citing authors

#	ARTICLE	IF	CITATIONS
1	Thrombectomy Using a Method to Directly Insert an Aspiration Catheter into a 6-Fr Sheath-introducer Placed into the Brachial Artery. <i>Journal of Neuroendovascular Therapy</i> , 2018, 12, 456-462.	0.1	4
2	The efficacy of temporary clamping of V3 with a suboccipital far-lateral approach in microvascular decompression for Hemifacial spasm associated with the vertebral artery. <i>Neurosurgical Review</i> , 2021, 44, 625-631.	2.4	3
3	Comparison of postoperative temporalis muscle atrophy between the muscle-preserving pterional approach and the mini-pterional approach in the treatment of unruptured intracranial aneurysms. <i>Neurosurgical Review</i> , 2022, 45, 507-515.	2.4	3
4	Revascularization to the ACA: effectiveness and variation of the STA-RAG-A3 bonnet bypass. <i>Acta Neurochirurgica</i> , 2021, 163, 3483-3493.	1.7	3
5	Surgical removal using V3-radial artery graft-V4 bypass and occipital artery-posterior inferior cerebellar artery bypass for a giant thrombosed aneurysm of vertebral artery compressing brain stem: Case report. , 2019, 10, 220.		3
6	Paramedian thalamic infarction caused by cisternal drain placement in open clipping for aneurysmal subarachnoid hemorrhage: Two case reports. , 2020, 11, 164.		3
7	Microsurgical Treatment Strategy of Vertebral Artery Fusiform Aneurysm—From the Standpoint of Hemodynamic Integrity and Perforator Preservation. <i>Frontiers in Neurology</i> , 2021, 12, 728176.	2.4	2
8	Posterior Transposition of the Frontal Bridging Veins Together with Sphenoparietal Sinus: A Simple Technique to Widen the Surgical Corridor During Pterional Clipping of the Anterior Communicating Artery. <i>World Neurosurgery</i> , 2021, 155, 13-18.	1.3	2
9	Superficial temporal artery lengthening technique to prevent postoperative wound complications in direct revascularization to the anterior cerebral artery for Moyamoya disease. <i>Acta Neurochirurgica</i> , 2022, 164, 1845-1854.	1.7	2
10	Internal Trapping of a Symptomatic Unruptured Giant Vertebral Artery Aneurysm Using the Coiling-in-bridging-stent Technique: A Case Report. <i>Journal of Neuroendovascular Therapy</i> , 2019, 13, 38-43.	0.1	1
11	Vein-related Trigeminal Neuralgia: How to Determine the Treatment Method of the Causative Vein: A Technical Note. <i>Neurologia Medico-Chirurgica</i> , 2022, 62, 105-109.	2.2	1
12	Carotid Endarterectomy for Vertebrobasilar Insufficiency Caused by Severe Stenosis of Primitive Hypoglossal Artery: A Technical Case Report and Literature Review. <i>Neurologia Medico-Chirurgica</i> , 2022, , .	2.2	1
13	How do I: Venous reconstruction of accidentally injured superficial sylvian vein during the clipping of an unruptured cerebral aneurysm. <i>Acta Neurochirurgica</i> , 2022, 164, 2547-2550.	1.7	1
14	One-stage Revascularization to the Ipsilateral Middle Cerebral Artery and Contralateral Anterior Cerebral Artery Territories. <i>World Neurosurgery</i> , 2022, , .	1.3	1
15	A predictive score for identification of rupture site in subarachnoid haemorrhage with multiple intracranial aneurysm. <i>British Journal of Neurosurgery</i> , 2021, 35, 145-150.	0.8	0
16	Acute surgery for a case of superior vermian arteriovenous malformation producing raised venous pressure coexisting with basilar-superior cerebellar artery aneurysm presenting subarachnoid hemorrhage; Case report. , 2021, 12, 23.		0
17	Direct Clipping of Paraclinoid Aneurysm in Conjunction with Extradural Anterior Craniotomy: Technical Nuance and Functional Outcome. <i>Journal of Neurological Surgery, Part B: Skull Base</i> , 0, , .	0.8	0
18	Anterior transpetrosal resection of the lower ventral pontine cavernous malformation: A technical case report with operative video. , 2021, 12, 261.		0

#	ARTICLE	IF	CITATIONS
19	One-stage operation with ipsilateral two-piece craniotomies for a case of subarachnoid hemorrhage with multiple intracranial aneurysms. <i>Journal of Innovative Optical Health Sciences</i> , 2019, 14, 1226-1230.	1.0	0
20	Multimodal treatment strategy for clinoidal meningioma: Superficial temporal artery-middle cerebral artery bypass as a safe short- and long-term strategy. <i>Interdisciplinary Neurosurgery: Advanced Techniques and Case Management</i> , 2022, 28, 101464.	0.3	0
