinology and Metabolism</i> , 2019 , 24, 180-186	2.9	4
26	Cohort Profile: The Environment and Development of Children (EDC) study: a prospective children's cohort. <i>International Journal of Epidemiology</i> , 2018 , 47, 1049-1050f	7.8	16
25	Thyroid dysfunction in patients with childhood-onset medulloblastoma or primitive neuroectodermal tumor. <i>Annals of Pediatric Endocrinology and Metabolism</i> , 2018 , 23, 88-93	2.9	2

24	The effects of maternal and children phthalate exposure on the neurocognitive function of 6-year-old children. <i>Environmental Research</i> , 2017 , 156, 519-525	7.9	40
23	Maternal Urinary Bisphenol A Concentration During Midterm Pregnancy and Children's Blood Pressure at Age 4. <i>Hypertension</i> , 2017 , 69, 367-374	8.5	32
22	Unfavorable Course of Subclinical Hypothyroidism in Children with Hashimoto's Thyroiditis Compared to Those with Isolated Non-Autoimmune Hyperthyrotropinemia. <i>Journal of Korean Medical Science</i> , 2017 , 32, 124-129	4.7	5
21	Factors Associated with the Presence and Severity of Diabetic Ketoacidosis at Diagnosis of Type 1 Diabetes in Korean Children and Adolescents. <i>Journal of Korean Medical Science</i> , 2017 , 32, 303-309	4.7	8
20	Prevalence and Clinical Characteristics of Metabolically Healthy Obesity in Korean Children and Adolescents: Data from the Korea National Health and Nutrition Examination Survey. <i>Journal of Korean Medical Science</i> , 2017 , 32, 1840-1847	4.7	13
19	The Role of Overweight and Obesity on Bone Health in Korean Adolescents with a Focus on Lean and Fat Mass. <i>Journal of Korean Medical Science</i> , 2017 , 32, 1633-1641	4.7	19
18	Prenatal and postnatal bisphenol A exposure and social impairment in 4-year-old children. <i>Environmental Health</i> , 2017 , 16, 79	6	30
17	Clinical course of infants with congenital heart disease who developed thyroid dysfunction within 100 days. <i>Annals of Pediatric Endocrinology and Metabolism</i> , 2017 , 22, 253-258	2.9	4
16	Impaired Vascular Function of the Aorta in Adolescents with Turner Syndrome. <i>Pediatric Cardiology</i> , 2017 , 38, 20-26	2.1	13
15	Nonalcoholic fatty liver disease in long-term survivors of childhood-onset craniopharyngioma. <i>Annals of Pediatric Endocrinology and Metabolism</i> , 2017 , 22, 189-196	2.9	4
14	Body composition and bone density reference data for Korean children, adolescents, and young adults according to age and sex: results of the 2009-2010 Korean National Health and Nutrition Examination Survey (KNHANES). <i>Journal of Bone and Mineral Metabolism</i> , 2016 , 34, 429-39	2.9	20
13	Increasing incidence of type 1 diabetes among Korean children and adolescents: analysis of data from a nationwide registry in Korea. <i>Pediatric Diabetes</i> , 2016 , 17, 519-524	3.6	36
12	Pediatric Goiter: Can Thyroid Disorders Be Predicted at Diagnosis and in Follow-Up?. <i>Journal of Pediatrics</i> , 2016 , 170, 253-9.e1-2	3.6	2
11	Pediatric patients with multifocal papillary thyroid cancer have higher recurrence rates than adult patients: a retrospective analysis of a large pediatric thyroid cancer cohort over 33 years. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2015 , 100, 1619-29	5.6	34
10	Risk factors for low vitamin D status in Korean adolescents: the Korea National Health and Nutrition Examination Survey (KNHANES) 2008-2009. <i>Public Health Nutrition</i> , 2014 , 17, 764-71	3.3	25
9	Tumor origin and growth pattern at diagnosis and surgical hypothalamic damage predict obesity in pediatric craniopharyngioma. <i>Journal of Neuro-Oncology</i> , 2013 , 113, 417-24	4.8	26
8	Adequate vitamin D status and adiposity contribute to bone health in peripubertal nonobese children. <i>Journal of Bone and Mineral Metabolism</i> , 2013 , 31, 337-45	2.9	12
7	Implications of nocturnal hypertension in children and adolescents with type 1 diabetes. <i>Diabetes Care</i> , 2011 , 34, 2180-5	14.6	73

6	Remission rate and remission predictors of Graves disease in children and adolescents. <i>Korean Journal of Pediatrics</i> , 2009 , 52, 1021	2.4	4
5	Growth responses to growth hormone therapy in children with attenuated growth who showed normal growth hormone response to stimulation tests. <i>Korean Journal of Pediatrics</i> , 2009 , 52, 922	2.4	0
4	A study of the development of macrovascular complications and factors related to these complications in young adults with childhood/adolescence-onset type 1 diabetes mellitus. <i>Korean Journal of Pediatrics</i> , 2009 , 52, 220	2.4	1
3	Factors for persistent growth hormone deficiency in young adults with childhood onset growth hormone deficiency. <i>Korean Journal of Pediatrics</i> , 2009 , 52, 227	2.4	
2	Pheochromocytoma associated with cyanotic congenital heart disease. <i>Korean Journal of Pediatrics</i> , 2008 , 51, 93	2.4	6
1	Interpretation of screening for congenital adrenal hyperplasia in preterm infants. <i>Korean Journal of Pediatrics</i> , 2008 , 51, 616	2.4	3
