#	ARTICLE	IF	CITATIONS
1	A comparison of the antimicrobial resistance of fecal <i>Bacteroides</i> isolates and assessment of the composition of the intestinal microbiotas of carbapenem-treated and non-treated persons from Belgium and Hungary. <i>Anaerobe</i> , 2022, 73, 102480.	2.1	4
2	Haemin deprivation renders <i>Bacteroides fragilis</i> hypersusceptible to metronidazole and cancels high-level metronidazole resistance. <i>Journal of Antimicrobial Chemotherapy</i> , 2022, 77, 1027-1031.	3.0	7
3	Characterization of the components of the thioredoxin system in <i>Bacteroides fragilis</i> and evaluation of its activity during oxidative stress. <i>Anaerobe</i> , 2022, 73, 102507.	2.1	3
4	A novel <i>Bacteroides</i> metallo- β -lactamase (MBL) and its gene (<i>crxA</i>) in <i>Bacteroides xylanisolvens</i> revealed by genomic sequencing and functional analysis. <i>Journal of Antimicrobial Chemotherapy</i> , 2022, 77, 1553-1556.	3.0	11
5	Phenotypic and Molecular Characterization of Carbapenem-Heteroresistant <i>Bacteroides fragilis</i> Strains. <i>Antibiotics</i> , 2022, 11, 590.	3.7	6
6	<i>Corynebacterium striatum</i> "Got Worse by a Pandemic?". <i>Pathogens</i> , 2022, 11, 685.	2.8	8
7	Molecular characterization of metronidazole resistant <i>Bacteroides</i> strains from Kuwait. <i>Anaerobe</i> , 2021, 69, 102357.	2.1	7
8	An update on ampicillin resistance and β -lactamase genes of <i>Bacteroides</i> spp.. <i>Journal of Medical Microbiology</i> , 2021, 70, .	1.8	5
9	Correlation between antibiotic resistance and clinical outcome of anaerobic infections; mini-review. <i>Anaerobe</i> , 2021, 72, 102463.	2.1	9
10	The microbial composition of the initial insult can predict the prognosis of experimental sepsis. <i>Scientific Reports</i> , 2021, 11, 22772.	3.3	4
11	Detection of beta-lactamase production in clinical <i>Prevotella</i> species by MALDI-TOF MS method. <i>Anaerobe</i> , 2020, 65, 102240.	2.1	8
12	To resist and persist: Important factors in the pathogenesis of <i>Bacteroides fragilis</i> . <i>Microbial Pathogenesis</i> , 2020, 149, 104506.	2.9	36
13	A Europe-wide assessment of antibiotic resistance rates in <i>Bacteroides</i> and <i>Parabacteroides</i> isolates from intestinal microbiota of healthy subjects. <i>Anaerobe</i> , 2020, 62, 102182.	2.1	26
14	Prevalence and antimicrobial susceptibility of enterotoxigenic extra-intestinal <i>Bacteroides fragilis</i> among 13-year collection of isolates in Kuwait. <i>BMC Microbiology</i> , 2020, 20, 14.	3.3	6
15	Chicken or the Egg: Microbial Alterations in Biopsy Samples of Patients with Oral Potentially Malignant Disorders. <i>Pathology and Oncology Research</i> , 2019, 25, 1023-1033.	1.9	14
16	High prevalence of division II (<i>cfiA</i> positive) isolates among blood stream <i>Bacteroides fragilis</i> in Slovenia as determined by MALDI-TOF MS. <i>Anaerobe</i> , 2019, 58, 30-34.	2.1	20
17	<i>Bacteroides fragilis</i> : A whole MALDI-based workflow from identification to confirmation of carbapenemase production for routine laboratories. <i>Anaerobe</i> , 2018, 54, 246-253.	2.1	21
18	Molecular characterisation of multidrug-resistant <i>Bacteroides</i> isolates from Hungarian clinical samples. <i>Journal of Global Antimicrobial Resistance</i> , 2018, 13, 65-69.	2.2	17

#	ARTICLE	IF	CITATIONS
19	A multicentre survey of the antibiotic susceptibility of clinical <i>Bacteroides</i> species from Hungary. <i>Infectious Diseases</i> , 2018, 50, 372-380.	2.8	18
20	The first characterized carbapenem-resistant <i>Bacteroides fragilis</i> strain from Croatia and the case study for it. <i>Acta Microbiologica Et Immunologica Hungarica</i> , 2018, 65, 317-323.	0.8	3
21	Detection of enterotoxin and protease genes among Hungarian clinical <i>Bacteroides fragilis</i> isolates. <i>Anaerobe</i> , 2017, 48, 98-102.	2.1	8
22	MALDI-TOF MS versus 16S rRNA sequencing: Minor discrepancy between tools in identification of <i>Bacteroides</i> isolates. <i>Acta Microbiologica Et Immunologica Hungarica</i> , 2017, 65, 173-181.	0.8	9
23	Lactate dehydrogenase activity in <i>Bacteroides fragilis</i> group strains with induced resistance to metronidazole. <i>Journal of Global Antimicrobial Resistance</i> , 2016, 5, 11-14.	2.2	8
24	Emergence and evolution of an international cluster of MDR <i>Bacteroides fragilis</i> isolates. <i>Journal of Antimicrobial Chemotherapy</i> , 2016, 71, 2441-2448.	3.0	47
25	Investigation of the MICs of fidaxomicin and other antibiotics against Hungarian <i>Clostridium difficile</i> isolates. <i>Anaerobe</i> , 2015, 31, 47-49.	2.1	12
26	Analysis of Romanian <i>Bacteroides</i> isolates for antibiotic resistance levels and the corresponding antibiotic resistance genes. <i>Anaerobe</i> , 2015, 31, 11-14.	2.1	19
27	Identification of antimicrobial resistance genes in multidrug-resistant clinical <i>Bacteroides fragilis</i> isolates by whole genome shotgun sequencing. <i>Anaerobe</i> , 2015, 31, 59-64.	2.1	42
28	First Hungarian case of an infection caused by multidrug-resistant <i>Bacteroides fragilis</i> strain. <i>Anaerobe</i> , 2015, 31, 55-58.	2.1	39
29	A study on Nim expression in <i>Bacteroides fragilis</i> . <i>Microbiology (United Kingdom)</i> , 2014, 160, 616-622.	1.8	24
30	Detection of carbapenemase activities of <i>Bacteroides fragilis</i> strains with matrix-assisted laser desorption ionization – Time of flight mass spectrometry (MALDI-TOF MS). <i>Anaerobe</i> , 2014, 26, 49-52.	2.1	28
31	Use of MALDI-TOF/MS for routine detection of <i>cfiA</i> gene-positive <i>Bacteroides fragilis</i> strains. <i>International Journal of Antimicrobial Agents</i> , 2014, 44, 474-475.	2.5	29
32	Instant screening and verification of carbapenemase activity in <i>Bacteroides fragilis</i> in positive blood culture, using matrix-assisted laser desorption ionization – time of flight mass spectrometry. <i>Journal of Medical Microbiology</i> , 2014, 63, 1105-1110.	1.8	37
33	The prevalence of antibiotic resistance genes in <i>Bacteroides fragilis</i> group strains isolated in different European countries. <i>Anaerobe</i> , 2013, 21, 43-49.	2.1	123
34	Molecular analysis of the carbapenem and metronidazole resistance mechanisms of <i>Bacteroides</i> strains reported in a Europe-wide antibiotic resistance survey. <i>International Journal of Antimicrobial Agents</i> , 2013, 41, 122-125.	2.5	52
35	Occurrence and analysis of rare <i>cfiA</i> – <i>bft</i> doubly positive <i>Bacteroides fragilis</i> strains. <i>Anaerobe</i> , 2013, 23, 70-73.	2.1	7
36	Extended role for insertion sequence elements in the antibiotic resistance of <i>Bacteroides</i> . <i>World Journal of Clinical Infectious Diseases</i> , 2013, 3, 1.	0.2	26

#	ARTICLE	IF	CITATIONS
37	Multidrug-resistant <i>Bacteroides fragilis</i> group on the rise in Europe?. <i>Journal of Medical Microbiology</i> , 2012, 61, 1784-1788.	1.8	68
38	Fungaemia caused by <i>Candida pulcherrima</i> . <i>Medical Mycology</i> , 2012, 50, 522-524.	0.7	6
39	Susceptibility profiles and resistance genes for carbapenems (<i>cfiA</i>) and metronidazole (<i>nim</i>) among <i>Bacteroides</i> species in a Turkish University Hospital. <i>Anaerobe</i> , 2012, 18, 169-171.	2.1	28
40	Investigation of the prevalence of <i>tetQ</i> , <i>tetX</i> and <i>tetX1</i> genes in <i>Bacteroides</i> strains with elevated tigecycline minimum inhibitory concentrations. <i>International Journal of Antimicrobial Agents</i> , 2011, 38, 522-525.	2.5	75
41	Differentiation of division I (<i>cfiA</i> -negative) and division II (<i>cfiA</i> -positive) <i>Bacteroides fragilis</i> strains by matrix-assisted laser desorption/ionization time-of-flight mass spectrometry. <i>Journal of Medical Microbiology</i> , 2011, 60, 1584-1590.	1.8	111
42	Molecular analysis of the effector mechanisms of ceftiofloxacin resistance among <i>Bacteroides</i> strains. <i>Journal of Antimicrobial Chemotherapy</i> , 2011, 66, 2492-2500.	3.0	27
43	Prevalence, nucleotide sequence and expression studies of two proteins of a 5.6kb, Class III, <i>Bacteroides</i> plasmid frequently found in clinical isolates from European countries. <i>Plasmid</i> , 2010, 63, 86-97.	1.4	13
44	Rare extraintestinal infection caused by toxin-producing <i>Clostridium difficile</i> . <i>Anaerobe</i> , 2010, 16, 301-303.	2.1	11
45	Outbreak of septicaemic cases caused by <i>Acinetobacter ursingii</i> in a neonatal intensive care unit. <i>International Journal of Medical Microbiology</i> , 2010, 300, 338-340.	3.6	12
46	Comparison of a Rapid Molecular Method, the BD GeneOhm Cdiff Assay, to the Most Frequently Used Laboratory Tests for Detection of Toxin-Producing <i>Clostridium difficile</i> in Diarrheal Feces. <i>Journal of Clinical Microbiology</i> , 2009, 47, 3478-3481.	3.9	55
47	Assessment of changes in the epidemiology of <i>Clostridium difficile</i> isolated from diarrheal patients in Hungary. <i>Anaerobe</i> , 2009, 15, 237-240.	2.1	17
48	A new insertion sequence element containing a <i>cfiA</i> gene in the first imipenem-resistant <i>Bacteroides fragilis</i> strain isolated in Italy. <i>International Journal of Antimicrobial Agents</i> , 2009, 34, 608-609.	2.5	1
49	Incidence, antibiotic resistance and clonal relations of MRSA strains isolated from a Romanian university hospital. <i>Acta Microbiologica Et Immunologica Hungarica</i> , 2008, 55, 1-13.	0.8	9
50	Coincidence of <i>bft</i> and <i>cfiA</i> genes in a multi-resistant clinical isolate of <i>Bacteroides fragilis</i> . <i>Journal of Medical Microbiology</i> , 2007, 56, 1416-1418.	1.8	8
51	P189 Bacteremia caused by <i>Achromobacter xylosoxidans</i> in a patient with haematological malignancy. <i>Blood Reviews</i> , 2007, 21, S145.	5.7	0
52	Examination of <i>cfiA</i> -mediated carbapenem resistance in <i>Bacteroides fragilis</i> strains from a European antibiotic susceptibility survey. <i>International Journal of Antimicrobial Agents</i> , 2006, 28, 497-502.	2.5	53
53	The Place of Molecular Genetic Methods in the Diagnostics of Human Pathogenic Anaerobic Bacteria. <i>Acta Microbiologica Et Immunologica Hungarica</i> , 2006, 53, 183-194.	0.8	24
54	Distribution of <i>Clostridium difficile</i> PCR ribotypes in regions of Hungary. <i>Journal of Medical Microbiology</i> , 2006, 55, 279-282.	1.8	18

#	ARTICLE	IF	CITATIONS
55	Molecular investigation of genetic elements contributing to metronidazole resistance in <i>Bacteroides</i> strains. <i>Journal of Antimicrobial Chemotherapy</i> , 2006, 57, 212-220.	3.0	75
56	Molecular characterization of imipenem-resistant, <i>cfiA</i> -positive <i>Bacteroides fragilis</i> isolates from the USA, Hungary and Kuwait. <i>Journal of Medical Microbiology</i> , 2004, 53, 413-419.	1.8	77
57	Community-Acquired <i>Clostridium difficile</i> Diarrhea Caused by Binary Toxin, Toxin A, and Toxin B Gene-Positive Isolates in Hungary. <i>Journal of Clinical Microbiology</i> , 2004, 42, 4316-4318.	3.9	85
58	Screening of isolates from faeces for carbapenem-resistant <i>Bacteroides</i> strains; existence of strains with novel types of resistance mechanisms. <i>International Journal of Antimicrobial Agents</i> , 2004, 24, 450-454.	2.5	18
59	Isolation and characterization of an imipenem-resistant <i>Bacteroides fragilis</i> strain from a prostate abscess in a dog. <i>Veterinary Microbiology</i> , 2002, 84, 187-190.	1.9	4
60	Prevalence and Characterization of <i>nim</i> Genes of <i>Bacteroides</i> spp. Isolated in Hungary. <i>Anaerobe</i> , 2002, 8, 175-179.	2.1	17
61	Occurrence of metronidazole and imipenem resistance among <i>bacteroides fragilis</i> group clinical isolates in Hungary. <i>Acta Biologica Hungarica</i> , 2001, 52, 271-280.	0.7	18
62	A clinical isolate of <i>Bacteroides fragilis</i> from Hungary with high-level resistance to imipenem. <i>Journal of Medical Microbiology</i> , 2001, 50, 107-107.	1.8	4
63	PCR ribotyping of clinically important <i>Clostridium difficile</i> strains from Hungary. <i>Journal of Medical Microbiology</i> , 2001, 50, 1082-1086.	1.8	14
64	Molecular Relatedness of the Prevalent Cryptic Plasmids of <i>Bacteroides</i> Species Isolated in Hungary. <i>Anaerobe</i> , 2000, 6, 179-185.	2.1	2
65	Prevalence of the carbapenemase gene (<i>cfiA</i>) among clinical and normal flora isolates of <i>Bacteroides</i> species in Hungary. <i>Journal of Medical Microbiology</i> , 2000, 49, 427-430.	1.8	22
66	Characterisation of a 5.5-kb cryptic plasmid present in different isolates of <i>Bacteroides</i> spp. originating from Hungary. <i>Journal of Medical Microbiology</i> , 1999, 48, 25-31.	1.8	8
67	Overexpression and purification of enzymatically active recombinant integrase protein of rous sarcoma virus. <i>Virus Genes</i> , 1992, 6, 301-306.	1.6	2
68	Modulation of Iron Import and Metronidazole Resistance in <i>Bacteroides fragilis</i> Harboring a <i>nimA</i> Gene. <i>Frontiers in Microbiology</i> , 0, 13, .	3.5	11
