| #  | Paper                                                                                                                                                                                                                                 | IF  | Citations |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 48 | An integrative literature review of psychosocial factors in the transition to parenthood following non-donor-assisted reproduction compared with spontaneously conceiving couples. <i>Human Fertility</i> , <b>2021</b> , 24, 249-266 | 1.9 | 5         |
| 47 | Understanding factors affecting breastfeeding practices in one city in the Kingdom of Saudi Arabia: an interpretative phenomenological study. <i>International Breastfeeding Journal</i> , <b>2021</b> , 16, 9                        | 3.8 | 1         |
| 46 | Qualitative evaluation of an innovative midwifery continuity scheme: Lessons from using a quality care framework. <i>Birth</i> , <b>2020</b> , 47, 378-388                                                                            | 3.1 | 0         |
| 45 | Process lessons from evaluating a combined continuity of carer and home birth scheme. <i>Birth</i> , <b>2020</b> , 47, 389-396                                                                                                        | 3.1 |           |
| 44 | Exploring the qualities of midwifery-led continuity of care in Australia (MiLCCA) using the quality maternal and newborn care framework. <i>Women and Birth</i> , <b>2020</b> , 33, 125-134                                           | 3.3 | 9         |
| 43 | Counselling interventions to enable women to initiate and continue breastfeeding: a systematic review and meta-analysis. <i>International Breastfeeding Journal</i> , <b>2019</b> , 14, 42                                            | 3.8 | 31        |
| 42 | Using the Quality Maternal and Newborn Care Framework to evaluate women's experiences of different models of care: A qualitative study. <i>Midwifery</i> , <b>2019</b> , 73, 26-34                                                    | 2.8 | 7         |
| 41 | Using a quality care framework to evaluate user and provider experiences of maternity care: A comparative study. <i>Midwifery</i> , <b>2019</b> , 73, 17-25                                                                           | 2.8 | 5         |
| 40 | Infant and young child feeding in emergencies: Organisational policies and activities during the refugee crisis in Lebanon. <i>Maternal and Child Nutrition</i> , <b>2018</b> , 14, e12576                                            | 3.4 | 12        |
| 39 | Adapting the Quality Maternal and Newborn Care (QMNC) Framework to evaluate models of antenatal care: A pilot study. <i>PLoS ONE</i> , <b>2018</b> , 13, e0200640                                                                     | 3.7 | 9         |
| 38 | Antenatal care trial interventions: a systematic scoping review and taxonomy development of care models. <i>BMC Pregnancy and Childbirth</i> , <b>2017</b> , 17, 8                                                                    | 3.2 | 9         |
| 37 | Evaluation of a retrospective diary for peri-conceptual and mid-pregnancy drinking in Scotland: a cross-sectional study. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , <b>2017</b> , 96, 53-60                                | 3.8 | 2         |
| 36 | Peri-conceptual and mid-pregnancy drinking: a cross-sectional assessment in two Scottish health board areas using a 7-day Retrospective Diary. <i>Journal of Advanced Nursing</i> , <b>2017</b> , 73, 375-385                         | 3.1 | 4         |
| 35 | Peri-Conceptual and Mid-Pregnancy Alcohol Consumption: A Comparison between Areas of High and Low Deprivation in Scotland. <i>Birth</i> , <b>2016</b> , 43, 320-327                                                                   | 3.1 | 1         |
| 34 | Midwifery-led antenatal care models: mapping a systematic review to an evidence-based quality framework to identify key components and characteristics of care. <i>BMC Pregnancy and Childbirth</i> , <b>2016</b> , 16, 168           | 3.2 | 21        |
| 33 | Exploration of preterm birth rates associated with different models of antenatal midwifery care in Scotland: Unmatched retrospective cohort analysis. <i>Midwifery</i> , <b>2015</b> , 31, 590-6                                      | 2.8 | 1         |
| 32 | Translation and cultural adaptation of the Mother-Generated Index into Brazilian Portuguese: A postnatal quality of life study. <i>Midwifery</i> , <b>2015</b> , 31, 735-41                                                           | 2.8 | 3         |

|    |                                                                                                                                                                                                                                                                             |     |    |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|----|
| 31 | The feasibility and acceptability of using the Mother-Generated Index (MGI) as a Patient Reported Outcome Measure in a randomised controlled trial of maternity care. <i>BMC Medical Research Methodology</i> , <b>2015</b> , 15, 100                                       | 4.7 | 13 |
| 30 | The midwives aren't allowed to tell you perceived infant feeding policy restrictions in a formula feeding culture - the Feeding Your Baby Study. <i>Midwifery</i> , <b>2014</b> , 30, e49-55                                                                                | 2.8 | 19 |
| 29 | Unique and proforma birth plans: a qualitative exploration of midwives' experiences. <i>Midwifery</i> , <b>2014</b> , 30, 885-91                                                                                                                                            | 2.8 | 15 |
| 28 | Women's expectations and experiences of childbirth in a Kenyan public hospital. <i>African Journal of Midwifery and Women's Health</i> , <b>2014</b> , 8, 115-121                                                                                                           | 0.2 | 9  |
| 27 | Cross-cultural adaptation and translation of a quality of life tool for new mothers: a methodological and experiential account from six countries. <i>Journal of Advanced Nursing</i> , <b>2013</b> , 69, 970-80                                                            | 3.1 | 10 |
| 26 | Infant feeding in Eastern Scotland: a longitudinal mixed methods evaluation of antenatal intentions and postnatal satisfaction--the Feeding Your Baby study. <i>Midwifery</i> , <b>2013</b> , 29, e49-56                                                                    | 2.8 | 16 |
| 25 | Prediction of initiation and cessation of breastfeeding from late pregnancy to 16 weeks: the Feeding Your Baby (FYB) cohort study. <i>BMJ Open</i> , <b>2013</b> , 3,                                                                                                       | 3   | 18 |
| 24 | Validation of the Mother-Generated Index in Iran: A Specific Postnatal Quality-of-Life Instrument. <i>International Journal of Preventive Medicine</i> , <b>2013</b> , 4, 1371-9                                                                                            | 1.6 | 9  |
| 23 | Evaluating the reliability, validity, acceptability, and practicality of SMS text messaging as a tool to collect research data: results from the Feeding Your Baby project. <i>Journal of the American Medical Informatics Association: JAMIA</i> , <b>2012</b> , 19, 744-9 | 8.6 | 45 |
| 22 | Care and environment in midwife-led and obstetric-led units: a comparison of mothers' and birth partners' perceptions. <i>Midwifery</i> , <b>2011</b> , 27, 880-6                                                                                                           | 2.8 | 12 |
| 21 | Maternal quality of life assessment: the feasibility of antenatal/postnatal follow-up using the Mother-Generated Index. <i>Journal of Reproductive and Infant Psychology</i> , <b>2011</b> , 29, 183-194                                                                    | 2.9 | 8  |
| 20 | Examining autonomy's boundaries: a follow-up review of perinatal mortality cases in UK independent midwifery. <i>Birth</i> , <b>2010</b> , 37, 280-7                                                                                                                        | 3.1 | 26 |
| 19 | Outcomes for births booked under an independent midwife and births in NHS maternity units: matched comparison study. <i>BMJ, The</i> , <b>2009</b> , 338, b2060                                                                                                             | 5.9 | 17 |
| 18 | An exploratory study to assess the acceptability of an antenatal quality-of-life instrument (the Mother-generated Index). <i>Midwifery</i> , <b>2008</b> , 24, 442-50                                                                                                       | 2.8 | 14 |
| 17 | Maternity unit design: background to multi-site study in England. <i>British Journal of Midwifery</i> , <b>2008</b> , 16, 29-33                                                                                                                                             | 0.3 | 6  |
| 16 | Maternity unit design study part 2: perceptions of space and layout. <i>British Journal of Midwifery</i> , <b>2008</b> , 16, 110-114                                                                                                                                        | 0.3 | 13 |
| 15 | Maternity unit design study part 3: environmental comfort and control. <i>British Journal of Midwifery</i> , <b>2008</b> , 16, 167-171                                                                                                                                      | 0.3 | 9  |
| 14 | Maternity unit design study part 4: midwives' perceptions of staff facilities. <i>British Journal of Midwifery</i> , <b>2008</b> , 16, 228-231                                                                                                                              | 0.3 | 13 |

|    |                                                                                                                                                                                                             |     |    |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|----|
| 13 | Third degree tears: the three-stage negligence test. <i>British Journal of Midwifery</i> , <b>2008</b> , 16, 192-193                                                                                        | 0.3 | 3  |
| 12 | Commentary on Hung C-H (2006) Revalidation of the postpartum stress scale. <i>Journal of Clinical Nursing</i> 15, 718-725. <i>Journal of Clinical Nursing</i> , <b>2007</b> , 16, 1771-2; discussion 1773-5 | 3.2 | 1  |
| 11 | Self-rated "no-" and "low-" risk pregnancy: a comparison of outcomes for women in obstetric-led and midwife-led units in England. <i>Birth</i> , <b>2007</b> , 34, 323-30                                   | 3.1 | 8  |
| 10 | An exploratory mixed-methods study of Scottish midwives' understandings and perceptions of clinical near misses in maternity care. <i>Midwifery</i> , <b>2006</b> , 22, 125-36                              | 2.8 | 4  |
| 9  | The changing medicolegal climate for midwives. <i>British Journal of Midwifery</i> , <b>2003</b> , 11, S30-S32                                                                                              | 0.3 | 2  |
| 8  | Postnatal quality of life: a pilot study using the Mother-Generated Index. <i>Journal of Advanced Nursing</i> , <b>2003</b> , 42, 21-9                                                                      | 3.1 | 38 |
| 7  | Postnatal quality of life assessment: validation of the Mother-Generated Index. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , <b>2003</b> , 110, 865-868                            | 3.7 | 38 |
| 6  | A review of mothers' prenatal and postnatal quality of life. <i>Health and Quality of Life Outcomes</i> , <b>2003</b> , 1, 38                                                                               | 3   | 33 |
| 5  | A qualitative study of pregnant teenagers' perceptions of the acceptability of a nutritional education intervention. <i>Midwifery</i> , <b>2003</b> , 19, 140-7                                             | 2.8 | 18 |
| 4  | Postnatal quality of life assessment: validation of the Mother-Generated Index. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , <b>2003</b> , 110, 865-8                              | 3.7 | 17 |
| 3  | Postnatal quality of life assessment: introducing the mother-generated index. <i>Birth</i> , <b>2002</b> , 29, 40-6                                                                                         | 3.1 | 56 |
| 2  | The significance of time factors in cerebral palsy litigation. <i>Midwifery</i> , <b>2002</b> , 18, 35-42                                                                                                   | 2.8 | 3  |
| 1  | Litigation and defensive clinical practice: quantifying the problem. <i>Midwifery</i> , <b>2000</b> , 16, 8-14                                                                                              | 2.8 | 34 |
