#	ARTICLE	IF	CITATIONS
1	Leveraging Administrative Data to Better Understand and Address Child Maltreatment: A Scoping Review of Data Linkage Studies. <i>Child Maltreatment</i> , 2023, 28, 176-195.	2.0	9
2	Gestational age at birth, chronic conditions and school outcomes: a population-based data linkage study of children born in England. <i>International Journal of Epidemiology</i> , 2023, 52, 132-143.	0.9	5
3	Data Resource Profile: The Education and Child Health Insights from Linked Data (ECHILD) Database. <i>International Journal of Epidemiology</i> , 2022, 51, 17-17f.	0.9	18
4	Rapid intrapartum test for maternal group B streptococcal colonisation and its effect on antibiotic use in labouring women with risk factors for early-onset neonatal infection (GBS2): cluster randomised trial with nested test accuracy study. <i>BMC Medicine</i> , 2022, 20, 9.	2.3	3
5	Mental health service use among mothers involved in public family law proceedings: linked data cohort study in South London 2007-2019. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2022, , 1.	1.6	6
6	Birth prevalence of anorectal malformations in England and 5-year survival: a national birth cohort study. <i>Archives of Disease in Childhood</i> , 2022, 107, 758-766.	1.0	6
7	Evaluation of pushing out of children from all English state schools: Administrative data cohort study of children receiving social care and their peers. <i>Child Abuse and Neglect</i> , 2022, 127, 105582.	1.3	4
8	Autism spectrum disorders as a risk factor for adolescent self-harm: a retrospective cohort study of 113,286 young people in the UK. <i>BMC Medicine</i> , 2022, 20, 137.	2.3	7
9	Identifying adverse childhood experiences with electronic health records of linked mothers and children in England: a multistage development and validation study. <i>The Lancet Digital Health</i> , 2022, 4, e482-e496.	5.9	8
10	What makes administrative data "research-ready"? A systematic review and thematic analysis of published literature.. <i>International Journal of Population Data Science</i> , 2022, 7, 1718.	0.1	1
11	Reductions in hospital care among clinically vulnerable children aged 0-4 years during the COVID-19 pandemic. <i>Archives of Disease in Childhood</i> , 2022, 107, e31-e31.	1.0	3
12	Special educational needs, social care and health. <i>Archives of Disease in Childhood</i> , 2021, 106, 83-85.	1.0	10
13	Are children who are home from school at an increased risk of child maltreatment?. <i>Journal of Public Health</i> , 2021, 43, e127-e128.	1.0	1
14	Predictive value of indicators for identifying child maltreatment and intimate partner violence in coded electronic health records: a systematic review and meta-analysis. <i>Archives of Disease in Childhood</i> , 2021, 106, 44-53.	1.0	14
15	Linking data on women in public family law court proceedings concerning their children to mental health service records in South London. <i>International Journal of Population Data Science</i> , 2021, 6, .	0.1	4
16	Associations between pre-pregnancy psychosocial risk factors and infant outcomes: a population-based cohort study in England. <i>Lancet Public Health</i> , The, 2021, 6, e97-e105.	4.7	29
17	Intergenerational transmission of child maltreatment. <i>Lancet Public Health</i> , The, 2021, 6, e435-e436.	4.7	3
18	Ethnic bias in data linkage. <i>The Lancet Digital Health</i> , 2021, 3, e339.	5.9	9

#	ARTICLE	IF	CITATIONS
19	Challenges of using asthma admission rates as a measure of primary care quality in children: An international comparison. <i>Journal of Health Services Research and Policy</i> , 2021, 26, 251-262.	0.8	1
20	Protocol for developing core outcome sets for evaluation of psychosocial interventions for children and families with experience or at risk of child maltreatment or domestic abuse. <i>BMJ Open</i> , 2021, 11, e044431.	0.8	6
21	Linking education and hospital data in England: linkage process and quality. <i>International Journal of Population Data Science</i> , 2021, 6, 1671.	0.1	9
22	Hospital admissions for stress-related presentations among school-aged adolescents during term time versus holidays in England: weekly time series and retrospective cross-sectional analysis. <i>BJPsych Open</i> , 2021, 7, e215.	0.3	5
23	Effect of nutritionally modified infant formula on academic performance: linkage of seven dormant randomised controlled trials to national education data. <i>BMJ, The</i> , 2021, 375, e065805.	3.0	12
24	A scoping review of "think-family" approaches in healthcare settings. <i>Journal of Public Health</i> , 2020, 42, 21-37.	1.0	12
25	Origins of disparities in preventable child mortality in England and Sweden: a birth cohort study. <i>Archives of Disease in Childhood</i> , 2020, 105, 53-61.	1.0	2
26	Exploring placement stability for children in out-of-home care in England: a sequence analysis of longitudinal administrative data. <i>Child Abuse and Neglect</i> , 2020, 109, 104689.	1.3	5
27	Infant formula composition and educational performance: a protocol to extend follow-up for a set of randomised controlled trials using linked administrative education records. <i>BMJ Open</i> , 2020, 10, e035968.	0.8	3
28	Impact of matching error on linked mortality outcome in a data linkage of secondary mental health data with Hospital Episode Statistics (HES) and mortality records in South East London: a cross-sectional study. <i>BMJ Open</i> , 2020, 10, e035884.	0.8	6
29	Association between health indicators of maternal adversity and the rate of infant entry to local authority care in England: a longitudinal ecological study. <i>BMJ Open</i> , 2020, 10, e036564.	0.8	7
30	Characterizing newborn and older infant entries into care in England between 2006 and 2014. <i>Child Abuse and Neglect</i> , 2020, 109, 104760.	1.3	7
31	Evaluating the real-world implementation of the Family Nurse Partnership in England: protocol for a data linkage study. <i>BMJ Open</i> , 2020, 10, e038530.	0.8	2
32	Associations between macrolide antibiotics prescribing during pregnancy and adverse child outcomes in the UK: population based cohort study. <i>BMJ, The</i> , 2020, 368, m331.	3.0	53
33	Preventing child deaths: what do administrative data tell us?. <i>Archives of Disease in Childhood</i> , 2020, 105, 15-17.	1.0	1
34	Preterm birth, unplanned hospital contact, and mortality in infants born to teenage mothers in five countries: An administrative data cohort study. <i>Paediatric and Perinatal Epidemiology</i> , 2020, 34, 645-654.	0.8	12
35	Deprivation and mortality related to pediatric respiratory tract infection: a cohort study in 3 high-income jurisdictions. <i>CMAJ Open</i> , 2020, 8, E273-E281.	1.1	4
36	Cost-effectiveness of strategies preventing late-onset infection in preterm infants. <i>Archives of Disease in Childhood</i> , 2020, 105, 452-457.	1.0	5

#	ARTICLE	IF	CITATIONS
37	Phenotyping congenital anomalies in administrative hospital records. <i>Paediatric and Perinatal Epidemiology</i> , 2020, 34, 21-28.	0.8	10
38	Emergency paediatric critical care in England: describing trends using routine hospital data. <i>Archives of Disease in Childhood</i> , 2020, 105, 1061-1067.	1.0	4
39	Developing a national birth cohort for child health research using a hospital admissions database in England: The impact of changes to data collection practices. <i>PLoS ONE</i> , 2020, 15, e0243843.	1.1	10
40	Data Resource: Children and Family Court Advisory and Support Service (Cafcass) public family law administrative records in England. <i>International Journal of Population Data Science</i> , 2020, 5, 1159.	0.1	6
41	Antimicrobial-impregnated central venous catheters for preventing neonatal bloodstream infection: the PREVAIL RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-190.	1.3	8
42	Prevalence of Down's Syndrome in England, 1998-2013. <i>International Journal of Population Data Science</i> , 2020, 5, 1157.	0.1	8
43	Temporal trends and socioeconomic differences in acute respiratory infection hospitalisations in children: an intercountry comparison of birth cohort studies in Western Australia, England and Scotland. <i>BMJ Open</i> , 2019, 9, e028710.	0.8	6
44	Maternal childhood and lifetime traumatic life events and infant bronchiolitis. <i>Paediatric and Perinatal Epidemiology</i> , 2019, 33, 271-273.	0.8	0
45	Reducing catheter-related bloodstream infections in neonates - Authors' reply. <i>The Lancet Child and Adolescent Health</i> , 2019, 3, e12.	2.7	0
46	An approach to linking education, social care and electronic health records for children and young people in South London: a linkage study of child and adolescent mental health service data. <i>BMJ Open</i> , 2019, 9, e024355.	0.8	56
47	Antimicrobial-impregnated central venous catheters for prevention of neonatal bloodstream infection (PREVAIL): an open-label, parallel-group, pragmatic, randomised controlled trial. <i>The Lancet Child and Adolescent Health</i> , 2019, 3, 381-390.	2.7	36
48	Parental alcohol misuse has major effects on children's health and development. <i>BMJ: British Medical Journal</i> , 2019, 364, l912.	2.4	1
49	Effect of impregnated central venous catheters on thrombosis in paediatric intensive care: Post-hoc analyses of the CATCH trial. <i>PLoS ONE</i> , 2019, 14, e0214607.	1.1	0
50	Associations between use of macrolide antibiotics during pregnancy and adverse child outcomes: A systematic review and meta-analysis. <i>PLoS ONE</i> , 2019, 14, e0212212.	1.1	26
51	Long-term mortality in mothers of infants with neonatal abstinence syndrome: A population-based parallel-cohort study in England and Ontario, Canada. <i>PLoS Medicine</i> , 2019, 16, e1002974.	3.9	17
52	Million Migrants study of healthcare and mortality outcomes in non-EU migrants and refugees to England: Analysis protocol for a linked population-based cohort study of 1.5 million migrants. <i>Wellcome Open Research</i> , 2019, 4, 4.	0.9	18
53	Data Resource: the National Pupil Database (NPD). <i>International Journal of Population Data Science</i> , 2019, 4, 1101.	0.1	33
54	The contribution of child, family and health service factors to respiratory syncytial virus (RSV) hospital admissions in the first 3 years of life: birth cohort study in Scotland, 2009 to 2015. <i>Eurosurveillance</i> , 2019, 24, .	3.9	35

59	Title is missing!. , 2019, 16, e1002974.		0
60	Characteristics and mortality risk of children with life-threatening influenza infection admitted to paediatric intensive care in England 2003â€“2015. <i>Respiratory Medicine</i> , 2018, 137, 23-29.	1.3	13
61	Effectiveness of live attenuated influenza vaccine in preventing amoxicillin prescribing in preschool children: a self-controlled case series study. <i>Journal of Antimicrobial Chemotherapy</i> , 2018, 73, 779-786.	1.3	17
62	Child mortality in England compared with Sweden: a birth cohort study. <i>Lancet, The</i> , 2018, 391, 2008-2018.	6.3	62
63	GUILD: GUIdance for Information about Linking Data setsâ€™. <i>Journal of Public Health</i> , 2018, 40, 191-198.	1.0	83
64	International comparison of emergency hospital use for infants: data linkage cohort study in Canada and England. <i>BMJ Quality and Safety</i> , 2018, 27, 31-39.	1.8	25
65	A machine learning approach to identify cases of cerebral palsy using the UK primary care database. <i>Lancet, The</i> , 2018, 392, S33.	6.3	6
66	Variation in infection prevention practices for peripherally inserted central venous catheters: A survey of neonatal units in England and Wales. <i>PLoS ONE</i> , 2018, 13, e0204894.	1.1	10
67	Trends in Hospital Admissions for Nonfatal Adversity-Related Injury Among Youths in England, 2002-2016. <i>JAMA Pediatrics</i> , 2018, 172, 1095.	3.3	1
68	Impact of the introduction of a universal childhood influenza vaccination programme on influenza-related admissions to paediatric intensive care units in England. <i>BMJ Open Respiratory Research</i> , 2018, 5, e000297.	1.2	5
69	Avoidable mortality from respiratory tract infection and sudden unexplained death in children with chronic conditions: a data linkage study. <i>Archives of Disease in Childhood</i> , 2018, 103, 1125-1131.	1.0	4
70	Emergency admissions and long-term conditions during transition from paediatric to adult care: a cross-sectional study using Hospital Episode Statistics data. <i>BMJ Open</i> , 2018, 8, e021015.	0.8	16
71	Challenges of administrative data linkages: experiences of Administrative Data Research Centre for England (ADRC-E) researchers. <i>International Journal of Population Data Science</i> , 2018, 3, .	0.1	1
72	A machine-learning approach to identify cerebral palsy cases using primary care database. <i>International Journal of Population Data Science</i> , 2018, 3, .	0.1	0

#	ARTICLE	IF	CITATIONS
73	Maternal mortality of women with opioid-use during pregnancy in England: investigating bias in a cohort of linked mother-baby hospital records. <i>International Journal of Population Data Science</i> , 2018, 3, .	0.1	1
74	Estimating the burden of respiratory syncytial virus (<scp>RSV</scp>) on respiratory hospital admissions in children less than five years of age in England, 2007â€2012. <i>Influenza and Other Respiratory Viruses</i> , 2017, 11, 122-129.	1.5	87
75	Factors associated with re-entry to out-of-home care among children in England. <i>Child Abuse and Neglect</i> , 2017, 63, 73-83.	1.3	26
76	Newborn Length of Stay and Risk of Readmission. <i>Paediatric and Perinatal Epidemiology</i> , 2017, 31, 221-232.	0.8	46
77	Causes of death up to 10 years after admissions to hospitals for self-inflicted, drug-related or alcohol-related, or violent injury during adolescence: a retrospective, nationwide, cohort study. <i>Lancet, The</i> , 2017, 390, 577-587.	6.3	41
78	Risk factors for admission to hospital with laboratory-confirmed influenza in young children: birth cohort study. <i>European Respiratory Journal</i> , 2017, 50, 1700489.	3.1	23
79	Researchers need access to NHS data for effective redesign of clinical pathways. <i>BMJ: British Medical Journal</i> , 2017, 358, j3787.	2.4	2
80	Patients' decisions on joint replacement need data on earnings and welfare benefits. <i>Lancet, The</i> , 2017, 390, 123-124.	6.3	0
81	Utilising identifier error variation in linkage of large administrative data sources. <i>BMC Medical Research Methodology</i> , 2017, 17, 23.	1.4	16
82	Linking health and education data to plan and evaluate services for children. <i>Archives of Disease in Childhood</i> , 2017, 102, 599-602.	1.0	34
83	Trends in alcohol-related injury admissions in adolescents in Western Australia and England: population-based cohort study. <i>BMJ Open</i> , 2017, 7, e014913.	0.8	11
84	Probabilistic linkage to enhance deterministic algorithms and reduce data linkage errors in hospital administrative data. <i>Journal of Innovation in Health Informatics</i> , 2017, 24, 234.	0.9	29
85	How can we make international comparisons of infant mortality in high income countries based on aggregate data more relevant to policy?. <i>BMC Pregnancy and Childbirth</i> , 2017, 17, 430.	0.9	5
86	Using probabilistically linked data to investigate the burden of Respiratory Syncytial Virus (RSV) in children <5 years of age on secondary care in England. <i>International Journal of Population Data Science</i> , 2017, 1, .	0.1	3
87	Maternal socioeconomic status and infant mortality with low birth weight as a mediator: an inter-country comparison between Scotland and Denmark using administrative data. <i>International Journal of Population Data Science</i> , 2017, 1, .	0.1	1
88	Primary care contact before and after emergency hospitalisation in children in English NHS hospitals: a linked administrative data study. <i>International Journal of Population Data Science</i> , 2017, 1, .	0.1	0
89	Phenotyping congenital anomalies in England and Scotland: a comparison of three coding clusters using retrospective hospital data. <i>International Journal of Population Data Science</i> , 2017, 1, .	0.1	0
90	Comparison of child mortality by characteristics at birth in England and in Sweden using linked administrative data. <i>International Journal of Population Data Science</i> , 2017, 1, .	0.1	0

#	ARTICLE	IF	CITATIONS
91	Trends in admissions for acute respiratory infections in children: an inter-country comparison between Western Australia and England. <i>International Journal of Population Data Science</i> , 2017, 1, .	0.1	0
92	Linking Data for Mothers and Babies in De-Identified Electronic Health Data. <i>PLoS ONE</i> , 2016, 11, e0164667.	1.1	76
93	Out-of-home Care versus In-home Care for Children Who Have Been Maltreated: A Systematic Review of Health and Wellbeing Outcomes. <i>Child Abuse Review</i> , 2016, 25, 251-272.	0.4	39
94	Time-trends in rates of hospital admission of adolescents for violent, self-inflicted or drug/alcohol-related injury in England and Scotland, 2005-11: population-based analysis. <i>Journal of Public Health</i> , 2016, 39, fdw020.	1.0	6
95	Preventing bloodstream infection in children: What's the CATCH? - Authors' reply. <i>Lancet, The</i> , 2016, 388, 463.	6.3	1
96	Entering out-of-home care during childhood: Cumulative incidence study in Canada and Australia. <i>Child Abuse and Neglect</i> , 2016, 59, 78-87.	1.3	31
97	Data Resource Profile: Children Looked After Return (CLA). <i>International Journal of Epidemiology</i> , 2016, 45, 716-717f.	0.9	24
98	Chronic conditions in children and young people: learning from administrative data. <i>Archives of Disease in Childhood</i> , 2016, 101, 881-885.	1.0	70
99	Who comes back with what: a retrospective database study on reasons for emergency readmission to hospital in children and young people in England. <i>Archives of Disease in Childhood</i> , 2016, 101, 714-718.	1.0	28
100	Factors associated with influenza vaccine uptake during a universal vaccination programme of preschool children in England and Wales: a cohort study. <i>Journal of Epidemiology and Community Health</i> , 2016, 70, 1082-1087.	2.0	18
101	Changes in first entry to out-of-home care from 1992 to 2012 among children in England. <i>Child Abuse and Neglect</i> , 2016, 51, 163-171.	1.3	36
102	Impregnated central venous catheters for prevention of bloodstream infection in children (the Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 30)	6.3	89
103	Neonatal drug withdrawal syndrome: cross-country comparison using hospital administrative data in England, the USA, Western Australia and Ontario, Canada. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2016, 101, 26-30.	1.4	61
104	Integrating primary and secondary care for children and young people: sharing practice. <i>Archives of Disease in Childhood</i> , 2016, 101, 792-797.	1.0	15
105	Generalisability and Cost-Impact of Antibiotic-Impregnated Central Venous Catheters for Reducing Risk of Bloodstream Infection in Paediatric Intensive Care Units in England. <i>PLoS ONE</i> , 2016, 11, e0151348.	1.1	20
106	Selective Serotonin Reuptake Inhibitors and Congenital Heart Anomalies. <i>Journal of Clinical Psychiatry</i> , 2016, 77, e36-e42.	1.1	26
107	Emergency admissions across the transition from paediatric to adult care: cross-sectional analysis of English hospital data. <i>Lancet, The</i> , 2015, 386, S77.	6.3	0
108	Time trends in hospital admissions for violent, self-inflicted, and drug-related or alcohol-related injury for adolescents in England and Scotland, 2005-11: observational population-based study. <i>Lancet, The</i> , 2015, 386, S43.	6.3	0
