#	ARTICLE	IF	CITATIONS
1	Effects of climate change on the distribution of felids: mapping biogeographic patterns and establishing conservation priorities. <i>Biodiversity and Conservation</i> , 2021, 30, 1375-1394.	2.6	4
2	Wild dogs at stake: deforestation threatens the only Amazon endemic canid, the short-eared dog (<i>Cyonaxerus</i>). <i>Conservation Biology</i> , 2021, 35, 107-117.	2.4	17
3	Identification of priority areas for landscape connectivity maintenance in the Xingu Area of Endemism in Brazilian Amazonia. <i>Acta Amazonica</i> , 2020, 50, 68-79.	0.7	6
4	Connectivity, spatial structure and the identification of priority areas for conservation of Belém area of endemism, Amazon. <i>Anais Da Academia Brasileira De Ciências</i> , 2020, 92, e20181357.	0.8	3
5	Relationship of Neotropical otter vestiges with environmental and anthropogenic factors. <i>Acta Amazonica</i> , 2019, 49, 183-192.	0.7	4
6	Remote Sensing and Landscape Metrics for Evaluation of Secondary Vegetation Patterns in the Forest Fragmentation in an Area of the Brazilian Amazon. <i>Remote Sensing</i> , 2018, 10, 1000.		1
7	Brazilian legislation on genetic heritage harms Biodiversity Convention goals and threatens basic biology research and education. <i>Anais Da Academia Brasileira De Ciências</i> , 2018, 90, 1279-1284.	0.8	34
8	Climatically-mediated landcover change: impacts on Brazilian territory. <i>Anais Da Academia Brasileira De Ciências</i> , 2017, 89, 939-952.	0.8	9
9	Disentangling structural patterns of natural forest fragments in a savanna matrix in the eastern Brazilian Amazon. <i>Acta Amazonica</i> , 2017, 47, 111-122.	0.7	6
10	Impacts of Climate Change on Native Landcover: Seeking Future Climatic Refuges. <i>PLoS ONE</i> , 2016, 11, e0162500.	2.5	5
11	Consistency and use of information about threats in the participatory process for identification of priority conservation areas in the Brazilian Amazon. <i>Journal for Nature Conservation</i> , 2016, 30, 44-51.	1.8	6
12	Floristic impoverishment of Amazonian floodplain forests managed for açai fruit production. <i>Forest Ecology and Management</i> , 2015, 351, 20-27.	3.2	30
13	Possible impacts of climate change on wetlands and its biota in the Brazilian Amazon. <i>Brazilian Journal of Biology</i> , 2014, 74, 810-820.	0.9	51
14	Niche modelling for twelve plant species (six timber species and six palm trees) in the Amazon region, using collection and field survey data. <i>Forest Ecology and Management</i> , 2013, 310, 652-662.	3.2	13
15	Spatial and temporal changes in bird assemblages in forest fragments in an eastern Amazonian savannah. <i>Ecology and Evolution</i> , 2013, 3, 3249-3262.	1.9	12
16	Modelling the growth of tambaqui, <i>Colossoma macropomum</i> (Cuvier, 1816) in floodplain lakes: model selection and multimodel inference. <i>Brazilian Journal of Biology</i> , 2013, 73, 397-403.	0.9	5
17	Effects of isolation and environmental variables on fish community structure in the Brazilian Amazon Madeira-Purus interfluvium. <i>Brazilian Journal of Biology</i> , 2013, 73, 491-499.	0.9	7
18	Tree species compositional change and conservation implications in the white-water flooded forests of the Brazilian Amazon. <i>Journal of Biogeography</i> , 2012, 39, 869-883.	3.0	109

#	ARTICLE	IF	CITATIONS
19	Patterns of ant species diversity and turnover across 2000 km of Amazonian floodplain forest. <i>Journal of Biogeography</i> , 2010, 37, 432-440.	3.0	67
20	Mudanças Climáticas e a Biodiversidade dos Biomas Brasileiros: Passado, Presente e Futuro. <i>Natureza A Conservação</i> , 2010, 08, 194-196.	2.5	15
21	Long-term effect of forest fragmentation on the Amazonian gekkonid lizards, <i>Coleodactylus amazonicus</i> and <i>Gonatodes humeralis</i> . <i>Austral Ecology</i> , 2008, 33, 723-729.	1.5	17
22	The future of deforestation in the Brazilian Amazon. <i>Futures</i> , 2006, 38, 432-453.	2.5	171
23	Long-term effects of forest fragmentation on Amazonian ant communities. <i>Journal of Biogeography</i> , 2006, 33, 1348-1356.	3.0	62
24	Tree species distribution in <i>Várzea</i> forests of Brazilian Amazonia. <i>Folia Geobotanica</i> , 2004, 39, 371-383.	0.9	83
25	Rubber agroforests at the Tapajós river, Brazilian Amazon: environmentally benign land use systems in an old forest frontier region. <i>Agriculture, Ecosystems and Environment</i> , 2003, 97, 151-165.	5.3	51
26	A comparison of $\delta^{13}C$ ratios of surface soils in savannas and forests in Amazonia. <i>Journal of Biogeography</i> , 2002, 29, 857-863.	3.0	25
27	Bat Species Composition in Three Localities in the Amazon Basin. <i>Studies on Neotropical Fauna and Environment</i> , 2001, 36, 177-184.	1.0	30
28	Is deforestation accelerating in the Brazilian Amazon?. <i>Environmental Conservation</i> , 2001, 28, 305-311.	1.3	72
29	Diversity and distribution of frogs in an Amazonian savanna in Brazil. <i>Amphibia - Reptilia</i> , 2000, 21, 317-326.	0.5	24
30	Title is missing!. <i>International Journal of Primatology</i> , 1999, 20, 665-677.	1.9	17
31	Home Range Size and Habitat Use in the Black Lion Tamarin (<i>Leontopithecus chrysopygus</i>). <i>International Journal of Primatology</i> , 1997, 18, 877-887.	1.9	8
