1	What Is Ego Depletion? Toward a Mechanistic Revision of the Resource Model of Self-Control. <i>Perspectives on Psychological Science</i> , 2012, 7, 450-463.	5.2	742
2	Improving adolescents' standardized test performance: An intervention to reduce the effects of stereotype threat. <i>Journal of Applied Developmental Psychology</i> , 2003, 24, 645-662.	0.8	718
3	A Multilab Preregistered Replication of the Ego-Depletion Effect. <i>Perspectives on Psychological Science</i> , 2016, 11, 546-573.	5.2	660
4	Why self-control seems (but may not be) limited. <i>Trends in Cognitive Sciences</i> , 2014, 18, 127-133.	4.0	642
5	A Threatening Intellectual Environment: Why Females Are Susceptible to Experiencing Problem-Solving Deficits in the Presence of Males. <i>Psychological Science</i> , 2000, 11, 365-371.	1.8	639
6	The Effort Paradox: Effort Is Both Costly and Valued. <i>Trends in Cognitive Sciences</i> , 2018, 22, 337-349.	4.0	391
7	Emotional foundations of cognitive control. <i>Trends in Cognitive Sciences</i> , 2015, 19, 126-132.	4.0	379
8	Understanding all inconsistency compensation as a palliative response to violated expectations. <i>Trends in Cognitive Sciences</i> , 2012, 16, 285-291.	4.0	371
9	Inside the Mindful Mind. <i>Current Directions in Psychological Science</i> , 2013, 22, 449-454.	2.8	369
10	Stereotype threat and executive resource depletion: Examining the influence of emotion regulation.. <i>Journal of Experimental Psychology: General</i> , 2008, 137, 691-705.	1.5	343
11	Stigma as Ego Depletion. <i>Psychological Science</i> , 2006, 17, 262-269.	1.8	337
12	Neural Markers of Religious Conviction. <i>Psychological Science</i> , 2009, 20, 385-392.	1.8	282
13	Why Are Self-Report and Behavioral Measures Weakly Correlated?. <i>Trends in Cognitive Sciences</i> , 2020, 24, 267-269.	4.0	276
14	Running on Empty. <i>Psychological Science</i> , 2007, 18, 933-937.	1.8	248
15	Stereotype threat spillover: How coping with threats to social identity affects aggression, eating, decision making, and attention.. <i>Journal of Personality and Social Psychology</i> , 2010, 99, 467-481.	2.6	237
16	Empathy constrained: Prejudice predicts reduced mental simulation of actions during observation of outgroups. <i>Journal of Experimental Social Psychology</i> , 2010, 46, 841-845.	1.3	226
17	Meditation, mindfulness and executive control: the importance of emotional acceptance and brain-based performance monitoring. <i>Social Cognitive and Affective Neuroscience</i> , 2013, 8, 85-92.	1.5	221
18	The Five "A"s of Meaning Maintenance: Finding Meaning in the Theories of Sense-Making. <i>Psychological Inquiry</i> , 2012, 23, 317-335.	0.4	217

#	ARTICLE	IF	CITATIONS
19	Is Ego Depletion Real? An Analysis of Arguments. <i>Personality and Social Psychology Review</i> , 2019, 23, 107-131.	3.4	217
20	Arousal and stereotype threat. <i>Journal of Experimental Social Psychology</i> , 2005, 41, 174-181.	1.3	210
21	Self-Control as Value-Based Choice. <i>Current Directions in Psychological Science</i> , 2017, 26, 422-428.	2.8	204
22	The Devil You Know. <i>Psychological Science</i> , 2008, 19, 962-967.	1.8	199
23	Dispositional mindfulness and the attenuation of neural responses to emotional stimuli. <i>Social Cognitive and Affective Neuroscience</i> , 2013, 8, 93-99.	1.5	183
24	Integrating Models of Self-Regulation. <i>Annual Review of Psychology</i> , 2021, 72, 319-345.	9.9	182
25	Do needs for security and certainty predict cultural and economic conservatism? A cross-national analysis.. <i>Journal of Personality and Social Psychology</i> , 2014, 106, 1031-1051.	2.6	177
26	Empathy is hard work: People choose to avoid empathy because of its cognitive costs.. <i>Journal of Experimental Psychology: General</i> , 2019, 148, 962-976.	1.5	169
27	Saying "no" to temptation: Want-to motivation improves self-regulation by reducing temptation rather than by increasing self-control.. <i>Journal of Personality and Social Psychology</i> , 2015, 109, 677-693.	2.6	159
28	The Psychology of Rituals: An Integrative Review and Process-Based Framework. <i>Personality and Social Psychology Review</i> , 2018, 22, 260-284.	3.4	152
29	Reflecting on God. <i>Psychological Science</i> , 2010, 21, 1184-1190.	1.8	151
30	Intergroup differences in the sharing of emotive states: neural evidence of an empathy gap. <i>Social Cognitive and Affective Neuroscience</i> , 2012, 7, 596-603.	1.5	151
31	Exploring the Mechanisms of Self-Control Improvement. <i>Current Directions in Psychological Science</i> , 2014, 23, 302-307.	2.8	150
32	Self-determination, self-regulation, and the brain: Autonomy improves performance by enhancing neuroaffective responsiveness to self-regulation failure.. <i>Journal of Personality and Social Psychology</i> , 2013, 105, 123-138.	2.6	143
33	The Ups and Downs of Attributional Ambiguity. <i>Psychological Science</i> , 2004, 15, 829-836.	1.8	141
34	Sex differences in response to physical and social factors involved in human mate selection. <i>Evolution and Human Behavior</i> , 2002, 23, 359-364.	1.4	136
35	Do High-Achieving Female Students Underperform in Private? The Implications of Threatening Environments on Intellectual Processing.. <i>Journal of Educational Psychology</i> , 2003, 95, 796-805.	2.1	129
36	Six Questions for the Resource Model of Control (and Some Answers). <i>Social and Personality Psychology Compass</i> , 2015, 9, 511-524.	2.0	116

#	ARTICLE	IF	CITATIONS
37	Anxiety and error monitoring: the importance of motivation and emotion. <i>Frontiers in Human Neuroscience</i> , 2013, 7, 636.	1.0	111
38	What's So Great About Self-Control? Examining the Importance of Effortful Self-Control and Temptation in Predicting Real-Life Depletion and Goal Attainment. <i>Social Psychological and Personality Science</i> , 2017, 8, 603-611.	2.4	108
39	Power changes how the brain responds to others.. <i>Journal of Experimental Psychology: General</i> , 2014, 143, 755-762.	1.5	103
40	The Past, Present, and Future of Ego Depletion. <i>Social Psychology</i> , 2019, 50, 370-378.	0.3	103
41	ERN and the placebo: A misattribution approach to studying the arousal properties of the error-related negativity.. <i>Journal of Experimental Psychology: General</i> , 2012, 141, 799-807.	1.5	98
42	A Cognitive Control Perspective of Self-Control Strength and Its Depletion. <i>Social and Personality Psychology Compass</i> , 2010, 4, 189-200.	2.0	96
43	Error-related negativity predicts academic performance. <i>Psychophysiology</i> , 2010, 47, 192-196.	1.2	95
44	A particular resiliency to threatening environments. <i>Journal of Experimental Social Psychology</i> , 2006, 42, 323-336.	1.3	94
45	The need to believe: a neuroscience account of religion as a motivated process. <i>Religion, Brain and Behavior</i> , 2011, 1, 192-212.	0.4	89
46	To which world regions does the valence dominance model of social perception apply?. <i>Nature Human Behaviour</i> , 2021, 5, 159-169.	6.2	85
47	Mimicry reduces racial prejudice. <i>Journal of Experimental Social Psychology</i> , 2012, 48, 361-365.	1.3	76
48	A Multisite Preregistered Paradigmatic Test of the Ego-Depletion Effect. <i>Psychological Science</i> , 2021, 32, 1566-1581.	1.8	76
49	Reward sensitivity following boredom and cognitive effort: A high-powered neurophysiological investigation. <i>Neuropsychologia</i> , 2019, 123, 159-168.	0.7	74
50	Self-Control in Cyberspace. , 2019, , .		71
51	Mind the gap: Increasing associations between the self and blacks with approach behaviors.. <i>Journal of Personality and Social Psychology</i> , 2011, 100, 197-210.	2.6	69
52	Reported Self-control is not Meaningfully Associated with Inhibition-related Executive Function: A Bayesian Analysis. <i>Collabra: Psychology</i> , 2018, 4, .	0.9	66
53	Strong Effort Manipulations Reduce Response Caution: A Preregistered Reinvention of the Ego-Depletion Paradigm. <i>Psychological Science</i> , 2020, 31, 531-547.	1.8	63
54	Approach-related left prefrontal EEG asymmetry predicts muted error-related negativity. <i>Biological Psychology</i> , 2012, 91, 96-102.	1.1	58

#	ARTICLE	IF	CITATIONS
55	The Neuroscience of Stigma and Stereotype Threat. <i>Group Processes and Intergroup Relations</i> , 2008, 11, 163-181.	2.4	55
56	Emotion down-regulation diminishes cognitive control: A neurophysiological investigation.. <i>Emotion</i> , 2014, 14, 1014-1026.	1.5	55
57	Right frontal cortical asymmetry predicts empathic reactions: Support for a link between withdrawal motivation and empathy. <i>Psychophysiology</i> , 2012, 49, 1145-1153.	1.2	54
58	The voice of self-control: Blocking the inner voice increases impulsive responding. <i>Acta Psychologica</i> , 2010, 135, 252-256.	0.7	52
59	#EEGManyLabs: Investigating the replicability of influential EEG experiments. <i>Cortex</i> , 2021, 144, 213-229.	1.1	52
60	Toward a Biological Understanding of Mortality Salience (And Other Threat Compensation) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 542 To	0.5	50
61	How Emotions Shape Moral Behavior: Some Answers (and Questions) for the Field of Moral Psychology. <i>Social and Personality Psychology Compass</i> , 2015, 9, 1-14.	2.0	50
62	Threat, high self-esteem, and reactive approach-motivation: Electroencephalographic evidence. <i>Journal of Experimental Social Psychology</i> , 2009, 45, 1003-1007.	1.3	49
63	The emotive nature of conflict monitoring in the medial prefrontal cortex. <i>International Journal of Psychophysiology</i> , 2017, 119, 31-40.	0.5	49
64	Midfrontal theta and pupil dilation parametrically track subjective conflict (but also surprise) during intertemporal choice. <i>NeuroImage</i> , 2018, 172, 838-852.	2.1	48
65	Preserving Integrity in the Face of Performance Threat. <i>Psychological Science</i> , 2012, 23, 1455-1460.	1.8	46
66	Registered Replication Report: Dijksterhuis and van Knippenberg (1998). <i>Perspectives on Psychological Science</i> , 2018, 13, 268-294.	5.2	46
67	Anticipating cognitive effort: roles of perceived error-likelihood and time demands. <i>Psychological Research</i> , 2019, 83, 1033-1056.	1.0	45
68	The Experience of Empathy in Everyday Life. <i>Psychological Science</i> , 2021, 32, 1198-1213.	1.8	45
69	Is dissonance reduction a special case of fluid compensation? Evidence that dissonant cognitions cause compensatory affirmation and abstraction.. <i>Journal of Personality and Social Psychology</i> , 2015, 108, 697-710.	2.6	43
70	Many Labs 5: Testing Pre-Data-Collection Peer Review as an Intervention to Increase Replicability. <i>Advances in Methods and Practices in Psychological Science</i> , 2020, 3, 309-331.	5.4	42
71	News of Ego Depletion's Demise is Premature: Commentary on Carter, Kofler, Forster, & Mccullough, 2015. <i>SSRN Electronic Journal</i> , 0, , .	0.4	41
72	Trait Approach Motivation Relates to Dissonance Reduction. <i>Social Psychological and Personality Science</i> , 2011, 2, 21-28.	2.4	40

#	ARTICLE	IF	CITATIONS
73	The face of chauvinism: How prejudice expectations shape perceptions of facial affect. <i>Journal of Experimental Social Psychology</i> , 2008, 44, 758-766.	1.3	39
74	Error-related electromyographic activity over the corrugator supercilii is associated with neural performance monitoring. <i>Psychophysiology</i> , 2016, 53, 159-170.	1.2	39
75	The Central Governor Model of Exercise Regulation Teaches Us Precious Little about the Nature of Mental Fatigue and Self-Control Failure. <i>Frontiers in Psychology</i> , 2016, 7, 656.	1.1	38
76	Mindful awareness of feelings increases neural performance monitoring. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2016, 16, 93-105.	1.0	38
77	God will forgive: reflecting on God's love decreases neurophysiological responses to errors. <i>Social Cognitive and Affective Neuroscience</i> , 2015, 10, 357-363.	1.5	35
78	Self-control in daily life: Prevalence and effectiveness of diverse self-control strategies. <i>Journal of Personality</i> , 2021, 89, 634-651.	1.8	35
79	Lingering Effects: Stereotype Threat Hurts More than You Think. <i>Social Issues and Policy Review</i> , 2011, 5, 227-256.	3.7	31
80	What does cognitive control feel like? Effective and ineffective cognitive control is associated with divergent phenomenology. <i>Psychophysiology</i> , 2015, 52, 1205-1217.	1.2	30
81	Acetaminophen attenuates error evaluation in cortex. <i>Social Cognitive and Affective Neuroscience</i> , 2016, 11, 899-906.	1.5	30
82	Assessing and adjusting for publication bias in the relationship between anxiety and the error-related negativity. <i>International Journal of Psychophysiology</i> , 2020, 155, 87-98.	0.5	29
83	Randomness increases self-reported anxiety and neurophysiological correlates of performance monitoring. <i>Social Cognitive and Affective Neuroscience</i> , 2015, 10, 628-635.	1.5	28
84	Variation in Cognitive Control as Emotion Regulation. <i>Psychological Inquiry</i> , 2015, 26, 108-115.	0.4	27
85	Promises and Perils of Experimentation: The Mutual-Internal-Validity Problem. <i>Perspectives on Psychological Science</i> , 2021, 16, 854-863.	5.2	26
86	Electrophysiological indices of anterior cingulate cortex function reveal changing levels of cognitive effort and reward valuation that sustain task performance. <i>Neuropsychologia</i> , 2019, 123, 67-76.	0.7	25
87	Stigma Building Blocks. <i>Personality and Social Psychology Bulletin</i> , 2012, 38, 357-369.	1.9	23
88	Mindful acceptance dampens neuroaffective reactions to external and rewarding performance feedback.. <i>Emotion</i> , 2014, 14, 105-114.	1.5	23
89	When Novel Rituals Lead to Intergroup Bias: Evidence From Economic Games and Neurophysiology. <i>Psychological Science</i> , 2017, 28, 733-750.	1.8	23
90	Implicit moral evaluations: A multinomial modeling approach. <i>Cognition</i> , 2017, 158, 224-241.	1.1	23

#	ARTICLE	IF	CITATIONS
91	Motivational effects on empathic choices. <i>Journal of Experimental Social Psychology</i> , 2020, 90, 104010.	1.3	23
92	Development of a Within-Subject, Repeated-Measures Ego-Depletion Paradigm. <i>Social Psychology</i> , 2018, 49, 271-286.	0.3	20
93	Interpersonal touch enhances cognitive control: A neurophysiological investigation.. <i>Journal of Experimental Psychology: General</i> , 2018, 147, 1066-1077.	1.5	20
94	Moderated Disanxiousuncertlibrium: Specifying the Moderating and Neuroaffective Determinants of Violation-Compensation Effects. <i>Psychological Inquiry</i> , 2012, 23, 386-396.	0.4	19
95	Rituals decrease the neural response to performance failure. <i>PeerJ</i> , 2017, 5, e3363.	0.9	19
96	Rightâ€œfrontal cortical asymmetry predicts increased proneness to nostalgia. <i>Psychophysiology</i> , 2015, 52, 990-996.	1.2	17
97	On being the target of prejudice: Educational implications. , 2009, , 13-37.		16
98	A pre-registered naturalistic observation of within domain mental fatigue and domain-general depletion of self-control. <i>PLoS ONE</i> , 2017, 12, e0182980.	1.1	16
99	Beyond simple utility in predicting self-control fatigue: A proximate alternative to the opportunity cost model. <i>Behavioral and Brain Sciences</i> , 2013, 36, 695-696.	0.4	15
100	Muted neural response to distress among securely attached people. <i>Social Cognitive and Affective Neuroscience</i> , 2014, 9, 1239-1245.	1.5	15
101	Ideological reactivity: Political conservatism and brain responsivity to emotional and neutral stimuli.. <i>Emotion</i> , 2016, 16, 1172-1185.	1.5	15
102	Preliminary Support for a Generalized Arousal Model of Political Conservatism. <i>PLoS ONE</i> , 2013, 8, e83333.	1.1	15
103	Confronting Threats to Meaning. <i>Perspectives on Psychological Science</i> , 2011, 6, 447-453.	5.2	14
104	Active Transgressions and Moral Elusions. <i>Social Psychological and Personality Science</i> , 2011, 2, 284-288.	2.4	14
105	The mere presence of an outgroup member disrupts the brainâ€™s feedback-monitoring system. <i>Social Cognitive and Affective Neuroscience</i> , 2016, 11, 1698-1706.	1.5	13
106	Confounding valence and arousal: What really underlies political orientation?. <i>Behavioral and Brain Sciences</i> , 2014, 37, 330-331.	0.4	12
107	Errors in Moral Forecasting. <i>Personality and Social Psychology Bulletin</i> , 2015, 41, 887-900.	1.9	12
108	When does empathy feel good?. <i>Current Opinion in Behavioral Sciences</i> , 2021, 39, 125-129.	2.0	12

#	ARTICLE	IF	CITATIONS
109	Stability and reliability of error-related electromyography over the corrugator supercilii with increasing trials. <i>Psychophysiology</i> , 2017, 54, 1559-1573.	1.2	11
110	Empathy choice in physicians and non-physicians. <i>British Journal of Social Psychology</i> , 2020, 59, 715-732.	1.8	11
111	Do people avoid mental effort after facing a highly demanding task?. <i>Journal of Experimental Social Psychology</i> , 2020, 90, 104008.	1.3	11
112	Willpower is overrated. <i>Behavioral and Brain Sciences</i> , 2021, 44, e42.	0.4	11
113	Existential neuroscience: a proximate explanation of religion as flexible meaning and palliative. <i>Religion, Brain and Behavior</i> , 2011, 1, 244-251.	0.4	10
114	Social Neuroscience and Public Policy on Intergroup Relations: A Hegelian Analysis. <i>Journal of Social Issues</i> , 2010, 66, 585-601.	1.9	9
115	System justification and electrophysiological responses to feedback: Support for a positivity bias.. <i>Journal of Experimental Psychology: General</i> , 2014, 143, 1004-1010.	1.5	9
116	Neurophysiological responses to gun-shooting errors. <i>International Journal of Psychophysiology</i> , 2015, 95, 247-253.	0.5	8
117	More Effort, Less Fatigue: The Role of Interest in Increasing Effort and Reducing Mental Fatigue. <i>Frontiers in Psychology</i> , 2021, 12, 755858.	1.1	8
118	Longitudinal evidence that Event Related Potential measures of self-regulation do not predict everyday goal pursuit. <i>Nature Communications</i> , 2022, 13, .	5.8	8
119	Whither Inhibition?. <i>Current Directions in Psychological Science</i> , 2022, 31, 333-339.	2.8	8
120	Stereotype Threat Spillover: Why Stereotype Threat Is More Useful for Organizations Than It Seems. <i>Industrial and Organizational Psychology</i> , 2014, 7, 452-456.	0.5	7
121	Recognizing religion's dark side: Religious ritual increases antisociality and hinders self-control. <i>Behavioral and Brain Sciences</i> , 2016, 39, e14.	0.4	7
122	The misattribution of emotions and the error-related negativity: A registered report. <i>Cortex</i> , 2018, 109, 124-140.	1.1	7
123	Pooling resources to enhance rigour in psychophysiological research: Insights from open science approaches to meta-analysis. <i>International Journal of Psychophysiology</i> , 2021, 162, 112-120.	0.5	7
124	Investigating adult age differences in real-life empathy, prosociality, and well-being using experience sampling. <i>Scientific Reports</i> , 2022, 12, 3450.	1.6	6
125	Owning Up to Negative Ingroup Traits: How Personal Autonomy Promotes the Integration of Group Identity. <i>Journal of Personality</i> , 2017, 85, 687-701.	1.8	5
126	Many Labs 5: Registered Replication of AlbarraçAn et al. (2008), Experiment 5. <i>Advances in Methods and Practices in Psychological Science</i> , 2020, 3, 332-339.	5.4	5
